COLONIAL AND EARLY AMERICAN COINS

- 3001 1652 Massachusetts Oak Tree shilling. Noe-5. Rarity-2. Poor-1.** Rough and quite dark. 37.5 gns. Attributed from the Roman style II and the slender shape of the X in the denomination.

From the wreck of the H.B.M.S. Feversham (Stack's, January 1999, Lot 9).

Nice EF 1652 Pine Tree Shilling

(2x photo)

- 3002 1652 Massachusetts Pine Tree shilling. Noe-16. Rarity-2. Small Planchet. EF-40.** 70.6 grains. 22.5 mm. Both obverse and reverse are toned light silver gray. Full denomination and date, peripheral legend complete, inner beaded circle full, outer beaded circle partially present on the reverse. Struck on a slightly oval flan, accounting for the tightness seen on the obverse and the top of the reverse. Full weight, nevertheless. Surfaces somewhat granular to the naked eye, but given the technical importance of the piece this is trivial. Struck from very late states of both dies, Crosby obverse 21, here failing, with cuds forming below the roots at lower right, engaging the inner beaded circle below, obscuring I, running to the rim to the left of N. Under magnification, A has been recut, other letters have been slightly repositioned, still others show signs of recutting from their appearance on the normal Crosby 21-L. Late state of the reverse, equivalent to that usually seen on Noe-19, with the die failing at the bottom in spidery breaks beginning to join in the letters from about 5:00 to 7:00. Crosby's reverse L was a workhorse die in the series and lasted over several marriages. The obverses appear to have been used somewhat interchangeably in the series, and in the case of this coin, Crosby obverse 21 must have been a very long-lived die, as well, as it seems to have nearly outlasted the life of reverse L, one of the longest lived in the series.

From the Stearns Collection, Lot 97, where it was described as: "All features on both sides are very bold. Large interesting die

break below and to the right of the base of the tree. Planchet lightly clipped. Very slight wear. An attractive extremely fine specimen with light gray toning."

This die state is visually interesting but, further, is technically important to the study of the Small Planchet series. A specialist could make this the centerpiece of a set of Small Planchet varieties.

From Mayflower Coin Auctions' sale of the Stearns Collection, December 2, 1966, Lot 97.

- 3003 1723 Rosa Americana twopence. Breen 96. Sharpness of VF.** Lacquered. Medium brown with clean surfaces throughout and a bold strike. A few minor edge nicks.

- 3004 1722 Rosa Americana penny. Breen 116. UTILE DULCI. VF-30.** 111.4 gns. Deep mahogany brown with strong details despite some surface granularity and a sizeable rim flaw on the obverse at the tip of the effigy's bust.

- 3005 Wood's Hibernia coinage duo:** ☆ 1723 farthing. Martin 3.3-Ba.1. Rarity-2. Sharpness of VF, corroded with moderate surface scratches ☆ 1723 halfpenny. Martin 3.4-Db.1. Rarity-3. Sharpness of Fine, corroded but the devices are all sharp and clear. (Total: 2 pieces)

- 3006 1723/2 Wood's Hibernia halfpenny. Martin 4.60-Da.1. Rarity-2. Sharpness of VF,** but there is a small planchet flaw on the neck that blends into the lower curls and scarcely warrants attention. Areas of minor roughness in the fields.

- 3007 Pair of 1723 Woods' Hibernia coins:** ☆ 1723 farthing. VF-30 with a minor obverse dig ☆ 1723 halfpenny. EF-40 but slightly rough with a few moderate pits. (Total: 2 pieces)

- 3008 1723 Wood's Hibernia halfpenny. Net Fine-15,** sharpness of EF but dark with much green patination. Details bold but somewhat coarse. 11 Harp Strings.

- 3009 Trio of Wood's Hibernia halfpennies of 1723:** ☆ Fine-12 ☆ Fine-12 but rough ☆ Fine-12. Badly corroded and slightly smaller in diameter. (Total: 3 pieces)

- 3010 French colonial grouping.** The grades range from Very Good to Very Fine overall. Includes: ☆ 1713-AA Half Mousquetaire. Metz Mint. Vlack 14. Rarity-4. Lighter gray in color. Both surfaces quite granular ☆ 1712-D Mousquetaire. Lyon Mint. V.5. Rarity-3. Pale silver gray and gold, obverse once buffed. Somewhat soft around the peripheries ☆ 1738-A Sou-Marque. Paris Mint. V.16. Rarity-1. Dark silver gray on both sides. Light obverse scratch in the left field ☆ 1739-A Sou-Marque. Paris Mint. V.17. Rarity-1. Broken A mintmark. Deep coin silver gray in color. Reverse fairly worn in the lower center ☆ 1762-BB Sou-Marque. Strasbourg Mint. V.276. Rarity-1. Medium gray on both sides. Surfaces quite granular ☆ 1739-(Sou-Marque. Besançon Mint. V.278. Rarity-1. Pale gray. Obverse and reverse very granular, portions of the latter virtually illegible. (Total: 6 pieces)

From our sale of the John J. Ford Collection, Part XIII, January 2006, Lots 34, 57, 112, 121, 271, and 278, respectively.

- 3011 French Colonies. 1711-D 30 Deniers. Lyon mint. Vlack 3. EF-40**

in terms of overall definition. The reverse is sharper than the obverse, with porosity evident on either side.

3012 French Colonies. 1711-D Billon Mousquetaire. Lyon mint. Vlack 3. Rarity-2. VF-35 (PCGS). Light gray fields with darker gray devices produce a two-tone effect on this coin. The surfaces are quite clean and the wear minimal. Always popular as these early circulating colonials are highly collectible and scarce.

From our sale of the Ford Collection.

3013 French Colonies. 1720-A Petit Louis d'Argent (20 Sols). Paris mint. Gad.305. Choice Very Fine. Laureate youthful mailed bust r. Rv. Cruciform crowned double L's.

3014 French Colonies. 1739-V Sou marque. Troyes mint. Vlack 193. Rarity-2. EF-40. Nice even silver-gray with golden hints in the lettering and devices from mint lustre. Well struck and preserved, with a slightly irregular edge on the planchet in one area.

3015 French Colonies. 1739-9 Sou marque. Rennes mint. Vlack 225. Rarity-6. AU-55. Lustrous and essentially Mint State, though the surfaces are striated with some green deposits forming as is common for this low-fineness silver coinage.

3016 French Colonies. 1742-H Sou marque. La Rochelle mint. Vlack 358. Rarity-1. Contemporary counterfeit. Sharpness of Mint State. Reverse corrosion. The obverse has bluish-copper hues while the reverse is mottled reddish copper, dark verdigris and brown.

3017 A pair of 1767 French Colonies Sous, counterstamped RF. One grades VG-8 while the other is more like a Good-6 with some of the host coin legend a bit weak. A decent pair that should be inspected. (Total: 2 pieces)

3018 French Colonies. 1767-A Sou. Paris mint. Breen 701. With RF counterstamp. VF-25. Attractive light tan copper with a bold strike, with a minor planchet split on the base of the edge. Often seen far less pleasing than the present coin. An important type issue with the countermark RF.

High-Grade Newman 1-B 1776 Continental Dollar in Pewter

Rings Partially Re-Cut from Dots to Solid Lines

Extremely Rare

(2x photo)

3019 1776 Continental Currency dollar. Newman 1-B. Hodder 1-A.2. Rarity-7. Pewter. CURRENCY. AU DETAILS (NCS). "Damaged." Rings partially re-cut from dots to solid lines on reverse. Usual twin leaf edge device. Dies oriented medal turn. 271.0 grains. 38.4mm. Approaching an Uncirculated designation in actual terms of wear, this lustrous (on the obverse) specimen exhibits a series of short, shallow scuffs at several points on the obverse surface and obverse rim, best visible as shiny silver areas against a background of more dusky silver and gray. The obverse and edge exhibit some minor deposits, noted only under magnification. Obverse design motifs and lettering are well struck and about as sharp as one could hope for on a Continental dollar, with even the folk art style sun face well-defined; the reverse is sharp but the lettering and design features are a bit more rounded

than on the obverse, due partially to strike and partially to an old cleaning that has lent a glossy, now golden blue toned appearance to this linked rings side.

This specimen is a very rare survivor from the Newman 1-B die pairing; reverse B represents an intermediate phase in the re-cutting of the actual reverse A die that turned the beaded rings of that reverse into the solid rings of reverse C. Another readily visible feature of this modification is the addition of shading lines within the rings.

The reverse is a joy to study under magnification, as the coin's high grade and sharpness enable viewing of countless repunchings of letters in the states' names. It seems as though the die cutter could not get the placements of many letters right on the first try! A loupe also reveals the remains of the original, widely spaced dots that peek out from under the now more solid lines of the rings. Miscellaneous other die flaws are also present, such as the die chip in the Rhode Island ring, the fine die lines in the New Hampshire ring, and the very fine die crack in the New Jersey ring.

#000791

3020 1783 Nova Constellatio copper. Crosby 2-B. Pointed Rays, Small US, CONSTELLATIO. VF-30. Porous with areas of shallow pitting and dark olive surfaces. Scarce and the devices are reasonably clear.

3021 1785 Nova Constellatio copper. Crosby 3-B. Pointed Rays, CONSTELLATIO. Sharpness of VF-30 but cleaned and corroded with the surfaces rough with small traces of red. A lot of definition on this one, but with the usual copper ailments.

3022 1785 Vermont copper. Ryder 2. Rarity-4-. Landscape, VERMONTS. Fine-12. 119.5 grains. Appealing dark mahogany brown surfaces are smoother than often seen and glossy despite some extremely fine granularity. The 1785 date and most of the legends are very bold, but the planchet is of uneven thickness so the legends atop the obverse and reverse are weak. VERMON and PUBLICA are bold at the sides of the obverse, as is the bucolic central device; the same could be said of the central reverse and STELLA DECIMA on that side. Some trivial old scratches that most would miss, long planchet fissure runs from just right of 12:00 on obverse through plow handles, natural pit below 7 of the date. A handsome specimen of a variety that is far more elusive than the 1786 VERMONTENSIIUMS, which are distinctive enough that instead of one Landscape we would prefer type collectors owned a 1785 in addition to a 1786. In any case, the market value of circulated Vermont Landscapes seems a bargain at present levels, especially for desirable coins like this.

3023 1786 Vermont copper. Ryder 6. Rarity-3. Landscape, VERMONTENSIIUM. EF-40. Both sides have rather minor planchet flaws streaking through the periphery, common to this popular issue. The strike is sharp, and the scene of the White Mountains is clear, with the pine trees sharp, a few flaws through the rising sun, but the majority of the planchet is light tan copper. An impressive example of this scarce colonial coin.

3024 1786 Vermont copper. Ryder 6. Rarity-3. Landscape, VERMONTENSIIUM. Sharpness of VF-20. Old damage on the upper left obverse where the edge has been flattened and there is a minor planchet flaw in the shape of a "P" on the upper right obverse. Micro-granular surfaces with smooth copper on the worn areas. The landscape scene is remarkably sharp and clear, along with the legends and devices including the date. A coin with a lot of definition despite its challenges.

3025 1786 Vermont copper. Ryder 7. Rarity-4. Landscape, VERMONTENSIIUM. Fine-12. Minor planchet flaw on the lower right obverse near the edge in the form of two broad flakes which form voids. The sun's eyes are clear, as well as the date, with minor unevenness in the strike. The legends are clear on the obverse and most of the reverse, with the all seeing eye clear too. One of the most popular of the early colonial issues for the extraordinary view of the White Mountains.

3026 1786 Vermont copper. Ryder 8. Rarity-4. Landscape, VERMONTENSIIUM. VF-25. Dark olive surfaces are moderately rough from porosity. Struck a bit off-center toward 12:00 on the obverse with the date sharp and with the tops of STELLA just off the reverse. Well struck and the important devices are clear.

3027 1787 Vermont copper. Ryder 13. Rarity-1. Mailed Bust Right. Britannia reverse. Sharpness of VF. corroded. The surfaces are entirely and uniformly rough on the obverse and reverse. Medium brown, with a fair amount of definition on the devices.

3028 1787 Vermont copper. Ryder 13. Rarity-1. Mailed Bust Right. Britannia reverse. VF-20. Typical weak reverse, with a minor planchet split at 12:30 on the obverse. Microporosity on both sides.

3029 1785 Connecticut copper. Miller 4.1-F.4. Rarity-1. African Head. VF-20. 129.0 grains. A bold example of this distinct Red Book listed type. All important obverse effigy is boldly defined, his hair, wreath, and facial features exhibiting good detail, including the peculiar tadpole-shaped eye. The misproportioned figure of Liberty with her pileus-topped pole is similarly bold if lacking in the fine detail that is missing on most specimens of the type. The tops of CONNECT and ET LIB are weakly defined, merging somewhat with the unprotected rim, while the bottoms of the date digits are similarly weak. Surfaces are dark brown and hard, exhibiting light, even granularity. A small flan flaw at OR and another at 3:00 on the obverse rim are this coin's only flaws. Overall appearance is rather nice for the African Head type.

3030 Pair of Connecticut coppers: ☆ 1787 M.11.1-E. Rarity-1. MBL. Fine-12 Dark olive with a central obverse dig and a few scratches with a patch of green on the central reverse ☆ 1787 M.27-a.1. Rarity-5. DBL. VG-8 but unevenly struck and damaged by many fine scratches on both central devices. (Total: 2 pieces)

3031 1787 Connecticut copper. Miller 17-g.3. Rarity-4-. Draped Bust Left. VF-30. Although the strike is soft on the lower right obverse and corresponding section of the reverse. Light old India ink in the left obverse field to identify this one. Nice copper surfaces and these are often found with similar striking challenges.

3032 1787 Connecticut copper. Miller 33.34-Z.11. Rarity-5. Draped Bust Left. VF-25. 127.7 gns. The drapery on the obverse is particularly bold, however the obverse hair definition as well as the corresponding location on the reverse lacks detail. Medium brown surfaces are smooth except for a single small planchet flaw on each side.

3033 1787 Connecticut copper. Miller 41-ii. Rarity-4. Draped Bust Left. AU/TOPI. Sharpness of EF, but granular surfaces and numerous small dents on either side. A lot of device definition for this early colonial.

3034 1787 New Jersey copper. Maris 6-D. Rarity-2. VF-20. Microscopically porous. Even dark brown with sharp devices and average surfaces. Reasonable eye appeal but the date is a bit weak and the usual die crack is noted on the lower portion near the base of the shield

3035 1787 New Jersey copper. Maris 43-d. Rarity-1. Sharpness of Fine. Signs of a repair at 12:00 on the obverse and corresponding section of the reverse, and a minor edge nick on the upper right obverse. Decent copper surfaces, smooth enough to be average or a tad better. Less trouble than usually encountered on these.

3036 Trio of 1787 New Jersey coppers: ☆ Maris 43-d. Rarity-1. Sharpness of Fine, scratched on the shield, minor rim clip left of the date, sharp devices ☆ Maris 48-g. Rarity-1. Sharpness of VF, corroded with dark fields, slightly lighter devices ☆ Maris 54-k. Rarity-1. Sharpness of VG, cleaned and the wear a bit uneven. (Total: 3 pieces)

3037 1787 New Jersey copper. Maris 44-d. Rarity-4. Sleigh Runners. VF-35 (PCGS). Choice, deep mahogany surfaces are mostly smooth, exhibiting only minor planchet streaks that have blended into the coin with circulation wear. Obverse struck a bit off-center toward the lower left, with some consequent weakness along the periphery from 5:00 to 9:00 on the obverse. Usual die crack connects letters SARE of CAESAREA. Maris 44-d, although not a rare variety by any stretch of the imagination, is scarcely found with any regularity and rarely with such pleasing surfaces as the present example.

3038 1787 New Jersey copper. Maris 46-e. Rarity-1. Sharpness of Fine. Holed and plugged. Relatively smooth copper otherwise with some darker areas in the fields. The plug is well done and escapes initial detection.

Rare Maris 58-n NJ Copper

3039 1787 New Jersey copper. M.58-n. Rarity-4+. Camel Head. Overstruck on CT copper. Fine-15. 131.6 gns. Here is an example of the rare Camel Head type, not the usually encountered Maris 56-n, but the truly tough variety known as Maris 58-n. The obverse is badly cracked and broken in the lower parts of the design, perhaps offering a clue as to why the 58 obverse is much less frequently seen than the 56 obverse. As with most coins of this Camel Head type, this one is overstruck on a Connecticut copper, although not enough of the undertype is available to produce a positive attribution to die variety. The New Jersey designs are quite sharp where fully struck, although the upper obverse and lower reverse are a bit weak, the effects of the broken obverse die, the overstriking, and perhaps an axial misalignment of the dies. Surfaces are dark brown, microscopically porous and offer the expected small nicks and scratches associated with active circulation. Buy this one or you might wait years before finding a comparable, affordable example of the die variety.

3040 1787 New Jersey copper. Maris 61-P. Rarity-5+. PLURIBS. Sharpness of VF. 148.7 gns. Of all the Morristown mint large planchet issues, the Maris 61-p is the hardest to find, excepting only the unique variety with "WM" under the horsehead. The PLURIBS misspelling makes this a sought-after Red Book type, and the present example is a respectable one. Dark brown, lightly porous surfaces exhibit some fine old circulation scratches, a touch of corrosion at lower reverse, and a spot of fresher copper behind horse's mane.

3041 1787 New Jersey copper. Maris 63-s. Rarity-1. Large Planchet. Fine-12. 141.5 grains. 30.4 mm. Uniformly granular chocolate brown surfaces, some red scale on the obverse, tiny rim clip at 11:00, otherwise all details strong and well-centered.

3042 1787 New Jersey copper. Maris 64-t. Rarity-1. Small Planchet. Sharpness of VF. Corroded. Rather heavily so with dark, rough surfaces on both sides but the devices can be identified and show essentially no signs of wear or circulation.

3043 Pair of Massachusetts half cents: ☆ **1787 Ryder 4-C. Rarity-2.** VG-8 details with microscopic porosity and minor pitting and a few scratches ☆ **1787 Ryder 4-C. Rarity-2.** VF-20 details with a wavy planchet and some dents, but the devices are clear. (Total: 2 pieces)

3044 1787 Massachusetts half cent. Ryder 4-C. Rarity-2. Fine-12. With patches of red corrosion and roughness on both sides, but reasonably well struck and with smooth, even wear.

3045 Massachusetts copper trio: ☆ **1787 half cent.** VF details, holed through the Indian's head, black olive porosity ☆ **1787 cent.** VF details, corroded, bent but barely identifiable ☆ **1788 cent.** AG-3. Ample smooth wear on nice tan copper, a few minor scrapes and scratches to be expected after considerable wear. (Total: 3 pieces)

- 3046** 1787 Massachusetts cent. **Ryder-2b-A. Rarity-3. Horned Eagle. Sharpness of Fine**, light scratches beneath the patina on the obverse and the surfaces are slightly rough.
- 3047** 1787 Massachusetts cent. **Ryder 3-G. Rarity-3-. VF-20 or nearly so** with respect to wear. Areas of obverse pitting around the head and the reverse has several small digs particularly on the shield. Dark and a trifle rough.
- 3048** 1788 Massachusetts cent. **Ryder 4-G. Rarity-4+. Fine-12**. Some roughness at the central reverse with raised verdigris. Medium brown and better than average for the planchet, with the devices clear and no distracting surface problems.
- 3049** 1788 Machin's Mills halfpenny. **Vlack 23-88A. Rarity-2. Sharpness of VF**. Skillful repair evident in the reverse field at 12:00 to strengthen the N. Medium brown with a few traces of reddish patina in the field, darker brown on the reverse.
- 3050** 1788 Machin's Mills halfpenny. **Vlack 23-88A. Rarity-2. Sharpness of VF**. Old scratches. Dark olive surfaces with lighter copper showing on the worn sections. Moderate scratches on George III's head but these are offset by the sharpness of the devices.
- 3051** 1788 Machin's Mills halfpenny. **Vlack 23-88A. Rarity-2. Sharpness of Fine**, but porous on both sides and with a minor planchet stain on the lower right obverse, dark olive.
- 3052** 1781 North American token. **Breen 1144. Fine-12**. A few minor planchet flaws and dark olive surfaces with some areas of thick patina on the reverse. The devices are all clear and lettering sharp.

COLONIAL COIN GROUPS

- 3053** Colonial coin medley: ☆ 1773 Virginia halfpenny. AG-3. Concentric short cuts around reverse rim ☆ 1787 New Jersey copper. **Maris 63-s. Rarity-1. Large Planchet**. Fine-12. Corrosion product adheres to field surfaces, the brassy-gold devices standing out against the darker fields. Old thin scratches noted chiefly on obverse ☆ 1775 contemporary counterfeit halfpenny. **George III English type**. VG-8. Corroded. (Total: 3 pieces)
First and last coins come with old-time holders.
- 3054** Pair of Confederation era coppers: ☆ 1783 Nova Constellatio copper. **Cr.1-A. Pointed Rays, Small US, CONSTELLATIO**. Good-5 overall. The obverse is much sharper than the reverse, porous surfaces and dark olive ☆ 1788 Massachusetts cent. **Period**. VG-8. Medium brown with a few old scratches, one forms a cryptic B. (Total: 2 pieces)
- 3055** Colonial coin trio: ☆ 1723/2 Woods' Hibernia halfpenny. VG-7. Dark olive with rough surfaces and traces of copper showing through, smooth on the face and devices ☆ 1723 Woods' Hibernia halfpenny. VG-7. Dark and rough, sharpness of a higher grade with clear definition on the devices ☆ (1795) Washington Liberty and Security Penny. **Breen 1254**. VF details, dents of a sizable nature and a few scratches. Devices generally intact and the copper is smooth and free of roughness or porosity. (Total: 3 pieces)
- 3056** Pair of Confederation era type coins: ☆ 1785 Nova Constellatio copper. **Cr.3-B. Pointed Rays, CONSTELLATIO**. VG-8 Dark and rough surfaces, with the designs identifiable ☆ 1787 Connecticut copper. **M.1.2-C. MBR. Mutton Head**. VG-10 but struck from an advanced die state so the strike is weak in areas. Light tan with moderate circulation nicks, attractive quality despite the wear and strike issues. (Total: 2 pieces)
- 3057** Pair of popular Confederation period types: ☆ 1785 Nova Constellatio copper. **Cr.3-B. Pointed Rays, CONSTELLATIO**. Sharpness of Fine, corroded with rough surfaces on both sides ☆ 1787 Fugio copper. **Newman 7-T. Rarity-4. Pointed Rays, STATES UNITED**. Sharpness of VG. Corroded. Dark and rough, especially the central obverse. (Total: 2 pieces)

WASHINGTON PIECES

- 3058** Undated Washington Double Head cent. **Breen 1204. AU-50**. Both sides have old pin scratches which criss-cross over the portrait, but these are old and toned over. Sharply struck and medium brown copper.
- 3059** Undated Washington Double Head cent. **Breen 1204. Sharpness of EF**, but rim bent below tip of bust on WASHINGTON side. Medium golden brown, nice.
- 3060** Undated Washington Double Head cent. **Breen 1204. VG-8**. Nice smooth surfaces and even wear, with no troubling roughness or porosity. A coin that must have stayed in circulation for many, many years, but came down to us with enough definition to clearly identify it.

- 3061** 1795 Liberty and Security halfpenny muling. **Breen 1266. Irish halfpenny reverse. EF-40 (NGC)**. Dark brown with smooth surfaces that show just a faint hint of microporosity and a small rough patch on the upper reverse in the field. A curious muling that has been considered quite rare for many years, but a few more have turned up and these are available with patience. The reverse is rotated about 30 degrees counterclockwise. The strike is better than average, especially at the centers, but a trifle soft on the head.

- 3062** Undated Washington Success token. **Breen 1286. Large Size, Reeded Edge. VF-25 (PCGS)**. Brassy golden color contrasts with darker toning around legends and devices. Some faint hairlines betray an old cleaning, few pinscratches in right obverse field and central reverse.
- 3063** (1795) Washington North Wales halfpenny. **Breen 1295, Baker 34. Two star reverse. Sharpness of Fine**, surfaces badly corroded. 64.8 gns. Golden brown high points, dark and rough overall. Struck on a very thin planchet, the thinness exacerbated by the corrosion.

