TERMS OF SALE

These terms of sale are designed to conform to the Amended Rules for Public Auction Sales in New York City by the Department of Consumer Affairs and the Bylaws of the Professional Numismatists Guild, Inc.

1. This public auction sale is conducted pursuant to these Terms of Sale by licensed and bonded auctioneers, Harvey G. Stack, #0522763 and Lawrence R. Stack, #0798114.
2. **Each bidder, by bidding in the sale, agrees that a 15% BUYER'S CHARGE will be added to the "hammer price" or winning bid of each lot as determined by the auctioneer.** This 15% BUYER'S FEE will be added to the invoice of each successful bidder over and above the actual sum bid or offered. The Buyer's Fee applies regardless of a bidder's affiliation with any group or organization, and is imposed on all bidders. No lots will be delivered or shown at the auction. Auction sales are strictly for cash and must be paid for promptly in U.S. funds. COIN GALLERIES reminds you that all bidders personally guarantee prompt payment in full. Checks are permitted with identification acceptable to COIN GALLERIES. On any accounts past due, COIN GALLERIES reserves the right to extend credit and impose periodic charges as stated in these Terms of Sale or on the invoice or statement. Buyer agrees to pay the reasonable attorney fees and costs required to collect on such past due accounts. All lots delivered in New York State are subject to applicable Sales Tax. Buyer agrees to pay any sales tax, use tax, and any other applicable taxes that now, or hereafter, are found to be due by virtue of the sale, and to indemnify and hold COIN GALLERIES harmless for any sales or other taxes due thereunder, including reasonable attorneys fees, costs and any interest or penalties assessed. Buyer shall also pay all shipping and handling charges where applicable.
3. Purchasers claiming exemption from such taxes must submit resale or exemption certificates or other proof of exemption. Out-of-state Purchasers taking delivery in New York must provide an OSR certificate or pay applicable taxes due. All purchasers represent that they are not seeking to acquire goods for personal, family, or household purposes, but are bidding for resale purposes; and those submitting OSR's additionally represent that they are professionals, knowledgeable and fully aware of what they are purchasing, a representation upon which COIN GALLERIES relies in agreeing to sell to Purchaser. Buyers picking up lots may be required to confirm this agreement in a separate writing.
4. COIN GALLERIES is not responsible for your errors in bidding. **PLEASE BID ON THE CORRECT LOT.**
5. All persons seeking to bid, whether in person, by an agent or employee, or by mail, must have a catalogue and register to bid. By submitting a bid, whether in person, by mail, or through an employee or agent, the bidder acknowledges receipt of the catalogue, and agrees to adhere to these terms of sale. The auctioneer may decline to recognize any bidder who does not have a catalogue and has not registered and been given a paddle number. Any prospective bidder may be required to establish credit references or submit a deposit of 25% of their bids. All new bidders should be prepared to establish credit with the auctioneer prior to registering to bid.
6. By bidding, purchasing or offering to purchase in this sale, even if as an agent, or on behalf of a corporation or for another individual, each bidder personally guarantees prompt payment and agrees to be personally liable for the consequences of bidding; all bidders also personally guarantee prompt payment in full, including without limitation, BUYER'S FEE, taxes, surcharges, postage, handling charges, storage costs and insurance charges.
7. COIN GALLERIES reserves the right to require payment in full before delivering lots to a successful bidder, and reserves the right to require the principals, and directors of any corporate bidder to execute a guarantee of payment (which, in any event they do by having an agent or employee bid in the sale) prior to allowing a bid to be placed or recognized.
8. COIN GALLERIES reserves the right to impose a late charge, based solely upon Purchaser's failure to remit full and timely payment, and which late charge is not related to any necessary storage of the material purchased. Said late charge is calculated at a rate of 1 1/2% per month (18% per annum), based on the purchase price if payment has not been made in accordance with these Terms and Conditions of Sale. Purchases not collected within thirty (30) days of the date of sale may, at the sole option of COIN GALLERIES, be resold for Purchaser's account by COIN GALLERIES, with Purchaser liable for any deficit after COIN GALLERIES receives a commission for the same in accordance with its agreement, and thereafter deducts all expenses associated with the sale, including reasonable attorneys fees.
9. Bids are NOT accepted from minors. By bidding in this sale, the bidder represents and certifies that they are of legal age, are authorized to make the bid that they make, and that the purchase is not a consumer sale or consumer credit transaction.
10. **Title remains with COIN GALLERIES until paid for in full.** Should Purchaser take any action under Title 11 of the U.S. Code, or any state insolvency law, Buyer agrees to promptly return to COIN GALLERIES, any lots not paid for. The Buyer agrees to keep the lots fully insured until paid for. Risk of loss is on the Buyer.
11. The highest bidder as determined in the sole discretion of the auctioneer shall be the Buyer. If the auctioneer determines that a dispute has arisen between two or more bidders, the lot may be immediately put up and sold again. Bidders with whom the dispute previously arose shall be without further recourse for any damages whatsoever.
12. If you bid by mail, **mail your bid sheet early.** Mail bidders agree to and are subject to these terms of sale just as if they were floor bidders.
13. The auctioneer reserves the right to refuse ridiculously low bids, which in the auctioneer's sole discretion, are felt not to have been made in good faith. The auctioneer reserves the right to open the lot at a reasonable price determined solely by the auctioneer. The auctioneer shall also have sole discretion to set initial, and subsequent bidding increments, and to accept, or to decline to accept, challenges to those bidding increments. All bids not in whole dollar amounts may be rounded downward by the auctioneer. The auctioneer may open bidding on any lot by placing a bid on behalf of the Seller, a mail bidder, COIN GALLERIES, or another participant in the sale. The auctioneer may bid further on behalf of the Seller up to the amount of the reserve by placing successive or consecutive bids for a lot, or by placing bids in response to other bidders. The auctioneer may bid for his, or its, own account at any auction and may have access to information concerning the lots, and items contained in them, that are not otherwise

available to the public. Estimates given are for the general guidance of the bidder and represent the opinion of the auctioneer as to the fair market value of the numismatic item at the time of cataloguing, based on experience and comparable sale, if applicable. The actual price realized may be higher, or lower than the estimate. If a lot is reserved, the reserve may not exceed the maximum estimated price.

14. Auction sales are not approval sales. In the event of non-payment by the Buyer, COIN GALLERIES reserves any and all rights that it would be entitled to under the Uniform Commercial Code, including Buyer's consent to file a financing statement without need of Buyer's signature, and to offset any sums due on any future consignment or purchase or monies or goods in possession of COIN GALLERIES or its assigns.
15. All bidders are encouraged to carefully examine all lots prior to the sale. No lots will be shown at the sale. COIN GALLERIES assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein. All floor buyers should acquaint themselves with the property sold since COIN GALLERIES will assume that they have done so and requires that the Purchaser represent that they have. Bidders are deemed to have satisfied themselves as to all of the matters set forth in the terms of sale.
16. COIN GALLERIES, as agent, offers a LIMITED WARRANTY that any numismatic item sold is authentic (i.e., not counterfeit, that its date or mintmark has not been altered, and that the coin has not been repaired as those terms are used in the trade). Except as set forth in this limited warranty and as may be required by the arts and cultural affairs law, and any other law or regulation, all other warranties of authenticity of authorship, whether express or implied, are hereby disclaimed.
17. Except as otherwise stated herein, all items offered in this catalogue are **GUARANTEED TO BE GENUINE** and correctly attributed as defined below.
18. (a) NO LOT may be returned for any reason whatsoever without the prior written consent by COIN GALLERIES, or, in any event, if it has been removed from its original container. **No lots purchased by those who have viewed the lots may be returned**, unless the limited warranty provided in these terms of sale permits it.
(b) Grading is a subjective description in the opinion of the cataloguer as to the state of preservation, method of strike, and overall appearance of a particular coin or lot. The term "proof" or "specimen" is used to describe a method of manufacture, and is not a grade or condition or an attribution.
(c) COIN GALLERIES does not represent that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin catalogued will meet the standards, or the grade, of any third party or third party grading service; that a numismatic item has a particular provenance or pedigree; that a numismatic item is struck or not struck, or produced or not produced in a particular manner or style.
(d) Adjectival descriptions and terminology (which can and does vary among experts and knowledgeable purchasers), when utilized in the catalogue, are strictly the opinion of the cataloguer and shall not be deemed to be part of the description; i.e. it is an opinion only and not a warranty of any kind.
(e) Grading descriptions in this catalogue are provided strictly for the convenience of those who bid by mail and who are unable to personally view the coins, and represents the cataloguer's opinion of its state of preservation. Those attending the sale, and those bidders who actually view the lots should draw their own conclusions as to the state of preservation or grade of the numismatic item.
(f) COIN GALLERIES may utilize numerical or adjectival descriptions, and may include lots that have been graded by others. Opinions offered with respect to numismatic properties offered for sale by COIN GALLERIES are made at the time that the numismatic item is catalogued, and do not refer to any prior or subsequent time.
(g) Where COIN GALLERIES sells a numismatic item graded and encapsulated by a grading service, Buyer acknowledges and agrees that other grading services, COIN GALLERIES or knowledgeable purchasers might reach a different conclusion as to the state of preservation of a particular item, and that COIN GALLERIES has presented the service's description of the encapsulated item for accommodation only. Any such information provided by COIN GALLERIES is the opinion of the third party, without recourse against COIN GALLERIES in any way whatsoever.
(h) **Except as otherwise expressly stated in the Terms of Sale, COIN GALLERIES and its agents and employees make no warranties or guaranties or representations, and expressly disclaim all warranties and guaranties and representations, including, without limitation, a warranty of merchantability, in connection with any numismatic properties sold by COIN GALLERIES.**
(i) All oral and written statements made by COIN GALLERIES, are statements of opinion only and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of COIN GALLERIES has authority to vary or alter these Terms of Sale. Any alteration shall be effective only if in writing and signed by a member of the firm.
(j) If not so stated expressly, the grade, artisanship, provenance, or attribution is the firm's opinion only on which no third party, including the bidder, is entitled to rely.
(k) COIN GALLERIES assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein.
19. Unless otherwise stated, COIN GALLERIES acts only as agent for a Consignor and makes no independent warranty of title. COIN GALLERIES offers the following LIMITED WARRANTY to Buyers with respect to all numismatic items offered for sale. COIN GALLERIES warrants to all Buyers that the Consignor or the Seller has warranted good title to property offered for sale. Any such warranty is predicated on the Owner or prior owner making the same warranty to COIN GALLERIES, upon which the firm relies. In the event that it is finally determined that the Purchaser has not acquired transferable title, COIN GALLERIES shall reimburse the Purchaser (if full payment has already been made) in accordance with these Terms of Sale, and Buyer agrees that this is full compensation for any loss whatsoever, whether actual or otherwise. Tender of the check by COIN GALLERIES to Buyer at the address specified on the bid sheet or registration form shall end the obligation of COIN GALLERIES to the Buyer, even if the check is not endorsed or cashed. COIN GALLERIES and the Consignor make no representations or warranty that the Purchaser acquires any reproduction rights or copyright in property purchased at the sale.
20. COIN GALLERIES further expressly disclaims all warranties relating to the grade, condition, identification of the periods or date of coining or manufacture or methods of manufacture of property which is inaccurate, or may be proved inaccurate, by means of scientific process or research which is not generally accepted for use until after the sale.