FUGIO COPPERS

- 3064** 1787 Fugio copper. **Newman 3-D. Rarity-3. Club Rays, Rounded Ends. Sharpness of VF**. Corroded. Dark patina with moderately rough surfaces on both sides, but most of the design elements are intact.
- 3065** 1787 Fugio copper. **Newman 4-E. Rarity-3. Club Rays, Rounded Ends. Sharpness of VG**, but with rather rough surfaces and a dent in the left obverse. Bold definition beneath the patina.

3066 1787 Fugio copper. Newman 15-V. Rarity-5. Sharpness of EF. Scratched. Great light brown color and generally smooth surfaces that show just slight roughness but some knucklehead had to go and put seven pin scratches, mostly on the obverse but a couple on the reverse in a crossing pattern. This would still make an acceptable study coin, and the grade is high enough that the scratches can be tolerated.

3067 1787 Fugio copper. Newman 15-Y. Rarity-2. Pointed Rays, STATES UNITED. Star on Label. Fine-12, or better in terms of actual wear, however there is extensive corrosion on both sides. The degree of detail is substantial and is accompanied by chestnut brown patina. As is often encountered on this popular Fugio issue, the lettering weakens in areas near the obverse periphery, although none of this weakness is serious.

CONTEMPORARY CIRCULATING COUNTERFEIT ENGLISH AND IRISH HALFPENCE AND FARTHINGS

ENGLISH TYPE STRUCK COUNTERFEITS

George II

3068 1736 contemporary counterfeit farthing. George II English type. Very Good. 31.8 gns. Light to medium brown, with light porosity. Counterfeit farthings are scarce, especially the issues of George II.
From the John P. Lorenzo Collection.

3072 Pair of contemporary counterfeit George II English type halfpence: ☆ 1730 VG. Olive-brown, the rims worn into the tops of the legends and date, which are weak all around. Two corrosion areas on obverse, minor scratch on reverse. A scarce date ☆ 1751 Good. A well worn piece of a not usually seen style for 1751, King George's head being decidedly elongated. Date weak but visible. (Total: 2 pieces)
From the John P. Lorenzo Collection.

3073 1733 contemporary counterfeit halfpenny. George II English type. Simian style. AK-49. Very Fine. 87.8 gns. Hard, dark brown surfaces show minor porosity in areas. Well struck overall, some weakness is noted at right periphery of both sides. Date is partially off flan but clearly visible; previously thought to be a 1773/33 overdate.
From the John P. Lorenzo Collection.

3069 17XX contemporary counterfeit farthing. George II English type. Simian style. Choice Extremely Fine. 23.3 gns. A classic Simian style counterfeit exhibiting a box-shaped George II, spidery lettering, and the distinct "monkey arm" on Britannia. Date is unfortunately partially off flan, while some granularity affects right reverse. A scarce issue.
From the John P. Lorenzo Collection; purchased from the Fourth Annual C-4 Convention Sale, November 1998, Lot 483.

3074 1733 contemporary counterfeit halfpenny. George II English type. Simian style. Rev. of AK-49. Very Fine. 75.3 gns. An incredible coin, the reverse die being the same as the coin above but in a much later, broken and failing state. Light corrosion and pits in areas, excusable by the sheer crudeness of the designs.
From the John P. Lorenzo Collection.

3070 Study lot of George II and III English type contemporary counterfeit farthings: ☆ George II. 1754 Cast in White Metal. Fine. Old deposits. George III: ☆ 177X Simian style. VF. Obverse scratches ☆ 1774 Good. Corroded, curved clip, slightly off-center ☆ 1775 (2). Both are about EF, one is smooth, the other porous ☆ No Date (3). Two exhibit planchet clips, one of which is damaged. (Total: 8 pieces)
From the John P. Lorenzo Collection.

3075 Trio of scarce contemporary counterfeit George II English type halfpence: ☆ 1733 VG. Dark brown and slightly porous, with some corrosion on reverse ☆ 1734 AK-129. VF by wear, obverse displays some bad patches of corrosion. 4 of date off flan ☆ 1748 VG. Dark brown and porous, bottoms of date off flan. A good starter trio of scarcely encountered George II struck counterfeits. (Total: 3 pieces)
From the John P. Lorenzo Collection.

3071 1774 contemporary counterfeit George III English denomination pairing: ☆ Farthing. Very Fine. Smooth and light brown, with a few circulation marks. Farthings are far scarcer than halfpence in counterfeit form ☆ Halfpenny. Extremely Fine. A well made counterfeit that is light brown and exhibits some central striking softness. (Total: 2 pieces)

- 3076 1735 contemporary counterfeit halfpenny. George II English type. Very Good.** 92.7 gns. Shallowly struck and well worn to a nice light brown hue, this specimen shows a wide 173 and a compact 5 in the date. Scarce among George II counterfeit dates.
From the John P. Lorenzo Collection.

- 3077 1736 contemporary counterfeit halfpenny. George II English type. Fine.** 106.0 gns. Miniature 1736 date is bold and clear, despite some corrosion that affects mostly central and right reverse. Dark brown and glossy in areas. The 1736 date among counterfeits is quite scarce, with none offered in the expansive first two parts of the Ringo collection.
From the John P. Lorenzo Collection.

- 3078 1752 contemporary counterfeit halfpenny. George II English type. Simian style. Very Good.** 78.3 gns. Peripheries weak, reverse struck from a failing die. Date is partly off flan, confirmation of date can probably be done by die matches to a superior specimen. A neat example of a George II Simian style halfpenny.
From the John P. Lorenzo Collection.

- 3079 1754 contemporary counterfeit halfpenny. George II English type. Fine.** 128.4 gns. A well made counterfeit of this last regally-issued date of George II halfpenny. Dark brown, uniformly porous fields frame lighter devices. As a genuine halfpenny, the 1754 is an album weed; in struck counterfeit format, it is a true scarcity.
From the John P. Lorenzo Collection.

- 3080 Quartet of uncertain date contemporary counterfeit George II English type halfpence:** ☆ 17XX Good-VG. Consignor believed date to be 1714, but wear and poor strike obscure last two digits of date. Dark brown, usual circulation marks ☆ 173X VG, cleaned. Consignor thought 1737 was the date, 1733 is just as plausible ☆ 173X Simian style. Fine by wear. Porous and warped, but the reverse die shows one of the best "monkey arms" seen on the Simian style counterfeits ☆ 177X Muling. VG. Rough. Probably dated 1773, and a very scarce muling of a George II obverse with a reverse dated in the reign of George III. (Total: 4 pieces). **SOLD AS IS. NO RETURNS.**
From the John P. Lorenzo Collection.

George III

- 3081 1773 contemporary counterfeit halfpenny. George III English style. About Uncirculated.** 129.3 gns. Lustrous, ruddy brown surfaces define this high grade, well made circulating counterfeit.

- 3082 1775 contemporary counterfeit halfpenny. George III English type. The AK-9. Very Fine.** 104.6 gns. A pleasing, light brown example of one of the most distinct types in the entire contemporary counterfeit series. Well struck but a bit off-center, obscuring the legends and date at right periphery of both sides.
From the John P. Lorenzo Collection.

- 3083 Trio of 1775 contemporary counterfeit George III English style halfpence. Very Fine to Extremely Fine.** One is quite smooth and glossy, the other two in this trio of well made circulating counterfeits exhibit some light porosity and circulation marks. (Total: 3 pieces)

- 3084 1775 contemporary counterfeit halfpenny. George III English type. Double struck, reverse brockage. Fine.** 95.4 gns. The first strike was on center, then this coin was struck by the dies again, this time with an already struck coin intervening between the planchet and the reverse die. As a result, the reverse of the second strike is a brockage strike, showing the reversed impression of III RE. Surfaces are olive-brown and lightly porous.
From the John P. Lorenzo Collection.

- 3085 1775 contemporary counterfeit halfpenny. George III English type. Reverse brockage. Choice Fine.** 108.6 gns. Deep chestnut brown and glossy, this otherwise choice example of the popular brockage error exhibits an ever so slight bend to the planchet.
From the John P. Lorenzo Collection; purchased from the Ninth Annual C-4 Convention Sale, November 2003, Lot 583.

- 3086 Pair of 1775 George III English type contemporary counterfeit halfpenny error coins:** ☆ 1775 Obverse indent at 2:00. VG. Porous surfaces. Commonly referred to as a "tab strike" ☆ 1775 Struck from end of the planchet strip (?). Fine. Porous. Thought by the consignor to be some sort of planchet error, the dramatically tapered planchet shows a rounded arc on the obverse and an extraneous letter B to right of shield, pointing to the fact that this is probably some sort of striking error. (Total: 2 pieces)
From the John P. Lorenzo Collection.

- 3087 1776 contemporary imitation halfpenny. George III English style. About Extremely Fine.** 121.6 gns. Light olive-brown and quite attractive other than a few spots of verdigris at left reverse. No genuine halfpence dated 1776 were struck at the Tower Mint, making all so-dated pieces counterfeit by default! Popular for their scarcity and their magic 1776 date, this specimen is more than adequate to represent the year in a burgeoning contemporary counterfeit collection.

- 3088 Pair of 1777-dated contemporary imitation/evasion George III English type halfpence:** ☆ 1777 AK-159. Fine. Porous. Reverse weak, date not visible. Actually an evasion that reads GEORGIVS III DG REX ☆ 1777 Fine. Porous and pitted. Actually an evasion whose obverse reads GEORGE III REX. GILT stamped retrograde into reverse die, now obliterated by a die break and wear. See Ringo I, Lot 5969 for a similar piece. (Total: 2 pieces)
From the John P. Lorenzo Collection.

- 3089** 177X contemporary counterfeit halfpenny. George III English type. Simian style. IBP counterstamp. Very Fine. 70.2 gns. Crude IBP in serrated cartouche stamped on central obverse of this dark brown, very lightly porous Simian style counterfeit halfpenny. A doubly desirable specimen!

From the John P. Lorenzo Collection.

- 3090** 1794 contemporary imitation halfpenny. George III English type. AK-24. Fine. 96.0 gns. A nice, medium brown example of this impossible date of George III halfpenny - no genuine halfpence of this type were struck in 1794! Weakly struck as always found. Pale green deposits noted among legends. Here is a rather nice specimen of this well-collected and scarce issue. See Ringo I lots 5974 and 5976 for examples from the same dies.

From the John P. Lorenzo Collection.

- 3091** Dozen different George III English type counterfeit halfpence: ☆ 1771 (2) ☆ 1773 (2) ☆ 1774 ☆ 1775 (6) ☆ No Date. Grades range from Good to Very Fine, with many exhibiting condition problems. Best piece is a 1775 Simian style halfpenny that is Fine but porous, warped and unevenly worn. (Total: 12 pieces). **SOLD AS IS. NO RETURNS.**

From the John P. Lorenzo Collection.

- 3092** Group of counterstamps on mostly George III English type counterfeit halfpence: ☆ 1772 VG. *H&G / F* in heart-shaped stamp on obverse ☆ 1773 Fine. *S.BOWKER* on obverse ☆ 1774 VG. *1789* on obverse ☆ 1775 Good. *COOK* on reverse ☆ No Date. Good. *TATHAM* on reverse ☆ 178X Irish. VG, corrosion. *THYNES* on obverse. (Total: 6 pieces). **SOLD AS IS. NO RETURNS.**

According to our consignor, Thomas Hynes was a Baltimore silversmith active in the early to mid nineteenth century. See Kovel p.148.

From the John P. Lorenzo Collection.

IRISH TYPE STRUCK COUNTERFEITS

- 3093** 1751 contemporary counterfeit (?) halfpenny. George II Irish type. Very Fine. 118.0 gns. Gray-brown and uniformly porous, the finer details on this piece are quite crude, leading the consignor to believe that this may be a contemporary counterfeit. We are not fully convinced, as we find even genuine George II to be quite crude; luckily even *genuine* Irish George II coppers are scarce!

- 3094** 1776 contemporary counterfeit halfpenny. George III Irish type. Extremely Fine. 80.3 gns. A light-weight counterfeit struck on a planchet that was not large enough to accommodate the entire design, resulting in advanced wear and incomplete legends at the peripheries.

- 3095** 1781 contemporary counterfeit halfpenny. George III Irish type. Extremely Fine. 134.2 gns. Deep brown, hard surfaces exhibit minor obverse porosity. A well made contemporaneous counterfeit.

- 3096** 1781 contemporary counterfeit halfpenny. George III Irish type. About Very Fine. 107.5 gns. A very crude style, similar in crudeness to the rash of 1776s offered in lots 6021-6031 in Ringo part I. Dark gray-brown, lightly porous surfaces show uneven wear.

- 3097** Study lot of nine George III Irish type contemporary counterfeit halfpence: ☆ 1775 Muling. Obverse Type of 1769 ☆ 1776 ☆ 1781 (3) ☆ 1782 (4). Grade ranges from Good to Choice VF, with many specimens showing porosity or other problems. Best piece is the 1775, which shows the distinct head used on the 1769 George III Irish issue. (Total: 9 pieces). **SOLD AS IS. NO RETURNS.**

From the John P. Lorenzo Collection.

CONTEMPORARY CAST COUNTERFEITS

- 3098** Quartet of early contemporary cast counterfeit English type halfpence: ☆ No Date. William & Mary. White metal. VG. The soft composition has taken some bruises, but here is very distinct cast counterfeit ☆ 169X William III. White metal. Fine. Rough, as expected of the metal composition ☆ 1700 William III. Bronze. Fine. A lovely, smooth casting that shows some circulation marks. Here is a wonderful example of the type that was found in quantity in the "Philadelphia Highway Find" documented in the pages of the Numismatist circa 1980 ☆ 1719 George I. Good. A crude and desirable casting in bronze. Although casts of George II English halfpence are found with some regularity, cast contemporary counterfeits of the earlier types are quite rare. (Total: 4 pieces)

From the John P. Lorenzo Collection.

- 3099** Quintet of dated George II contemporary cast counterfeit halfpence: ☆ 1731 (2) ☆ 1738 (2) ☆ 1742. About Good to Fine. The 1738s are quite crude and worn, while the other three are well-preserved and high quality contemporary casts. A nice study group showing the diversity of casts - no two are every totally alike! (Total: 5 pieces)

From the John P. Lorenzo Collection.

- 3100** 1749 contemporary cast counterfeit halfpenny. George II English type. Fine. 134.5 gns. Medium brown with the usual casting flaws. Although we can not see the tail of the 9 in the date, the V in the obverse legend tells us that this is the type of 1746-54, leading us to 1749 rather than 1740 as the date on this coin. 1749 halfpence are collected among American Colonial coins, as the vast majority of 1749-dated English Regal coppers were shipped aboard the *Mermaid* to reimburse the Province of Massachusetts Bay for costs associated with the capture of Cape Breton from the French.

From the John P. Lorenzo Collection.

3101 1749 contemporary cast counterfeit halfpenny. George II English type. Brass. Very Good. 127.4 gns. A crude cast cleaned to a bright brassy yellow hue. The V in the obverse legend leads us to the 1749 date, as explained in the previous lot.

From the John P. Lorenzo Collection.

3102 Nine piece study group of uncertain date George II English type contemporary cast counterfeit halfpence: ☆ Young Bust (2) ☆ Old Bust with U in legend ☆ Old Bust with V in legend (6). Good to VF. Partial dates are visible on nearly all, but the inherent crudeness of the casting process often obscures details that are near the edge of the coin, such as the date. All coins exhibit the distinct waxy, indistinct “look” of cast coins, with casting flaws noted on all specimens. Cast counterfeits are generally scarcer than struck counterfeits, as casting

could produce only handful of coins at a time, while a pair of dies mounted in a press could strike thousands of coins in short order. (Total: 9 pieces). **SOLD AS IS. NO RETURNS.**

From the John P. Lorenzo Collection.

3103 Pair of rare cast contemporary counterfeit Irish George III halfpence: ☆ 1769 Type I. VG. A well-made cast that has worn to a nice medium brown tone ☆ 1782 VF. Slightly damaged, but an awesome, crude casting that shows a double impression from slippage in the casting mold. Contemporary cast counterfeit Irish coins are much rarer than English ones, while any casts of George III types are doubly rare, as the method of counterfeit manufacture during George III’s reign had shifted mostly to the striking method. (Total: 2 pieces)

From the John P. Lorenzo Collection.

REGAL EVASION HALFPENCE AND FARTHINGS

Regal Evasions are closely tied to the contemporary counterfeit halfpence and farthings that proliferated in the late 18th century England and Ireland in response to the lack of small change production by the Royal Mint. As counterfeiting laws were harsh, wily and ever entrepreneurial counterfeiters thought to change the legends on their “counterfeits” so as to *evade* the counterfeiting laws; hence the term “Evasions” to describe this series. So if a coin didn’t match exactly the Royal Mint’s coins, then it wasn’t a counterfeit and the “counterfeiter” couldn’t be punished under the law. For example, the official legend GEORGIVS III REX would be turned simply into GEORGE RULES or something more mangled like GRUMRUIS ITINEX. The evasions were also often weakly struck from shallowly engraved dies so as to create coins that looked worn from get go, blending in with the plethora of well worn

copper junk that was then in circulation.

The token manufacturers were the main source of Evasions and they were quite prolific: well over 500 die combinations of Evasions have been documented by two students of the series. James Atkins appended a listing of these coppers to his 1892 reference *Tokens of the 18th Century* (a photocopy of the relevant pages can be sent to any interested parties). This listing has been expanded by a British collector/dealer who goes by the nom de plume A.B. Cobwright in his out-of-print volume *Evasives* (sometimes available from American token dealer William McKivor). The Atkins numbers are simpler, so we have chosen to use them here; connoisseurs of the series prefer Cobwright numbers, as they reflect better research and differentiate better the minor differences in die combinations that Atkins did not list or notice.

EVASION HALFPENCE

3104 Nine Evasion halfpence with “non-traditional” designs. Generally, Evasions closely follow the bust styles and reverse motifs of the genuine Regal halfpence that they aim to mimic. This group involves types and styles that deviate greatly from the Regal halfpence, such as the ornate slightly turned bust of King Alfred on Atkins 2 or the “BE AS YOU SEEM TO BE” clasped hands reverse on Atkins 314. Issues include: ☆ Atkins-2. Choice EF. Little wear, minor field marks ☆ A-59. VF-EF. Glossy brown, minor flan crack ☆ A-314. EF. Lightly cleaned ☆ A-379. EF. Cleaned and retoned. One of the most ubiquitous Evasion halfpence ☆ A-398. EF. Planchet spots, minor surface marks ☆ A-416. Fine ☆ A-421. Choice Fine ☆ A-429. EF. Glossy brown ☆ A-444. EF. Dark brown and nice. The last scarce piece exhibits a sun rising on “Hispanniola” in the form of seated Britannia! (Total: 9 pieces)

From the John P. Lorenzo Collection.

3105 Evasion halfpenny octet featuring the issues of William Lutwyche. Obverse types include ALFRED THE GREAT, COLONEL KIRK, and THOMAS SEYMOUR: ☆ A-4. VF-EF, minor scratches in obverse field ☆ A-5. VF-EF. Normal minor circulation marks ☆ A-61. EF-AU, perhaps cleaned long, long ago ☆ A-64. Choice EF. Sharp, little actual wear ☆ A-439. Glossy Choice EF. Weak centers due to thin flan ☆ A-440. VF-EF ☆ A-442. Choice VF ☆ A-443. VF. Obverse lamination. These coins were produced by Birmingham token manufacturer and counterfeiter William Lutwyche, which we know because of die links with Conder tokens that Lutwyche is known to have struck. (Total: 8 pieces)

From the John P. Lorenzo Collection.

3106 A baker’s dozen Evasion halfpence featuring widely varying obverse types: ☆ A-18. About EF. Glossy, usual beveled edge seen on this issue ☆ A-51. Choice EF and essentially as struck for the type. Little wear, but extremely poorly struck from worn dies ☆ A-204. Technical VF, perhaps cleaned in the past ☆ A-259. VF. Glossy brown, reverse flan flaw ☆ A-261. VF. Light brown, planchet lamination ☆ A-316. VF-EF. Choice ☆ A-320. About VF. Ruddy brown ☆ A-384. Fine. Many circulation marks ☆ A-411. About VF. Medium brown, weak centers ☆ A-422. Fine ☆ A-423. VF-EF. Minor scratch ☆ A-426. Choice VF. Blue-brow and pleasing ☆ A-433. EF. Poorly struck as usual, but little actual wear may be found. (Total: 13 pieces)

From the John P. Lorenzo Collection.

3107 No Date. Evasion halfpenny. CLADUIS ROMANUS/ BRITANNIA TOKEN. Atkins 33. Cobwright C.0048/B.0660. Double struck. Choice Very Fine. Initially struck about 25% off-center, then restruck on center, nearly obliterating the initial strike. Enough remains of the initial strike at left obverse and upper reverse to make this a very desirable error coin in a very broad (500+ die marriages) series in which few error coins like this have survived. Light brown, with minor excusable hairlines at obverse effigy’s head.

From the John P. Lorenzo Collection.

3108 Ten Evasion halfpence with surface issues: ☆ A-50. Fine. Minor surface bruises ☆ A-56. VF. "Dry riverbed" type corrosion on obverse ☆ A-203. VG. Edge bruised ☆ A-283. VG. Hairlines ☆ A-300. VG. Already thin flan has been flattened ☆ A-347. VG. Old scratch ☆ A-365. Fine. Dark obverse toning band ☆ A-376. Fine. Old "X" on reverse ☆ A-395. VG. Rough. (Total: 10 pieces)

From the John P. Lorenzo Collection.

3109 Eight William Lutwyche produced Evasion halfpence: ☆ A-92. VF-EF. Dark brown, reverse pin scratch ☆ A-289. VF-EF. Dark iridescent brown surfaces are a bit porous ☆ A-401. VF. Chestnut brown ☆ A-409. EF-AU. Choice golden brown surfaces ☆ A-410. EF. Choice dark brown surfaces ☆ A-436. Fine-VF. Mottled brown ☆ A-438. Fine. Glossy ☆ A-438. EF. Old planchet stain. Struck from a very slightly different reverse die than the previous coin. Die linkages and general style allow us to attribute these issues to William Lutwyche, a prolific Birmingham manufacturer of tokens and counterfeits. (Total: 8 pieces)

From the John P. Lorenzo Collection.

3110 Eleven different Evasion halfpence. Obverse types are concentrated on GEORGE RULES, GREGORY III PON, and types beginning with GLORIOVS or some variant thereof: ☆ A-168. Fine. Weak at lower peripheries ☆ A-188. Choice VF for type ☆ A-268. About EF. A glossy, beautiful example of this BONNY GIRL reverse type ☆ A-281. VF. Dark brown ☆ A-297. VF. Medium brown ☆ A-361. Fine. *WB / A.T* counterstamped on obverse ☆ A-292. VF. A nice-looking piece ☆ Cobwright G.0210/B.0260. About EF. Trouble-free ☆ C-0310/N.0130. Fine. Slightly iridescent dark brown ☆ C-G.0830/B.0850. VF-EF. Glossy, striated planchet ☆ C-G.1110/B.0120. Technically VF, almost no central detail was imparted by the dies! The last four pieces were not listed by Atkins or are ambiguous relative to the vague Atkins listings, so we have provided Cobwright numbers instead. (Total: 11 pieces)

From the John P. Lorenzo Collection.

3111 Pair of lettered edge Evasion halfpence: ☆ A-285, C-G.0810/V.0010. PAYABLE AT LONDON OR BRIGHTON edge. EF. Minor circulation marks ☆ A-437, C-S.0090/N.0210. PAYABLE IN LANCASTER LONDON OR BRISTOL edge. About EF. Old scratches in right obverse field. The Castaing machine slipped during application of the edge, with the words Lancaster and London grossly overlapping. Very few varieties in the vast Evasion series are found with lettered edges. (Total: 2 pieces)

Usually, Evasion halfpence are struck on thin, underweight flans that do not provide enough metal to complete the designs. Conder token flans often feature lettered edges and are thicker to accommodate the edge. As most Evasion halfpence were produced by outfits that also produced lettered edge Conder tokens, it would not stretch the imagination that sometimes they would have used whatever planchets were on hand, whether originally intended for Evasions or Conders.

EVASION FARTHINGS

3112 1777 Evasion farthing. Atkins-unlisted, Cobwright-unlisted. GLORIOUS PEL LEW/BRITANNIA. Struck 15% off-center. Choice EF. Although this die combination was not listed by either Atkins or Cobwright, Cobwright lists both obverse and reverse dies, so we can infer that the Cobwright number should be G.0200/B.0120. Here is an incredible combination of a rarely seen error on a die pairing that was not recorded by either of the main students of Evasion halfpence in the last 120 years! Surfaces show little wear, but a few circulation marks are noted as is a corrosion spot above obverse effigy's chest.

From the John P. Lorenzo Collection, purchased from Mike Ringo.

3113 Quintet of high grade, interrelated Evasion farthings. The similar style of the designs, sometime use of nonsensical legends, generally very thin planchet stock, and the use of non-traditional reverses link this group to same workshop: ☆ A-452. EF. Golden brown, very light hairlines ☆ A-454. Thin planchet. VF-EF. Minor cut at 1:00. Early die states ☆ A-454. Thin planchet. EF. Late die state with a huge die break at 10:00 on obverse ☆ A-unlisted, C-unlisted. Thick planchet. About EF. Struck from the same obverse die as A-454, in the stage with the pronounced obverse die break. Although the die combination is not listed, Cobright identifies both dies, so we can surmise that this combination would be Cobwright G.0020/F.0020 ☆ A-478. EF-AU. Little wear, uneven strike. A great study grouping. (Total: 5 pieces)

From the John P. Lorenzo Collection.

3114 Fourteen different Evasion farthings featuring a large variety of types: ☆ A-455. VF. Choice ☆ A-458. Fine. Cleaned in the distant past ☆ A-479. Fine. Rough ☆ A-480. Fine. Some porosity ☆ A-480. Fine. Damaged ☆ A-481. About Fine. Damaged ☆ A-482. Choice EF. A superb survivor ☆ A-484. About VF. Medium brown, minor pin scratch ☆ A-486. Technical Fine ☆ A-487. Technical VF. Very thin planchet and poorly engraved dies combine to give a high grade coin with barely any remaining detail! ☆ A-488. About VF. Cleaned in the past ☆ A-490. About VF. Very weakly struck ☆ A-491. Choice VF. Medium brown and problem free ☆ A-unlisted, Cobwright G.0140/F.0020. Choice VF, circular mark at obverse center. (Total: 14 pieces)

From the John P. Lorenzo Collection.

3115 Ten different Evasion farthings with obverse type GEORGE RULES or some minor variation: ☆ A-461. Fine. Chocolate brown ☆ A-462. About Fine. Minor porosity ☆ A-463. Fine ☆ A-464. AU-Uncirculated. Corrosion spots on obverse ☆ A-465. About Fine ☆ A-466. VF. Smooth, with some minor roughness. A very interesting obverse bust type ☆ A-467. Technical Fine. Very thin planchet. Dark brown ☆ A-468. Fine. Hairlined ☆ A-unlisted, Cobwright G.0050/B.0220. VF. Dark brown and glossy, minor reverse scratches. (Total: 10 pieces)

From the John P. Lorenzo Collection.

3116 Quintet of mostly halfpenny denomination Conder tokens also muled into the Evasion halfpenny series: ☆ Hampshire. D&H 14. Earl Howe. EF. Hairlined ☆ Middlesex. D&H 989. Frederick Duke of York. EF. Golden brown ☆ Farthing. Middlesex. D&H 1163. Fine. Rough ☆ Warwickshire. D&H 327f. Shakespeare. Choice AU. Glossy, profile surfaces show some hairlining ☆ Warwickshire. D&H 463. John Wilkinson Iron Master. EF. Olive-brown. (Total: 5 pieces)

From the John P. Lorenzo Collection.

U.S. HALF CENTS

- 3151 1794 Cohen 1a, Breen 1a. Rarity-3. AG-3.** The obverse shows Liberty's head well outlined, but the reverse is smooth in areas but the wreath and portions of the legends show in terms of definition. Both sides have some pin scratches. The date has worn away on the obverse and the surfaces are slightly rough.
- 3152 1794 C-9, B-9. Rarity-2. VG-7/ Poor-1.** Nicer on the obverse with Liberty's head sharp, the date legible and LIBERTY clear. On the reverse the definition is worn smooth and several minor scratches are found there, and a minor rim bruise on the obverse at 3:00.
- 3153 1795 C-6a, B-6a. Rarity-3. Plain Edge. AG-3.** Lightly cleaned long ago, surfaces are now a mix of pale salmon and deeper brown. Obverse effigy strong, last date digit a trifle weak. A decent representative of the type.
- 3154 1797 C-2, B-2a. Rarity-3. Plain Edge. VG-10 details.** With surface corrosion and moderate porosity on both sides. Edge clip at the top of the obverse. The portrait and devices are all clear save for a few letters on each side in the legends. These historic coppers were struck from any available copper sources and a good number show clips and minting blunders of every sort, creating a fertile field for collectors to enjoy this important denomination.
- 3155 Trio of Draped Bust half cents:** ☆ 1800 C-1, B-1. **Rarity-1. VG-8.** Several moderate digs on both sides ☆ 1803 C-3, B-3. **Rarity-1. VG-8.** Dark olive patina ☆ 1805 C-1, B-1. **Rarity-1. Stemless. Fine-12.** A couple of digs in the left obverse field and mottled color. (Total: 3 pieces)
- 3156 1803 C-2, B-2. Rarity-4. VG-10.** With a few obverse scratches on the lower portion of Liberty and moderate porosity on the reverse. Attractive medium brown, with smooth wear otherwise, and a fairly early die state.
- 3157 1803 C-4, B-4. Rarity-4. Sharpness of F.** Hairline scratches and some rim marks are present, medium brown on both sides.
- 3158 A diverse offering of half cents:** ☆ 1804 C-13, B-10. **Rarity-1. Plain 4, Stemless. Good-4** that shows some signs of a past cleaning ☆ 1809 C-4, B-1. **Rarity-3+. AG-3** ☆ 1809 C-5, B-5. **Rarity-1. 9 over inverted 9. VG-8.** A pleasing planchet ☆ 1825 C-1, B-1. **Rarity-3+. EF-40** in terms of wear but the coin shows some areas of mild porosity ☆ 1829 C-1, B-1. **Rarity-1. VF-20.** A few light scratches ☆ 1853 C-1, B-1. **Rarity-1. EF-40** but shows signs of a past cleaning ☆ 1856 C-1, B-2a. **Rarity-2. VF-20** but shows evidence of a past cleaning. (Total: 7 pieces)
- 3159 1806 C-2, B-1. Rarity-4. Small 6, Stems. AG-3.** Perhaps a point or two better, with slightly uneven wear that has smoothed over the tops of LIBE but the reverse rims are intact. Clear date and devices otherwise. Minor spots on smooth copper; decent color and surfaces for this is date.
- 3160 Trio of attributed half cents:** ☆ 1808 C-3, B-3. **Rarity-1. VG-7.** Dark olive surfaces and verdigris around Liberty, rotated reverse die ☆ 1809/6 C-5, B-5. **Rarity-1. VG-7.** Portrait scratches and dark ☆ 1828 C-3, B-2. **Rarity-1. 13 Stars. Good-4.** Nice color and average surfaces. (Total: 3 pieces)
- 3161 1809/6 C-5, B-5. Rarity-1. AU-50 details.** Defective planchet with a couple of very minor fissures around the upper left star, others scarcely merit notice. Dark glossy brown surfaces, sharply struck and pleasing for this Blundered Date variety.
- 3162 1826 C-2, B-2. Rarity-3+. Sharpness of AU.** Subtle traces of obverse cleaning. Nicely toned back to a more natural brown hue today.
- 3163 Trio of late middle date half cents:** ☆ 1828 C-2, B-3. **Rarity-2. 12 Stars. Fine-12.** Slightly rough surfaces and brown color ☆ 1834 C-1, B-1. **Rarity-1. EF-40.** Tooling above Liberty's head, less so on the bottom of the reverse and stained in those areas, light brown and attractive otherwise ☆ 1835 C-1, B-1. **Rarity-1. EF-40.** A few minor edge nicks and verdigris. (Total: 3 pieces)
- 3164 1829 C-1, B-1. Rarity-1. MS-62 BN (PCGS).** Lovely smooth fields exuding soft gold-tinged lustre under the light brown toning. A few light charcoal spots, but none are distracting or overly dark.
#001153
- 3165 1833 C-1, B-1. Rarity-1. AU-53.** Nice medium brown but there are a few facial scrapes and central hairlines on the reverse and a small edge bump above ST of STATES.

- 3166 1834 C-1, B-1. Rarity-1. MS-63 RB.** This one has about 10% red on the obverse and more on the reverse, with balance of the mint color fading to tan and brown. Sharply struck on the stars, curls and wreath with clean surfaces that retain ample eye appeal.
- 3167 1834 C-1, B-1. Rarity-1. MS-60.** A coin that has been cleaned and recolored, leaving the surfaces unnatural in appearance. A good strike helps the appearance, but could use some TLC to restore it to its original beauty.
- 3168 1850 C-1, B-1. Rarity-1. Sharpness of Mint State.** Deceptive cleaning with brassy accents surrounding the devices, medium brown elsewhere.
- 3169 1850 C-1, B-1. Rarity-1. AU-58.** Likely cleaned and attractively retoned. Well struck and attractive with iridescent blue and greenish hints in the fields. Smooth surfaces with scarcely a whisper of wear on the high points.
- 3170 1851 C-1, B-1. Rarity-1. AU-53.** Subtle traces of mint color survive near the devices and there is a faint hairline scratch down Liberty's cheek. Nice even brown toning and no spots.
- 3171 1853 C-1, B-1. Rarity-1. MS-60.** There is a rim mark at 6:00 on the obverse, as well as a tiny reverse planchet flaw in the denticles at 6:30. The central definition of this olive-brown example is particularly sharp, and is augmented by a full measure of underlying satin-like mint lustre.

U.S. LARGE CENTS

- 3172 1794 Sheldon 22. Rarity-1. VG-8/AG-3.** Smooth wear and attractive for this early cent, the date and head of Liberty are sharp, but the reverse has more wear with about half the legend gone and the wreath smooth in areas. A couple of rim marks and surface scrapes, but pleasing overall for a well circulated piece of early copper.
- 3173 1794 S-31. Rarity-2. Sharpness of VF,** but pitted and porous. Cleaned in the past and now mostly olive-brown with faint blue and sea green highlights.
- 3174 1794 S-62. Rarity-4+. Sharpness of Good.** Corrosion and uneven patina on both sides, but identifiable.
- 3175 1795 S-77. Rarity-3+. Plain Edge. Sharpness of Good.** However, some features are significantly sharper but there are scattered nicks most prevalent on the obverse, nice copper surfaces otherwise.
- 3176 1795 S-77. Rarity-3+. Plain Edge. Good-6,** or perhaps a tad finer in terms of quality, but the surfaces are finely granular on both sides.
- 3177 A low grade trio of early large cents:** ☆ 1795 S-78. **Rarity-1. Plain Edge. AG-3** overall with the obverse grading a full Good-6. The reverse has some of the legend missing but the planchet is a smooth, hard medium brown ☆ 1796 S-? Liberty Cap. Basal State-1. The coin has been planed down so that the planchet is smaller and the reverse is completely missing. Full date, LIBERTY and head design is seen on the obverse ☆ 1798 S-169. **Rarity-3. VG-8** in terms of wear but the coin has pockets of moderate porosity on both sides. Full date, head detail and reverse legends are found without aide of a glass. (Total: 3 pieces)
- 3178 1796 S-106. Rarity-5-. Draped Bust, Reverse of '94. Sharpness of VF.** Heavy roughness and porosity on both sides diminish the visual appeal. A scarcer variety that is seldom found nice, this one has the technical grade but not the surface quality.
- 3179 1796 S-108. Rarity-5. Draped Bust, Reverse of '94. Sharpness of VF.** Dark and rough on both sides with porosity and corrosion. Dark olive surfaces but strong definition on the devices.
- 3180 1797 S-120A. Rarity-3. Plain Edge, Reverse of '96. Sharpness of VG.** Holed and plugged at the upper obverse, moderately rough surfaces and a curved mark below LI.
- 3181 1797 S-121b. Rarity-3-. Grippled Edge, Reverse of '96. Sharpness of VG.** Rough with scrapes and scratches and a rather solid dent on the lower right reverse. The devices and legends are sharp despite the granularity.
- 3182 Pair of Draped Bust large cents:** ☆ 1797 S-137. **Rarity-2. AG-3.** Dark and corroded surfaces and a scratch on Liberty's head ☆ 1798 S-189. **Rarity-2. Good-5.** Dark brown with a bit of gloss and one minor red patch on the reverse. (Total: 2 pieces)
- 3183 1798 S-163. Rarity-4-. First Hair Style. Sharpness of VF.** Pitting and lightly but uniformly porous surfaces. Patches of charcoal but generally medium brown. Later die state with an edge cud below the bust.
- 3184 1798 S-167. Rarity-1. Second Hair Style. Sharpness of Fine-12,** but with several scratches in Liberty's hair to mimic finer strands of seductive allure and a few more on the reverse as practice. Medium brown and reasonably attractive to the naked eye, die crack through the right obverse field to Liberty's eye, on the reverse another splits TA to the O of ONE.
- 3185 1798 S-175. Rarity-4. Sharpness of VF.** Porous, but evenly so on both sides. Medium brown and this one has a lot of meat to the devices. Reverse cracks at A(TES) and C(A), and heavy rim break to the top of U.
- 3186 1798 S-181. Rarity-3. Sharpness of Fine.** Noticeable porosity, which blurs the definition with encrusted surfaces that show deep ebony and greenish inundations swamping the fields. Lumpy die crack below ribbon, another to the top ribbon.
- 3187 1800/798 S-191. Rarity-2. Good-6.** Average quality for a modest grade, with decent copper that shows moderate circulation marks but lacks the porosity that so often mars these. The pair of dies chosen to create this marriage were both old and the reverse particularly was worn out.
The obverse has the utterly blundered date with 3 of the 4 digits "corrected" to the current (presumably) year of 1800 from 1798, of only the 1798 die had waited until 2000 the overdate could have been even more dramatic. The reverse die shows extensive injury and sinking, particularly at the fraction, which is missing from die sinking.
- 3188 1800 S-207. Rarity-3+. Sharpness of VF.** Granular surfaces exhibit a pair of reverse marks beneath olive-brown patina, one at the rim above A(TES), the other slices through the top of the T of CENT as well as above and below. Early to middle die state with the reverse triangular die sinking to the center 0 of the fraction.
- 3189 Quartet of large cents:** ☆ 1801 S-219. **Rarity-2. 3 Errors Reverse.** Good-4. Smooth wear and copper, but dented at ER of LIBERTY and the fraction ☆ 1803 S-257. **Rarity-2. Good-5.** Very late die state with a heavy break obliterating STATES, nice surfaces for a well circulated copper ☆ 1810/09 S-281. **Rarity-1. VG-7.** A few scratches on Liberty's head and dents, but decent copper surfaces ☆ 1812 S-290. **Rarity-1. VG-8,** lightly cleaned. (Total: 4 pieces)
- 3190 Trio of large cents:** ☆ 1801 S-219. **Rarity-2. 3 Errors Reverse.** Sharpness of Fair but quite rough and corroded ☆ 1807 S-274. **Rarity-3.** Sharpness of VF with some minor edge nicks and scrapes. Smooth copper and nice color ☆ 1812 S-289. **Rarity-1. Large Date.** Sharpness of Good but damaged with scratches on the word LIBERTY and others of more minor notice. (Total: 3 pieces)
- 3191 1801 S-222. Rarity-1. Sharpness of VF.** Heavily corroded on both sides with lunar surfaces that crater the eye appeal in areas, others remain less challenging. Important definition is prevalent, the date is sharp and the defining die attributes.
- 3192 1801 S-223. Rarity-1. 1/000. Sharpness of Fine.** Chestnut brown surfaces are rather rough, with deeper ebony on Liberty. An interior dent resides on the left wreath below (UNITE)D, which pushes through to the obverse. Rim cud to the middle and tops of RT on the obverse.

3193 1802 S-232. Rarity-1. Sharpness of EF. Scratched, altered surfaces. The obverse has a few scratches which have been overzealously torched to the degree that the copper surface melted into fine roughness, partially melting the scratches on Liberty's face and hair. A few other scuffs are noticed with a loupe, and the reverse has the cud to the tops of AT(ES).

3194 1802 S-241. Rarity-1. Stemless. EF-40. Less than average surfaces with a fine degree of microporosity on both sides and the strike is considerably soft on the upper portion of the obverse and corresponding section of the reverse, not out of the norm for this variety. However, Liberty's hair is sharp and shows bold striking on her curls down to her bust, and the reverse is similar with sharp definition on the upper two-thirds, softer on the lower portion. The surfaces are otherwise attractive with minimal incursions from circulation.

3195 1803 S-260. Rarity-1. VF-20. Medium to dark brown with microporosity on both sides. The surfaces are otherwise decent.

3196 1806 S-270. Rarity-1. Curved clip. Sharpness of VF. Vertical scratch at the upper obverse from below Liberty's ear up to the top of her head is accompanied by microgranularity and verdigris on the reverse. The color is even and circulation marks are minimal aside from the scratch.

3197 (1807) S-276. Rarity-1. Struck 25% off center. Rotated reverse. Sharpness of VG-10. Holed. Graffiti. Struck off-center toward the 8:00 o'clock on the obverse, which did leave the date off the edge entirely. The hole is placed at the edge of the struck coin to the right of LIBERTY for suspension, and there is light graffiti in the unstruck portion of the planchet on the obverse. Typical medium brown surfaces with no other problems. An appealing early mint error, dramatically off-center with the devices clear and sharp, and undoubtedly a treasured memento since the time it was struck. Identifiable by the Large Fraction reverse, and careful matching of the various leaf positions and placement of LIBERTY above the head to confirm the date and attribution, along with the rotated reverse, a feature common to this die pairing. The reverse is rotated about 45 degrees counter clockwise.

3198 1808 S-277. Rarity-2. EF DETAILS (NCS). "Corroded." The corrosion is rather heavy and the coin is even black olive with rough, corroded surfaces throughout. All device definition is clear, including the advanced reverse die crack on the upper left. First year of the Classic Head design, and these are all too often found with rough surfaces.

3199 1809 S-280. Rarity-2. Fine-15/VF-20. Hints of microgranularity are not at all offensive particularly for this troublesome type and date. Clear die crack at star 11, and on the upper reverse down through (STAT)E.

3200 1811 S-287. Rarity-2. Sharpness of VF. Altered surfaces. Struck about 3 percent off-center toward 10:00 o'clock on the obverse, the reverse close to being centered. On the reverse it shows signs of smoothing around ONE CENT of minor handling marks and digs that inhabit both sides. Not quite average surfaces, but reasonable smooth copper that shows ample circulation and handling evidence.

3201 1814 S-295. Rarity-1. Plain 4. Sharpness of EF. Heavy porosity on both sides but bold definition beneath. As with so many of the Classic head coppers, if the definition is strong, the surfaces are compromised by porosity and roughness. Finding these with smooth brown copper is a considerable challenge, but this one at least has the high technical grade to offer the collector.

3202 1816 Newcomb 4. Rarity-2. Sharpness of AU. Graffiti on both sides that is quite faint but in the form of thin pin scratches. Well struck and attractive medium brown in color.

3203 1816 N-4. Rarity-2. EF-45. Dark chocolate brown with tinges of lighter hues in the protected areas. Well struck with just a bit of wear on the high points, and a minor edge nick on the upper right obverse.

3204 1824 N-4. Rarity-2. Sharpness of VF. Uniform granularity and dark brown surfaces that show just a couple of trivial scratches on the reverse. Strong date and smoother copper on the worn areas of Liberty's cheek and the wreath.

3205 1826 N-5. Rarity-2+. VF-35. Nice medium brown toning with smooth, even wear. Later die state with extensive rim crumbling on the upper left obverse. Average or better surfaces with no troubling bagmarks or circulation issues, and the copper is pleasing.

3206 1828 N-6. Rarity-1. Sharpness of AU. Porous on both sides to a modest degree, but such strong definition survives as to make this one desirable. The fields have areas that are smooth, others that show the roughness into the surface.

3207 1845 N-2. Rarity-1. Sharpness of Mint State. Stained on the upper obverse with greenish-gray hues, elsewhere soft brown tones. A few stains exist on the reverse with a patch of green on the rim and mottled green-gray staining on the lower third of that side. Boldly struck and the surfaces retain some appeal despite past storage challenges. Strong definition on Liberty's curls and the wreath.

3208 1853 N-27. Rarity-1. EF-45. Deep golden tan with strong central details and no serious marks. A touch of detritus, easily removed with a rose thorn or toothpick, can be seen in the reverse wreath.

3209 1855 N-4. Rarity-1. Upright 55. AU-50. Glossy golden tan with some chestnut highlights. No serious marks, light detritus in the deepest design details.

3210 Four large cent-sized Type II blank planchets. All are about VF. The first two are 27.4mm and weigh 168.6 grains, and show the scratches and hits received over the last 150 or more years since large cents were struck. The statutory weight for large cents is 168.0 grains. The third and fourth are 27.5mm and weigh 161.4 grains and 157.5 grains respectively. The heavier piece exhibits a minuscule clip. These could be underweight large cent planchets, Hard Times token planchets, or a planchet for one of the myriad other tokens of similar size issued in the 19th century. (Total: 4 pieces)

From the Estate of Michael K. Ringo.

3211 Pair of blank large cent planchets. Both have upset rims and one has a few old dents at the center. Popular with all collectors, these blank planchets give insight to the entire process of making coins. (Total: 2 pieces)

U.S. SMALL CENTS

3212 Small cent quartet: ☆ **1857 Flying Eagle. Snow 14. Doubled Die Obverse.** AU-53 details, but cleaned and recovering nicely ☆ **1859** AU-53 details or better, but cleaned and shows a couple of marks on the reverse ☆ **1863** AU-55. Sharp and lustrous ☆ **1953 Proof-64 RD.** A blazer with no carbon of any consequence. (Total: 4 pieces)

3213 1860 Round Bust. MS-64 (NGC). Highly lustrous golden surfaces with rich rose iridescence in ascendance. A nicely struck specimen from the first year of the new style with oak wreath and federal shield reverse.
#002058

3214 1864-LAU-55. Medium brown and sharp. This one has an interesting bisecting die crack through the 6 to the upper obverse rim.

3215 1864-L Sharpness of EF. Cleaned. Repunched date low. Retoned to a brownish-red color, but sharply struck and shows just moderate wear on the high points. The date is repunched on the tops of the 18.

3216 1866 Proof-64 RB (NGC). Attractive reddish-brown color throughout with enough mint color to please the eye and the needle sharpness of the Proof strike quite evident. The surfaces are virtually free of carbon but there is a minor stain at the base of TE of UNITED. An impressive coin for the collector to represent this elusive date and early Proof.

3217 Quartet of small cents: ☆ **1866** EF Details; NET VF-30 (ANACS). Corroded on both sides, dark brown and a die crack splits the 66 ☆ **1868** Sharpness of EF but lightly cleaned. Retoning with the usual woodgrain pattern ☆ **1878** Sharpness of EF with a large spot of corrosion on the obverse ☆ **1909-S Lincoln.** Sharpness of Fine with a long wavy dull scratch that arcs through the date and right side of the obverse. Nice brown color though. (Total: 4 pieces)

3218 A pair of semi-key date Indian Head Cents: ☆ **1869.** Normal Date. VF-30 in terms of detail but the coin has an unretained lamination above the head and some scattered scratches. Toned an unusual iridescent purple and gold ☆ **1872.** Bold N. Good-4 with the sharper design strength in some areas. Unfortunately, there are some corrosion specks seen on both sides. (Total: 2 pieces)

3219 1876 Sharpness of EF. Cleaned. The toning is now medium brown and a bit hazy, the surfaces average for this scarce and popular Centennial date.