21. COIN GALLERIES reminds the Buyer that the grading or condition of rare coins may have a material effect on the value of the items purchased; that others may differ with the grading opinions or interpretations of COIN GALLERIES; that such difference of opinion (including whether the coin has been cleaned, or is or is not of a particular grade or quality) is not grounds to return an item purchased; and that all sales of items viewed by a Purchaser in advance of a sale, even if the sale is by mail, are final.
22. By purchasing in this sale, Buyer agrees that they shall have no recourse against the Consignor for any reason whatsoever. In the event that a warranty is offered with respect to grade or state of preservation or condition, it shall be a specific warranty, in writing, signed by a member of COIN GALLERIES, and shall specify its terms and conditions and duration. If any numismatic item is damaged in its removal from encapsulation, or during its encapsulation, it is at the sole risk of the Purchaser. Because of the fungibility of numismatic items, any item removed from its holder may not be returned for any reason whatsoever.
23. (a) On any claim made by a bidder, COIN GALLERIES must be advised in writing sent within seven days after receipt of the material, or the date of the sale, whichever is the later; these dates apply whether or not the Buyer has received the material. The disputed property must be returned to COIN GALLERIES in the same condition as sold by COIN GALLERIES, in the same holder.
(b) These conditions are binding and absolute unless varied in writing by a principal of COIN GALLERIES or if the bylaws, rules or regulations of the Professional Numismatists Guild, Inc., provide for a longer period, or give the Buyer a greater right, in which case such bylaws, rules or regulations shall prevail. Any and all claims of the Buyer made in violation of the Terms of Sale shall be deemed waived, and the Buyer shall be without further recourse.
24. If COIN GALLERIES, in its sole discretion, determines that any numismatic property is substantially and materially different from that represented in the catalogue of sale, or in any written advertisement or material, the sale shall be cancelled and COIN GALLERIES shall refund the purchase price to the Buyer. Unless provided otherwise in these terms or the PNG bylaws, that shall be COIN GALLERIES sole obligation to Buyer.
25. The auctioneer and cataloguer, COIN GALLERIES, reserves the right to include its own material in any auction sale. The auctioneer may have direct or indirect interests in these, and other items (other than its commission), and may collect a minimum price in addition to the selling commission. This paragraph shall be deemed a part of the description of all lots contained in the catalogue. The catalogue shall also be deemed a part of any invoice issued by the auctioneer. The auctioneer may make loans or advances to consignors and/or prospective purchasers. The Consignor may be permitted to bid on his, her or their own articles and to buy them back at the sale. Any Buyer who bids on or purchases their own goods is required to pay for them, in full, as the terms of sale provide for together with the full buyer's commission, and any other applicable surcharges, postage, handling, insurance fees and taxes, without rebate of any kind whatsoever, unless provided for otherwise by contract with the auctioneer. The auctioneer reserves the right to make accounting adjustments in lieu of payment. Settlement will follow the auction. The prices realized reflect the final price called by the auctioneer and may include a bid of a consignor reacquiring their lot.
26. COIN GALLERIES, the auctioneer, and employees are "insiders" and may have access to confidential information not otherwise available to the public with respect to value, provenance, availability, and other factors. Purchasers should make themselves acquainted with the numismatic items that they are purchasing and avail themselves of the services of outside consultants prior to engaging in any purchase. Bids are so much per LOT. No lots will be broken up unless otherwise stated.
27. No bidder shall have any claim against the auctioneer, or COIN GALLERIES, for improper sequence of offering a lot.
28. On bullion items, bullion-like items, and encapsulated items graded by a grading service, Buyer agrees that there shall be no right of return for any reason whatsoever. Buyer further agrees that due to market volatility, in event of non-payment, COIN GALLERIES shall be entitled to damages that are the greater of selling price or market, together with any supplementary or additional costs.
29. COIN GALLERIES at any time may rescind the sale in the event of non-payment or breach of the warranty of title.
30. The sole remedy that any participant in the auction shall have, whether bidding in person, by mail, or through an employee or agent, for any claim or controversy arising out of the auction shall be a refund of the original purchase price and premium paid, if any. Interest shall be paid by COIN GALLERIES at a rate of no greater than nine per cent (9%) per annum, up to a maximum of six (6) years, unless the rules of the Professional Numismatists Guild, Inc. provide for a higher rate of interest or a longer period of time, in which case such rules shall prevail. A lower rate, or shorter period, may be decided by the arbitrators. Upon payment as determined by the arbitrators, or in full at the maximum rates set forth above, or at an agreed rate, COIN GALLERIES shall be deemed released from any and all claims of the bidder arising out of or in connection with the sale of such property. Purchaser agrees to execute prior to delivery of any refund any documents reasonably requested to effect the intent of this paragraph. By bidding in this sale, all bidders consent to these terms and all other terms of these conditions of sale.
31. **COIN GALLERIES hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of or in connection with the sale of any property by COIN GALLERIES to Purchaser.** All bidders, even if unsuccessful purchasers, agree to abide by this condition, and all other conditions of sale.
32. All rights granted to the Purchaser under the within terms of sale are personal to the Purchaser. Purchaser may not assign or transfer any of these rights to any other person or entity, whether by operation of law or otherwise. Any attempt so to assign or transfer any such rights shall be absolutely VOID and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Sale and terms of warranty on any bidder or Purchaser.
33. "Purchaser" shall mean the original purchaser of the property from COIN GALLERIES and not any subsequent owner or other person who may have or acquire an interest therein. If Purchaser is an agent, the agency must be disclosed at the time of sale, otherwise the benefits of the warranty shall be limited to the agent and not transferable to the undisclosed principal.

34. Should any third party attempt to utilize any warranties contained herein, they shall first give COIN GALLERIES thirty (30) days written notice by Registered Mail or Certified Mail Return Receipt Requested during which time COIN GALLERIES may, should it choose to contest the third party's claim, ask the Professional Numismatists Guild, Inc., or the American Arbitration Association to appoint a panel of three arbitrators skilled in the field to make such a determination at New York, N.Y. By seeking to use such remedy, the third party unequivocally and without reservation consents to binding arbitration, and its conclusive and binding determination of any alleged damages as a sole remedy. With respect to any other pertinent notice requirements, venue and personal and subject matter jurisdiction, said third party is bound to the provisions pertaining to bidders, buyers and purchasers, as otherwise provided for in these Terms of Sale.
35. In the event COIN GALLERIES shall, for any reason, be unable to deliver the property sought to be purchased, its liability therefore shall be limited to the rescission of the sale and refund of the purchase price and buyer's premium. **COIN GALLERIES hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of its failure to deliver any property purchased, and all bidders agree to this disclaimer.**
36. If it is determined that a bailment relationship exists while the material purchased is being held by COIN GALLERIES, for Purchaser, said relationship constitutes a gratuitous bailment only, solely for the benefit of the purchaser/bailor, as defined by the laws of the State of New York.
37. As a condition of bidding, bidder acknowledges that numismatic auction sales are unique in terms of their tradition and industry practices. Each bidder agrees that **any claim or controversy whatsoever arising out of this sale shall be settled as follows:** if demanded by either buyer, or COIN GALLERIES by binding arbitration at New York, New York, under the rules then obtaining of the Professional Numismatists Guild, Inc., or as PNG rules may provide, the American Arbitration Association. In the event that a dispute arises between COIN GALLERIES and a non-member of the PNG, this means that the American Arbitration Association, at New York, N.Y., shall have exclusive jurisdiction over the controversy. In any controversy concerning non-payment, COIN GALLERIES shall have the right to proceed by arbitration or by a proceeding in any court of competent jurisdiction in the City, County, and State of New York, whichever is first commenced by COIN GALLERIES. The arbitrator shall not have the power to alter the terms of condition of sale. Judgment on any award may be entered in any court of competent jurisdiction. The arbitrators, and any court, shall award the prevailing party costs and reasonable attorney fees. By bidding in this sale you agree to be bound by the arbitration provisions of the PNG as described above. Commencement of an arbitral proceeding, or confirmation of an award, as well as any notice requirements connected with such proceeding, and any other required service of process, may be made by COIN GALLERIES upon all bidders by registered or certified mail directed to the address of the bidder or purchaser as listed on the bid sheet or application or form required at the time that a bidder number is issued, or by facsimile transmission with proof of receipt. Bidder agrees that such service shall constitute full in personam jurisdiction. The venue for such proceedings shall be the City of New York, State of New York and each bidder agrees to in personam (personal) jurisdiction of the City of New York, State of New York. In all cases, the maximum liability of COIN GALLERIES for any item sold shall be limited to the official price of record of the item at this sale, without provision for consequential damages, or any other damages of any kind whatsoever, unless the PNG rules provide otherwise.
38. If the Purchaser fails to comply with one or more of these Terms and Conditions of Sale then, in addition to all other remedies which it may have at law or in equity, COIN GALLERIES may, at its sole option, either (a) cancel the sale, retaining as liquidated damages all payments made by the Purchaser, it being recognized that actual damages may be speculative or difficult to compute, or (b) sell some or all of the numismatic property and some or all other property of the Purchaser held by COIN GALLERIES, in a quantity sufficient in the opinion of COIN GALLERIES to satisfy the indebtedness, plus all accrued charges. More than one such sale may take place at the option of COIN GALLERIES. Such sale may take place without notice to Purchaser; if COIN GALLERIES gives notice, it shall be by regular mail to the address utilized on the bid sheet, consignment agreement or other address known to the firm. Such sale will be at COIN GALLERIES standard commission rates at public or private sale, within or without the City of New York, at which time (if the sale be at auction) the defaulting party shall not bid. The proceeds shall be applied first to the satisfaction of any damages occasioned by Purchaser's breach, and then to the payment of any other indebtedness owing to COIN GALLERIES, including without limitation, commissions, handling charges, the expenses of both sales, reasonable legal fees and collection agency fees and any other costs or expenses incurred hereunder. If a lot or numismatic item is not paid for, and is sold by COIN GALLERIES for Purchaser's account, in accordance with the Uniform Commercial Code, COIN GALLERIES shall not be required to account to the Purchaser for any excess proceeds. Purchaser is also liable to COIN GALLERIES if the proceeds of such sale or sales is insufficient in the opinion of COIN GALLERIES to cover the indebtedness. If other property of Purchaser is also sold, any excess of proceeds will be remitted to the Purchaser after first deducting the expenses set forth above. If Purchaser fails to remit sums due to COIN GALLERIES, Purchaser grants to COIN GALLERIES a lien with respect to such sum, with interest to accrue thereon at the judgment rate, until actually paid, which lien shall apply against any property of Purchaser, including any future goods of Purchaser coming into possession of COIN GALLERIES. **Purchaser hereby waives all the requirements of notice, advertisement and disposition of proceeds required by law, including those set forth in New York lien law, article 9, sections 200-204 inclusive, or any successor statute, with respect to any sale.** Purchaser waives a right to redeem.
39. The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No bidder or prospective bidder or purchaser or prospective purchaser shall have recourse as a result of any postponement. In any event, no person may bid without registering, and ALL REGISTERED BIDDERS including mail bidders and agents by registering or bidding **agree to all of the above Terms and Conditions of Sale.**
40. By bidding or offering to bid, bidders acknowledge that they have read all of the Terms and Conditions of Sale and warranty contained herein and that they accept these terms and conditions without reservation. COIN GALLERIES reserves the right to vary the Terms and Conditions of Sale by rider or other means communicated to bidders. By purchasing from COIN GALLERIES, whether present in person, or by agent, by written bid, telephone or any other means, the bidder agrees to be bound by these Terms and Conditions of Sale.

In late spring, early summer of 323 B.C., Alexander laid plans for the construction of a military road to the Pillars of Herakles. After his desired conquest of Arabia, the would-be world conqueror had targeted Carthage, Sicily and Italy to add to his empire. This would not be. There had been unfavorable auguries and fretful divinations, evil omens had been seen by the priests of the Temple of Esagila, prior to Alexander's entrance into his Eastern capital of Babylon. After a drinking bout with his friend Medius of Lydia and others, Alexander fell ill—malaria or another virus in his system possibly activated. On the last day of the month of Attiaru, in the 14th year of his reign (June 11, 323 B.C.), Alexander the Great was dead.

This piece offered here represents the last issue of Alexander's lifetime coinage struck in the mint city where he died.

Rare New Jersey 1786 Act Three Shillings

- 1039 New Jersey. 1786 Act. Three Shillings. Fine, stain.** No.1426[?]. Plate B. The New Jersey Arms in red at the lower left. All notes from this Act are tough and only the Ford-Boyd holding yielded an awaited supply. Now exhausted, these will only come around from time to time. This might be a Boyd duplicate from the 1975 New Netherlands Sale. There were two choice Three Shillings notes in Ford XV. This note is more than a filler and perhaps one of only a dozen known in private hands. Clearly a significant opportunity for the budget minded New Jersey collector.

From New Netherlands' Affleck-Ball Sale, December 3-4, 1975, lot 404; later R.M. Smythe's June 18-19, 1993 Memphis Sale #118, lot 2134.

- 1046 Pennsylvania. August 10, 1739. Ten Shillings. Counterfeit. Fair to Good, back peeled away.** No.[faded]. The first Benjamin Franklin printed series with only sole imprint used. This is a Newman listed counterfeit type. The face only of the note as the back has peeled away from the note and is lost to posterity. Penned "Counterfeit" at the top and pen cross "X" canceled. This is a rare series for any note and this piece, though not complete, is quite interesting for the specialist in Franklin notes and Colonial Currency in general. This counterfeit type was not in Ford with Pennsylvania counterfeit notes as a whole being rather rare animals. The face half has some voids, split in half and rejoined, with edge fraying. However, it still presents well from the face.

- 1047 Pennsylvania. October 1, 1755. Ten Shillings. Fine, split and rejoined.** No.3227. A. Printed by Benjamin Franklin and D. Hall. Well printed with the back especially bold and with an outstanding imprint. Face appearance of better than Fine, but scrutiny detects the rejoined nature of this note. Central pinholes and corner rounding. Very attractive and quite collectible. Completely intact Franklin imprinted notes with this eye appeal are virtually \$2,000 items. This represents an excellent value.

Clear imprint at the verso base ☆ May 20, 1758. Twenty Shillings. No.418[?]. B. Good. Sealed crease split, but the face is bright. The imprint is average. (Total: 2 pieces)

- 1049 Pennsylvania. Format Pairing of Franklin and Hall Imprinted Notes:** ☆ March 10, 1757. Fifteen Shillings. No.3252. B. Vertical Format. Good to Very Good. Only partial splits, but aged and stained. The back has mounting traces and heavier foxing especially on the imprint ☆ May 1, 1760. Five Shillings. No.[faded]. Horizontal Format. Good. Split in half and crudely rejoined. Heavy bottom back edge stain. (Total: 2 pieces)

Handsome July 1, 1757 Franklin Note

- 1050 Pennsylvania. July 1, 1757. Twenty Shillings. About Fine.** No.[faded]. A. Printed by Benjamin Franklin and D. Hall. A mostly solid example that is quarter folded with only minor splitting. A small face corner stain, but overall rather bright. The imprint is quite clear on this issue that uses a coin turn back orientation. Above average and an excellent Franklin note devoid of serious issues.

- 1051 Pennsylvania. July 1, 1757. Twenty Shillings. Very Good to Fine.** No.4379. A. Printed by Benjamin Franklin and D. Hall. Creased, with only partial sides splits. Fairly bright with a clear imprint at the inverted top (orientation of this issue). Two minor back spots. An attractive note devoid of unsightly workmanship to correct flaws.

- 1052 Pennsylvania. June 18, 1764. Five Shilling or Crown. Very Good, splitting.** No.[faded]. A. Printed by Benjamin Franklin and D. Hall. The lower denomination on this Act are hoard notes in high grade. The larger bills are tough in high grade. Only a small piece holds this together at center, but there are no repairs. Soiling is modest for the grade and the back right rend imprint is clear. There is a minor back spot. Another useful Franklin bought decades ago.