3220 1879 Proof-62 RB (ANACS). Muted brown toning with a hint of iridescence on both sides and a bit dull as expected for the modest grade. A scarce early Proof issue, always in demand by date collectors.

3221 1885 Proof-64 RB (PCGS). Toned with rich purple-crimson hues on both sides, a feature that is highly desirable and rarely encountered on Proof Indian cents. There are a couple of minor specks common on these early Proofs, but these are easily overlooked when the exceptional color is seen. One complex lint mark on the upper left reverse and a tiny divot is seen at the base of the reverse.

Housed in a green label PCGS holder.

3222 Pair of 1908-S Indian Head cents: ☆ EF-45 with attractive medium brown surfaces and color ☆ EF-45, damaged with several scrapes favoring the edge of the obverse, a few nicks as well and patches of corrosion. (Total: 2 pieces)

3223 1908-S EF-40. A sharp example of the first branch mint cent issue. Although there are some minor corrosion spots and a rim nick on the reverse, this piece will serve well in a budget collection of Indian Head cents.

3224 1908-S VF-30. Excellent surfaces and pleasing medium brown color throughout with a bold strike too. Scarce and desirable.

3225 Foursome of 1909 V.D.B. cents, grades MS-63 to 64 RD. Four pleasingly lustrous coins, free of spots and attractive across the board. (Total: 4 pieces)

3226 1909-S V.D.B. AU-55. Pleasing golden brown toning with faint blue highlights. Most design features including the date, mintmark, and V.D.B. are sharp. Much satiny lustre can be seen in the fields. Perhaps the single most popular issue in all numismatics. It's almost certain that millions of school children who owned Lincoln cent folders during the 20th century dreamed of acquiring an example to add to their collections.

3227 1909-S V.D.B. EF-40. Natural light brown surfaces with a couple of trivial lines and nicks from handling. Bold features including the V.D.B. on the reverse. A delight and certain to please with smooth, even wear and solid eye appeal.

3228 1909-S Lincoln. AU-58 details. Polished. Bright and a bit brassy with the expected overly reflective surfaces from this particular cleaning process. Sharply struck with bold definition on all devices. Scarce with a mintage of 1,825,000 pieces.

3229 1909-S Lincoln. AU-50. Recolored. Quite sharply struck but the obverse shows a mix of brassy tan and brown in often-seen streak patterns and a minute planchet flaw is found past WE. Key date that sees strong demand and a low mintage too.

3230 1909-S Lincoln. Fine-12. Medium brown with areas of darker brown near the periphery. Average surfaces for this scarce date, with scattered nicks and marks from brief circulation.

3231 Scarce Lincoln cent duo: ☆ **1909-S** VF-20. Lovely brown over generally pleasing surfaces. There are two minor rim bumps on the obverse ☆ **1931-S** VF-20. An obverse rim bruise at 3:00 and a few reverse contact marks are present. Deep brown patina enhances this coin's appeal. (Total: 2 pieces)

3232 Trio of early Lincoln cents: ☆ **1910 MS-63 RB.** Slight fading but quite attractive ☆ **1917 MS-64 RB.** Red with a trace of carbon and quite sharp on all lettering and devices ☆ **1931-D** AU-50. Pleasing dark brown and satiny. (Total: 3 pieces)

- 3233 **1914-D Fine-15.** Pleasing light brown toning over surfaces that are natural and do not have any major detractors present. A respectable example of this key date coin that should be closely inspected to appreciate its overall appeal.
- 3234 **1916 MS-65 RB (ANACS).** Gleaming with sunset orange-red and brown lustre.
#002487
- 3235 **1922-D AU-50.** Attractive light brown with clean surfaces. A key date.
- 3236 **1931-S AU-58.** Natural medium brown on both sides with no annoying spots or specks. The strike is sharp and this one scarcely circulated.
- 3237 **1931-S AU-50.** Clean surfaces with perfect medium brown color and no spots or nicks to distract. A key date that is always in demand.
- 3238 **Pair of certified Lincoln cents:** ☆ **1937-D MS-67 RD (NGC).** Attractive bright red and a couple of colorful traces on the obverse ☆ **1959 Proof-67 RD CAMEO (NGC).** Sharp and blazing bright copper with pleasing contrast. (Total: 2 pieces)

U.S. TWO CENTS

- 3239 **1864 Small Motto. VF-20** or better in terms of wear but the coin has been lightly cleaned and shows signs of moderate to heavy porosity. A good strike with a full strong WE plainly visible. The D in God is small and the leaves have a stem under the E of WE which is characteristic of this scarce variety.

- 3240 **1864 Large Motto. MS-65 BN.** Mostly golden brown to chocolate brown with hints of faded red on both sides. Vivid pink, violet, and blue accents. The obverse is satiny. The reverse has subdued frosty lustre. Most design features are as sharp as could be desired save for a few of the horizontals in the shield.
- 3241 **A quartet of two cent pieces:** ☆ **1864 Large Motto. AU-58** with a planchet flaw at the right of the date. Previously cleaned to simulate mint color ☆ **1864 Large Motto. AU-58** with planchet roughness near the edge on both sides. Cleaned in the past to simulate mint color ☆ **1864 Large Motto. EF-40** or better with medium brown toning over well struck and nicely preserved surfaces ☆ **1867 VF-30.** A pleasing medium brown patina. (Total: 4 pieces)
- 3242 **1865 MS-64 RB.** Faded mint color on both sides with evidence of minor wood-grain hues settling in. The surfaces are pleasing with no distracting carbon areas, and both dies show minor cracks through the legends and devices.

U.S. THREE CENTS (SILVER)

(2x photo)

- 3243 **1851 MS-64 (PCGS).** Satiny steel-silver lustre with a couple of patches of blue-russet near the rims. The surfaces are clean and show none of the usual die clashing. A degree of haste can be seen in preparation around the shield with blundered die lines evident.
#003664
- 3244 **1858 EF-45.** Attractive golden gray toning on both the obverse and reverse, with lustre in the protected areas.
- 3245 **1859 Proof-60 DETAILS (ANACS).** “Proof, Cleaned.” Deeply mirrored surfaces on both sides that magnify the modicum of surface marks that are seen on this *scarce* date with only about 800 Proof coins struck for this year.
- 3246 **1862/1 MS-61,** perhaps a bit better. Ring iridescent toning on the obverse near the edge which frames the satiny central area. Heavy die clashing seen on both sides which are quite typical of this series.

U.S. THREE CENTS (NICKEL)

- 3247 **A high-grade trio of three cent nickels:** ☆ **1865 MS-62.** A wonderful coin with smooth surfaces and a slate gray patina. The reverse exhibits three very strong die cracks which probably mean that the reverse die was retired soon after this coin was struck ☆ **1866 AU-58** with just some light rub on the highest points. Virtually full mint lustre is seen ☆ **1881 MS-61** or better with nice original surfaces that have not been changed by cleaning or by any other artificial means. (Total: 3 pieces)
- 3248 **1888 Proof-64 CAMEO (NGC).** A frosty coin that boasts delicate golden toning and minimal specks. The strike is sharp and the surfaces are clean for the grade. Impressive quality.

U.S. NICKELS

- 3249 **1875 AU-55.** Steel-gray toning over typically struck surfaces. Four prominent die cracks on the obverse show just how difficult this metal was to work with. A few scattered reverse marks but none are too serious. A useful type coin.
- 3250 **A quintet of first year of issue nickels:** ☆ **1883 No CENTS. MS-63.** Great lustre over surfaces that show an unretained lamination near the date and one on the reverse rim ☆ **1913 Type I. MS-64.** Lovely iridescent color gives this coin outstanding eye appeal ☆ **1913 Type I. MS-63.** Wonderful rose-gold and gray toning for maximum eye appeal ☆ **1913 Type I. MS-62.** Nice fresh original color defines this coin ☆ **1913 Type I. MS-61.** A bit weakly struck over original surfaces. (Total: 5 pieces)
- 3251 **1884 Net MS-60,** slightly finer grade-wise but with tiny dark corrosion spots here and there. Lustrous deep golden surfaces with a distinctive olive cast. An important semi-key date.

3252 **Pair of better date nickels:** ☆ **1885** Fair-2. Heavily stained. Last digit of the date weak but readable. An affordable coin for the budget-minded collector who once believed they would never own this date ☆ **1921-S** Fine-12. Soft strike as is the norm for this date. (Total: 2 pieces)

3253 **1907 MS-64.** Streaky golden hues with a mix of speckled gray spots on both sides, best seen with a loupe as they are faint. Apparently peculiar to the long ago storage method, but at a glance appears frosty and evenly lustrous with the usual fading from storage. A popular series.

3254 **1912-S Fine-15.** Nickel gray over two-thirds of this coin but the left side of the obverse has an abrupt change to yellow-gray just touching Liberty's nose and this unusual color is also found on the corresponding section of the reverse. The San Francisco Liberty nickels were made to test that mints ability at nickel production for the pending change to the Buffalo design in the following year. Just 238,000 pieces were coined, about half as many as the more famous 1909 S V.D.B. cent.

3255 **1913 Type I. MS-65.** Sharply struck and satiny. Mostly pearl gray with wisps of gold, pink, and blue.

3256 **1913-D Type I. MS-65.** Clear tawny gold deepens to slate gray at the obverse rim. Reverse detail is exceptionally sharp. Careful examination under a glass reveals a scarcely noticeable hairline mark under the bison's beard.

3257 **Pair or lustrous Buffalo nickels, each grading MS-63:** ☆ **1913-D** Type I ☆ **1913-S** Type I. Both have pewter gray toning with rosy gold accents. A popular one-year design type. (Total: 2 pieces)

3258 **Three 1913 Type II Buffalo nickels:** ☆ **MS-63.** Deep gray toning with heavy die clashing seen under the Indian's chin ☆ **MS-63.** Rich golden toning defines this lovely coin ☆ **MS-62.** Flashy surfaces with attractive mint color. A small, unretained lamination on the cheek. (Total: 3 pieces)

3259 **1913-D Type II. AU-55.** Golden gray toning enhances both surfaces. The bison's head and hump details are sharp on this specimen.

3260 **1913-S Type II. AU-55.** Pewter gray with pale gold accents. The strike is about average with a touch of softness above the Indian's braid and at the bison's shoulder. The 1913-S Type II has second lowest mintage of any issue in the entire Buffalo nickel series after the 1926-S.

3261 **1913-S Type II. Good-6.** The date is clear with a loupe, especially the all important 3. A couple of light scratches on the obverse scarcely detract from this key date and this would make a welcome addition to an album set.

3262 **Pair of branch mint Buffalo nickels:** ☆ **1918-D** EF-40. Natural color and decent surfaces ☆ **1919-S** VF-20. Nice color and surfaces, a scarce pair. (Total: 2 pieces)

3263 **1921-S VF-25.** Partially cleaned and filed. A key date that has a couple of moderate problems, a minor dull mark on the lower right obverse rim, lightly filed on the reverse rim below the mintmark and on the hind quarters of the bison. Minor verdigris and encrustation. Scarce and in demand in all grades, particularly so when the date is this sharp.

3264 **1921-S VF-20 (PCGS).** Struck from somewhat worn dies with the rim a bit weak and blending into the tops of LIBERTY and part of the date. The reverse is much stronger with a fully struck mintmark and two thirds of a horn visible on the bison's head. A very scarce date in Very Fine or better, especially so without any major marks or spots.
#003948

3265 **1921-S VF-20.** The obverse has some minor planchet flaws in the form of streaks and the surfaces have been lightly wiped. A scarce San Francisco issue with 1,557,000 pieces struck and this one has a clear date and mintmark with decent surfaces. A good many of these have similar planchet flaws and these do not detract a large amount and are a natural occurring event on the Buffalo nickel series.

3266 **1921-S VF-20.** Sharpness of a higher grade but there is a small planchet flaw at the base of the reverse on the rim, and dark streaks on both sides. Sharply impressed and a collectible example of this scarce date and mint.

3267 **1921-S VF-20.** Cleaned. Attractively retoned with sunset gold around the periphery on a solid nickel-copper planchet. Traces of rainbow iridescence on the obverse.

3268 **1921-S Fine-12 (ANACS).** Pearl gray toning on the high points deepens to slate gray in the fields. Pale champagne accents complement both surfaces. Scarce in all grades.
#003948

3269 **A sextet of MS-60 or better Buffalo nickels:** ☆ **1923 (3).** Two exhibit some curious edge marks as if a crude reeding was attempted while the other has gold and iridescent toning with a spot on the nose ☆ **1929.** Satiny with some light iridescent toning on the reverse ☆ **1938-D (2).** Both with nice lustre but one has a scrape on the lower reverse. (Total: 6 pieces)

3270 **1923-S EF-40.** Cleaned. Light planchet granularity is noted with a loupe, and the surfaces are pleasing otherwise, with light nickel gray color and all devices are sharp and clear.

3271 **Pair of San Francisco Mint Buffalo nickels:** ☆ **1921-S** Sharpness of VG but with a streak on the obverse and a small reverse dig over the bison ☆ **1924-S** VF-20 with a small planchet flaw on the obverse, minor cleaning and a minor scrape on the bison. (Total: 2 pieces)

3272 **1934-D MS-64 (NGC).** Frosty and bright with lots of mint flash and clean surfaces with no spots or similar problems. This is a scarcer date and highly collectible.
#003973

3273 **1935, 1938-D. MS-66 (NGC).** The 1935 is a blazer with hints of golden russet on both sides over vibrant lustre and exceptionally clean surfaces, the 1938-D is a match with similar delicate toning, fresh lustre and outstanding surface quality for this final year issue. A sweet pair for the date collector. (Total: 2 pieces)

3274 1935-S MS-66 (NGC). An exceptional example of this popular late San Francisco Buffalo nickel showing rich teal highlights with a delicate blush of russet on both sides. The strike is sharp enough with the tail split showing and the peripheral lettering well defined. No carbon spot of any consequence. Scarce this nice, rare finer.

NGC Census: 133; 13 finer (MS-67 finest).
#003976

3275 Quartet of MS-66 (NGC) Buffalo nickels: ☆ 1936. Bright and lustrous with no spots or problems and loaded with eye appeal ☆ 1936-D. A lovely Gem with faint golden toning starting to form ☆ 1937-D. Vibrant white surfaces and just a few ticks from a higher grade ☆ 1937-S. Sharply struck throughout for this San Francisco issue, with traces of haze over the lustre, and great eye appeal. A beautiful group for the date collector. (Total: 4 pieces)

3276 A lovely herd of MS-63 or better 1938-D Buffalo nickels. Each has lovely original iridescent and gold color. A few exhibit some light spotting but overall this group is very attractive with blazing mint lustre and excellent strikes. Well worth a very close inspection. (Total: 10 pieces)

U.S. HALF DIMES

3277 1832 Logan-McCloskey 2. Rarity-1. AU-58. The toning is a bit deep and the surfaces show minute roughness in the fields. An average strike for this date and variety.

3278 1832 LM-12. Rarity-2. MS-60 PL. Some faint hairlines account for the assigned grade. The obverse is mostly gold with a splash of blue on Liberty's cheek. The reverse is predominantly brilliant with wisps of gold and gray at the borders. The strike is about average showing softness at the centers, a feature shared by the Logan-McCloskey plate coin.

3279 1832 LM-13. Rarity-3. AU-55. Pearl gray iridescence in the central areas deepens to rosy gold peripherally and then to sky blue at the rim. The strike is about average showing sharpness in some areas and softness in others.

3280 Trio of different half dime types: ☆ 1833 LM-9. Rarity-2. VF-20 but the coin exhibits numerous pinscratches on both sides ☆ 1840 With Drapery. Fine-12. Some light porosity and some reverse die clashing is seen ☆ 1870 EF-40. Pale gray toning on surfaces that are boldly struck. Some light hairlines are present due to a very gentle past cleaning. (Total: 3 pieces)

3281 1834 LM-2. Rarity-1. AU-55. A few shallow face scratches or toned over by the deep charcoal and blue. Well struck, and reasonably attractive.

(2x photo)

3282 1837 Liberty Seated. Large Date. MS-61. Triple punched date. Light silver surfaces with a hint of peripheral blue and gold. The strike is sharp throughout and this early die state shows the repunching clearly below the 8. The no stars type coin was issued for just fragments of two years in limited quantities, and demand is always strong by type collectors. Minor field lines and the lustre is slightly muted, but there is more than adequate eye appeal for this issue.

(2x photo)

3283 1840 No Drapery. MS-61 (NGC). Light silver with a dusting of gold toning on both sides. The surfaces are pleasing but do show a couple of moderate scuffs and nicks from handling as expected for the modest grade. The strike is sharp and die clashing is evident on the reverse.

#004321

3284 1845 Repunched 84. MS-61. The 84 is repunched very high into the rocky base and this is unusual and apparently not reported, as most of the repunched date varieties show just slight corrective placement of the digits. This particular coin is light silver with slightly reflective fields. Surface quality is better than average. The repunching on the date is shallow and hence easily lapped away, which accounts for its scarcity and lack of reference. The pendant is just left of the left edge of the 5.

3285 Trio of Seated half dimes and a Liberty nickel: Half dimes: ☆ 1857 Sharpness of AU, bent and dipped ☆ 1859 EF-40. Pleasing dark toning ☆ 1863-S Sharpness of AU, re-engraved on Liberty. Nickel: ☆ 1911 EF-45, minor corrosion. (Total: 4 pieces). **SOLD AS IS. NO RETURNS.**

3286 1860 MS-64. Sharp and lustrous. Blended pink and violet toning in the central areas deepens to navy blue toward the rims. First year of the design type with the legend on the obverse and cereal wreath on the reverse.

U.S. DIMES

3287 1805 John Reich 2. Rarity-2. 4 Berries. Fair-2. Wavy planchet, uneven wear. A few old dents on both sides, light silver with speckled gray toning. The date is clear and enough of the reverse devices confirm the attribution, with the old style star pattern used only on this reverse die for this year.

3288 1807 JR-1. Rarity-1. Net Fine-12, overall sharpness of EF but rough and bearing numerous scattered marks. The only die combination of the date.

3289 1807 JR-1. Rarity-2. Good-4 overall. The wear is a bit uneven with portions of the obverse stars and reverse legends worn nearly smooth. The date and parts of Liberty's hair are clear, and the eagle on the reverse too is complete. Some mottled dark toning around the edges, but silver centers as usually seen. On balance a decent specimen.

3290 1821 JR-7. Rarity-2. Large Date. EF-40. Fairly well struck with deep gray toning throughout and average surfaces. The Large Date varieties are more common for 1821 dimes, and this one has solid device definition.

3291 1884 MS-62. Lustrous and bright with a small patch of gold toning on the left side of the obverse. The strike is average with slight softness on the upper left wreath.

3292 1887 MS-65 (PCGS). Beautiful toning of teal, yellow and green covers both sides in a blanket of iridescence that bathes the eye with delightful results. The strike is sharp especially on the wreath, and the eye appeal is simply off the charts on this premium example.
#004698

3293 Pair of circulated dimes: ☆ **1914 EF-45.** sharply struck and pleasing with deep gray toning ☆ **1921 Good-4.** Clear date and the rims are nearly complete on both sides. (Total: 2 pieces)

3294 1914-S MS-64 (NGC) (CAC). A pleasing example of this date, with light silver surfaces and just a hint of gold, with a solid strike too. This one has the surfaces and eye appeal of a Gem.

3295 1916 Mercury. MS-65 FB (PCGS). Boldly struck throughout and toned with rich mottled crimson-gold and deep blue on both sides.
#004905

3296 A lustrous septet of Mercury dimes: ☆ **1916 (3).** MS-63 or better and all show full split bands. The first is bright and lustrous, while the last two have lovely deep gold on the obverse while the reverses are bright with great lustre ☆ **1917 MS-60.** The central bands are split but not fully rounded. Satiny with some light gold toning ☆ **1919 AU-55** or better. A good strike with a pale golden patina adding much to this coin's allure ☆ **1939-D MS-63.** Frosty lustre ☆ **1939-S MS-63** or better but the obverse has some light spotting. Blazing lustre. (Total: 7 pieces)

3297 A quintet of mostly toned Mercury dimes: ☆ **1916 MS-63.** Deep russet and gold toning ☆ **1916-S MS-63.** Dark russet toning with some different shades of iridescent on the reverse ☆ **1923 MS-60** or better with some obverse spotting visible ☆ **1936 MS-64.** Light russet toning on satiny surfaces ☆ **1939-D MS-63** despite a reverse rim nick. Light gold toning. (Total: 5 pieces)

3298 A diverse sextet of Mercury dimes: ☆ **1916 MS-60** or nearly so ☆ **1916-S MS-60,** cleaned ☆ **1917 AU-55** with medium golden toning ☆ **1924 MS-61** but has some spots on the obverse ☆ **1937-S MS-64.** Attractive original surfaces and color ☆ **1939-S MS-63.** Satiny lustre adds to this coin's appeal. (Total: 6 pieces)

3299 1916-D AG-3. Clear date and mintmark on this one, with each one sharp and free of the worn rims save for the very bottom of the 6. With a mintage of 264,000 pieces these have been sought after since the day they were released, and the vast majority of survivors are in low grades.

3300 1921 VG-10. Cleaned and scratched. Toning back with attractive light blue and gold at the periphery. The obverse has some light pin scratches while the reverse has been brushed with resulting vertical hairlines. Reasonably nice in appearance for this scarce date.

3301 1921-D Fine-15. Cleaned and brushed with the surfaces a bit dull. A key date issue that is tough to find in mid grades.

3302 Pair of 1941-D dimes graded MS-67 FB (PCGS). Both are blazing bright white with near perfect surfaces and sharp. One shows a hint of haze, the other more vibrant. (Total: 2 pieces)

3303 Pair of 1941-D dimes graded MS-67 FB (PCGS). Both are absolutely bright white, with satiny lustre and the expected bold strikes. (Total: 2 pieces)

3304 1942/1 VF-25 (NGC). Natural light silver-gray color with smooth wear. The overdate is sharp as always seen, with a slightly doubled 4 and the bold 1 underlying the subsequent 2. These are evidence of this particular die being made by using two different hubs, one dated 1941, the other dated 1942. The result of such a blunder is very sharp overdates where both final digits are sharp. A nice example and a solid coin for the grade that would be a welcome addition to a date collection.
#005036

3305 A potpourri of Roosevelt dimes: ☆ **1949-S (2).** MS-64 or better. One with pleasant rim toning, the other nice and lustrous ☆ **1951 Proof-60** with some PVC damage ☆ **1953 Proof-60.** Some PVC damage in the fields ☆ **1954 Proof-63.** Bright surfaces with a trace of toning. (Total: 5 pieces)

U.S. TWENTY CENTS

3306 1875-S AU-55 (PCI). Light silver with traces of lustre remaining. The strike is sharp and the surfaces better than average.

3307 1875-S AU-55. Cleaned. A bit dull from the cleaning with patches of darker iridescence on the lower left obverse and in unusual gray stripes on the reverse over muted and hairlined surfaces. An in demand type coin in all higher grades; if allowed to tone back this should look a lot better in time.

3308 1875-S Sharpness of VF. Lightly cleaned and with a few minor scuffs on the reverse rim. Medium silver-gray in the fields, lighter silver devices. The mintmark is double punched as often seen.

3309 1875-S Sharpness of Fine. Lightly cleaned and brushed with resulting hairlines. Natural golden gray toning on both sides.

3310 1875-S Good-6. Deep golden gray with rich lilac and neon blue highlights. No heavy marks.