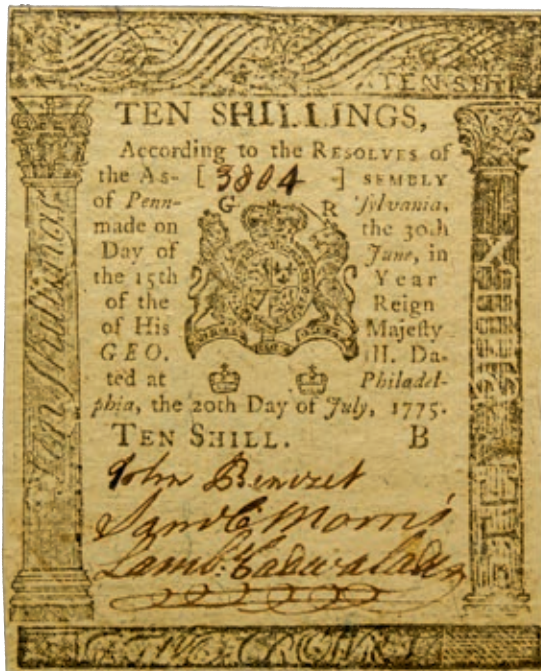

- 1053 Pennsylvania. Pair of Color Tinted Type Notes:** ☆ March 20, 1771. Ten Shillings. No.2059. A. Red arms and top border. Fine. Some partial splitting, but excellent color. These were undervalued until recently and are very handsome ☆ April 10, 1775 Workhouse Issue. Fifty Shillings. No.2230. Very Fine. Moderate quarter folds, but still rather crisp. Some very minor foxing. Gem notes are flirting with or crossing a grand. (Total: 2 pieces)

- 1054 Pennsylvania. Quartet of Vertical Format Type Notes:** ☆ April 3, 1772. No.5278. B. One Shilling. Very Fine. Petty back corner glue ☆ Same Issue. 18 Pence No.1116. B. About Extremely Fine. Bright and clean ☆ July 20, 1775. 10 Shillings. No.3257. A. Very Fine ☆ December 8, 1775. 30 Shillings. No.6075. A. Fine to Very Fine. Bright, but a bit soft. An excellent group. (Total: 4 pieces)

1055 Pennsylvania. Trio of March 14, 1773 Cape Henlopen Lighthouse Notes: ☆ 6 Shillings. No.366. B. About Very Fine. Moderate back soiling ☆ 14 Shillings. No.2378. B. Fine. Plenty of visible mica and bright ☆ 10 Shillings. No. 9361. Very Fine. Hard crease and right at the left. All are well matched with each other. (Total: 3 pieces)

1058 Pennsylvania. July 20, 1775. Ten Shillings. Uncirculated, corner mounting remnants. No.3804. B. Certainly an old Boyd-Haseltine duplicate that last appeared in the unnamed DuPont sale in 1993. Glue corner similar to many of the recently sold Ford Sale notes. The margins are a trifle tight, but more than acceptable. A boldly printed and fresh note.
From R.M. Smythe's April 8, 1993 Sale #116, lot 5188.

1059 Rhode Island. Pair of Rare Colonial Note Issues: ☆ May 3, 1775. One Shilling. No.[faded]. Fair or perhaps less. Split in half with back scotch tape that does not stain the face. Fillers for tougher notes. (Total: 2 pieces)

1061 South Carolina. Pair of Large Format June 1, 1775 Charlestown Notes: ☆ Five Pounds. *Auspecium Salutis*. No.8522. Good to Very Good. Typical fraying on the thin paper and some crease voids. However, slightly above average for the note and superior for the technical grade ☆ Twenty Pounds. *Fides Publica*. No.7671. Good, but split and rejoined with hinges. Right edge with hinge patches. Might be an ex Boys Town Collection note. (Total: 2 pieces)

1062 South Carolina. June 1, 1775 Charlestown issue. Fifty Pounds. About Fine. *Post Tenebras Lux*. No.3791. Thin paper with visible watermark. Five signatures. Well printed with only minor flaws relative to the note issue. High on the census might be strict Very Fine on this thin paper and large format type. Chipped bottom left corner. Well printed on both sides and only one small hinge remnant on the back. Very minor show through of the signatures to the back. There are no other repairs.

1063 South Carolina. March 6, 1776. Twenty Five Pounds. Fine, split and backed. *Tree Seal*. No.2541. Backed on a thin sheet of paper. Severed vertically, but from the face quite bright and well printed.

Choice Thin Paper Virginia Note

1068 Virginia. March 1, 1781. Five Hundred Dollars. Choice Very Fine. Thin Paper. No.2530. A well margined, bright and clean example. This is well above the norm. There is miscue in the signature ink at the left leaving a large spot. However, experts know that in this grade, notes on this paper are rarely to be had.

UNITED STATES COINS

COLONIAL AND EARLY AMERICAN COINS

Charming 1652 Pine Tree Sixpence

- 1080 1652 Massachusetts Pine Tree sixpence. Noe 33. Rarity-3. Poor-1/About Good-3.** 25.6 gns. Here is a perfectly smooth coin with a rather sizable hole through the top of the 6 of the date. Rich gray surfaces define this slightly convex specimen, whose slightly wave has focused wear to the obverse, leaving only the N of IN and the following period; the reverse is slick at 12:00 and 6:00, while the date, denomination, and the legends at right and left remain. A very affordable piece that fortunately lacks the unsightly problems often seen on well circulated Massachusetts silver coins.

- 1081 1722 Rosa Americana penny. UTILE DULCI. About Good-3.** A dark example with surface porosity. Important elements are worn but visible.

- 1082 1723 Rosa Americana twopence. Breen 96. Fine-12.** 217.8 gns. Dark brown and uniform in color, with only subtle hints of brassier tone evident in the protected areas and at the rims. Surfaces are microscopically granular, as is par for the course, while the overall look and feel in the hand is quite nice. Legends are a bit weak at their tops in areas, due to a beveling of the edge. A fine specimen for type.

- 1083 1722 Wood's Hibernia twopence. Breen 144. Harp left. Fine-12.** 109.6 gns. A choice and smooth, chocolate brown specimen free of any distracting marks. The obverse die is crumbling, chiefly at the denticles and lettering at the upper left.

- 1084 1724 Wood's Hibernia halfpenny. Breen 166. Double Struck. Fine-12.** 121.7 gns. Mostly smooth, chestnut brown surfaces exhibit light deposits in the legends and at the edges of the devices, chiefly on the obverse, while a hint of roughness is noted at lower reverse. Obviously yet closely double struck with a separation of about half of a letter width between blows of the dies, lending King George a strongly doubled profile. Scarce as a date, and scarcer yet as a double strike.

- 1085 1773 Virginia halfpenny. No Period, 8 Harp Strings. Very Fine-20.** 115.7 gns. Dark brown surfaces are uniformly and microscopically granular, with a few minor larger pits noted chiefly at right and left obverse. Reverse die failing around GI of VIRGINIA. A pleasing coin, great for mid-grade type set.

1783 Chalmers Long Worm Shilling

- 1086 1783 Chalmers shilling. Long Worm. Breen 1012. Fine-12** in terms of wear. 49.9 gns. Surfaces exhibit advanced porosity on both sides, significantly weakening some of the lettering and designs on the reverse, while the obverse shows the vestiges of solder or previous mounting in the center, which has left only traces of the clasped hands motif. Toned in graphite-silver with splashes of iridescence (the effects of a heated mount removal?), this coin would serve as a very suitable filler for the type, one of the very few domestically produced silver coins of the Colonial and Confederation eras.

Although Chalmers shillings are available with some hunting, the Long Worm type of the shilling is decidedly scarcer than the more oft-seen Short Worm.

- 1087 1783 Nova Constellatio copper. Crosby.1-A. Large US, Pointed Rays, CONSTELLATIO. Very Good-8.** 104.7 gns. A rather unevenly worn specimen whose obverse center and right periphery are very weak but whose reverse is considerably sharper. Medium brown and appealing, this specimen exhibits an ancient X scratch at reverse center.

- 1088 1783 Nova Constellatio copper. Crosby 2-B. Small US, Pointed Rays, CONSTELLATIO. Very Fine-30.** Sharp and well struck, this specimen has seen even wear that has lent a golden brown hue to both obverse and reverse surfaces. Fields are uniformly granular, lending a pleasing, slightly textured effect to this Confederation era copper. Struck on a chunky, small flan, this coin is absent any signs of denticulation and some of the lettering even touches the edge of the planchet. A coin with good visual appeal and a fine feel in the hand.

- 1089 1783 Nova Constellatio copper. C.2-B. Small US, Pointed Rays, CONSTELLATIO. Very Fine-20.** 92.9 gns. Pale olive brown commingles with ruddy tones on both sides. US is weak to absent, while a small dig or planchet flaw is noted at left corner of the All Seeing Eye.

- 1090 1785 Vermont copper. Ryder-2. Rarity-4-. Landscape, VERMONTS. Very Good-8.** 110.0 grains. Easily sharper in certain areas than the given grade, other areas are totally devoid of detail from poor strike or surface porosity. Green Mountains landscape, plow and date are all complete and quite bold, dark brown surfaces are uniformly porous with a few scattered areas of greater pitting. A lovely specimen for the budget-minded collector.

From the Walter Childs Collection Sale, Bowers & Merena, August 1999, lot 2.

- 1091 Red Book type 1787 Connecticut coppers: ☆ 1787 Miller 1.1-A. Rarity-3. Mailed Bust Right, Small Head. ETLIB INDE. Fine-12.** 136.1 grains. Struck a touch off-center on a chunky flan, revealing the 1.1-A's distinct triangular shaped denticles. Dark brown surfaces are corroded and a touch scaly ☆ **1787 Miller 4-L. Rarity-1. Mailed Bust Left, Horned Bust. Very Good-8.** 122.5 grains. Fields are dark brown and exhibit light porosity, devices and lettering are worn to a ruddy tan hue. Struck a trifle off-center to the left, with a resultant loss of detail in those areas. (Total: 2 pieces)

- 1092 Sextet of 1787 Connecticut coppers: ☆ 1787 Miller 9-D. Rarity-5+. Mailed Bust Left. Fine-12.** 135.6 grains. Probably finer in terms of detail, this coin's red-brown surfaces are roughened by porosity and spots of verdigris. Obverse decidedly off-center towards bottom, reverse well-centered but date is weak ☆ **1787 Miller 15-F. Rarity-3. CONNECT. Mailed Bust Left Very Good-10.** 117.8 grains. Light chestnut brown and mostly smooth, with some inherent planchet roughness at upper obverse and lower reverse ☆ **1787 Miller 32.2-X.1. Rarity-3. Draped Bust Left. Smooth, rust-brown surfaces show minor obverse planchet lamination and a series of tiny digs between 3rd and 4th cinquefoil on the reverse. Attractive ☆ 1787 Miller 32.3-X.4. Rarity-2. Draped Bust Left. Fine-12.** Green-brown and rough, this coin still sports

decent detail on both sides ☆ **1787 Miller 33.2-Z.12. Rarity-1. Draped Bust Left. Fine-12.** Even blue-brown surfaces exhibit evenly distributed granularity ☆ **1787 Miller 33.12-Z.16. Rarity-5. Draped Bust Left. Fine-15.** 135.2 grains. Obverse effigy relatively sharp, reverse is a bit weakened by even porosity. Date is weak, areas of verdigris on both sides. (Total: 6 pieces)

First is from EAHA Sale of October 1998, lot 611; second is from Bowers & Merena's Burke & Clemente Sale, May 1994, lot 618; third is from Bowers & Merena's Rare Coin Review #97, February 1994; fifth is from EAHA's Sale of June 1999, lot 634; sixth is from our Sale of March 1994, lot 493.

- 1093 1787 New Jersey copper. Maris 43-d. Rarity-1. Very Fine-30.** 153.9 gns. Sharply struck and well-detailed, this coin exhibits uniform granularity on both sides. Dark brown dominates, while the highest points of the legends, devices and rims are worn to a brighter hue on both sides.

Very Attractive 1787 Large Planchet New Jersey Copper

- 1094 1787 New Jersey copper. Maris 63-q. Large Planchet. Very Fine-20.** 141.5 gns. Dark brown and glossy, with subtle lavender overtones, this Morristown Mint product displays the usual softness of strike at the obverse and reverse center. Strike is well-centered on a planchet with a tiny curved clip best visible adjacent to the P of PLURIBUS. Close examination reveals a few minor areas of verdigris on both sides, but these do not detract from the presence of this majestic, Large Planchet type.

- 1095 1787 New Jersey copper. Maris 63-s. Large Planchet. Very Fine-20.** 143.5 gns. Dark olive-black patina is reminiscent of a patinated Roman bronze, with surfaces that are hard and glossy on the overall. Centers are weakly defined as usual for this shallowly struck, thin-plancheted variety. A glass reveals an old scuff across reverse as well as very fine scratches around the devices and legends, probably from an old attempt to remove surface deposits.

- 1096 1787 New Jersey copper. Maris 64-t. Rarity-1. Large Planchet. Very Fine-20.** 125.3 gns. An extra-broad planchet frames the denticles quite nicely, with even the die edge visible beyond the denticles below the date. Dark brown, porous surfaces exhibit the acute roughness noted at the center of most all Large Planchet versions of the 64-t, the result of a poor strike in that area. Usual die state featuring the crack from shield to rim at 5:00 on the reverse.

- 1097 Pair of well-loved 1787 Massachusetts half cents:** ☆ **1787 Ryder 1-D. Rarity-4.** 71.6 grains. Very Good-8 or better in terms of wear, planchet slightly bent. Surfaces are dark brown with blue overtones, porosity and hairlines in areas weaken peripheral legends ☆ **1787 Ryder 4-C. Rarity-2.** Very Good-8. 73.3 grains. Surfaces are smooth and hard in areas, but the fields display ruddy corrosion areas as well. (Total: 2 pieces)

First is from EAHA's Auction of June 1999, lot 634; second is from EAHA's Auction of April 2002, lot 943.

- 1098 Date set of Massachusetts half cents:** ☆ **1787 Ryder 2-A. Rarity-4.** Very Good-10. 71.1 grains. Glossy, medium brown surfaces show many soft circulation marks and a slight wave to the planchet ☆ **1788 Ryder 1-B. Rarity-2.** Very Good-8. 79.9 grains. Glossy dark chestnut surfaces are rather attractive if a bit microscopically porous. Rims are decidedly beveled, making the tops of the lettering a trifle weak. Rim clip by TS of MASSACHUSETTS. (Total: 2 pieces)

First is from Bowers & Merena's Voigt & Lee Sale, March 1998, part of lot 1028; second is lot 260 from one of the C4 Auctions.