U.S. QUARTERS

3311 **1805 Browning 3. Rarity-1. VG-8.** A few old light scratches on both sides, with lilac-gray toning with a few small accents of bright silver. Weak at the central reverse as usual.

3312 **1806 B-9. Rarity-1. Sharpness of VG.** Edge repairs and lightly cleaned. A few chips around the edge from a past mounting and the centers are a bit glossy from jewelry wear.

3313 **1825/42 B-2. Rarity-2. EF-45, cleaned.** Still a bit bright but starting to recover with golden hues around the rims. The surfaces show myriad tiny circulation marks when viewed with a loupe, but they blend into the surfaces as designed. Early die state.

3314 **1831 B-4. Rarity-1. Net VF-35, sharpness of EF but cleaned long ago.** Deep gold and brown toning now engages the peripheries. Nice.

3315 **1831 B-4. Rarity-1. Net VF-35, sharpness of strong EF but cleaned long ago, now richly and deeply retoning in shades of deep gold.** Devoid of marks other than brushing hairlines, and actually attractive overall.

3316 **1833 B-1. Rarity-2. Fine-15.** Cleaned. Still light silver and a bit dull from the cleaning. This is die state 3, with advanced die rust seen on the obverse and reverse.

3317 **1834 B-1. Rarity-1. EF-45.** Natural silver with some light blue highlights over surfaces that have been well kept over the years. The strike is a bit uneven with some of the obverse stars weak but the central detail is stronger. A very nice type coin for the budget-minded collector.

3318 **1836 B-3. Rarity-1. EF-40.** Cleaned. There is also a small edge bump near the final star. Later die state with several die cracks, but not the latest for these dies. Light silver with a hint of gold toning.

3319 **A pair of quarter types:** ☆ **1853 Arrows and Rays. VG-8.** Cleaned at one time leaving a bright white surface ☆ **1859-O VF-20** or nearly so. Brownish gold toning over surfaces that show some light marks. The strike is typical of a New Orleans minted coin with weakness in the central area. Scarce. (Total: 2 pieces)

3320 **1877-S MS-60.** Fully brilliant with lightly frosted devices. The fields have a texture intermediate between satiny and prooflike with the latter aspect predominating, especially on the obverse.

Breen-4094. Type II Reverse with the letters TATE in STATES spaced apart at their bases. Small "S" mintmark

3321 **Pair of popular design types:** ☆ **1892 Type I.** Net AU-50, sharpness of AU-58, but lightly cleaned. Still brilliant ☆ **1920-S AU-50.** Mostly brilliant with just a whisper of champagne iridescence. (Total: 2 pieces)

3322 **Quartet of collector quality quarters:** ☆ **1897-S** Sharpness of VF, scratched and marked surfaces, evidence of heating ☆ **1917 Type II.** Sharpness of AU, cleaned and there are a few hidden scratches ☆ **1918-S** Sharpness of AU, heated and repaired, cleaned ☆ **1938** Sharpness of AU, lightly cleaned. Still lustrous and attractive. (Total: 4 pieces)

Key Date 1901-S Barber Quarter in VG-10 (PCGS)

(2x photo)

3323 **1901-S VG-10 (PCGS).** Light silver-gray with darker gray accents hugging the devices and lettering. The surfaces show smooth, even wear and are problem-free. Solid rims all around and all but a couple of the central letters of LIBERTY are clear in the tiara. The all important and value defining S mintmark is bold and unmistakable, with the sinuous curves showing the expected wear, but clearly discernable. Back in 1901 the San Francisco Mint churned out a mere 72,664 pieces of this date, creating the key date to the series. Naturally these entered circulation without notice or fanfare, and most circulated for many years into considerably lower grades than seen here. A few years later San Francisco created another rarity, the 1913-S, although with an even lower mintage, more survived in higher grades of that particular issue. For the collector who has long desired an example of this date, the present coin would make a splendid choice as few circulated examples have the eye appeal and surface quality here. #005630

3324 **1917 Type I. MS-60 FH.** Dipped. Still bright silver with a hint of gold and russet on both sides and a few shallow hairlines. The strike is sharp on Liberty's head and the shield.

3325 1917 Type I. AU-58. White and lustrous with just a hint of gold starting to form. Boldly struck throughout, with full definition on Liberty's head and the shield, and the surfaces are free of distracting marks. An impressive example of this two year type coin.

3326 A lovely group of high grade Standing Liberty quarters: ☆ **1917 Type I. EF-40.** A decently struck coin that exhibits deep gray toning ☆ **1928-S AU-58.** Good lustre and a bold strike gives this coin good appeal ☆ **1929 AU-55.** Light blue over medium gray toning. Pleasing surfaces give this coin nice appeal ☆ **1930-S AU-50.** Mottled gray gives this coin its charm. (Total: 4 pieces)

3327 1917 Type II. AU-58. Nearly full lustre with just some breaks on the highest points. A good strike with a full shield and nearly a full head. The surfaces are pleasing as they were well cared for since this coin was first struck. A couple of minor reeding marks on Miss Liberty's leg is this coin's main detraction.

3328 Standing Liberty quarter trio: ☆ **1917 Type II. AU-55.** Largely lustrous with pale golden toning ☆ **1920 MS-62.** Brilliant and lustrous with a whisper of pale champagne ☆ **1928-S Large S. MS-62.** Lustrous pale golden surfaces. A nice group all told. (Total: 3 pieces)

3329 1917-D Type II. AU-58 (PCGS). Lustrous and mostly pearl gray with scattered wisps of pink, violet, and blue. #005716

3330 NO LOT

3331 1919-D VF-35 (ANACS). Pale gray toning on surfaces that are above average for the grade. Smooth wear and quite pleasing to behold. A die crack through the date and a pair on the reverse that transverse the wing tips give this coin added charm. #005730

3332 Pair of ANACS-certified quarters: ☆ **1919-D VF-25.** Attractive medium gray toning on surfaces that are well preserved and appealing on this scarce date. A die crack through the date and one through the right wing on the reverse ☆ **1929 AU-58.** Good lustre remains on this coin that exhibits about 75% of a full head. Some faint toning is seen on this otherwise white coin near the obverse rim. (Total: 2 pieces)

3333 1919-S Sharpness of EF, cleaned. A scarce date and this one has steel-gray surfaces with dappled russet on Liberty and in the fields.

3334 1921 AU-55 DETAILS (ANACS). "Cleaned." Light silver-gray with a few minor hairlines and only slight evidence of a past cleaning. The date is sharp enough and a fair amount of residual lustre remains on this elusive coin. The strike is better than average for this date. #005740

3335 1921 EF-45. Slate gray toning on relatively wholesome surfaces. A full, strong date which is not always the case for 1921 quarters. No major detractors on this key date that is not often found in this high collector grade. Perfect for a numismatist who expects high grade and pleasing surfaces.

3336 1923 Sharpness of MS-63, lightly cleaned. Toned with a splash of light golden on the left side of the obverse, the strike better than average too.

3337 1923-S EF-40. Bright grayish tone with some evidence seen of a past cleaning. The date is plain but the first three digits are a bit mushy due to uneven wear but can be read. Another of the rare dates in this series that is not found in this tempting grade and needed by date collectors.

3338 1925 AU-58 FH (PCGS). Full lustre, crimson toning on the reverse and delightful with a sharp strike and just a whisper of wear on Liberty's head and the high points. #005753

3339 A pair of AU-55 or better Standing Liberty quarters: ☆ **1927 AU-58** and on the cusp of full Mint State. Nearly full head detail is present as well as full shield lines. Attractive golden gray toning is attached to very well preserved surfaces ☆ **1930 AU-55.** Mottled gray toning with some ebony spotting seen. A decent strike with the head detail about 80% full. (Total: 2 pieces)

3340 1928-D MS-63. Satiny and essentially brilliant with just a whisper of pearl gray and champagne iridescence.

3341 1929 GENUINE (PCGS). MS-62 in terms of appearance. Improperly cleaned with a few resulting hairlines on both the obverse and reverse. Bright lustre and generally sharp but not a full head.

3342 1929-S MS-63 FH (PCGS). Glittering bright white and lustrous, with a solid strike and clean surfaces for the grade. An attractive example of this San Francisco date. #005777

3343 1930 MS-63 FH. Arcs of deep russet and blue toning extend across portions the obverse. The reverse is lightly and attractively toned.

3344 Pair of early Washington quarters grading MS-64: ☆ **1932.** Satiny lustre. The obverse is brilliant; the reverse displays pale gold iridescence ☆ **1937.** Frosty lustre. Dappled gold and blue toning ornaments the obverse. The reverse is brilliant. (Total: 2 pieces)

3345 1932-D EF-40. Cleaned and a bit dull silver today. The surfaces show minor evidence of circulation, with no other problems or distractions. Key date to the series along with the 1932-S.

3346 1932-D, 1932-S. Good-4. Well matched with typical light gray toning and rims are just a trifle weak in areas. Key dates to the set, and a nice circulated pair. (Total: 2 pieces)

- 3347** 1932-S Sharpness of VF. Lightly cleaned. Attractive steel-gray with golden highlights and smooth wear on this key date issue.
- 3348** A quartet of MS-63 or better Washington quarters: ☆ 1934 Heavy Motto (3). All are nice and original with golden toning about the rim. Well struck with good lustre ☆ 1949. Deep ebony obverse toning while the reverse has pale golden toning. (Total: 4 pieces)
- 3349** Pair of early Denver Mint Washington quarters: ☆ 1934-D MS-60. Medium Motto. Pale golden highlights with strong lustre. A frosty specimen of this early branch mint Washington quarter, and an altogether pleasing coin for the grade ☆ 1935-D MS-64. A satiny specimen with bold lustre and all the eye appeal of a much finer grade. Pale golden highlights abound on both sides. (Total: 2 pieces)
- 3350** 1937-S MS-65 (ANACS). Attractive golden toning with a good strike. There are a few scattered marks; the most visible one is on the eagle's left leg. Overall a pleasing example of this scarce early date Washington quarter.
#005805
- 3351** A quartet of 1950's era Proof quarters: ☆ 1950 Proof-64 or better with strong claims to the Gem category. Some light gold toning on the reverse while most of the coin is blazing white ☆ 1951 Proof-64. (2). A dazzling pair that have good surfaces and are mostly untuned with just the last one showing some peripheral tone ☆ 1954 Proof-61. Bright reflective surfaces that have attained some spotting mainly concentrated on the obverse. (Total: 4 pieces)

U.S. HALF DOLLARS

- 3352** 1795 Overton 110a. Rarity-3. Fair-2. Damaged. There is a thin circle scratched around the entire obverse and the surfaces of both sides show numerous small dents of a similar nature. The date is gone, but the obverse die cracks are unique to this variety making attribution a virtual certainty even on a well worn coin. Attractive medium gray fields with lighter devices and the legends are clear enough to read and the central devices are intact.

High-Grade 1795 Flowing Hair Half Dollar

- 3353** 1795 O-119. Rarity-4. VF-35 (PCGS). Light silver-gray with a touch of blue intermixed and light gold particularly around the rims. The strike is sharp with bold definition on Liberty's curls, which show ample lustre within the protected areas. On the reverse the eagle is sharp with most of the separation intact on the wings, with the expected wear focusing on the eagle's breast. A hint of adjustment marks on the upper right obverse rim, but these are faint at best. No disturbing bumps or scratches are present, and this one has great appeal for a high grade coin. The R of AMERICA is repunched to the left, touching the wing, then moved further right.

Handsome 1801 50¢ Rarity

- 3354** 1801 O-101. Rarity-3. Fine-15. A handsome coin that exudes the original gunmetal-gray toning and lighter silver surfaces that makes early silver coinage so attractive. The fields and devices are clean with minimal handling evidence aside from the expected wear. Liberty retains most of the definition on her hair curls and the strike is adequate but a tad uneven on the reverse with the shield and right wing softly impressed. A scarce date and this coin is just right for the grade.
- 3355** 1805 O-106. Rarity-3+. Sharpness of Good. Scratched on both sides with light pin scratches, a few green specks on the reverse for the color adherents. Light silver on the worn devices, and rather typical of the grade for a well circulated Draped Bust half dollar.
- 3356** Trio of early date Capped Bust half dollars: ☆ 1807 O-112. Rarity-1. 50/20. Sharpness of VF. Scratched, tooled, corroded, early die state ☆ 1808 O-102/102a. Rarity-2. Sharpness of Fine. Cleaned, spots here and there but sort of average for this early date ☆ 1811 O-112. Rarity-4-. Sharpness of Good. Cleaned but verdigris remains. (Total: 3 pieces)
- 3357** 1808 O-107a. Rarity-2. VF-30. Medium gray toning with a hint of lustre in the legends, and two very minor rim bumps on the lower reverse. A nice early date half.
- 3358** Selection of half dollars: Grades Very Good to Very Fine, with one AG. ☆ 1808 O-109. Rarity-3 Light silver ☆ 1818 O-112. Rarity-1 A bit dark ☆ 1824 O-104. Rarity-2 Smooth wear, but a large X scratched reverse ☆ 1826 O-109. Rarity-1 Graffiti and punches on the reverse ☆ 1829 O-113a. Rarity-2 cleaned ☆ 1830 O-101. Rarity-1. Small 0 average for the date with minor old cleaning evidence ☆ 1830 O-120. Rarity-1. Large 0 this one grades AG with smooth wear ☆ 1832 O-113. Rarity-2 dark silver ☆ 1836 O-112. Rarity-1. Lettered Edge. Damaged by spooned rims. (Total: 9 pieces)
- 3359** 1809 O-103. Rarity-1. VF-30. Classic medium silver-gray fields with lighter silver devices. Smooth wear and average surfaces.
- 3360** Five Capped Bust half dollars: ☆ 1809 O-111. Rarity-2. Sharpness of Good-6, damaged on the obverse with etching and acetate residue ☆ 1827 O-129. Rarity-4. VF-20 details, faint obverse field graffiti and an edge notch above N of UNITED reverse. Scarce and attractive otherwise ☆ 1830 O-122. Rarity-1. Sharpness of EF-40. Graffiti but still attractive ☆ 1836 O-110. Rarity-1. Lettered Edge. Sharpness of EF-40, brushed ☆ 1838. VG details. Holed at 11:30 and 5:30. "JMD" engraved on the obverse. (Total: 5 pieces)
- 3361** A trio of cleaned Capped Bust half dollars: ☆ 1810 O-102. Rarity-1. A detail of EF-40 but the coin has suffered a harsh cleaning leaving a pale silvery surface. Weakly struck in the wing as is usual with this variety ☆ 1812 O-104a. Rarity-1. EF-40. Pale russet toning over deceptively cleaned surfaces. Some scratches are seen on both sides ☆ 1829 O-111a. Rarity-2. AU-50 in terms of detail but the coin has been harshly cleaned with resulting surface hairlines found. Well struck. (Total: 3 pieces)

3362 1813 O-103. Rarity-2. Sharpness of EF. Faint hairlines due to a light cleaning long ago. Now attractively retoned with blended gold and gray at the centers deepening to vivid blue and violet at the borders. Both surfaces exhibit pleasing satiny lustre in the fields, and the obverse—in particular—shows excellent centering.

3363 Four Capped Bust half dollars: ☆ 1813 O-109. Rarity-3. EF-40. Pale golden gray with some light scratches around the eagle's head ☆ 1821 O-105. Rarity-1. VF-30. Medium silver gray with plenty of retained lustre in the protected areas ☆ 1824 O-117. Rarity-1. EF-40. Deep silver gray with rich golden hues at the rims ☆ 1834 O-102. Rarity-1. VF-30. Deep steel gray with gold and olive tones. (Total: 4 pieces)

3364 1819/8 O-104. Rarity-1. AU-50. Frosty pale golden gray with strong mint frost in the protected areas and with excellent overall eye appeal. Mark-free to the unassisted eye. Choice for the grade in all respects; this early overdate half dollar is a definite candidate for a third-party grading submission.

3365 1823 O-107. Rarity-2. EF-45. Polished. Still bright silver with just a hint of gold starting to form. Well struck, later die state with a long thin crack through the left side of the reverse. Nice and strong definition on both sides.

3366 Bust half dollar pairing. ☆ 1824 O-117. Rarity-1. VF-20. Light silver and pleasing surfaces ☆ 1826 O-104a. Rarity-3. VF-20. Medium gray with a few reverse spots. (Total: 2 pieces)

3367 1825 O-111. Rarity-3. AU-50. Pleasing steel-gray with gunmetal accents on both sides and smooth, even wear. The 5 in the denomination is boldly repunched at the top with the top flag considerably shorter than the lower flag.

3368 1826 O-101a. Rarity-2. Sharpness of VF. Lightly cleaned long ago, with traces of lustre surviving and pleasing surfaces.

3369 1827 O-113a. Rarity-4. Sharpness of EF. Lightly cleaned. An old dull scrape above Liberty's cap, attractive dark fields with lighter silver devices and minor hairlines. A scarce die marriage and this one has die crack in the right obverse field.

3370 1828 O-112. Rarity-3. AU-50. Attractive lilac-gray toning covers the surfaces and a few very faint field scratches in the left obverse. Well struck with hints of lustre surrounding the stars.

3371 1829 O-103. Rarity-1. AU-50. Medium steel gray surfaces show rich rainbow iridescence with gold in dominance on the obverse and the reverse a rich pastiche of fiery crimson and deep neon blue tempered with cool rose. Free of serious marks, especially to the unassisted eye, though we note a faint diagonal carbon streak across Liberty's neck. Still a pleasing coin.

3372 Trio of Capped Bust half dollars: ☆ 1829 O-112a. Rarity-2. VG-7 with smooth wear, gray fields and lighter silver devices ☆ 1834 O-105. Rarity-1. Fine-12 but with two long dull obverse scratches, nice otherwise ☆ 1834 O-114. Rarity-1. VF-30 but lightly cleaned, nicely toned with gray and silver now. (Total: 3 pieces)

3373 1830 O-108. Rarity-3. AU-50. Dipped in the past and a bit bright, but lustre survives and a few areas show dark gold toning. One minor rim nick on the obverse at the 2:00 o'clock position.

3374 1830 O-111. Rarity-2. Small 0. Sharpness of Au, cleaned. Satiny lustre and sharply struck for this date with a dash of golden toning. Most of the lustre is intact, adding to the eye appeal.

3375 1830 O-112. Rarity-4. Sharpness of AU. Wiped and cleaned. The surfaces are dull with hairlines, golden toning with a mix of gray on both sides. A few shallow scratches are seen in the fields.

3376 1830 O-120. Rarity-1. AU-58. Classic steel-gray over lustre with clean surfaces and a sharp and balanced strike as there is no softness on the ribbon, claws or denomination, even the obverse stars are sharp. Highly collectible and just the ticket for the type or variety collector.

3377 1832 O-116. Rarity-3. AU-50. Toned with deep ebony toning on both sides, surfaces generally pleasing with a short squiggly mark below the 11th star.

3378 1832 O-118. Rarity-1. AU-50. Light rose-gray toning on pleasing surfaces. The strike is sharp enough and the eye appeal suited to a quality conscious collector.

3379 1832 O-121a. Rarity-3. MS-61. Scarce as a variety with satiny surfaces and a dusting of gold and blue toning. There is a minor rim scrape past the eighth star and perhaps slightly dull on the obverse. The reverse is lighter with golden russet in the legend. Later die state with the stars drawn toward the rim.

3380 1833 O-103. Rarity-1. EF-45. Lively steel gray with active lustre in the protected areas. Pale champagne hues endorse the reverse. Pleasing for the grade.

3381 1834 O-117. Rarity-2. Small Date and Small Letters. AU-53. Cleaned. A bit bright with golden russet toning starting to form around the rims. There are some shallow digs and marks in the fields that are best seen with a loupe.

- 3382 1836/1336 O-108. Rarity-1. Lettered Edge. Sharpness of AU,** cleaned. Moderate hairlines on both sides, steel-gray today. A long reverse planchet streak in the eagle's wing, from impurities in the silver planchet shows up as a dark area.
- 3383 1836 O-112. Rarity-1. Sharpness of AU.** Lightly wiped with resulting hairlines and some shallow scratches are found above the eagle's head. Sharply struck and a pleasing medium gray color throughout.
- 3384 1838 VF-35.** This one has wholesome surfaces and gray toning.
- 3385 1843 AU-53.** Attractive steel-gray and gold toning, with minor cracks up through the 43 and bisecting the reverse, with rim chips as well. Nice color and surfaces for this date.
- 3386 1843 AU-50.** Gently cleaned. Now nicely toned with peripheral blue and gold. Interesting minor die cracks obverse and reverse which seem to favor 1843 coinage from America.
- 3387 1853 Arrows and Rays. Sharpness of VF.** Whizzed. With a struck through area from the upper left edge to Liberty's chest, the reverse with cuts around the rim. Muted gray. A popular type coin, this one with some challenges, but the strike through adds interest as these are uncommon on Seated halves.
- 3388 1873 Close 3. EF-45.** Beautiful old golden gray toning with rose overtones on the reverse. Well struck with average or better surfaces, and an excellent appearance for this date.
- 3389 1876-CC EF-40.** Medium gold and gray toning on surfaces that show a very good strike. A small area of pinscratches at the lower left obverse is present but they are shallow and blend in with the toning.
- 3390 1892 MS-60.** Worthy of a higher technical grade but the obverse is darkly toned, a bit mottled on the reverse. First year of issue and the surfaces appear pleasing beneath the patina.
- 3391 1892-O Fine-15.** Normal Mintmark variety. Medium gray surfaces show some light circulation marks. A good strike is present. Quite close to the next grade, lacking only a bit more detail in LIBERTY and the hair around the legend. A worthy coin that should be closely evaluated before bidding as this scarce date is seldom found in wholesome mid-circulated grades.
- 3392 1892-S Sharpness of EF or better.** Rim cuts noted in 2 places. One at WE, the other in the opposite place at the lower reverse rim. Classic gunmetal-gray and attractive in appearance, with sharp definition, precious little wear and the cuts are old and toned over making them escape notice after all but careful scrutiny. A tough date in all grades, especially so with this much eye appeal.
- 3393 1892-S Fine-15.** Light gray toning defines this attractive example of a key early date. Some light obverse tape residue, probably from someone taping the coin into one of the old folder books from which coins easily popped out. A pleasing coin in a grade not normally seen for this scarce date, and a coin that will be easy to enjoy.
- 3394 1893-O EF-40.** Typical mushy strike in places, often seen with these New Orleans minted half dollars. Previously cleaned with bright gray centers and some light gold near the edge and a low area on Liberty's cheek. The rim is nearly fully beveled as is seen sometimes on late date Mint double eagles.
- 3395 Trio of VF-20 half dollars:** ☆ 1893-O. Ebony and gray toning on surfaces that exhibit a few trivial circulation marks on this scarce and desirable date ☆ 1910. Dipped at one time and also shows some reverse verdigris. Scarce and a low mintage date of 418,000 pieces ☆ 1913-S. A mostly original and problem-free example that exhibits some medium gray toning. (Total: 3 pieces)
- 3396 Trio of Fine-12 Barber halves:** ☆ 1893-S. Previously cleaned leaving a bright silver surface on this scarce date ☆ 1896-S. A totally original coin that has a couple of minor rim nicks and natural surfaces and color ☆ 1913. An original coin that has minor reverse pin scratches. Scarce with a mintage of 188,000 pieces. (Total: 3 pieces)
- 3397 Barber half dollar duo.** Both are EF-45 and have been cleaned: ☆ 1894-O ☆ 1898-S. The first has a typical New Orleans Mint strike with light gold and blue at the rims while the second coin is nicely impressed and is mostly light gray with a trace of gold and peripheral blue. (Total: 2 pieces)
- 3398 Barber 50¢ trio:** ☆ 1895 VF-25. Pleasing surfaces that are toned a medium gray and a scarcer early date ☆ 1913-D VF-25. A totally original coin that should please most collectors with no surface distractions and nice old color ☆ 1915-S EF-45. A light obverse scratch and a couple of rim bruises in the dentils are this coin's only detractors, and another scarce date in all grades. (Total: 3 pieces)
- 3399 Nine well-circulated half dollars:** ☆ 1895-O VG-10. Nice for the grade with natural color and clean surfaces ☆ 1896-O VG-10. Some rim marks and one is filed down ☆ 1899-S Fine-12. Gently wiped but attractive color ☆ 1905-O Fine-12, dipped with some charcoal gray remaining in the fields ☆ 1907-D Fine-15, dipped with a scrape at 12:00 on the reverse and a rim dent nearby ☆ 1907-S VG-10. Good quality for the grade with pleasing color and surfaces ☆ 1909-O Fine-15. Very close to the next grade level despite a few minor and minute edge nicks on the reverse ☆ 1912-S Fine-12. Ebony and gray toning with some scattered rim nicks present ☆ 1913 Good-6. Full rims but has been cleaned long ago and scarce. (Total: 9 pieces)
- 3400 Selection of mostly mintmarked half dollars:** ☆ 1895-S VG-10. Lightly toned a slate gray color ☆ 1899-O Fine-15. Ebony and gray toning with minor cloudiness ☆ 1905-O VG-10. Pale gray toning on lightly cleaned surfaces ☆ 1906-D Fine-15. Light gray with some deeper ebony on the reverse ☆ 1907-O VF-20. Lightly cleaned in the past but now with attractive and vibrant orange-gold peripheral toning ☆ 1908-S Fine-12. Dipped but nicely recovered today ☆ 1910 VG-8. Wholesome for the grade and scarce as a date ☆ 1911-S Fine-15. Lightly dipped at one time with a formidable rim bonk on the lower left reverse ☆ 1913 Good-6. An original example of this scarce date with a few rim bumps. (Total: 9 pieces)
- 3401 Trio of better date half dollars:** ☆ 1897-O Good-6. Full rims with surfaces that are toned a pleasing ebony and gray with contrasting fields and devices ☆ 1913 Good-6. A tiny rim nick on the obverse is this coin's main distraction ☆ 1914 VG-8. Cleaned with a couple of reverse rim bumps evident but still a scarce date. (Total: 3 pieces)
- 3402 Three VG-8 half dollars:** ☆ 1897-O. Lightly cleaned leaving some hairlines on the surfaces but attractive overall for this early date Barber half ☆ 1914. Previously cleaned with resulting faint hairlines, but scarce and pleasing nevertheless ☆ 1915. A nice wholesome coin that is a tad weakly struck on the reverse. A scarce group. (Total: 3 pieces)
- 3403 1897-S. Sharpness of VF.** Moderately cleaned leaving directional hairlines on dull gray surfaces. A few scattered nicks are also present on this very scarce and highly sought after date, of which fewer than a million were struck. The appearance is not as bad as one might think as the coin has a decent strike that is well balanced. Tiny attached planchet lamination below HA(LF).
- 3404 Five half dollars:** ☆ 1899-O VF-20. A single obverse hairline scratch on Liberty's neck accompanies hints of mild cleaning ☆ 1907-D VF-20. A few minor rim bruises ☆ 1908-S VF-20. Obverse cleaning near the truncation of Liberty's bust ☆ 1913 VG-8. Two or three small obverse marks ☆ 1914-S VF-20. Cleaned. (Total: 5 pieces)

- 3405 1900. Sharpness of AU.** Cleaned. A well struck coin that is bright silver with muted lustre, and minimal handling marks from circulation.
- 3406 1900-S Sharpness of AU.** Saltwater effect on reverse. The obverse appears fairly normal with just a hint of roughness while the reverse is entirely porous and rough, likely from long immersion in salt water or a similar environment for a silver coin.
- 3407 Barber half threesome, each Fine-15:** ☆ 1901-S. Nice original surfaces despite a few rim bruises and such coins are becoming harder to find in this popular series ☆ 1905. Steel gray toning with some scattered marks on this scarce date ☆ 1915. Lightly cleaned at one time leaving minor dullness with some scattered marks. Pale gray toning defines this coin further on this low mintage (138,000 pieces) date. (Total: 3 pieces)
- 3408 1906-S AU-55.** Wiped leaving hairlines with medium gray with some light Prussian blue colors. Sharply struck, especially in the hair and shield areas. Usual light die roller striation lines seen on the cheek and the cap. A scarce date that circulated little but needs to spend some time in an album or envelope.

Desirable Gem Proof-65 1908 50¢

- 3409 1908 Proof-65 CAM.** A delightful Gem having blazing mirror fields. The devices are lightly frosted on the obverse and heavily frosted on the reverse. Sharply struck in all areas. The surfaces are essentially brilliant with delicate gold accents at the rims and on the high points. A scant 545 Proofs were minted, one of the lowest production figures for 20th-century Proof half dollars.
- 3410 Four VF-35 Barbers:** ☆ 1908-D. Medium gray toning on surfaces that are well balanced as far as wear is concerned, rim ding on base of the reverse ☆ 1908-O, but dipped in the past with minor hairlines and some scrapes in the cap ☆ 1911. A lovely coin that shows pale gray toning ☆ 1912. Previously cleaned leaving a bright pale gray patina with traces of lustre remaining. (Total: 4 pieces)
- 3411 1909 Sharpness of Mint State.** Enhancement of the lustre and color. Moderate hairlines beneath the swaths of gold and russet hues on the obverse, the reverse brighter and more satiny.
- 3412 1909 Sharpness of EF-45.** Cleaned and acid washed. The surfaces show a fine granular texture from an acid bath and then were cleaned and brushed with resulting hairlines. Toned with peripheral gray hues, well struck and otherwise attractive.
- 3413 1913 VF-30.** Attractive original surfaces that have a medium gray patina. A very minor scratch from the nose to the edge that is very well hidden. A low-mintage date that is always in demand, especially in this middle collector grade.
- 3414 Three Very Good halves:** ☆ 1913 VG-8. A coin with decent original surfaces of gray and umber hues with a few scattered marks ☆ 1914 VG-10. Steel gray toning with some marks and likely cleaned long ago ☆ 1915 VG-10. A coin that is close to the next grade but does have a few marks in prominent places. A very scarce trio that warrants a closer inspection as these better dates never go out of style. (Total: 3 pieces)

- 3415 1915-D. Sharpness of AU.** Lightly dipped and now retoning to pale gold and light blue. An strong strike with the hair virtually fully struck as are the shield lines. There is just a slight weakness at the eagle's right shoulder and a few horizontal shield lines on the upper right corner. This coin has a very respectable appearance overall.
- 3416 1916 AU-55.** Blended rosy gold and pearl gray iridescence complements satiny surfaces. An attractive example coined during the first year of issue of the design type.
- 3417 1917-D Reverse. Sharpness of EF.** Lightly cleaned. Now toning back with light golden iridescence but there are two minor edge nicks on the obverse.
- 3418 1921-S. Sharpness of Fine.** Wiped, and with traces of obverse residue from circulation. One of the tougher dates to find, this one is medium gray with decent surfaces.
- 3419 1921-S VG-10.** Solid rims, clean surfaces and a bit bright, but the S mintmark is sharp and the date easy to discern.
- 3420 Pair of Walking Liberty half dollars:** ☆ 1938-D Sharpness of Fine, but with edge dents ☆ 1946-S MS-65 (PCGS). Satiny lustre and toned with a blush of russet. (Total: 2 pieces)
- 3421 Certified half dollar pairing:** ☆ 1942-D MS-64 (PCGS). Lilac toning on both sides and outstanding surfaces for the grade ☆ 1943 MS-64 (NGC). Blazing white lustre and sharp. (Total: 2 pieces)
- 3422 Nine San Francisco Mint Walking Liberty half dollars:** ☆ 1942-S MS-61 (2). Somewhat blunt in the strike, hazy lustre and a minor scratch at the motto; AU-55. A few scuffs ☆ 1943-S AU-58. Minor handling marks and russet toning ☆ 1944-S (6): MS-62. Usual striking softness but lustrous and a few scuffs; MS-61. Hazy lustre and pleasing with a better than average strike; MS-60. Bright lustre but a few hairlines in the right obverse field; AU-58 (2). Both are classic sliders; AU-53. Average surfaces and decent lustre. (Total: 9 pieces)
- 3423 Trio of MS-65 certified Walking Liberty half dollars:** ☆ 1943 MS-65 (NGC) ☆ 1945 MS-65 (NGC) ☆ 1945-S MS-65 (PCGS). All are above average for the grade with the first two exhibiting flashy mint lustre; the last one has more of a satiny surface. All three have nice strikes and clean surfaces. An exceptional lot of late date Walkers that should bring a strong price. (Total: 3 pieces)
- 3424 Walking Liberty half dollar pair:** ☆ 1943 MS-65 (NGC). Crackly russet toning on the obverse, sharp and pleasing ☆ 1946 MS-65 (SEGS). Lustrous and bright. (Total: 2 pieces)
- 3425 1943-S MS-65 (NGC).** Light silver and gold toning with surfaces that exhibit a very strong strike. In fact, the thumb is full, as is Liberty's head. An unretained mintmade lamination is mainly hidden on the central reverse.
#006620
- 3426 Four Mint State Walking Liberty half dollars:** ☆ 1945 MS-64 ☆ 1946 MS-63 (2) ☆ 1947 MS-64. All are brilliant and lustrous. (Total: 4 pieces)
- 3427 A trio of toned 1949 Franklin half dollars that grade MS-60 or better:** Two of these early dates have attractive gold and russet toning with a tinge of blue on the edge on both sides. The other coin has more of light gold tone that is more uniform throughout. (Total: 3 pieces)

U.S. SILVER DOLLARS

- 3428** 1799 Bowers-Borchardt 163, Bolender 10. **Rarity-2. Sharpness of VF**, but slightly bent and with some reverse scratches from the motto ribbon up to the clouds and a few other nicks and scrapes. Pleasing gunmetal-gray fields with lighter silver on the devices. The strike is average for this date, with no weakness or missing stars, and thus desirable. A coin with a decent overall appearance, and like so many bust dollars from this period shows evidence of circulation rather typical to the era.

- 3429** 1799 BB-167, B-14. **Rarity-3. VF-20**. Lightly cleaned long ago, as is common for the series, but long since retoned. Largely silver gray on the obverse with deepening golden brown at the rim, the reverse even golden gray with a completely natural appearance. The pleasing surfaces offer no alarming marks.

- 3430** 1800 BB-13, B-193. **Rarity-4. VF-20 sharpness**, cleaned long ago and skillfully retoned in vibrant gold, sea green, carmine, and blue highlights. Surfaces essentially mark-free with eye appeal that is far finer than our description lets on.
- 3431** 1840. **Sharpness of EF**, cleaned long ago but long since retoning in deep gold. Scattered marks present on both sides. From the first year of the new design type.
- 3432** 1842. **Sharpness of EF** in terms of wear but there is some obverse graffiti and a scrape near the head. Deeply toned in shades of gold and gray. A few small reverse rim ticks are found with a glass. Well struck with some lustre coming through from under the toning.

- 3433** 1849 **Sharpness of VG**. Pin scratches and a few minor rim bumps. Medium gray with slighter darker gray accents surrounding the devices, and actually about average for a coin with a fair amount of circulation for the period.

- 3434** 1871 **Fine-12**. Medium to dark gray fields with lighter silver on the devices. The surfaces are average with scattered circulation marks, but the rims only show a few minor nicks. A later date issue from this scarce series, and this one would make a good type coin selection.

U.S. TRADE DOLLARS

- 3435** 1874-S **Sharpness of EF**. Removed hinge. Several chopmarks. Natural steel-gray surfaces with several interesting chop marks on both sides. A hinge was removed reverse field near the left wing.

- 3436** 1875-S **Type II. Sharpness of VF** in terms of wear but the coin has been cleaned and there are two Chinese “chopmarks”, one on each side. Numerous little marks are found due to the cleaning as well as some planchet warping due to the chopmarks. A nice piece of American history as these coins were issued to be used in the Orient and many do exist with these interesting marks.

- 3437** 1876-S. **Sharpness of AU**. Polished and with fine hairlines. The surfaces are unnaturally bright silver with a hint of gold starting to come back. This is the Type II obverse and reverse.

- 3438** 1876-S. **Sharpness of AU**. Cleaned and artificially toned. Moderate hairlines in the fields and toned with a mix of blue and russet on both sides. Both dies are Type II varieties.

- 3439** **Pair of high-grade trade dollars:** ☆ 1877 **Sharpness of EF**, damaged with edge marks and brushed ☆ 1877-S **Sharpness of AU**, harshly cleaned with hairlines on both sides. (Total: 2 pieces)

- 3440** **Trade and silver dollar foursome.** Trade dollars: ☆ 1877 **VF-30**. Cleaned and hairlined but toning back with peripheral blue and gold ☆ 1878-S **AU-50**. Lightly cleaned and nicely toning back with attractive golden russet accents. Silver dollars: ☆ 1878 **Doubled Tailfeathers. Strong. AU-50**. Cleaned but toned back with gorgeous and rather intense iridescent toning on both sides ☆ 1878-CC **AU-55**. Scratches that are extremely light, lustrous and attractive. (Total: 4 pieces)

- 3441** 1877-S **AU-58**. A pair of sharp chopmarks on each side. Bright silver and flashy.

- 3442** **Pair of San Francisco Mint trade dollars:** ☆ 1877-S **Sharpness of EF** but lightly cleaned. Steel gray now ☆ 1878-S **Sharpness of VF** with a few minor field nicks. Nice old gray toning. (Total: 2 pieces)

- 3443** **Pair of trade dollars:** ☆ 1877-S **Sharpness of Fine** but there are some little edge nicks and chews. Nice color ☆ 1878-S **Sharpness of EF** but with field smoothing. Deep gunmetal-gray toning and a reasonable appearance. (Total: 2 pieces)

U.S. MORGAN SILVER DOLLARS

- 3444** 1878 8 **Tailfeathers. MS-62**. Crackling bright lustre with a glaze of orange-gold toning on both sides.

- 3445** 1878 8 **Tailfeathers. Sharpness of Mint State**. Light wipe on Liberty’s cheek and the nearby field. Bright and lustrous.

- 3446** 1878 **Doubled Tailfeathers. MS-62**. Beautiful peach-gold and teal around the rims, lustrous and well struck by the dies. LIBERTY is doubled as well.

- 3447 A trio of MS-64 Morgan dollars:** ☆ **1878 7/8 Tailfeathers. Weak.** Lovely surfaces with excellent lustre ☆ **1879.** Super strike and wonderful lustre define this coin ☆ **1887.** Some light toning on pleasing surfaces. (Total: 3 pieces)
- 3448 1878 7 Tailfeathers, 2nd Reverse. MS-64.** Questionable toning. Toned with rich orange-russet on both sides with blue along the reeding at the extreme edge. Lustrous with clean surfaces.
- 3449 Silver dollar threesome:** ☆ **1878 7 Tailfeathers, 2nd Reverse. MS-62.** Frosty white with a few hairline scratches on the obverse ☆ **1881-S MS-62.** Nicely struck and lustrous, with traces of golden toning. Moderate contact marks ☆ **1928-S MS-60.** Cleaned. (Total: 3 pieces)
- 3450 A prooflike pair:** ☆ **1878 7 Tailfeathers, 2nd Reverse. MS-62.** Fresh reflective fields that are bright and lustrous. Well struck except for the central area ☆ **1901-O MS-62** or nearly so. Bright surfaces that show good reflectivity. A few scattered rim nicks are found. (Total: 2 pieces)
- 3451 A quintet of early Morgan dollar dates:** ☆ **1878 7 Tailfeathers, 2nd Reverse. MS-61.** Bright and lustrous with a few scattered field marks ☆ **1878-S MS-62.** Well struck ☆ **1881 MS-63.** Frosty surfaces ☆ **1882-S MS-63.** Pleasing mint bloom for the grade ☆ **1883-O MS-63.** A clean cheek along with beautiful mint lustre defines this coin. (Total: 5 pieces)
- 3452 1878-CC MS-63.** Satiny pale champagne surfaces with nicely active cartwheel lustre. Small round CC mintmark.
- 3453 A beautiful group of iridescently toned MS-63 or better 1878-S Morgan dollars.** A lovely group with four of the pieces evenly matched in color and the other one similar, especially on the reverse. The coins look like they had something laying over them as there is a thin strip of lighter toning seen on the first four pieces. A wonderful group for the toning fanatic. (Total: 5 pieces)
- 3454 A pair of lovely Morgan dollars from 1879:** ☆ **1879 MS-64.** Wonderful surfaces that exude bountiful lustre. The strike is excellent and the contact marks are at a bear minimum ☆ **1879-S 3rd Reverse. MS-65.** Gorgeous surfaces with attractive cartwheel lustre. Very little in the way of contact marks that would detract from this coin. (Total: 2 pieces)
- 3455 Carson City dollar pair:** ☆ 1879-CC Sharpness of VG, cleaned with dark charcoal fields, lighter silver devices and hairlines ☆ 1880-CC 3rd Reverse. Sharpness of VF, cleaned and now light gray with decent surfaces otherwise. (Total: 2 pieces)
- 3456 Pair of Carson City dollars:** ☆ 1879-CC Sharpness of VG, cleaned and light silver-gray, with average surfaces otherwise on this key date ☆ 1890-CC VG-10 attractive dark gray with a couple of thin hairlines. (Total: 2 pieces)
- 3457 Five mintmarked Morgan dollars:** ☆ **1879-S 3rd Reverse. MS-63 DMPL.** Delicate gold toning and a few thin hairlines on the obverse field ☆ **1881-O MS-63 (2).** One is PL white with a hint of central obverse toning, the other satiny white with faint gold ☆ **1883-S Sharpness of AU,** cleaned and a bit dull ☆ **1890-O MS-63.** Gorgeous sea-green and gold toning on both sides. (Total: 5 pieces)
- 3458 A trio of MS-65 S-mint Morgan dollars:** ☆ **1879-S 3rd Reverse.** Lovely mint frost cascades from the surfaces of this wonderful coin ☆ **1881-S.** Bright mint color enlivens this coin's appeal ☆ **1882-S.** Well struck with the most attractive cartwheel surfaces. (Total: 3 pieces)

- 3459 1880/79-CC 2nd Reverse. GSA Holder. MS-63.** A small rim nick below the date is this coin's main detractor. Decent surfaces that have a bit of cloudiness. Housed in the original GSA plastic holder.
- 3460 Pair of Carson City GSA Morgan silver dollars:** ☆ 1880-CC 3rd Reverse, 8/7 Low. MS-62 PL ☆ 1881-CC MS-63. GSA boxes and certificates included. A nice pair, each is essentially brilliant and choice for the grade. (Total: 2 pieces)
- 3461 1880-O MS-63 (NGC).** Wonderful surfaces with little in the way of contact marks to hinder the coin's appeal. Numerous die cracks and some die clashing on the reverse is a chance for the VAM specialist to do further research. Great lustre with adds greatly to this coin's appearance.
#007114
- 3462 1880-S MS-65 PL (NGC).** Exceptionally bright and flashy, with chiseled devices which show considerable frost while the mirror fields fall away with their reflectivity. Scarce and desirable with such excellent surfaces.
#007119
- 3463 1880-S MS-65 PL.** A relatively common date with uncommon eye appeal. Frosted motifs and satiny, reflective fields form a pleasing cameo effect. The obverse displays rich gold and neon blue at the rim, while the reverse sports a bright champagne peripheral halo.
- 3464 A pair of MS-65 Morgan dollars:** ☆ **1880-S.** Satiny lustre with very little in the way of contact marks to impair the appeal of this lovely coin ☆ **1881-S.** Very well struck with semi-reflective surfaces adding much to the overall appearance of this fantastic coin. (Total: 2 pieces)
- 3465 Trio of silver dollars, each MS-64 (NGC):** ☆ **1881.** Brilliant centers are framed by light gold about the rim ☆ **1881-S.** A blast white coin that is quite attractive ☆ **1889.** Gorgeous blue, crimson, and gold iridescence on both sides. A prize for a silver dollar collector who appreciates exquisite toning. (Total: 3 pieces)
- 3466 1881-CC Fine-12.** A few minor rim bruises on the lower reverse, light silver-gray and attractive for this key date.
- 3467 1881-S MS-66 (NGC).** A glittering white Gem with frosty devices and blazing mint lustre throughout. Impressive surface quality for the specialist.
#007130
- 3468 1881-S MS-65 (NGC).** Sharply struck with frosty devices and satiny fields. Warmly toned in blended coppery gold, pink, and sky blue. An aesthetic treat.
#007130
- 3469 1881-S MS-65 (PCGS).** Especially bright and lustrous, with a big clean cheek on Liberty and splendid fields surrounding. A lot of eye appeal for this available date, a classic Gem cartwheel.
Housed in a green label PCGS holder.
#007130

- 3470 1881-S MS-65 (PCGS).** A satiny white coin with radiant lustre, a bold strike and satiny smooth surfaces. Hard to beat this series with obtainable gems of most dates and mints.
Housed in a green label PCGS holder.
#007130
- 3471 1881-S MS-65 (PCGS).** Lustrous and bright with a hint of haze on both sides, but the lustre is not diminished. Excellent surfaces and eye appeal, as expected for a Gem of this period.
Housed in a green label PCGS holder.
#007130
- 3472 1881-S MS-65 (PCGS).** A remarkable date for the Morgan dollar series which survived in surprising numbers. Apparently these were saved and somehow avoided the melting pots of the later years, and even in Gem grades, this date is readily obtainable with a mere 42,038 pieces graded as such by NGC and another 43,335 pieces by PCGS at this grade level. Remarkable indeed.
Housed in a green label PCGS holder.
#007130
- 3473 1881-S MS-65 (PCGS).** Bright white and lustrous with a trace of toning on the upper reverse. Boldly struck, excellent surface quality and glittering eye appeal.
Housed in a first generation PCGS holder.
- 3474 Half a dozen MS-60 silver dollars: ☆ 1881-S (3).** Two have been wiped and show faint golden toning, and the third exhibits slightly cloudy toning ☆ **1922.** Wiped ☆ **1922-D.** Very small reverse rim bump at 11:00. Frosty golden silver surfaces with traces of light russet toning on the reverse ☆ **1925.** Satiny and lustrous. Two short, shallow scratches in the left obverse field. (Total: 6 pieces)
- 3475 Half a dozen certified dollars: ☆ 1881-S MS-63 (PCGS).** Toned attractively ☆ **1922 MS-63 (NGC).** Lustrous, old holder ☆ **1923 MS-64 (NGC) (3).** Two are bright, one lightly toned ☆ **1923 MS-63 (NGC).** Clean and attractive with light russet. (Total: 6 pieces)
- 3476 1882 MS-65 (PCGS).** A flashy white coin that shows abundant lustre, and minimal handling marks, and a couple of faint hairlines below Liberty's cap.
#007132
- 3477 Pair of MS-63 GSA dollars: ☆ 1882-CC ☆ 1883-CC.** A handsome pair that exhibits relatively few marks and great mint lustre. Both are housed in their original GSA plastic holders. (Total: 2 pieces)
- 3478 1882-S MS-65 (PCGS).** With an arc of vibrant orange-gold on the lower right obverse, bright white elsewhere. Solid Gem surfaces with scarcely any nicks from handling.
Housed in a green label PCGS holder.
#007140
- 3479 Trio of Morgan dollars and an 1892 Columbian Exposition half dollar.** Morgan dollars: ☆ **1882-S MS-62.** Bright and lustrous ☆ **1897 MS-64.** Satiny and bright with a few obverse hairlines ☆ **1921 MS-60,** light toning ☆ **1892 Columbian half dollar. MS-63.** Blue and gold peripheral toning, frosty white centers. (Total: 4 pieces)
- 3480 A potpourri of Morgan dollars: ☆ 1883-O MS-60.** Good lustre with some light gold toning ☆ **1886-O EF-40.** Deep brown toning with just a few minor rim ticks are this coin's main detraction ☆ **1889 AU-50.** Nice even wear with a good strike present ☆ **1896 AU-50.** Deep colorful toning ☆ **1903 AU-55.** Excellent lustre for this later date. (Total: 5 pieces)
- 3481 1883-S, 1884-S, 1885-S. All EF-45 or better.** Each is toned dark to medium gray in matching hues, with blue peripheral accents. A scarce trio for the date collector. (Total: 3 pieces)