- 1099 1787 Massachusetts half cent. Ryder 5-A. Very Fine-20.** 72.0 grains. Glossy and reflective fields lend the look of a higher grade on this golden and emerald toned, medium brown specimen. Well centered and sharp, but for the usual, weakly-defined centers. A planchet cutter lip is noted from 3:00 to 9:00 on the obverse, while the reverse center shows some old, fine scratches under magnification. Here is a rather eye-appealing survivor that will find a welcome home in a Colonial type set or even among a collection of the later, Federal half cent issues.

From our auction of September 1998, lot 18; previously ex Dana Linett's September 1987 auction, lot 2084.

- 1100 1787 Massachusetts cent. Ryder 2b-A. Rarity-3-. Horned Eagle. Fine-12.** 150.3 grains. Blue and rose color dark brown surfaces that were perhaps lightly cleaned in the distant past. Indian is sharp, his head especially so, as is the eagle's feathers. Eagle's breast, however, is worn nearly flat, with CENT barely visible. Fields exhibit many fine old ticks, none particular notable, and the "horn" die break on the eagle is readily apparent.

- 1101 1787 obverse 2b Massachusetts cent study pair:** ☆ **1787 Ryder 2b-A. Rarity-3-. Horned Eagle.** Very Good-8. 144.4 grains. Olive-brown obverse, cleaned reverse ☆ **1787 Ryder 2b-E. Rarity-5.** Very Good-8. 135.6 grains. Even dark brown surfaces are glossy and exhibit a dense peppering of grain on both sides. Planchet is slightly cupped, focusing wear to the central reverse. (Total: 2 pieces)

First is from our Auction of March 2000, lot 1042; second is from M&G's 5th C4 Sale, November 1999, lot 211.

- 1102 Date set of Massachusetts cents:** ☆ **1787 Ryder 2b-A. Horned Eagle. Rarity-3-. Fine-15.** 147.7 grains. Attractive, dark chocolate brown surfaces are a trifle ruddier on the obverse than the reverse. Fields are microscopically porous, as usual for the type, while the obverse exhibits two ancient scratches that have softened with time and circulation. A remarkably appealing survivor of the distinct "Horned Eagle" variety ☆ **1788 Ryder 10-L. Rarity-2.** 145.0 grains. Very Good-10 in general outlines of wear, this coin's olive-brown surfaces exhibit fine, mint-made planchet granularity. Angular, graffiti "B" etched into lower right obverse field. (Total: 2 pieces)

First is from Bowers & Merena's Massachusetts Historical Society Sale, November 1994, lot 3117 and previously from the same firm's Spring Quartette Sale, March 1992, lot 1548; second is from our June 2003 Auction, lot 3.

- 1103 Pair of VG Massachusetts cents:** ☆ **1787 Ryder 2b-C. Rarity-5.** Very Good-8. 142.4 grains. An appealing, light brown specimen that exhibits smooth, mostly even wear. Lower shield exhibits more advanced wear than rest of coin ☆ **1788 Ryder 12-M. Rarity-4-. Very Good-8.** 144.4 grains. Ruddy brown fields, darker brown devices, tops of lettering weak on reverse. Both obverse and reverse show planchet laminations and old pin scratches. An attractive coin nonetheless. (Total: 2 pieces)

First is from our September 1995 Sale, lot 25; second is from EAHA's Auction of May 1998, lot 626.

- 1104 1787 G reverse Massachusetts cent study pairing:** ☆ **1787 Ryder 3-G. Rarity-3-. Fine-12.** 150.1 grains. Light brown design motifs stand out against glossy chestnut fields. A series of old nicks is concentrated around eagle's shield, and some pitting is noted around Indian's torso and head ☆ **1788 Ryder 4-G. Rarity-4+. Fine-12.** 151.0 grains. Light olive-brown to deeper chestnut in tone, this specimen hosts some green deposits around the edges of the devices. (Total: 2 pieces)

First is from EAHA's Auction of January 1998, lot 40; second is from M&G's C4 Convention Sale of November 1998, lot 281.

- 1105 Pair of Massachusetts cent varieties:** ☆ **1787 Ryder 3-G. Rarity-3-.** Fine-12. 146.5 grains. Black-olive hued fields are uniformly grainy, devices and legends are worn to a lovely tan hue. Old hits at lower right reverse have bent the planchet in that area ☆ **1788 Ryder 7-M. Rarity-4+.** Good-4. 147.8 grains. Medium brown, details have been softened by a multitude of tiny old marks on both sides. (Total: 2 pieces)

First is from Rosa Americana's FPL#10, lot 310, second is lot 313 from the same FPL.

- 1106 1787 Massachusetts cent. Ryder 4-D. Rarity-3. Fine-12.** 162.1 grains. Fields are an even, attractive dark brown hue, while the design motifs and legends are worn to a lighter olive-tan hue. - 1107 Circulated date set of Massachusetts cents:** ☆ **1787 Ryder 6-G. Rarity-4-.** Very Good-10. 152.3 grains. Glossy and hard, ruddy brown surfaces exhibit fine grain in the fields in addition to some mintmade laminations on the reverse ☆ **1788 Ryder 10-L. Rarity-2.** About Good-3. 141.8 grains. Obverse worn smooth, reverse exhibits more detail in addition to some pitting concentrated in upper left quadrant. (Total: 2 pieces)

First is from M&G's 5th C4 Sale, November 1999, lot 215.

- 1108 Well worn Massachusetts cent pairing:** ☆ **1787 Ryder 6-G. Rarity-4-.** Good-4. 146.6 grains. Fine-12. Rarity-4-.** Legends and devices generally smooth, fields are a trifle roughened by corrosion deposits and granularity. Planchet slightly cup-shaped. (Total: 2 pieces)

First is from EAHA's Auction of November 1996, lot 55; second is from Rosa Americana's FPL #11½, lot 325.

- 1111 Attractive 1788 Massachusetts cent pairing:** ☆ **1788 Ryder 2-B. Rarity-4.** Fine-12 or so. 158.0 grains. Light brown surfaces exhibit some intermittent grain. Sharp 1788 Massachusetts Cent

- 1112 1788 Massachusetts cent. Ryder 3-A. Rarity-4. Very Fine-35.** 152.7 grains. Although nearly EF in terms of sharpness, this coin exhibits porosity on surfaces that range from golden brown to dark black and exhibit a metallic sheen. Here is a coin for the collector who prefers detail to surface quality.

From EAHA's Auction of July 1997, lot 367.

- 1113 1788 Massachusetts cent. Ryder 3-E. Rarity-4. Fine-15.** 152.9 gns. Hard and glossy surfaces are medium brown on the design motifs, lighter brown in the fields, with a tiny spot noted to left of olive branch. Planchet displays inherent striations, which obliterates the 7 of the date and which is best visible at central reverse, culminating in a nubby extension to the planchet at 12:00. Here is an appealing specimen for a mid-grade type or variety set.

- 1114 1788 Massachusetts cent. Ryder 3-E. Rarity-4. Fine-12.** 152.8 grains. Chiefly dark brown, a ruddier hue of brown hugs the devices on both sides. Here is a coin that is a little rough at the peripheries but generally acceptable for a Massachusetts cent.

From EAHA's Auction of August 2001, lot 1400.

- 1115 Well-used 1788 Massachusetts cent pairing: ☆ 1788 Ryder 3-E. Rarity-4.** 142.7 grains. Rims upturned from "spooning" ☆ **1788 Ryder 11-F. Rarity-5-** Fine-15. 148.9 grains. Rich chestnut brown with olive overtones, this mostly smooth specimen exhibits an unusual planchet crack at lower obverse, an old scratch through Indian's bent arm, and some edge bruising. A decent survivor of this scarcer variety. (Total: 2 pieces)

Heavy 1788 Massachusetts Cent

- 1117 1788 Massachusetts cent. Ryder 10-L. Rarity-2. Very Fine-25.** 178.5 grains. After noticing this coin's wonderful chestnut brown hue, the next thing to catch the viewer's senses is its hefty 178.5 grain weight, which lends a "chunky" feel in the hand. Generally well struck and glossy, this evenly worn specimen exhibits some green deposits and roughness on both sides, but chiefly on the obverse. Trio of small rim bruises noted on reverse. Here is a great coin destined for a mid-grade type or variety collection of U.S. Colonials.

- 1118 1788 Massachusetts cent. Ryder 11-C. Rarity-5. Fine-12.** 146.8 gns. Dark brown, nearly black surfaces are a bit roughened with time yet hard and glossy to the unaided eye. Struck a trifle off-center on the reverse, cutting off the bottoms of all digits in the date. Here is a very acceptable survivor of this slightly scarcer die combination.

- 1119 1788 Massachusetts cent. Ryder 11-C. Rarity-5. Very Good-10.** 151.0 gns. Chestnut brown, with several fine marks and ancient scratches that have softened with circulation wear. A small, but very visible curved clip is noted near S of MASSACHUSETTS.

- 1120 1788 Massachusetts cent. Ryder 12-I. Rarity-4-. Very Fine-20.** 146.6 grains. Olive brown with hints of pale blue, this coin's subtly granular surfaces are generally attractive for the type. Devices and lettering are mostly sharp, the obverse peripheries a trifle weakened by planchet laminations and circulation marks. Here is a eye-appealing example of this Perkins-designed product.

From our Coin Galleries Sale of July 2005, lot 1305.

- 1121 1788 Massachusetts cent. Ryder 12-M. Rarity-4-. Very Good-10.** 147.7 grains. Medium brown and mostly smooth to the naked eye, a glass reveals the light grain expected of Massachusetts copper coins. A few mostly minor rim bruises are noted on this rather appealing if well-used Massachusetts cent.

From EAHA's Auction of December 1998, lot 507.

- 1122 1788 Massachusetts cent. Ryder 15-M. Rarity-5-. Very Good-8.** 129.0 grains. Surfaces are very rough from ground burial; nearly all details exist but are weakened by the quality of the surfaces. A scarce variety that will fill a void in a variety collection for the time being.

From Rosa Americana's FPL #10, lot 318.

- 1124 1787 Fugio cent. N.18-H. Rarity-4. Pointed Rays, UNITED STATES. About Good-3.** 137.2 gns. Well worn, with fields that are porous and dark brown, while high points are a pleasing tan. Minor flan flaws, an edge bruise, and ancient scratches are noted on this identifiable survivor of a storied issue.

- 1125 Pair of 1783-dated Washington coppers:** ☆ **1783 Washington & Independence copper. Breen-1189. Baker-2. Draped Bust, No Button.** Good-4. Rust-brown surfaces have seen *active* circulation! ☆ **1783 Georgivs Triumpho copper. Breen-1184, Baker 7.** Fine-12. Dark chestnut and mostly smooth, this specimen exhibits some fine pits on both sides amidst the glossy surfaces. (Total: 2 pieces)

- 1126 Undated Washington Double Head cent. Br-1204, B-6. Very Fine-20.** 124.2 gns. Deep olive-brown, glossy surfaces host a series of fine circulation ties and scuffs that have smoothed with extended circulation.

- 1127 1794 Talbot, Allum, & Lee cent. Breen-1032. Very Fine-25.** 149.5 grains. 28.8 mm. Dark olive brown with mahogany undertones on microscopically granular surfaces. Rims somewhat nicked, a few old scrapes on the obverse. A collectible specimen of this popular early New York token issue that circulated while Washington was in office.

- 1128 1779 Rhode Island Ship Medal. Breen-1141, Betts-562. Ornament over Vlugende. Brass.** Sharpness of Very Fine-20. This specimen is generally smooth and glossy but does display an area of corrosion at the lower left reverse and the planchet is somewhat wavy. The motifs are clear and the legends are at least 90% legible. These mysterious pieces are believed to have been struck in England and were obviously intended for a Dutch audience. It is likely that these pieces circulated in America along with any other tokens and coins that were of suitable size to make small change.

- 1129 Pair of colonial coppers:** ☆ **New York Libernatus Copper. Eagle on Reverse. Bolen copy. Kenney 7. Musante JAB-36.** Extremely Fine. Copper. Fields have been scratched, tooled, and toned over to simulate actual circulation and originality, but in reality this piece is a Bolen copy ☆ **1785 Nova Constellatio Copper. Crosby 3-B.** Fine-12 or better, but dark and exhibiting advanced porosity. (Total: 2 pieces)

- 1130 1781 Contemporary Counterfeit British halfpenny. Good-4.** 117.7 gns. Date visible only faintly in outline, yet the style of the motifs of the 1781-dated BRITANNIA counterfeits is unmistakable. Porous and dark from ground burial, bent and scratched long ago. A coin that had much more detail before entering the ground, but that will suffice as a "hole filler" for a beginning collector.

- 1131 Group of counterfeit and evasive halfpenny-sized coppers:** ☆ **1775 British counterfeit halfpenny. "Longneck" type.** Fine-15. Medium brown, lightly granular ☆ **1769 Irish counterfeit halfpenny. Glossy and attractive, but sporting a large hole near tip of obverse scroll ☆ **No date, William III English halfpenny,** of the type that would have circulated in the American colonies. About Good-3, corroded. (Total: 5 pieces)

1133 Quartet of early American coppers: ☆ **1787 Fugio cent.** Newman 12-U. **Rarity-5. Pointed Rays, STATES UNITED.** Good-4. 146.3 grains. Burgundy-brown surfaces are quite porous, probably from time spent under ground. Legends are mostly all there, obverse devices are quite weak ☆ **1773 Virginia halfpenny. No Period, 7 Harp Strings.** Very Good-8. 100.9 grains. Dark brown with iridescent overtones, this coin's reverse is noticeably stronger in detail than its obverse. Minor rim bruises noted around obverse periphery ☆ **1787 New Jersey copper. Maris 6-D. Rarity-2.** Fine-15. 139.9 grains. Smooth and glossy brown, with iridescent overtones on both sides. Both obverse and reverse suffered some hits and scrapes in the past, warping the planchet somewhat ☆ **1787 Vermont copper. Ryder 13. Rarity-1. BRITANNIA reverse.** Very Fine-20. 111.1 grains. Reverse is almost nonexistent as usual, while the overall surfaces are very porous. (Total: 4 pieces)

Third coin is from our March 1995 Sale, lot 1634, fourth is from EAHA's August 1998 Sale, lot 673.