- 3482 A trio of better date Morgan dollars: ☆ 1883-S EF-40.** Bright from a past cleaning ☆ **1884-S EF-45,** perhaps a bit better in terms of wear but the coin has been cleaned leaving a bright surface on each side ☆ **1894-O VF-20.** Previously cleaned with an obverse rim scrape visible. A scarce group that should be closely inspected. (Total: 3 pieces)
- 3483 1884-CC MS-61.** Lustrous and pleasing for the modest grade with a few minor reeding nicks on the cheek and a scuff.
- 3484 A pleasing group of silver dollars: ☆ 1884-CC AU-50,** perhaps a bit better but the coin shows evidence of a past cleaning ☆ **1886-O EF-40.** Light golden toning ☆ **1889 EF-40.** Deep ebony toning on the obverse, the reverse has been lightened ☆ **1890-S EF-45.** Dipped in the past and now has a pale gray surface ☆ **1897-S EF-45** in terms of wear but the coin shows evidence of a past cleaning ☆ **1934-S Fine-12.** Evenly worn with evidence of a past cleaning. (Total: 6 pieces)
- 3485 1884-O MS-65 (PCGS).** Flashy and bright as are most Morgans from this era, fresh from mint bags after more than a century of storage. This one is quite clean and deserves a premium for the surfaces.
Housed in a green label PCGS holder.
#007154
- 3486 1884-O VAM-14. MS-65 (PCGS).** O/O mintmark. Bright and lustrous with problem-free surfaces that exude lustre, quality and appeal. Scarce in such splendid condition.
Housed in a green label PCGS holder.
#007154
- 3487 1884-O MS-65 (PCGS).** Flashy and bright, with no signs of mellowing on this sparkling jewel. A bold strike too, with trouble free surfaces that always retain great appeal at this grade level.
Housed in a green label PCGS holder.
#007154
- 3488 1884-O MS-65 (PCGS).** A frosty white Gem with just a hint of toning and excellent surfaces that suggest a finer grade level.
Housed in a first generation PCGS holder.
- 3489 1885 MS-65 (PCGS).** Sharp, lustrous and pleasing with strong lustre and satiny white surfaces that show just a touch of peripheral blue and gold below the denomination.
Housed in a green label PCGS holder.
#007158

- 3490 1885-CC MS-62.** Bright and lustrous for this date, with a few chatter marks on Liberty's cheek.
- 3491 Assortment of Morgan dollars struck at the New Orleans Mint: ☆ 1885-O MS-63 ☆ 1898-O MS-62 ☆ 1899-O MS-64 ☆ 1900-O MS-63 ☆ 1901-O MS-62 ☆ 1904-O MS-64.** All are lustrous. Some are brilliant, others are attractively toned. (Total: 6 pieces)
- 3492 1886 MS-65 (PCGS).** A frosty white Gem with clean surfaces including Liberty's neck and cheek. The strike is sharp and this one is a beauty.
Housed in an old green label PCGS holder.
#007166

3493 A sextet of silver dollars: ☆ **1886-O** VF-20. Pleasing gray toning ☆ **1886-S** AU-50 terms of wear but the coin has been noticeably cleaned ☆ **1896** AU-50. Attractive multicolor toning that appears to be natural ☆ **1902** EF-40 but has been dipped ☆ **1903** VF-30 but has been lightly polished ☆ **1934-S** VF-20. Areas of a past cleaning are seen with a glass. (Total: 6 pieces)

3494 1887 MS-65 (PCGS). A frosty white coin that boasts strong lustre and a solid strike. The surfaces are clean with scarcely any signs of handling.

Housed in a green label PCGS holder.
#007172

3495 1887 MS-64 (PCGS). Gorgeous deep russet-orange to the centers of the obverse and reverse while the rims are bright teal over lustre. The surfaces are pleasing and this one has loads of eye appeal likely from an album where it was displayed for many years.

#007172

3496 1889-CC Sharpness of EF. Cleaned with some scattered marks and scratches, including a line above the eagle's head and an "X" in front of Liberty's eye. Scarce with only 350,000 pieces struck for general circulation.

3497 1889-CC VF-30. A bit glossy and reflective with deep ebony-gray toning with lighter patches on the devices. A key date that is always in demand by collectors and very expensive in Mint State grades if these can be found.

3498 1889-CC Good-6. Scarce in all grades, this one circulated for a good number of years and has typical light gray devices with darker gray in the fields. The rims are clean.

3499 Trio of silver dollars: ☆ **1889-S** AU-53. Bright and lustrous ☆ **1892-O** AU-53. Lustrous obverse, deeply toned reverse with rose-gold centers and dusky teal rims ☆ **1894-O** AU-50. Lighter obverse with delicate toning, reverse with deep toning of varying shades, a scarce trio. (Total: 3 pieces)

3500 1890-CC/CC VAM-5R. Very lightly cleaned. Bright white and this one has great lustre but shows slight evidence of cleaning. The CC is doubled, the left C along the inside and the right C strongly at the top and inside curl. Always in demand by date collectors, this one has a little variety angle too.

3501 1890-CC EF-45. Cleaned. A bit dull on the surfaces with traces of surviving lustre and a touch of gold toning near the rims. A scarce and popular CC issue.

3502 Quartet of silver dollars: ☆ **1890-CC** Good-6 with rather unusual gold and brown toning ☆ **1893-O** Sharpness of VG, stained with a few dark patches on light silver surfaces ☆ **1903-S** Good-4 with a few old pin scratches on the reverse and mottled gray toning ☆ **1921** Peace. Sharpness of VG, cleaned to an even light golden hue. (Total: 4 pieces)

3503 Pair of Fine-12 dollars: ☆ **1890-CC** Usual light gray surfaces with some minor acetate traces on the obverse ☆ **1921** Peace. Golden gray toning, a few hairlines. (Total: 2 pieces)

3504 Three silver dollars: ☆ **1890-S** Sharpness of Mint State, hairlines on both sides, but still bright and lustrous ☆ **1892** Sharpness of AU, cleaned a bit dull and washed out ☆ **1921** Peace. Sharpness of Fine, cleaned with resulting hairlines on both sides. (Total: 3 pieces)

3505 1891 MS-64 (PCGS). A vibrant white specimen with excellent lustre and surfaces. Liberty's face and neck are clean as are the surrounding fields. Far better than the average MS-64, this one is a premium example.

#007204

3506 1892-S Sharpness of EF. Gently cleaned in the past. Moderate hairlines exist on the surfaces but traces of lustre survive from both the cleaning and circulation. A tough date that is always in demand, as these are virtually unobtainable in mint condition as the treasury hoards did not contain this date in any quantity or the **1893-S**, creating two of the keys to this series.

3507 Three circulated dollars: ☆ **1892-S** VF-20/Fine-15 with pleasing gray surfaces and scarce ☆ **1904-S** VF-35 with nice color and surfaces ☆ **1921** Peace. EF-40 and toned with light gray obverse, darker reverse. (Total: 3 pieces)

3508 1893 EF-45. Light silver-gray with traces of lustre in the protected areas. One of the key dates to this popular series in all grades.

3509 1893 Sharpness of EF, rim bruise at the top of the reverse, natural light gray toning and a decent appearance for this tough date.

3510 1893 Sharpness of EF. Cleaned. With medium gray surfaces and darker charcoal accents at the rims.

3511 1893-CC VF-20. Light gray and attractive for a Carson City coin of this period. There is a minor planchet depression near the upper leading curl on Liberty's head in the field. Solid rims and a scarce date in all grades.

3512 1893-O EF-45 (ANACS). Light golden gray with a few traces of lustre and decent surfaces for this scarce date.

#007224

3513 1894-S AU-53. Moderate field hairlines and a bit too bright. A scarce date that is always in demand.

- 3514 1894-S Sharpness of AU.** Deceptive rim filing located on the lower right obverse. The coin is bright white and undoubtedly dipped as the reeding shows colorful toning on the extreme edge of the coin. Scarce in high grades, and this one would fit well into a Mint State collection.
- 3515 A scarce pair of Morgan dollars:** ☆ **1894-S VF-20.** Natural gray toning with a bit of light iridescence about the rim ☆ **1900-S VF-30.** Medium gray patina gives this coin a pleasing appearance. (Total: 2 pieces)
- 3516 1895-O EF-40,** or better. Very minor obverse rim filing just below the date. Perhaps lightly dipped years back, now beginning to retone in lovely gold about the rims. An affordable example of this key date.
- 3517 1895-O VF-30.** Pewter gray surfaces with a pretty pink-gold flash. A few reverse rim marks, the most noticeable of which is at 1:00. The surfaces exhibit light marks consistent with the grade; none are deep or distracting. A decent circulated example of this highly desirable date.
- 3518 1895-O Fine-15.** Some pale iridescent toning over pale gray surfaces. Evidence of a light cleaning as there are some hairlines present. A typical weak strike for this very scarce New Orleans date.
- 3519 1895-O Fine-12.** Deep ebony toning in the fields accented by deep blue, while the reliefs are lighter olive-gray. Some scattered rim nicks. Vertical obverse scratch from Liberty's temple.
- 3520 1895-O Sharpness of Fine.** Cleaned. Recovering with golden gray hues and average surfaces that show a couple of minor rim marks.
- 3521 1895-O Fine-12.** Cleaned. Rim filed. A pair of minor rim nicks on the obverse have been filed to lessen their visual impact. A scarce date in all grades.
- 3522 1895-O Sharpness of VG.** Edge bruise left of the date, dark gray and otherwise attractive for this scarce date.
- 3523 1895-S Sharpness of VG.** Scratched. Pleasing medium gray fields, lighter silver devices but there are some minor pin scratches around the reverse periphery and lower wreath.
- 3524 Pair of nicely toned MS-63 dollars:** ☆ **1898-O.** Gold toning with colorful iridescent accents. Light contact marks on the high points ☆ **1899-O.** Chatter on the cheek and some light nicks throughout. The obverse is bright and lustrous with light golden toning, while the reverse exhibits deeper gold and blue toning. (Total: 2 pieces)
- 3525 Silver dollar trio:** ☆ **1898-O MS-62 PL.** Lightly cleaned with minor hairlines, but still reflective ☆ **1903-S Fine-12** with average surfaces ☆ **1921 Peace.** Sharpness of AU but the obverse edge was smoothed at 5:00. (Total: 3 pieces)
- 3526 1899 EF-45.** Medium gray toning on both sides, and a low mintage date.

- 3527 1900-S MS-64 (PCGS).** A well struck white coin with pleasing lustre and a touch of peripheral russet toning. The surfaces are clean with a few little scuffs and nicks of little consequence and expected for the grade. The S mintmark is large and sharp.
#007270
- 3528 1903 MS-65 (PCGS).** Lustrous with a touch of haze on the surfaces and a couple of bagmarks on the eagle's breast.
#007284

- 3529 1904-O MS-65 (PCGS).** With a hint of golden haze on both sides, but the lustre blazes through on this satiny gem. Solid eye appeal and excellent date collector quality.
Housed in a green label PCGS holder.
#007292
- 3530 1904-O MS-65 (PCGS).** Blazing white lustre and excellent surfaces expected for this lofty grade. An impressive example of this date, housed in the desirable early holder.
Housed in a green label PCGS holder.
#007292
- 3531 1904-O MS-65 (PCGS).** A vibrant white Gem with slightly reflective surfaces that show a minor scuff in the left obverse field. What few marks there are reside tucked away in obscure places. A great collector coin of this date and mint.
Housed in a green label PCGS holder.
#007292

- 3532 1921 VAM-1. Extra Berry, Infrequent Reeding. AU-58.** A coin that has seen some circulation and has accumulated a decent amount of contact marks that are magnified by a semi-reflective surface. A first look this coin has the appearance of a Zerbe Specimen striking but it does not have the die scratch at the second U of UNUM. Still a very unusual coin that has light gold and russet toning. Very close inspection is suggested so the prospective buyer can decide for themselves.
- 3533 Quintet of 1920s silver dollars:** ☆ **1921 Morgan. MS-64.** Shimmering lustre with traces of PVC ☆ **1923 MS-64.** Similar to the Morgan dollar, but with a couple of tics ☆ **1923 MS-63.** Toned with shimmering gray, orange, and pink ☆ **1923-S MS-60.** Intense silver lustre, with traces of cloudiness ☆ **1925 MS-64.** Traces of PVC over very lustrous surfaces. Please note, the PVC is removable with acetone and Q-Tips. (Total: 5 pieces)

- 3534 1921 Peace. MS-63 (PCGS).** A bit better than average on the strike, and light silver with a dusting of gold on both sides. Single year type issue, and always in demand as this is the most beautiful of the Peace dollars with the high relief design and bold definition unseen on later low relief dates.
#007356
- 3535 1921 Peace. MS-62.** Dipped. The planchet has a strange bit of slag or defective production at the center of the center of the reverse, somewhat hidden by the eagle's wing. Light golden toning.
- 3536 1921 Peace. AU-58.** Deeply toned with charcoal-gray and a small lump is noted on Liberty near her ear.

- 3537 1921 VF-30.** A well struck example of this one-year type coin with medium gray toning and clean surfaces, but two tiny edge nicks are noted below the 9.
- 3538 Three 1921 Peace dollars:** ☆ Sharpness of VF, abrasively cleaned with extensive hairlines resulting ☆ Sharpness of VF, cleaned and rim flaw at the Y of LIBERTY ☆ Sharpness of Fine. Edge dent and stains. (Total: 3 pieces)
- 3539 Partial collection of Peace dollars:** ☆ 1922-D MS-60 ☆ 1922-S MS-60 ☆ 1923 MS-62. Quite wholesome for the grade ☆ 1923-D AU-58 ☆ 1926-D AU-53 ☆ 1926-S AU-55 ☆ 1927-D AU-58, reverse hairline scratch ☆ 1928-S AU-53, or better ☆ 1934-D AU-58, bordering on Mint State ☆ 1935-S 3 Rays. MS-60 in terms of wear. Most show areas of noticeable cleaning except for the 1923. **SOLD AS IS. NO RETURNS.** (Total: 10 pieces)

- 3540 1923 VAM-1B. MS-66 (NGC).** Extra Hair variety. So named for the rather prominent die cracks in Liberty's hair behind her ear. Lustrous and quite satiny for this date, with a few minor traces of haze around the reverse rim. Well struck and preserved with minimal scuffs or handling marks. Although a common date, in this lofty grade few exist and the surfaces are much better than normally encountered. #007360
- 3541 1923 VAM-1B. MS-66 (NGC).** Extra Hair variety. Blazing white with a slight orange-gold cast. A walloping beauty for the date, and made all the more desirable by the strategically located die cracks and highly collectible as such. Outstanding surfaces, lustre and appeal for the date or variety specialist. #007360
- 3542 1923 MS-65 (PCGS).** Blazing white and attractive, with abundant frost on the devices and Gem quality surfaces. There is a tiny attached but loose lamination above AR of DOLLAR and a minor faint stain in the left obverse field. #007360
- 3543 Trio of frosty Peace dollars grading MS-64 each:** ☆ 1923 ☆ 1924 ☆ 1925. These all exhibit nicely-matched gold and gray iridescence. (Total: 3 pieces)
- 3544 1926 MS-64 (NGC).** Very close to a Gem grade with satiny clean surfaces that show scarcely any signs of handling and vibrant lustre throughout. The strike is sharp and the eye appeal abundant for this often overlooked Philadelphia issue. #007367
- 3545 1928 Sharpness of EF,** burnished. Bright with spurious lustre and toned with golden accents for this key date.
- 3546 1934-D MS-63 (NGC).** Exceptional mint bloom with a bit of pale gold over surfaces that have the appearance of a full grade higher. A lovely strike adds much to this coin's charm. #007376
- 3547 1934-S AU-53.** Some lustre survives and this one has reasonable eye appeal for this key date. There is a small stain on the right side of the reverse. A few circulation marks, but the strike is quite sharp.

U.S. SILVER COMMEMORATIVE COINS

- 3548 1900 Lafayette. MS-61** or better. Light signs of a cleaning seen mostly on the obverse in the form of hairlines. Toned with dark russet-gold around the rims. A flurry of hairlines is noted at the truncations. A popular issue.
- 3549 1921 Alabama. Plain. MS-63.** Pleasing deep rose-gold toning over attractive surfaces. The strike is typical, especially so in the central area. A lovely coin that should bring a handsome price when the bidding is done.
- 3550 1936 Albany. MS-61.** The obverse is white and lustrous, the reverse slightly subdued.
- 3551 1937 Antietam. MS-60.** Cleaned. Traces of golden toning on the obverse, and a darker toned area on the reverse.
- 3552 Threesome of MS-63 silver commemorative half dollars:** ☆ 1936-S Bay Bridge. Whispers of golden toning ☆ 1920 Pilgrim. Deeper russet gold toning, more so on the reverse ☆ 1936 Rhode Island. Satiny and untoned. A lovely trio of bright, lustrous commemoratives. (Total: 3 pieces)
- 3553 Pair of MS-63 commemoratives from 1936:** ☆ Bridgeport. Frosty white with a touch of obverse cloudiness ☆ Robinson-Arkansas. Lustrous. A few tiny nicks on Robinson's cheek. (Total: 2 pieces)
- 3554 A trio of circulated Commemorative half dollars:** ☆ 1925-S California. AU-55 but hairlines are present from a past cleaning ☆ 1918 Lincoln. AU-58. Burnished surfaces ☆ 1925 Stone Mountain. AU-50 but has hairlines present due to a past cleaning. (Total: 3 pieces)

- 3555 1952-S Carver-Washington. MS-66 (PCGS).** Dappled golden toning complements frosty surfaces. Outstanding both technically and aesthetically. From a net mintage of just 8,002 pieces. #009436
- 3556 1936-S Cincinnati. MS-64 (NGC) (CAC).** Moderate tones of champagne and light lavender predominate on both sides. Well deserving of the green CAC label. #009285
- 3557 1892 Columbian. MS-64.** The toning is a bit mottled with orange-russet hues and lighter silver on the reverse. This one approaches the Gem grade.
- 3558 1935 Connecticut. MS-64.** Fully brilliant and richly lustrous with a few light obverse hairlines present, probably originating with a long ago wiping.
- 3559 1935 Connecticut. MS-62.** Lightly cleaned, slide marks on reverse. A bit dull with some directional hairlines on the reverse, possibly from acetate slides used in coin albums.
- 3560 1935 Connecticut. MS-63.** Perhaps better. Sweeping bands of original lustre throughout.
- 3561 1936 Delaware. MS-65 (NGC).** Snow white lustre and sharp, with excellent surfaces and strong eye appeal. #009301

3562 1936 Delaware. MS-64 (NGC). Satiny surfaces. Essentially brilliant with a faint dusting of gold and pink.

Issued to commemorate the 300th anniversary of the settlement of Delaware by Swedish colonists. Although the anniversary was celebrated in 1938, the coins were dated 1936; could it be that the issuing commission anticipated a multiyear coin program of the type enjoyed by Arkansas and Texas?

#009301

3563 1936 Elgin. MS-64. Satiny white surfaces, very choice and original in every way.

3564 1936 Gettysburg. MS-63 or finer in terms of initial presentation. Signs of a very gentle cleaning under golden toning, a trifle dull as a result with minor hairlines.

3565 1936 Gettysburg. MS-63. Impressive with blazing white lustre, but there are some minor bagmarks on the devices.

3566 1936 Gettysburg. MS-61. A few minor lines and handling marks, but lustrous.

3567 Trio of popular commemoratives: ☆ **1922 Grant. No Star. MS-61.** Light golden tone ☆ **1936 Long Island. MS-60,** lightly cleaned. A few light pinscratches ☆ **1926 Sesquicentennial. MS-61.** Bright white, somewhat hazy surfaces with traces of light copper-gold toning. (Total: 3 pieces)

3568 Five commemorative half dollars: ☆ **1918 Lincoln. MS-60.** Harshly cleaned with dull gray surfaces and hairlines ☆ **1936 Rhode Island (2). MS-62, MS-61.** One is bright silver but with minor polishing; the second is a trifle dull ☆ **1946 Booker T. Washington. MS-62.** Lustrous with nice surfaces ☆ **1952 Washington-Carver. MS-60.** Polished and hairlined. (Total: 5 pieces)

3569 1936 Long Island. MS-66 (ICG). Frosty mint brilliance vies with deep crimson and indigo toning, typically imparted by the original holder for this issue. A satisfying commemorative half dollar.

3570 1936 Long Island. MS-61. Satiny lustre but there are some dark specks on both sides.

3571 1936 Lynchburg. MS-63. Average strike, average lustre, but the surfaces are all relatively free of distracting contact marks.

3572 1936 Lynchburg. MS-63. Bright silver and lustrous, with better than expected surfaces for the grade.

3573 1920 Maine. MS-65 (PCGS). Toned with delicate golden haze over lustre and attractive overall. The surfaces are free of distracting marks, and is sharply struck.

3574 1925 Norse American medal. Thick. MS-62. Lustrous and lightly toned on both sides, this Laura Gardin Fraser-designed medal has long been collected among its U.S. silver commemorative brethren.

3575 1925 Norse American medal. Thick. MS-60. Dipped years ago and starting to retone. Viking warrior, dragon ship. Rv. Leif Ericsson's ship of 1000 AD, Congressional inscription. Struck at the urging of Minnesota Congressman Ole J. Kvale to mark the anniversary of the first organized Norwegian immigration on board the brig *Restaurationen* in 1825. Wayte Raymond included the Norse American Medal in his National Albums for U.S. commemoratives, boosting its popularity.

3576 1925 Norse American medal. Thin. AU-58. Viking warrior, dragon ship. Rv. Leif Ericsson's ship of 1000 AD. Project of Minnesota Congressman Ole J. Kvale on the Centennial of the 1825 Norwegian immigration on the brig *Restaurationen*. The Thin Planchet Norse is many times rarer than the thick.

3577 1928 Oregon. MS-65 (PCGS). A frosty white Gem with a bold strike and clean surfaces. No signs of toning aside from a whisper of gold. Scarce and desirable in Gem grades.

#009342

3578 1921 Pilgrim. AU-55. Lilac and gray toning on both the obverse and reverse. A scarce commemorative issue.

3579 1925 Stone Mountain. MS-64 (PCGS). Lustrous and sharp with a hint of golden haze starting to form primarily on the reverse.

#009378

3580 1927 Vermont. MS-63 or better. Gentle cleaning. Moderate hairlines and recovering with gold toning.

3581 1927 Vermont. AU-58. Thin hairline on the cheek. Bright silver with a hint of gold.

3582 1927 Vermont. AU-53 or better. Lustrous but with minor wear on the high points of the design.

3583 1936 Wisconsin. MS-65. Bright, lustrous, and almost entirely free of any contact marks.

3584 1936 York. MS-62 (NGC). Light golden wisps over lustre.

#009449

U.S. GOLD DOLLAR

3585 1861 MS-60. Cleaned. Struck from heavily clashed dies as often seen with minor ghosts of the obverse and reverse devices impressed into the fields. A bit dull from the cleaning, but the surfaces appear quite clean from the handling perspective.

U.S. QUARTER EAGLES (\$2.50 GOLD)

3586 1836 EF-40. Ex-jewelry. The surfaces show a few more nicks and surface marks than average, but do not have the pebbly look that is often seen on ex-jewelry pieces. Clear die crack down through the sixth star into Liberty's head, and a moderate scratch behind the eagle's head.

3587 1878-S AU-55. With traces of mint frost. Highlighted with orange gold accents on both sides and a few minor scuffs and scrapes from circulation.

3588 1899 Net MS-60, Olive-gold surfaces with pale pink and ice-blue highlights. Some faint hairlines from a light brushing account for the assigned grade.

3589 1912 MS-61. Bright yellow-gold and lustrous, with a scattering of handling marks and lines typical of the issue.

3590 1912 AU-55. Bright gold and pleasing for this titanic year.