1134 Trio of Confederation era coppers: ☆ **1787 Fugio cent. Pointed Rays, STATES UNITED.** Good-4. Surface corrosion and ancient scratches makes attribution uncertain ☆ **1788 Massachusetts cent. Ryder 6-N (?). Rarity-3. Fair-2.** Here is a coin with that has seen advanced circulation but is absent the major flaws associated with early American coins ☆ **1787 Connecticut copper. Miller 33.7-r.2. Rarity-1.** Fine-12. Light tan devices, dark brown fields. Edge crudely reeded on 40% of the edge. *Painted Die Variety* in left field. (Total: 3 pieces)

Dark brown, very porous. (Total: 3 pieces)

From McCawley-Grellman's Gary Ruttenberg Sale, August 1995, lot 12.

1137 1795 C-4, B-4. Rarity-3. Plain Edge, No Pole. About Good-3. The planchet is a trifle granular but medium brown dominates the obverse, the reverse shows more black olive surface. Minor edge chips around the obverse and close examination will note a few thin scratches.

From Bowers and Merena's Herman Halpern Sale, March 1995, lot 3387.

1138 1795 C-5b, B-5b. Rarity-3. Plain Edge. Fair-2. Well worn and a generally smooth brown planchet. 1142 1829 C-1, B-1. Choice About Uncirculated-55. This example displays a lovely olive brown color with some neon blue and rose highlights. Careful scrutiny reveals some very faint hairlines under the patina, but this is not distracting. The surfaces are smooth and the strike is forceful, giving this specimen a great level of eye appeal.

1143 Quartet of Coronet half cents: ☆ **1849 C-1, B-1. Rarity-2. Large Date.** Very Fine-30. Nice medium brown and attractive ☆ **1850 C-1, B-1. Rarity-2.** Very Fine-25. U.S. LARGE CENTS

1146 1794 Sheldon-22. Rarity-1. About Good-3. Cleaned long ago and retoned with mottled gunmetal-brown and blue. The obverse grades Good on its own, but the reverse is worn into the legend. Minor handling marks and a few edge tics as expected, but a reasonably attractive early cent for the collector.

From Bowers and Merena, Kingswood Auction of the Georgetown Sale, July 1993, lot 6933.

1147 1794 S-44. Rarity-1. Good-4. Sharpness finer but uniformly rough and corroded with a few surface nicks and minor scratches. Dark olive with traces of red.

1148 1795 S-76B. Plain Edge. Very Good-8. Attractive chocolate brown motifs are accentuated by steel brown fields. Two small verdigris spots—one at the forehead and one at the truncation of the bust—are the only distractions. Magnification reveals light granularity but the surfaces are far smoother than those encountered on most early coppers. An example of this early type that maintains pleasing overall eye appeal.

1149 1795 S-76B. Rarity-1. Plain Edge. Good-4. Medium brown with dark olive areas in the fields and generally attractive. There is a planchet flaw or void above B(ERTY) which is also seen on the reverse, where a small piece is missing and light vertical scratches are present on the reverse. Despite minor surface roughness, this coin has appealing qualities for this common variety.

1150 1795 S-78. Rarity-1. Plain Edge. Sharpness of Very Good-8. The date, legends and devices are all legible despite even porosity over both sides. A small planchet clip is found just left of center below the date when viewing the coin from the obverse. The surfaces are deep brown with some brassy highlights. An interesting piece that gives some insight into the early minting process.

- 1151 1796 S-83. Rarity-4. Capped Bust. Good-4.** The surfaces are uniformly rough and the devices have the sharpness of a higher grade. Minor edge tic below the bust. A scarce variety. Dark olive surfaces with traces of smoother brown copper on the worn devices.

Purchased from Dan Archer, March 1992.

- 1152 1797 S-121b. Rarity-3-. Gripped Edge. Good-4.** Attractive for the modest grade with only slight surface roughness. The color is dark brown to olive in the fields with lighter brown devices. The die buckling on the obverse caused Liberty's ribbon to receive too much wear. Minor edge nicks and a dull nick above the (O)F.

From our Coin Galleries Sale, July 2000, lot 1573.

- 1153 Trio of Draped Bust cents. ☆ 1797 S-137. Rarity-2. Good-4** but rough. Extensive surface corrosion on both sides limits the grade, sharpness finer ☆ **1798 S-181. Rarity-3. Good-4.** Sharpness finer but surfaces rough and porous, later die state evident ☆ **1800 S-197. Rarity-1. Good-4.** The "Q" variety. Medium brown and decent with much less porosity, sharpness finer. (Total: 3 pieces)

- 1154 1798 S-147. Rarity-5-. Fair-2.** Sharpness of a higher grade but a small attempted puncture is noted at the base of the reverse where a deep dent resides. Slightly bent, but details of a higher grade. A patch of minor corrosion is seen on the upper left obverse, and the surfaces show moderate small abrasions. A scarce die pairing.

From McCawley-Grellman's Long Beach Sale, September 1997, lot 418.

- 1155 A trio of Sheldon large cents. ☆ 1798 S-164. Rarity-4.** Poor-1. Sharpness of a higher grade but deeply and uniformly rough ☆ **1798 S-182. Rarity-4.** About Good-3. Decent surfaces with minor handling marks, but not porous although a few moderate pits are found ☆ **1800 S-190. Rarity-3.** Fair-2 or nearly so, ample and extensive wear but the devices, legend and date are readable. (Total: 3 pieces)

- 1156 Quintet of Large Cents. ☆ 1800/179 S-194. Rarity-3.** Fair-2. Decent planchet and smooth, a couple of spots and a small central head pit ☆ **1800/179 S-194. Rarity-3.** Poor-1. A few scratches, uneven color and well worn but not particularly rough ☆ **1800/179 S-196. Rarity-1.** Sharpness of Good-4 but a couple of dull dents are noted and minor pitting on the upper reverse ☆ **1800 S-203. Rarity-3.** Fair-2. Decent planchet and not too rough but well worn ☆ **1800 S-204. Rarity-4.** About Good-3. An average or better planchet, smooth wear and acceptable. (Total: 5 pieces)

- 1157 Quartet of large cents. ☆ 1800 S-208. Rarity-3.** Fair-2. Minor roughness and well worn ☆ **1801 S-215. Rarity-4+.** About Good-3. Sharpness finer but uniformly porous ☆ **1801 S-223. Rarity-1.** Fair-2. Minor handling marks and scratches but generally smooth ☆ **1802 S-228. Rarity-2.** Very Good-7. Medium brown and smooth surfaces, but moderate handling marks are present. (Total: 4 pieces)

- 1158 Quintet of large cents. ☆ 1802 S-231. Rarity-1.** Very Good-7. Dark olive with a rather obvious edge file on the upper right obverse and lower right reverse ☆ **1802 S-233. Rarity-2.** About Good-3. Average or better with a decent planchet and surfaces ☆ **1802 S-239. Rarity-3.** Fair-2. Rough surfaces with moderate scratches and handling ☆ **1803 S-248. Rarity-4.** About Good-3 or a bit better. Dark olive and rough, with two chisel marks on Liberty's head ☆ **1803 S-249. Rarity-2.** About Good-3. Nice surfaces and color with smooth copper and a late die state with cuds on the obverse and reverse. (Total: 5 pieces)

- 1159 1802 S-236. Rarity-1. Normal Reverse. Choice Fine-15.** Medium brown high points are accentuated by deep olive fields. The surfaces appear smooth and glossy to the naked eye but magnification reveals some light granularity. A few tics can be found, but none worthy of mention and the overall look is rather pleasing for the assigned grade.

- 1160 1803 S-251. Rarity-2. Small Date, Small Fraction. Choice Fine-15.** Lovely chocolate brown color gives this example a pleasing look. Several marks at the central reverse are noted as well as one minor edge mark above the Y on the obverse. The coin is presentable overall with the obverse being especially attractive.

1161 1803 S-253. Rarity-2. Choice Very Fine-30. Sharpness of Extremely Fine-45, but showing extremely fine and even granularity in the fields. Nice dark brown fields make the lighter mahogany devices stand out boldly. Good gloss and eye appeal, a nicely detailed coin with few serious flaws, just a couple of diagonal scrapes under the hair bow of Liberty and a neat old scratch from the base of L of LIBERTY. We also note a tiny nick off Liberty's eye. Breen's state IV with cracks in the upper left reverse; in the next state, Breen was somehow able to definitively count 11 separate die clashes. This is the usually seen state. The present specimen may rank among the 15 or so best of this variety; two of the better ones are at the ANS and are graded as Extremely Fine-40 and Very Fine-35 in the published census, which runs down to Very Fine-25 in the most recent CQR update. This piece would upgrade the cabinets of many specialists in the series.

1162 Quartet of large cents: ☆ **1803 S-253. Rarity-2.** About Good-3. Nice color and surfaces ☆ **1803 S-265. Rarity-4.** About Good-3. Dark brown with some obverse scratches ☆ **1819 Newcomb-4. Rarity-3.** Very Good-7. Average surfaces and well balanced ☆ **1820 N-14. Rarity-5.** About Good-3. Sharpness finer but granular. (Total: 4 pieces)

1163 Quintet of Draped Bust large cents: ☆ **1803 S-257. Rarity-2.** Fair-2. Rough surfaces and bent, but sharpness finer ☆ **1803 S-258. Rarity-1** Good-4 or nearly so, a few moderate dents in the central obverse slightly bent the coin, dark brown ☆ **1803 S-258. Rarity-1.** Fair-2. Dark and porous with a few scratches, the date faint but the reverse can be attributed ☆ **1805 S-267. Rarity-1.** Very Good-7. Medium brown and a trifle rough but nicer than most ☆ **1807 S-276. Rarity-1.** About Good-3. Black olive, rough surfaces with sharpness finer. (Total: 5 pieces)

Appealing Key 1804 Large Cent

1164 1804 S-266C. Rarity-2. G-6 (PCGS). Golden brown toning on the high points deepens to charcoal gray in the fields, with some light porosity noted on both sides. LIBERTY and the date are both sharp for the grade, and Liberty's portrait is full and crisp. On the reverse, the wreath and denomination are still quite bold. MERICA in the legend is clear, while the other letters, though fully readable, are faded to various degrees, most noticeably at STATES. As a date the 1804 cent is among the most desirable of all Draped Bust large cent issues.

The die states are advanced with cuds noted above RTY on the obverse and MERIC on the reverse.

Lustrous 1818 Large Cent

1165 1818 Newcomb-1. Rarity-2+. Mint State-60. Attractive medium brown with luster in the fields and a decent strike. The surfaces show a couple of tiny ticks and traces of verdigris are seen on the reverse. Later die state with both obverse peripheral cracks.

1166 1818 N-10. Rarity-1. Very Fine-30. Cleaned long ago and nicely recolored to a dark brown. The surfaces are average with a couple of shallow scratches on the reverse. Well struck and a later die state with the encircling crack so commonly seen on this Randall Hoard variety.

1167 1820/19 N-2. Rarity-2. Very Fine-20. Attractive medium brown with darker highlights on both sides. The surfaces are average with minor nicks, but the eye appeal is pleasing.

1168 Pair of Coronet large cents: ☆ **1822 N-8. Rarity-4.** Good-4. Average surfaces but a few rim nicks are present ☆ **1825 N-1. Rarity-4.** Very Good-7. A little baggy but acceptable for this scarce die pairing. (Total: 2 pieces)

1169 1826 N-1. Rarity-2-. Very Fine-20. A sharp strike on Liberty's curls but the surfaces are a bit rough and dark.

1170 1826 N-5. Rarity-2+. Very Fine-30. Attractive light brown and smooth, with minimal circulation marks and none particularly distracting. Sharp on most of the curls and the stars, and a later die state with rim cuds over stars four to past star seven. A pleasing collector coin.

1171 1827 N-8. Rarity-3. Choice Extremely Fine-45. An attractive dark specimen with crisply struck devices and smooth surfaces. Obverse die cracks.

1172 Quintet of large cents: ☆ 1827 ☆ 1832 ☆ 1851 ☆ 1853 ☆ 1854. Grades ranging from Choice Fine-15 to Choice Extremely Fine-45. An interesting collection of big pennies for the aspiring collection. One with edge damage, another cleaned and lacquered, the majority are free of major problems. (Total: 5 pieces)

1173 1830 N-10. Rarity-4+. VF-20. Medium brown and average for the grade with a couple of nicks including one under Liberty's hair bun, another on the rim above A(TES). A middle die state with the cracks through the date and stars, and TES on the reverse. A rare coin when found in high grades.

1174 1841 N-3. Rarity-2. Extremely Fine-40. Five points sharper, some very minor hairlines in lower left obverse field. Very attractive glossy medium brown with some woodgraining on the reverse. Good sharpness, early die state with light cracks. Dull nick on Liberty's cheek, tiny natural lamination on star 7. A most pleasing specimen of the date or variety.

1175 1843 N-7. Rarity-1. Extremely Fine-40. Sharpness of Extremely Fine-45, but a speck of corrosion at star 6 and another at star 9. Lovely glossy medium brown with smooth surfaces and bold aesthetic appeal. A tiny spot under AM of AMERICA is also noted. This is the old N-2, a late die state.

1176 1853 N-5. Rarity-2. MS-64 RB (PCGS). Fully lustrous. Perhaps 20% mint red fading to tan, with faint blue and violet highlights. Most design features show bold definition save for a few obverse stars. Fewer than 20 Uncirculated examples of the die combination are reported in the 18th edition of *Copper Quotes by Robinson*.
#001902

1177 1853 N-22. Rarity-2. About Uncirculated-55. Cleaned to an unnatural brightness but the surfaces remain pleasing and all central devices are sharp.

1178 1853 N-26. Rarity-2. About Uncirculated-50. Beautiful chocolate brown color and even, with attractive surfaces. A tiny attached lamination is noted on the 5, and the reverse has an unfortunate green spot at AT(ES).

1179 1857 N-1. Rarity-1. Large Date. Choice About Uncirculated-55. Solid eye appeal with about 20% mint red still showing, light brown elsewhere. The strike is decent and the surfaces pleasing. Final year of issue and always in strong demand for this low mintage coin which represents the last of its era.

The L on Liberty's ribbon is plainly visible which adds to this coin's desirability ☆ **1931-S** Fine-12 but has two perpendicular pinscratches on the obverse; one extending from the nose downward and the other from below the eye downward. Medium brown with a good strike. (Total: 2 pieces)

1185 1869 Normal Date. Extremely Fine-40, but with a moderate amount of porosity on both sides. Well defined, with surfaces that look better than expected for a coin with this problem. One of the more difficult dates to acquire, especially so in middle grade.

1186 1869 Fine-12. A couple of tiny spots. Typical strike weakness noted at the center of the reverse. Problem-free.

1187 1869/9 FND-002, S-3. Rarity-3. Very Good-10. Medium brown on both sides although the obverse has several minute darker specks. This is old overdate variety, but has since be recharacterized as a repunched date with both the top of the 69 showing clear doubling.

Key 1877 Indian Cent

1188 1877 About Good-3 obverse, the reverse fully Good-4. No major damage just extended circulation with the legend on the top of the obverse blended in with the edge. The date is fully legible with four full digits. The color is a medium brown which gives this *rare* date good appeal. A useful example of this key date that is missing from many Indian Head cent collections.

1189 1877 About Good-3. Nice chocolate brown throughout and a bold date. The reverse grades a full Good-4, but the portion of the legend behind Liberty's head is worn smooth. No surface distractions and a desirable example of this key date.

1190 1878 Choice About Uncirculated-55. Mostly faded mint color and attractive. The strike is shallow and soft on the dentils, but sharp enough on the central devices and lettering. Two tiny specks on the obverse and a couple of others on the reverse are visible with a loupe. A scarce date which is too often overshadowed by its big sister-*the 1877*.

1191 1883 Choice Brilliant Uncirculated-63. The obverse is highly reflective and rather **prooflike**, to the extent that our consignor believed it to be a proof. The reverse displays somewhat more subdued luster. The coin is boldly struck and displays crisp details. Rose, neon blue and sea green colors commingle for a wonderful look and there is an area of bright gold color at the date.

1192 1908-S Extremely Fine-40. Dark brown and attractive with a sharp strike and pleasing surfaces. Minor dark encrustation as often seen on circulated cents of this era. Scarce and desirable for the date collector.

1193 1908-S Indian. Extremely Fine-40, but the obverse has been recolored and now has an orange and brown appearance while the reverse is totally original. Well struck and *scarce* in this high grade.

1194 Pair of 1908-S Indian cents: ☆ **1908-S** Fine-12. Medium to dark brown and pleasing ☆ **1908-S** Very Good-7. Mottled brown toning. (Total: 2 pieces)

Scarce 1909-S Indian Cent

- 1196 1909-S Indian. Extremely Fine-40.** Light brown and a trifle streaky as these often appear. The strike is sharp and the surfaces average for this rare issue. A mere 309,000 were coined as the San Francisco Mint geared up to coin the new Lincoln Cents later in 1909.

- 1197 1909-S Indian. Very Good-10.** Attractive surfaces and medium brown color with a hint of the wood-grain toning usually seen on this issue. Key date.

U.S. LINCOLN CENTS

- 1198 1909 V.D.B. Superb Gem Brilliant Uncirculated-67. Brown.** This stunning example is completely engulfed in velvety mint bloom and is free of distractions. The color is a beautiful brown with ice blue highlights and a good deal of mint red in the protected areas.

The 1931 and 1933 appear to have been lightly cleaned. A good lot of early cents that are well struck and should be pleasing to most collectors. (Total: 5 pieces)

Coveted 1909-S V.D.B. Lincoln Cent

- 1203 1909-S Lincoln. Choice Very Good-10.** The surfaces are smooth and glossy giving a nice look. Magnification reveals a couple of old toned over marks on Lincoln's head, but they do not stand out. A pleasing coin for the grade.

- 1204 1909-S/Horizontal S. Breen 2058. Very Fine-20.** A lovely medium brown coin that has a tiny rim nick on each side but still has a very nice appearance and would make a welcome addition to any middle grade set.

Very Fine 1914-D Lincoln Cent

- 1205 1914-D Very Fine-30.** Medium brown and pleasing for the surface quality and natural color. This key date is always in strong demand, particularly so in high circulated grades like the present example.

- 1206 1914-D Good-4.** No problems, just even wear. A nice brown patina with no major nicks or scratches allows this coin to retain good eye appeal for the grade. A *scarce* date with fewer than 1.2 million minted.

- 1207 1914-D Good-4.** Medium brown surfaces are generally smooth but do display some minute ticks on either side. A respectable example of this important date.

Pleasing 1922 No D Lincoln Cent

- 1209 1922 No D. Strong Reverse. Very Good-8.** A pleasing example with glossy brown surfaces. Close scrutiny reveals a couple of minute spots at Lincoln's shoulder. - 1210 Pair of Lincoln cents:** ☆ 1922 No D, Die Pair 1, **Weak Reverse.** Good-4. Glossy brown toning over decent surfaces. The reverse is quite weakly struck which is representative of this variety ☆ 1922 **Weak D.** Good-4. Glossy brown with no major marks to damage this coin's appeal. The weak mintmark is visible under magnification. A variety that is listed in the *Red Book*. (Total: 2 pieces)

U.S. TWO CENTS

1222 1864 Small Motto. Choice Very Good-10. A pleasing chocolate brown specimen with slightly porous surfaces and an ancient toned over scratch through TRUST on the obverse.

1223 1865 Choice Brilliant Uncirculated-63. Red and Brown. This one has a few minor carbon specks on both sides, with ample mint color remaining despite fading. The strike is sharp throughout and the surfaces quite attractive.

1224 1872 Choice Good-6 or better. Smooth brown surfaces give an attractive look to this important key date coin. Magnification reveals that the word "WE" has been re-engraved onto the ribbon since it had been long worn away. This date is by far the scarcest of all business strikes for this denomination.

U.S. THREE CENTS (SILVER)

1225 1853 About Uncirculated-50, or thereabouts. Well struck with a decent amount of luster still remaining. A few obverse rim ticks is this coin's main detractor.

U.S. THREE CENTS (NICKEL)

Satiny Gem Proof 1881 Nickel Three Cents

1226 1881 Proof-65 (PCGS). Satiny rather than reflective, as are virtually all Proof nickel three-cent pieces of the date and era. Rich gold and orange on both sides add to the overall appeal.

- 1228 1883 Shield. Brilliant Uncirculated, nearly Choice-62.** Here is a splendid little example that is pale golden silver with pastel blue overtones. The coin is well struck albeit from dies that had been well used and the fields are quite reflective.

U.S. LIBERTY HEAD NICKELS

- 1229 Quintet of Liberty Head nickels: ☆ 1883 No CENTS.** Extremely Fine-40. Nice for the grade ☆ **1883 With CENTS** (2). Very Fine-25 with a spot on the obverse as this coin's main detriment; Very Fine-20, but shows earth burial and even corrosion ☆ **1884** (2). - 1234 1883 With CENTS. Brilliant Uncirculated, nearly Choice-62.** A forcefully struck example that is identifiable by a thin mark from the cheek to the ear. Both sides show rose and ice blue color although the reverse is mostly gold toned.

1235 1883 With CENTS. Choice About Uncirculated-58. Deep gold and gray toning moderately struck surfaces. A bit of a better date with the word CENTS added as a precaution against counterfeiters gold plating and passing off the NO CENTS variety as a Five Dollar Gold coin, mainly to immigrants.

1236 1884 Very Choice About Uncirculated-58. A lightly toned example that has a decent strike and has nice surfaces. A little bit better of a date that is hard to find in this very desirable condition.

Wonderful 1885 Liberty Nickel

1237 1885 Extremely Fine-40. Medium gray patina with some light hairlines due to a light wiping. The strike is decent although it is a bit weak under the LI of LIBERTY in the hair. A very *rare* coin to find in this wonderful collector grade and an opportunity that should not be overlooked because they do not show up that often.

1238 1885 Extremely Fine-40 in terms of wear but the reverse has light spots of corrosion and a thin pincscratch at the bottom. The detail is strong with the obverse giving a very appealing appearance. *Rare* and missing from most Liberty Head nickel collections.

1239 1885 G-4 (PCGS). The date area is weak at the 5 and the lower right stars. The reverse shows weakness at the top right of the legend although most of the letters are readable. No major marks or detractions except for extensive wear. A decent low grade example of this key date in the series.

#003846

1240 1885 Good-4. The obverse is fully good while the reverse is a bit rough and shows some of the letters of the legend melding in with the edge. Still a very useful example of this key date to the series that should be closely inspected.

1241 1885 Fair-2/About Good-3. The obverse is About Good-3 while the reverse grades Fair-2 and exhibits only part of the central portion of the design. The obverse shows a nearly complete date and most of the stars are visible. There is no major damage to this *rare* coin, just extensive commercial usage.

- 1242 Pair of nickels:** ☆ **1885 Fair-2.** Most of the date and stars are seen on the obverse. The reverse has only a bit of the bottom of the wreath visible with the rest worn smooth due to excessive commercial usage ☆ **1886 Very Good-8** in terms of wear but the coin has been earth buried and now exhibits a tremendous amount of corrosion and planchet roughness. (Total: 2 pieces) **SOLD AS IS, NO RETURNS.**
- 1243 1886 Net AG-3 (ANACS). Damaged.** The coin shows the details of a full Good but it shows some rim damage at the left and a tiny nick at the top obverse. Also a deep scuff on the reverse at the upper left is seen under magnification. A semi-key date in the series.
#003847
- 1244 1886 About Good-3.** The obverse is a full Good while the reverse unfortunately has seen some extensive wear with the edge melding into the lettering and obliterating most of the reverse legend. Medium gray toning is seen with just a few light reverse scratches seen.
- 1245 1887 Brilliant Proof-60.** Medium russet toning over decent surfaces. A obverse pincrash or two is this coin's biggest problem. Wells struck with some proof surface seen under the toning.
- 1246 1888 Very Choice About Uncirculated-58.** Lovely gold and gray toning over clean surfaces. The highest points have a bit of rub, otherwise this coin would be a Choice Uncirculated example. Some luster shines through the toning giving this coin a wonderful look.
- 1247 1889 Brilliant Uncirculated, nearly Choice-62.** Deep gray toning over adequately struck surfaces. Devoid of any major contact marks or rim nicks gives this date strong appeal.
- 1248 1889 Brilliant Uncirculated, nearly Choice-62.** A lovely pale golden example with a decent strike and a good deal of mint frost.
- 1249 1890 Brilliant Uncirculated-60.** A decent strike and plentiful mint luster define this attractive coin. A few contact marks, a reverse field nick and a pair of minor obverse spots are this coin's main detractor.

- 1253 1896 Very Choice About Uncirculated-58.** Frosty surfaces with some light gray toning. The strike is decent with most of the intricate detail visible. Rub is seen on just the highest points of the coin.
- 1254 1898 Brilliant Uncirculated-60.** Attractive mint luster over gray toned surfaces. The strike is excellent for the type. Some minor spotting is present and a contact mark or two is seen with a glass. This coin still has nice appeal and should be closely inspected as it is nice for the grade listed.
- 1255 Liberty Head nickel trio:** ☆ **1899 Very Choice About Uncirculated-58.** Good luster but heavily spotted ☆ **1902 Brilliant Uncirculated-60.** Reverse shows some spotting over subdued luster ☆ **1911 Choice About Uncirculated-55.** A wholesome coin that has some light golden toning over decently struck surfaces. - 1263 1912-S Very Good-10.** A few obverse pincatches and some scattered nicks are seen under magnification. The LIBERTY is nearly complete and the rims are full and well clear of any of the legend. A *scarce* coin that warrants closer scrutiny.

- 1264 1912-S G-6 (PCGS).** Smooth, even gray surfaces which have a single reverse spot as this coin's main detriment. No letters of LIBERTY show, but this coin is just a nice coin for the grade. *Scarce.*

- 1276 1926-S Choice Very Fine-30.** A decent strike over pale gray surfaces that have some darker areas present. Edge cuts at 9:00 and 3:00 are this coin's main detractor. A tough date to find in this pure collector grade and very desirable despite the problems.

Pleasing 1800 LIBEKTY Half Dime

(2x photo)

1286 1800 LM-3, V-2. Rarity-4. LIBEKTY. Very Good-8, or nearly so with just a few of the letters at the top of the reverse a bit indistinct. A few light pinscratches are seen which is the result of a light cleaning. There is also some blurring of the design in at the reverse scroll due to die damage. The obverse was struck with a die that had a defective R that was broken at the top and hence the famous LIBEKTY variety was born. A pleasing example for the specialist.

1287 Trio of Capped Bust half dimes: ☆ **1831 LM-3, V-2. Rarity-4.** Very Fine-30. Natural steel-gray and pleasing, middle die state ☆ **1832 LM-8.3, V-5. Rarity-3.** Very Fine-30. 1291 1839-O No Drapery. Choice About Uncirculated-55. Steel gray toning over exceptionally well struck surfaces that include a partial wire rim on the obverse. Even the obverse stars are bold and well defined as is the venation in the reverse leaves. A very pleasing example of this first Liberty Seated, Stars Obverse design struck at the New Orleans Mint.

(2x photo)

1292 1842-O Very Fine-30. A few light tics on the date and a light field hairline or two are this coin's main detriments. The color is a pleasing iridescent blue and gold with some gray underneath. The strike is mediocre at best with some weakness at the design elements on both sides. A very scarce date with only 350,000 pieces struck for general circulation.

- 1293 1852-O Choice About Uncirculated-55**, virtually Mint State. Blazing white centers surrounded by deep, vivid iridescent toning hugging the outer rims. Only some light scratches in the fields stand between this specimen and a higher designation.

(2x photo)

- 1294 1852-O About Uncirculated-50**. Just some light rub at the high points and a minute edge mark do not distract from the pleasing eye appeal. The obverse displays lovely golden russet and blue colors, the reverse is bright silver with pale golden color at the peripheries.

Steel-gray on the obverse, the reverse with more deep gray and russet field toning. A few minor scratches around the denomination, eagle and traces of obverse granularity are the only minor faults. On this die pairing, the obverse has been severely lapped to hide the double dentil near Liberty's bust and portions of her drapery. The reverse was paired with three different obverses, all are scarce to rare.

U.S. HALF DOLLARS

U.S. FLOWING HAIR HALF DOLLARS

1396 1795 Overton-108a. Rarity-4. Sharpness of Very Fine-20, but holed and plugged with an expert repair at the 12:00 o'clock position on the obverse, and the right obverse field may have been lightly smoothed. This coin has a lot of detail remaining and strong definition on Liberty's curls and the eagle. Toned a tawny golden brown hue and the surfaces show evidence of a harsh cleaning. No adjustment marks or other surface problems detract. Late die state.

1397 1795 O-124. Rarity-5. Fair-2. Graffiti in both obverse fields which appears to be "I" and "P" scratched in crudely. Dark steel and otherwise attractive. The date is nearly worn smooth, but the top of the 5 is clear. The stars, legend and LIBERTY are worn mostly smooth, but the central head of Liberty and eagle with wreath are generally intact.

1400 1806/inverted 6 O-111. Rarity-3. Very Fine-20. The 6 over inverted 6 is still quite apparent with a loupe and the obverse die has developed a bisecting vertical crack through the 8 to the E(RTY). Toned with deep blue iridescence around the rims, the balance a classic light silver-gray. The reverse die has a large chip or cud which has formed to the top of the (UNIT)E to the rim, with additional light cracks in that word at UN. The strike is a bit soft on the upper right reverse stars.

Later die state with minor reverse legend cracks.

- 1420 1827 O-107. About Uncirculated-50 or finer.** An exacting strike brings out the fine detail in this intricate John Reich design. Smooth surfaces display shades of red-gold over mint luster in the protected areas deepening into mellow blues and violet tones on the fields. Signs of light circulation can be seen on the highest design points. Close inspection shows some evidence of an old light wiping and a small contact mark over the eagle's right wing.

- 1421 1827 O-140. Rarity-4+. Very Fine-25.** Natural silver-gray with a hint of gunmetal in the fields. The surfaces are pleasing and the rims intact for a mid grade example of this scarce variety. For identification there is a shallow dull mark near Liberty's curls across from the eleventh star.

High-Grade 1839-O Half Dollar

1427 1839-O Choice About Uncirculated-58. Lightly cleaned long ago and now toned back with delicate gold on both the obverse and reverse. Traces of luster survive in the protected areas. For this issue the strike is sharp and the surfaces appealing. A rather early die state although both dies show several cracks, particularly through the legend on the reverse, stars and date too. Always in demand as a mintmarked issue short-lived type and this is one of the impressive large coins from the early days at the New Orleans Mint. A common die pairing which is the most frequently seen for the year.

U.S. LIBERTY SEATED HALF DOLLARS

Choice Extremely Fine-45. Pale golden gray. (Total: 4 pieces)

- 1433 1844 Choice About Uncirculated-55**. Delightful and colorful toning on both sides which ranges from dark blue at the rims to golden russet nearby. Minor handling marks in the fields, but these are more than offset by the toning.

- 1440 1854 Arrows. Very Fine-25** or better with ebony and gray toning over well preserved surfaces. A decent strike is found and a small field scuff at the left obverse is this coin's main detractor.

- 1441 Quartet of Seated Liberty halves**: ☆ **1854-O Arrows**. Very Good-8. Silver-grey devices create a cameo effect against dark fields ☆ **1857-O** Very Good-8. Pleasing silver-grey specimen with smooth surfaces and an interesting die imperfection in the shield on the reverse ☆ **1858-O** Good-4. Descend surfaces. Dark fields contrast lighter design elements. A few nicks present with a noticeable scratch running from the E in UNITED to the eagle's wing ☆ **1858-O** Extremely Fine-40. Deeply toned fields compliment less toned devices. (Total: 4 pieces)

- 1442 1855-O Arrows. Brilliant Uncirculated-60**. Attractive light silver-gray with a patch of sunset-gold near the date with darker gray traces around the periphery. The strike is average, with the stars soft and the lower portion of the eagle soft. - 1446 1868 About Uncirculated-50**, or finer. Strong claims to Choice. A hint of pale champagne gives this mostly white coin its particular appeal. Frosty mint luster surrounds the design elements. A minor reverse rim disturbance can be found at 2:00.

- 1447 1880 Extremely Fine-40.** Silver-gray and a bit dull, the surfaces show a few more nicks than expected on Liberty's arm, and above (S)TAT. One of the scarcer dates in this series and always in demand.

- 1448 1888 Very Choice About Uncirculated-58.** Beautiful iridescent toning on both sides with the desirable teal and crimson hues. Well struck and attractive, the only fault being a few thin hairlines crossing Liberty's high points. Scarce as an issue, and particularly attractive.

- 1449 1890 Extremely Fine-40.** Silver-gray centers with darker peripheral hues. The surfaces are average with a few nicks and scrapes, to be expected during commercial use of this medium of exchange.

- 1455 1914 Choice Very Good-10.** Dark russet fields contrast nicely with silver-gray devices. A few minor rim nicks.
- 1456 1914 Very Good-8.** Pretty example of this key date. Light gray, with golden pink splashes.
- 1457 1914 Very Good-8.** Attractively toned key date half dollar. Light gray with pink and golden highlights. Unfortunately, there are a few thin scratches on Liberty's neck, and the initials ALP scratched into the right obverse field. The reverse also displays some graffiti, with the letters GPE scratched into the left wing, shield, and right wing respectively. Still, a pretty example. Only 124,230 pieces minted.
- 1458 1915 Very Good-8.** Excellent golden gray color, with a ring of iridescent blue and pink on the obverse. A few of very small reverse rim nicks. Second to lowest mintage of the series, with only 138,000 pieces struck.
- 1459 1915 Good-4.** Light pinscratches are seen over lightly polished surfaces. A nick on the reverse is quite minor and does not affect this coin's appeal.

- 1469 1921-D Very Good-8.** A strong coin for the grade with nice full rims and no major problems. A very *scarce* date with only 208,000 pieces struck for general circulation. A coin that is premium quality for the grade and should be closely viewed.

- 1470 1921-D Good-4.** This example spent a good length of time in commerce but is free of any unusual marks for the grade. A presentable example of this important date.

- 1471 1921-D About Good-3,** nearly Good-4. Even wear with the date and all of the legends plainly visible. Some letters on the reverse merge with edge at the top but overall this *scarce* date is quite respectable for the grade. Medium gray toning accentuates this coin's appeal.

- 1472 Trio of Walking Liberty half dollars:** ☆ **1921-S** Good-4 or thereabout with some lettering faintly visible on the obverse ☆ **1938-D** Very Fine-20. U.S. SILVER DOLLARS

U.S. FLOWING HAIR SILVER DOLLARS

1477 1795 Bolender-1, Bowers-Borckardt-21. Rarity-2. Flowing Hair, Two Leaves. Fine-12. Moderately cleaned in the past with fine hairlines seen crossing the surfaces. Toned a light silver-gray in the fields, with brighter silver devices with traces of attractive iridescent toning. The surfaces are otherwise pleasing.

Historical Engraved 1795 Dollar

H.H. Warner's mansion. Courtesy of the Rochester Public Library, History Division.

1478 1795 B-2, BB-20. Rarity-3. Flowing Hair, Two Leaves. Fine-12. The obverse has fancy script graffiti "H.H. Warner" in the right field, "Rochester, N.Y." in the left. A quick search on Google finds that an H.H. Warner was a major historical figure in the Rochester, New York area in the 1880s, and built a fine mansion. This coin is a classic deep gunmetal-blue with lighter gray on the devices. The reverse is clean and attractive. For many years such coins were priced at a discount, but with the power of internet research many of the original owners can be determined with relative ease and bring to life historical aspects. Although we can't be certain, the present coin was probably obtained many years after it was coined, and H.H. Warner kept it as a pocket piece, having it finely engraved at a local jeweler—perhaps it was his father's and handed down through the family. An intriguing example of Americana.

U.S. DRAPED BUST SILVER DOLLAR

1479 1799 B-5, BB-157. Rarity-2. EF-45 DETAILS (ANACS). "Rim Damaged, Bent, Cleaned." The rim damage appears limited to a few moderate rim dents some of which may have been carefully smoothed down, but it is impossible to see in the holder. The cleaning is difficult to discern as the color is a steel-gray with golden and blue accents surrounding the devices. As to being bent, no evidence is clearly present through the holder, though the coin would likely rock on a flat surface.

U.S. LIBERTY SEATED SILVER DOLLARS

- 1480 1846 Fine-12.** Deep russet and carbon gray toning screams of originality. A moderately circulated example with no significant imperfections.
- 1481 1871 Good-6.** A dull gray patina due to a past cleaning and a few scattered contact marks and rim ties are this coin's main detractors. A *scarce* type coin that usually is the last hole to be filled in any U.S. Type Set.
- 1482 1872 Very Good-8** or better in terms of wear but the coin has been cleaned and has a band of corrosion about halfway across the coin from Miss Liberty's waist to star 13. Good detail for the grade assigned.

U.S. TRADE DOLLARS

- 1483 Pair of U.S. trade dollars:** ☆ **1873 Good-6.** Deep ebony toning over decent surfaces for the grade. A few reverse minor rim ties but none so bad as to limit this coin's appeal ☆ **1878-S Fine-12.** Harshly cleaned leaving a dull gray patina. Some moderate surface marks are found on both sides. (Total: 2 pieces)

- 1484 1875-S Very Choice About Uncirculated-58.** With one chopmark on each side. A lustrous white coin with just a hint of golden haze. A faint "X" shaped scratch is present right of the date. The strike is average with minor softness on Liberty's head and a few stars lack their radial centers. Desirable collector quality for the specialist.
- 1485 Trio of Chopmarked trade dollars:** ☆ **1875-S** ☆ **1876-S** ☆ **1877.** The average grade is difficult to assess since these three coins are inundated with chopmarks. The best guess this cataloger can make is Fine-12 to Very Fine-20 with a couple showing the detail in places of a higher grade. An interesting group with each coin showing numerous chops. Well worth a closer inspection. (Total: 3 pieces)

1592 1892-CC About Uncirculated-50, or better in terms of wear but the coin has been cleaned and now has a splotchy obverse and a dull gray reverse. The detail is quite strong for this rare date and commands a closer inspection.

1593 1892-CC Choice Very Fine-30. A pleasing pearl gray example.

1594 1892-CC Good-4. Medium golden gray with lilac highlights, no serious marks present other than a tiny obverse rim bruise near 8:00 despite a long time in pocket change.

1595 1892-S Extremely Fine-40. A nice honest coin with even wear. Medium gray toning with some gold in the edge devices. A premium coin for the grade and well worth a strong bid as this date is quite *rare* when you reach this grade or higher.

1596 1892-S Very Fine-30. Light steel gray with attractive surfaces. Even wear and the only complaint are two minute edge ticks. Always a tough date to find in high grades.

1597 1893 Choice About Uncirculated-55. A wonderful coin with deep russet and gray toning with a trace of blue iridescence here and there. The strike is good but for the hair above the ear and the central part of the eagle's breast which is a bit weak. The luster is still visible from under the toning and gives this coin a splendid appearance. A good date that is always on collector's want lists, especially in this grade or higher.

1598 1893 Extremely Fine-40. Medium gray toning with some darker bands on both sides. The coin has probably been cleaned in the past and is now starting to re-tone. A decent although not a full strike is seen. No major problems except for a tiny rim tic at 9:00 on the obverse. A *scarce* and desirable coin that is not always available.

1599 1893 Very Fine-25. A scarce date in all grades, and this one has pleasing steel-gray color and nice surfaces.

1600 1893 Very Fine-20. Deep golden gray with exciting rainbow iridescence deeply imbued on both sides. Nice for the grade.

1604 1893-O Very Good-8. Dark. Marks on cheekbone and neck. Rim bump below date.

1605 1894 About Uncirculated-53. Good luster over surfaces that have a few scattered marks. The strike is bold and adds greatly to this key date's appeal. The reverse shows a bit of light golden toning which amplifies the desirability of this elusive coin.

1609 1895-O Choice Extremely Fine-45. A decent strike with acceptable gold and russet toning accentuates this coin's attributes. There is, however, a small thin scratch in front of the face which is viewable without a glass. A tough date, especially so in this middle grade.

1610 1895-O Very Choice Very Fine-35. Medium gray toning with several prominent nicks on Liberty's cheek and hair, another on the breast of the eagle. A scarce and popular date.

1611 1895-O Choice Very Good-10. Medium gray underlies shades of blue, violet and mellow gold.

Parsons was the subject of a 1934 photograph by James Watrous titled *The Woodcarver*, in which he is shown working on a sculpture of the dancer, Berta Ochner. MEDALS FROM THE GORHAM COMPANY ARCHIVES

The name of Gorham and Co. may be more familiar to collectors of high quality silver than to numismatists today, but this New York and Providence, Rhode Island firm was, in its heyday, a major force in the world of the American medal, as was its rival Tiffany & Company.

During the Gilded Age, Gorham was identified with a number of coin-like productions, notably the highest quality Bryan Money Comparative Dollars and famous Souvenir Pesos of the revolutionary Republic of Cuba.

The firm also produced a wide variety of commemorative and award medals in Gold, Silver, and Bronze.

The lots offered below represent the largest and most varied selection of Gorham medals ever offered at auction. Included are medals marking important historical anniversaries such as the Centennial of the Battle of Lake Erie, awards of prestigious organizations and uniface trial strikes rarely seen by present-day collectors.

Held in the Gorham archives was an unsuspected trove of art and historical medals produced by la Monnaie de Paris, the Paris, France, Mint. Since Gorham was a famous name in the field of silver fabricating, Paris provided examples of many of its finest medal designs struck in Silver for the company archives, many of considerable rarity today.

A number of the medals offered here will doubtless prove unknown to modern collectors; others represent rarities in the metal of which they are made. All will repay the closest attention of informed collectors.

SILVER MEDALS OF THE PARIS MINT

The Monnaie de Paris has been for centuries a world center of medallic art. Located on the banks of the Seine in a magnificent building erected under King Louis XV, the Paris Mint maintains more than 125,000 pairs of working dies dating back to the 16th century. Since 1842, re-issues of Paris Mint medals have borne Privy marks on their edges giving a time frame for their actual striking, including the Pointing Hand of 1845-1860, Bee of 1860-1879 and the present-day Cornucopia in use since 1880. Since the mid-1970's the Cornucopia and statement of metal (ARGENT for Silver, OR for Gold and BRONZE) placed on the edge has been joined by the date of actual striking. Re-issues in Silver are uncommon and the following lots offer an exceptional cross-section of Paris Mint medals in this noble metal. All were part of the Gorham Company Medallic Archive collection and many bear a tiny engraved archive number on the edge.

ZINC GOETZ MEDALS OF WORLD WAR II

Karl Goetz' medallic work during World War II was quite sparse compared to his output in the first world conflict and its stormy aftermath. By 1940 precious metals were scarcely to be had and collectors desiring a cast Silver medal had to provide a sufficient weight of pre-1940 Silver coins to produce the desired medal. Zinc or Weissmetal was used to make a large proportion of such medals as were produced from 1940 onward and many of these are scarce and elusive today.

MEDALLIC HISTORY OF LOUIS XIV

Soon after taking control of his government, French King Louis XIV established the Petite Academie or Academie Royale des Inscriptions et des Belles-Lettres in 1663, charged with overseeing a grand medallion history of his reign in a uniform style based on classical figures and Latin inscriptions. The Sun King sent his armies on a seemingly endless series of campaigns in Spain, Italy, the Low Countries, and Germany. His victories abroad and civil achievements were commemorated by an ongoing series of 41mm medals of tightly controlled size, most recently chronicled by Jean-Paul Divo in his *Médailles de Louis XIV*, based on Original Pieces in the Collection of the Duke of Northumberland (Spink Zurich, 1982). The following examples from the series bear an obverse presenting the King's head by Jean Mauger and bear numbers from the Divo catalogue. All early strikes with plain edges, struck in Bronze, approximately 41mm in diameter.

MEDALS FROM THE HENRY GRUNTHAL COLLECTION

The late Henry Grunthal was a lifelong numismatist, son of noted Berlin, Germany, dealer Hugo Grünthal, proprietor of Robert Ball Nachfolger, successor to Robert Ball, an important numismatic firm in the German capital. Henry received a classic and numismatic education before being appointed Curator of the Numismatic Cabinet of Duke Carl Eduard of Saxe-Coburg-Gotha whom he recalled in the years after as both an alcoholic and an ardent Nazi.

Henry's father was Jewish, his mother Catholic; he himself was raised as a Lutheran which did not shield him from state anti-Semitism after Hitler's rise to power. The family sent him to New York in the late 1930's where he soon began working with Joseph B. and Morton Stack during their firm's first decade. His expertise in ancient and European coins helped establish Stack's reputation in those collecting areas.

Henry served with distinction as a Curator of the American Numismatic Society (ANS) and was later a professional numismatist

universally respected for his knowledge and outgoing personality. He became an American citizen at the first opportunity, an event captured by the spelling GRUNTHAL, no longer GRÜNTAL with the German umlaut. In the early 1980's he vigorously opposed the ANS' acceptance and exhibit of a major collection of medals by German nationalist Karl Goetz, denouncing the medalist as "a Nazi."

Henry was a long time member and President of the prestigious New York Numismatic Club and was portrayed on one of its Presidential Medals by Karl Gruppe in 1971. He was an active member of the American Numismatic Association from 1939 and received his 60-Year Membership recognition in 1989. He took part in ANA events and national conventions and after retirement was an ANS consultant until his death in 2001. The following lots chronicle the eventful life devoted to numismatics of many levels and will attract those interested in both medallic art and U.S. numismatic history.

A REMARKABLE OFFERING OF DUTCH HISTORICAL JETONS

Nice old toning. Very Fine. (200-250)

This satirical Jeton attacks Calvin for his role in the death of Servetus. A visionary Spanish scientist—he was one of the earliest, if not first, to discover the pulmonary circulation of blood, Michael Servetus (1511-1553) was also a rationalist theologian. In 1533, he secretly published his "Restitution of Christianity," which, among other things, refuted the Nicene conception of the Trinity, argued for a pantheistic concept of God, and rejected predestination. In 1546, he sent a copy to John Calvin. Because of his stated views, Servetus was eventually declared a heretic before the Inquisition at Vienne. He escaped and fled to Italy. On his way, though, he recklessly stopped in Geneva and visited the church where Calvin was preaching. He was recognized, brought to trial and through evidence supplied by Calvin, who called Servetus a "villainous cur," condemned to death by slow fire.

2674 Enameled coin. Great Britain. 1804 \$1 Token. Bank of England. Deep royal blue outer ring, devices and legends metallic with slight gilt, white garter, sky blue background behind Britannia, her shield alternating red and white stripes, re-engraved devices with golden highlights. Shallow chip near branch at center of obverse, otherwise delightful overall. Pinback loop intact on obverse of host token.

2675 Enameled coin. Myanmar (Burma). 1852 kyat. An extraordinarily beautiful example of just how fine an art *cloisonné* can be! The frame is of the "capstan"/gear style, with pinback intact. A pale pink background supports medium red characters, around a splendid peacock of varied metallic blue hues, its feathers brown and tan with rich blue highlights, the ground below tan and red. The other side hosts a deep royal blue outer ring, with legends and wreath devices metallic, with a burst of bright red, orange, and butterfly wing pale blue at the center. The top of the frame on that side has D & Co. in a rectangular cartouche, with a lion, three dots, and X in separate smaller cartouches. Simply splendid.

2676 Enameled coin. Myanmar (Burma). 1852 kyat. A Burma rupee with a metallic background and royal blue devices inlaid. The peacock is varied shades of medium to royal blue, its plumage shades of tan and brown, with rich shades of blue as highlights, a red comb atop its head. A nice representation of the design type. Extraordinary Massachusetts Merchant's Token Overstrike

(2x photo)

2689 MASSACHUSETTS. BOSTON. Currier and Greeley 1855 NOT ONE CENT Token (Rulau Mass 30) struck over Heidsieck & Fils NOT ONE CENT (Rulau Mass. 31). The Liberty head that is apparent on the obverse is a close copy of that on the contemporary Coronet Large Cents. The reverse shows clearly the inscription **NOT ONE CENT, BUT JUST AS GOOD**. American token researchers know that both tokens were products of the leading firm of Scovill in Waterbury, Connecticut. This fascinating overstrike was probably made by Scovill for the great token collector of the 1850-1870 era, J.N.T. Levick (1828-1908). The persuasive Levick is known to have arranged for special strikings of a number of Hard Times, Merchants' and Civil War tokens for which he found viable dies during his extensive in-depth researches in the field of American tokens. Here is a thoroughly appealing item that is probably unique and that will be the highlight of some great collection. About Uncirculated in strict terms of wear.

The Houck's Panacea counterstamp is most often seen on U.S. half dollars; the dates 1832, 1833, and 1834 standing out most frequently. The Houck's Panacea counterstamp is also known on U.S. quarter dollars, U.S. silver dollars, and Spanish colonial two reales pieces. A few Houck's Panacea counterstamp impressions have likewise been reported on various European and Latin American crown-size pieces. According to an advertisement for Houck's Panacea illustrated in Gregory Brunk's reference on counterstamps, the medicinal preparation was touted as being appropriate for "all ages and in all diseases" a roster of which included many afflictions listed separately, followed up by the catchall "all diseases arising from impure blood, &c."

MANUSCRIPTS AND EPHEMERA

- 2700 Gold Rush letter dated December 12, 1850.** An interesting California Gold Rush-era letter from the gold fields, providing

a fascinating glimpse of what life was like in the California of 1850, when prospectors were descending upon California from around the world in search of fortune. The letter, written December 12, 1850, from Georgetown, California, situated 17 miles north of Placerville and approximately 60 miles northeast of Sacramento, was written by G.W. Gale, to his father Ephraim Gale in Guilford, Vermont. The letter is three pages, written on nice quality stationery with an embossed seal of the paper manufacturer. The letter is intact and nicely preserved, though crisp and requiring careful handling when unfolding so as not to damage the folds. The paper shows some foxing and staining, but none too serious. The content of the letter is somewhat challenging to read in full, but enough can be deciphered to gather a good understanding of the writer's first-hand account of life as a "miner" in 1850. He states that "there are thousands of people in the mines and the amount of money in circulation is enormous," but he also discusses the typical fortune of a miner, noting that "There is a plenty of gold here no mistake but few get a very large pile in one season's operation." He writes further that having "cleared \$1,000 clean," he has been successful, but that "not one in fifty" have such luck. However, he adds that "one in 100 makes a pile in a short time" but meanwhile "thousands are trying to get enough to get home with. You can hear it observed every day if I had money enough I would take the next boat for the isthmus but they have not the dough."

There is, of course, the downside brought on by disease, as illustrated by this passage:

"There is now some 20 or 30 cases of cholera in Francisco-Sacramento is healthy at this time but was quite sickly in the latter part of summer."

He spends some time discussing the search for gold, which *puts you there*, so to speak.

"The mining is done mostly on the rivers and small streams and Kanyons[sic] or ravines which put into the streams, many of which are very rich.

"The gold thus far has mostly been got by digging in the bed of the streams, and in the bank, and in some places, veins have been followed into the hillside and pay well. What a miner means by paying well is getting an ounce or more a day. Our company averaged 4 to 7 ounces per week..."

Additional content discusses his health, and other aspects of his personal experience in California. A nicely preserved and fascinating look at California in 1850, through the eyes of a real 49er.

- 2701 Bureau of the Mint, January 1888.** Printed Correspondence regarding an installation of flooring of encaustic (fired) tile for the laboratory in the Bureau of the Mint in Washington, D.C. Includes a \$540 estimate from Secretary of the Treasury C.S. Fairchild requesting a favorable vote on this expenditure and a letter from Mint Director James P. Kimball, spelling out the need to replace the deteriorated cement floor with its contaminating dust and dirt. About Uncirculated.

- 2702 Autographed Correspondence of New York District Attorney Joab H. Benton.** Letters are addressed to Benton by Theodore Roosevelt (Jr.), Jan. 14, 1927 and Congressman for the 20th District Fiorello H. LaGuardia, Oct. 13, 1927. The Roosevelt letter intercedes for an unidentified drug addict and embezzler; the LaGuardia communication is a plea against the deportation of a paroled felon who had completed a five-year sentence for manslaughter. The third letter is a protest by Secretary John S. Sumner of the New York Society for the Suppression of Vice against the play "Arabesque," then appearing on Broadway and includes renewed protests against "Desire under the Elms" and "Weak Sisters" in the name of this famous Anthony Comstock committee. Extremely Fine. (Total: 3 pieces)

Coins of the U.S. Administration of the Philippines are becoming increasingly popular with American collectors. Here are long-overlooked coins struck by the United States Mints (Philadelphia, San Francisco, Denver and Manila) to circulate in an American possession. The Silver coins bear the U.S. Shield and the Standing Lady at an anvil, the Nickel and Bronze show a worker seated at the anvil. All bear the Mayón volcano and were designed by the "Prince of Philippine engravers," Melecio Figueroa of Manila. Variety attributions refer to Lyman L. Allen, U.S./ Philippine Coinage, fifth edition, 2005-2006.

Commemorative Coins, Founding of the Commonwealth

The Commonwealth was inaugurated in 1936 as a kind of Dominion status just short of full independence. The Filipinos under President Manuel Quezon would control all but defense and foreign policy that would continue under American direction. Independence was to follow after 10 years. Japan attacked on Dec. 8, 1941 and the islands were soon invaded, remaining under Japanese occupation until 1945. Nonetheless, the U.S. granted independence to the war-devastated islands in 1946. The Commonwealth coins bore a new Arms combining Spanish, First Republic and American symbols while retaining the legend UNITED STATES OF AMERICA.

Designed by Professor Ambrosio Morales of the University of the Philippines and released just as the U.S. Commemorative Coin boom was subsiding.

THE NEW WORLD

- 3686 North America. New Jersey, Bergen County. *Campbell Factory Wampum*. 1700's.** An attractive length of 23 purple and white beads. A tad over 11 inches in length. Opitz p. 372-3. Well-preserved. (150-200)
- 3687 North America. Alaska and the Pacific Northwest. *"Russian" trade beads*. 1800's.** A length of 10 multifaceted transparent blue beads. Full bead length 3 ½ inches. Likely of Bohemian manufacture, these beads were shipped to Belgium, repacked and sent to China where they were traded to the Russians who used them in the fur trade in the Pacific Northwest. Six to eight beads were worth one beaver or three martens. Opitz p.62. Very minor chipping, otherwise well-preserved. (50-75)
- 3688 North America. Oregon. *Copper Tubular Bead Money*. Late 1700's-1800's.** A length of 6 sea-green narrow copper tube beads with two white spacers, string broken on end. Full bead length 12 ¾ inches. With original tag labeling this as wampum, which it is not, though it served in similar function. Small crack on one tube. Even wear. In a decent state of preservation. (90-120)

The lower section ends in a slight downward "V" and flanges outward. Hand-hammered, numerous peens in "reverse" ovoid crater which creates "obverse" bulge. Opitz p.304-305. Very well-preserved and Choice. (200-300)