3591 1914 AU-58 (PCGS). Brilliant and satiny. Sharply struck virtually everywhere except for some of the fine details in the lowest feather in the Indian's war bonnet. The 1914 has the second lowest mintage of any issue in the Indian Head quarter eagle series, just 240,000 examples were minted.

#007946

3592 1915 Net EF-45, sharpness of AU but hairlines and some reverse scratches seen.

3593 1925-D MS-60. Dipped and with an inner circular mark possibly from a counting machine or something similar that has lightly etched the surfaces. Bright and lustrous otherwise.

3598 1871 AU-50. Housed in a PCGS holder labeled "Genuine." Two pin scratches are noted below the eagle's left wing (viewer's right). Light honey gold overall with blushes of ice blue. Prooflike brilliance can be seen in the protected areas of the fields on both sides. An elusive issue in all grades; a mere 1,790 pieces were minted. PCGS has certified specimens on just 30 occasions in all grades over the years, a figure which may include resubmissions of some examples.

3599 1907 Liberty. MS-64 (NGC). Rich orange-gold lustre throughout and sharp. Close examination find a few trivial bagmarks and scuffs, but this one is nice for the final year of issue of the Liberty or Coronet design.

#008764

U.S. HALF EAGLES (\$5 GOLD)

Mint State 1841 Half Eagle

3594 1841 Sharpness of Mint State, lightly cleaned. Bright and lustrous yellow gold with distinctive olive highlights on frosty, well-struck motifs and satiny, prooflike fields. Conservatively graded on our part—the lustre is *complete and unbroken on the high points*, but some light hairlines are present, perhaps from an old, well-meaning brushing. Indeed, without the aforementioned brush marks we could easily call this piece MS-63 or finer and find few who would disagree. Take a good long look and then have at it, as they say, for the bidding will no doubt prove our point regarding the grade.

3595 1881 AU-55. Brilliant and attractive with wisps of mint frost surviving in the protected areas on both the obverse and reverse.

3596 1910-S EF-40. Scarce date, with the mintmark somewhat crushed by wear but clear enough to identify without trouble.

3600 1932 MS-63 (NGC). Frosty and bright with ample lustre and decent surfaces.

#008884

3601 1932 MS-63 (PCGS). Attractive orange-russet toning over lustre and a touch of haze. Well struck and preserved.

Housed in a green label PCGS holder.

#008884

U.S. EAGLES (\$10 GOLD)

3597 1846 EF-45. Housed in a PCGS holder labeled "Genuine." Partially brilliant with lemon and olive highlights. Devoid of any serious marks. Traces of prooflike character can be seen around the eagle on the reverse.

3602 1932 MS-63 (NGC). Bright yellow-gold with a touch of orange. Lustrous in the fields with a couple of minor bagmarks on the chin and left of the date. A late issue gold coin from the early 1930s, one of the few dates obtainable for a type price.

#008884

U.S. DOUBLE EAGLES (\$20 GOLD)

3603 1904 MS-64 (NGC). Especially bright and lustrous, with glittering gold surfaces that show precious few signs of handling or bagmarks. #009045

3607 1904 MS-63 (NGC). A few nicks on the high points but the color is attractive yellow-gold with ample eye pleasing lustre. #009045

3604 1904 MS-64 (NGC). Attractive yellow-gold surfaces with excellent fields and face on Liberty that show precious few signs of handling. This one is close to a Gem grade. #009045

3608 1904 MS-63 (NGC). Frosty and lustrous, with minor bagmarks scattered over the surfaces. #009045

3605 1904 MS-64 (NGC). This one has a bit of orange-gold lustre and scattered tiny fritzes that held it back from a Gem grade, but still much nicer than the usual choice category coins. #009045

3609 1904 MS-63 (NGC). Lustrous with yellow-gold color and just a couple of minor nicks, one short scratch at the truncation too. A plentiful date. #009045

3606 1904 MS-63 (NGC). Typical light yellow-gold surfaces with pleasing lustre and just a few light nicks from bag handling. #009045

3610 1904 MS-63 (NGC). Slightly reflective fields and sharp, with minimal handling marks to distract the eye. #009045

3611 1907 Liberty. MS-64 (NGC). Satiny lustre with a dusting of coppery gold toning on both sides. One tiny bagmark in the field near the tip of Liberty's nose, clean on her cheek and neck. Final year of issue.
#009052

3612 1924 MS-64 (NGC). Bright and lustrous, with excellent surfaces and rich golden eye appeal. A premium example for this date.
Housed in an early generation NGC holder.
#009177

3613 1927 MS-63 (PCGS). Fabulously satiny surfaces exhibit very little in the way of contact marks. Excellent eye appeal.
#009186

MIXED TYPE U.S. GOLD COINS

3614 U.S. gold type threesome: ☆ 1854 gold dollar. Type I. MS-62 ☆ 1897 quarter eagle. MS-63 ☆ 1898 eagle. MS-62. A lustrous honey gold trio, each of exceptional quality for the grade. (Total: 3 pieces)

U.S. GOLD COMMEMORATIVE COINS

3615 1905 Lewis and Clark gold dollar. AU-55 DETAILS (ANACS). "Cleaned." Bright yellow gold with the "glassy" appearance of a piece that was once used in jewelry. Still, mint frost can be seen in the protected areas and no heavy marks are noted.
(2x photo)

3616 1916 McKinley gold dollar. MS-62. Frosty honey gold with rose highlights. Choice for the grade.
(2x photo)

3617 1916 McKinley gold dollar. AU-50. Removed from jewelry. Polished obverse with edge marks where the prongs were removed.

TERRITORIAL COUNTERS

3618 1847 California \$10.00 Counter. Brass, 27.1mm. Obv. Liberty head of Federal coinage. Rev. American flag, *CALIFORNIA COUNTER*. Dark toning, Kagin 4 reverse, obverse in this diameter unlisted ☆ **U.S.S. Olympia Relic Medal, n.d.** Bronze, 32mm. Obv. Admiral Dewey's flagship. Rev. Propeller, relic inscription. Choice Extremely Fine. (Total: 2 pieces)

3619 "1849" California counter. Sharpness of VF, a few scratches. Struck in brass, these were used in gambling halls. The obverse is a copy of the half eagle and dated 1849, the reverse shows a miner panning for gold with a palm tree in the background. A few faint scratches in the obverse fields.

CALIFORNIA SMALL GOLD

3620 Pair of California gold pieces: ☆ 1863 Octagonal gold dollar. Liberty Head. BG-1307 Rarity-4-. Mint State 60. A few handling marks ☆ 1876 Octagonal half dollar. BG-951. Rarity-5+. Sharpness of Extremely Fine but with two holes. The planchet is laminated in places, but lustrous. (Total: 2 pieces)

3621 1874 Round 50¢. Indian Head. BG-1055. Rarity-4+. MS-62 (NGC). Lustrous with a touch of haze on both sides but attractive enough for this die pairing. Faint hairlines account for the grade as the surfaces are pleasing otherwise.
(2x photo)

HAWAIIAN COINS

- 3622 HAWAII. Kalakaua I, 1874-1891.** Quarter Dollar (Hapaha), 1883. Head r. Rv. Crowned Arms. KM 5. Untoned and lustrous. **Brilliant Uncirculated.**
- 3623 HAWAII. Kalakaua, 1874-1891.** Hapalua, (Half Dollar), 1883. King's head r. Rv. Crowned Arms dividing value, Kingdom's motto above. KM 6. Obverse speckling and scratch on neck. Toned. Good Extremely Fine.

ROLLS, GROUPS, AND SETS

ROLLS OF U.S. COINS

- 3624 A potpourri of rolls:** ☆ 1943-S cent. (24). MS-62, or better with a few showing some spots. Most have nice original surfaces ☆ 1944-S quarter (16). MS-63 but for one which is AU-50. The Uncirculated coins have decent lustre and good strikes ☆ 1961 half dollar (19). Proof-64 or better. Lovely surfaces with most untoned except for the top coin which has pretty russet and gold. Included in this roll is a 1963 Proof to complete the count of 20 pieces. (Total: 60 pieces)
- 3625 A lovely roll of 1942 Type I nickels.** A beautiful roll of business strikes with each showing nice lustre and a pleasing strike. Rolls of this era are not as available these days as most get broken up and sent in for third party grading. Do not let this opportunity pass you by to acquire this lovely roll because who knows when another roll of this date will pass through the auction venue. (Total: 40 pieces)
- 3626 Trio of Franklin half dollar rolls:** ☆ 1958-D MS-60 to MS-64. Lustrous with a few lightly toned pieces ☆ 1960 Proof-60 to Proof-64. A brilliant, flashy group of Proofs. One or two pieces with a spot or two ☆ 1963 MS-60 to MS-64. A satiny roll. (Total: 3 rolls, 60 pieces)
- 3627 Partial roll of mixed date Morgan dollars.** A good starter collection of Morgan dollars with some duplication: ☆ 1878 7 Tailfeathers, 3rd Reverse. AU-58 ☆ 1881-S MS-62. Nice iridescent color. Toned ☆ 1884-O AU-58 ☆ 1886 MS-61 ☆ 1889 (4) . MS-61, MS-60, dipped (3) ☆ 1890 (4). MS-61; pretty color (2); AU-58 (2) ☆ 1890-O MS-60 ☆ 1900-O MS-60 ☆ 1901-O MS-62. Frosty ☆ 1902-O MS-60, dipped ☆ 1921 MS-60 PL. (Total: 17 pieces)
- 3628 Seventeen 1889 and three 1890 silver dollars.** Grades range from AU-58, cleaned to MS-62, with MS-60 being a suitable average. Most are white coins with very little if any toning, but they do have respectable mint color. Some contact marks to be expected. (Total: 20 pieces)
- 3629 A roll of 1892-1893 Columbian Half Dollars:** ☆ 1892 (2) ☆ 1893 (18). All are VG-8 to Fine-12. Many of cleaned and or have some minor problems. Undoubtedly part of the hoard of unsold coins at the Exposition that were placed in general circulation. (Total: 20 pieces)

SETS OF U.S. COINS

- 3630 Set of silver Proof Roosevelt dimes, 1950-1964.** All coins grade Proof-65 or better. Housed in a Capital Plastics holder. Most are bright and attractive although the first couple show delicate gold toning and a couple of specks. A nice group that could enhance a Mint State collection of these dimes. (Total: 15 pieces)
- 3631 A complete set of Washington Quarter Proofs and SMS coins from 1950 through 1973-S:** The majority of the set grades Proof-63 or better except for the years 1965-1967 which are SMS coins and grade MS-65. The earlier silver coins are mostly untoned and bright but for the 1951 which has lovely iridescent russet, gold and blue

toning and the 1954 and 1960 dates which have very light toning. A wonderful set that can be expanded without much difficulty since you would not have to replace any of these pretty coins. Mounted in a well used hard plastic holder. (Total: 24 pieces)

- 3632 Kennedy half dollar collection virtually complete from 1964 through 2006-S.** Uncirculated issues grade average MS-63 or better. Proofs grade average Proof-65 or better. In addition to having an example of each date and mint for the entire series through 2006, the following are included in this set: ☆ 1964, both Uncirculated and Proof varieties ☆ 1965, both Uncirculated and Special Mint Set varieties ☆ 1966 (includes an extra Uncirculated example) ☆ 1967, both Uncirculated and Special Mint Set varieties ☆ 1976-S clad. Proof ☆ 1976-S silver, both Uncirculated and Proof varieties ☆ 1979-S, both "Filled S" and "Clear S" varieties ☆ Proof issues from 1992-S through 2006-S include both clad and silver varieties. The set is housed in a deluxe Dansco album with slipcase. (Total: 138 pieces)

GROUPS OF U.S. COINS

- 3633 Grouping of early American small change:** ☆ Eight sea-worn counterfeit Georgian halfpence that have the same appearance as those recovered on Rehoboth Beach, Delaware as they were washed ashore from the wreck of the *Faithful Steward*, which sank nearby in 1785. One of the better, readable specimens is a 1741 British style halfpenny with a George III obverse, a scarce muling ☆ Seven well worn or corroded genuine and counterfeit British Georgian halfpence ☆ Connecticut copper. Holed, dateless and well worn. Here is an interesting if low grade assortment of small change that would have circulated in colonial and early federal America. (Total: 16 pieces). **SOLD AS IS. NO RETURNS.**
- 3634 A small group of early coppers: Half cents:** ☆ 1804 C-13, B-10. Rarity-1. Plain 4, Stemless ☆ 1807 C-1, B-1. Rarity-2 ☆ 1809 B-4, C-3. Rarity-1. **Large cents:** ☆ 1812 S-290. Rarity-1 ☆ 1817 ☆ 1834 ☆ 1837 ☆ 1838 ☆ 1847 ☆ 1851 ☆ 1853. Details grades range from Fair-2 to Fine-15, but all the coins exhibit some sort of damage. Close inspection is recommended prior to developing a bidding strategy. (Total: 11 pieces). **SOLD AS IS. NO RETURNS.**
- 3635 Group of damaged half cents.** Grades range from VG to AU details. ☆ 1828 C-1, B-1. **Rarity-3. 13 Stars.** Very Good-7. Damaged at the upper obverse from a mount or hole ☆ 1828 C-2, B-3. **Rarity-2. 12 Stars.** Fine-12, holed or at least repaired at the top of the obverse ☆ 1832 C-2, B-2. **Rarity-1.** Very Fine-25, but damaged from a mount removal or holed and plugged ☆ 1832 C-2, B-2. **Rarity-1.** EF-45, but verdigris and spots ☆ 1832 C-2, B-2. **Rarity-1.** Very Fine-20 but damaged with scratches on Liberty ☆ 1835 C-2, B-2. **Rarity-1.** EF-40 but holed ☆ 1855 C-1, B-1. **Rarity-1.** AU-50, but holed, dented below date. (Total: 7 pieces). **SOLD AS IS. NO RETURNS.**
- 3636 Half cent and large cent trio:** ☆ 1835 half cent. C-2, B-2. Rarity-1. EF-45. Deep brown with natural planchet flaws in obverse field ☆ 1805 cent. S-267. Blunt 1. Rarity-1. Net Fine-15, sharpness of EF or so but old patination unskillfully removed from obverse leaving tell-tale scratches behind. Deep golden brown ☆ 1817 cent. N-6. Rarity-1. EF-40. Faintly cleaned long ago, now retuned in deep chestnut. (Total: 3 pieces)
- 3637 Collection of low-grade or damaged large cents:** ☆ 1800 ☆ 1801 ☆ 1802 ☆ 1803 (2) ☆ 1805 ☆ 1808 ☆ 1810 ☆ 1812. Coins have the sharpness of Fair to Fine, but most have some sort of damage or corrosion. (Total: 10 pieces)
- 3638 Lot of middle date large cents,** offered unattributed due to lower grades: ☆ 1816 VG-7, cleaned ☆ 1828 Fine-12, corroded ☆ 1838 Fine-12 (3) most with moderate circulation marks ☆ 1838 VG-8 average ☆ 1839 Booby Head. Fair-2, graffiti and scratches ☆ 1839 Head of 1838. Fine-12, sharpness higher but heavily corroded ☆ 1839 VF-20 and average with decent appeal. (Total: 9 pieces)

- 3639 Five late date large cents:** ☆ 1839 N-4. **Rarity-1.** VF details with two minor spots. Smooth tan copper otherwise ☆ 1841 N-3. **Rarity-2.** VF details but a few traces of cleaning. Now medium to dark brown ☆ 1846 EF details, but dark and a bit rough ☆ 1848 N-2. **Rarity-1.** VF ☆ 1853 AU. Porous and dark with roughness on the reverse. (Total: 5 pieces)
- 3640 Balance of Consignment.** Cents: ☆ 1853 N-17. **Rarity-2.** EF-40. Pleasing smooth brown patina with a single verdigris spot on the reverse. Well struck ☆ 1857 N-1. **Rarity-1.** Large Date. EF-40. Medium brown color with some light contact marks seen on both sides ☆ Three Cents (Silver): 1862 EF-40 but showing some hairlines from a past gentle cleaning. Well struck in an ebony gray patina ☆ Nickels: 1942 Type I (2). Proof-64. A wonderful pair with one coin having some light obverse hazy toning. A pleasing lot that should be closely inspected. (Total: 5 pieces)
- 3641 One dozen early Indian Head cents.** The following popular dates grade AG-3 to Fine-12: ☆ 1863 (2) ☆ 1864 Copper-nickel ☆ 1864 Bronze ☆ 1865 (4) ☆ 1866 ☆ 1873 Open 3 ☆ 1873 Close 3 ☆ 1876. Most of the coins show some sort of issue, such as cleaning or corrosion. (Total: 12 pieces). **SOLD AS IS. NO RETURNS.**
- 3642 Mixed type lot:** ☆ 1868 cent. Sharpness of EF. Rim damage but pleasing brown color ☆ 1918 cent. MS-63 BN with faded mint color on both sides and sharp ☆ 1865 three cent nickel. VF-30. Doubled date low with clean surfaces ☆ 1956 quarter. Proof-67 CAM. Bright white and quite attractive ☆ 1964 half dollar. Proof-69 (ICG) A flashy gem. (Total: 5 pieces)
- 3643 Balance of consignment.** A lot of mostly U.S. coins including: **Cents:** ☆ 1880 (2) ☆ 188(?) ☆ 1882 ☆ 1884 ☆ 1885 ☆ 1888 ☆ 1889 (5) ☆ 1890 ☆ 1891 ☆ 1892 ☆ 1896 ☆ 1898 ☆ 1901 ☆ 1902 (2) ☆ 1904 ☆ 1905 ☆ 1906 ☆ 1908 (4) ☆ 1909 Indian ☆ 1909 V.D.B. Lincoln. Grades range from AG-3 to AU-55. Some have been cleaned or display some other sort of post-striking issue. **Two-cent pieces:** ☆ 1864 AG-3 ☆ 1866 VG-10 ☆ 1867 VF-30, pitted ☆ 1871 Good-4. **Five Cents:** ☆ 1872 VF-30 details, corroded. **Half Dollar:** ☆ 1913 Good-4. **Silver Dollars:** 1878-S MS-62 PL, dipped ☆ 1922 AU-58. **World Coins:** ☆ **Canada.** Elizabeth II, 1952-. U.S. ERROR COINS

- 3686 1885 1¢. Struck 7% off-center. AG-3.** Medium brown and quite attractive for this early date off-center Indian cent. The surfaces are smooth with one tiny speck in the left obverse field. Would probably grade higher but for the uneven wear caused by the off-center striking. This lot begins one of several coins from the Jules Reiver collection of mint errors and countermarks. These were purchased privately years ago and the collection represents a wide range of grades, denominations and collector interest. There is certainly something for everyone who appreciates dramatic blunders or fascinating names and initials.
From the Jules Reiver Collection.
- 3688 1935 1¢. Struck partially out of collar. MS-63 BN.** This one may have been struck more than once as the obverse has a partial raised edge that is excessively high and shows multiple lines probably from additional strikes. The color is faded mint red with tan and problem free.
From the Jules Reiver Collection.
- 3689 Quartet of off-center Wheat cents:** ☆ 1939. 10% off-center towards 9:00 on the obverse. Sharpness of Mint State, obverse with a light scratch down Lincoln's head, faded mint color ☆ 1942. 25% off-center towards 12:00 on the obverse. Sharpness of Mint State, minor corrosion on the rim, faded mint red and attractive overall ☆ 1943. 10% off-center towards 1:00 on the obverse. Sharpness of EF, minor corrosion typical of steel cents ☆ 1951-D. 30% off center towards 9:00 on the obverse. Sharpness of Mint State, lightly cleaned, interesting blob inside the loop of the 9. A fun lot to examine of earlier Lincoln cent blunders. (Total: 4 pieces)
From the Jules Reiver Collection.

3690 A pair of mint errors: ☆ 1944 1¢. Struck 10% out of the collar. MS-63BN. Well struck with a full date and nice original iridescent color ☆ 1982-D 50¢. Missing designer's initials. This was due to a drastically repolished reverse dies. Most of these halves were found in Ohio, Pennsylvania, and parts of Indiana. (Total: 2 pieces)

3691 1946-S 1¢. Struck 30% off-center. MS-66 RB (NGC). A dramatic error struck off-center toward 9:00 on the obverse. There is very little fading in the original color, and it remains mostly red. Scarce and desirable for the error and for the quality of the coin.

From the Jules Reiver Collection.

3692 1950-D 1¢. Struck 40% off-center. MS-64 RB (NGC). Struck off-center toward the 7:00 position on the obverse, with a full date and mintmark. Slight fading in the color, but mostly a bright brick red on both sides. Scarce this much off-center with a full date.

From the Jules Reiver Collection.

3693 Pair of off-center Wheat cents: ☆ 1951. 65% off center toward 9:00 on the obverse. AU-58 (NGC) with satin tan surfaces with no problems and great appeal ☆ 1952-D. 5% off-center toward 7:00 on the obverse. Sharpness of Mint State with a few traces of carbon, red and brown color and appealing. (Total: 2 pieces)

From the Jules Reiver Collection.

3694 1952-D 1¢. Struck 35% off-center. MS-64 RB (NGC). Struck off-center toward 8:00 on the obverse. Slight fading in the color but mostly red, two trivial specks on the reverse. A popular issue with a dramatic error.

From the Jules Reiver Collection.

3695 (1953) 1¢. Struck 60% off-center. MS-65 RB (NGC). Struck 65% off-center toward 8:00 on the obverse. Just enough of the tops of the date show to determine it clearly, but the mintmark area was off the edge of this one. Just faded enough for the RB color, with most of the mint color intact. Excellent surfaces and eye appeal.

From the Jules Reiver Collection.

3696 (1956) 1¢. Struck 50% off-center. MS-64 RB (NGC). Struck off-center toward the 7:00 o'clock position on the obverse with just the tops of the date visible with the 5 clear enough and a bit of the tail of the 6 as well. No mintmark is seen as this area was not struck up by the dies. Faded mint red with clean surfaces.

From the Jules Reiver Collection.

3697 Pair of Lincoln cent errors: ☆ 1956-D. Struck 55% off-center. MS-60, lightly cleaned and struck off-center toward the 10:00 o'clock position with strong date and mintmark ☆ 1958. Struck 80% off-center. MS-60, lightly cleaned. Remarkably struck toward the 9:00 o'clock position so the 58 are sharp and in the tiny struck portion of this one. (Total: 2 pieces)

From the Jules Reiver Collection.

3698 1959 1¢. Struck 45% off-center. MS-64 RD (NGC). Struck off-center toward 7:00 o'clock and the date is just missing the tail of the 5 and 9, mintmark, if any, is unseen. Solid mint color and the first year of the Memorial reverse cents.

From the Jules Reiver Collection.

3699 1960-D 1¢. Struck 65% off-center. MS-64 RD (NGC). Struck off-center toward 10:00 o'clock on the obverse so the date and mintmark are sharp. Excellent mint color and clean surfaces.

From the Jules Reiver Collection.

3700 1960-D 1¢. Struck 60% off-center. MS-64 BN (NGC). Struck off-center toward 7:00 position. Dramatic for this date, with golden red fading to tan. The date is full as well as the mintmark with strategic blundered striking aim.

From the Jules Reiver Collection.

3701 1969-D 10¢ Obverse clad layer, split after striking. Sharpness of Mint State. Lustrous, but bent and damaged.

3702 Trio of Lincoln cent off-center strikes: ☆ 196X. 40% off-center. MS-60 BN, struck off-center toward 11:00 last digit just off the edge, brownish mottled toning ☆ 1962-D. 70% off-center. MS-60, wheel mark, bold date and mintmark and struck off-center toward the 9:00 o'clock position on the obverse, minor wheel mark reverse in the unstruck planchet ☆ 1963-D 75% off-center with Obverse indent. MS-60, wheel mark. Struck off-center toward 9:00 o'clock, sharp date and indent where Lincoln's chin should be. Nice color and surfaces. (Total: 3 pieces)

From the Jules Reiver Collection.

3703 No date Lincoln 1¢. Struck through capped die. MS-63 BN (NGC). With the obverse showing the distended Lincoln Memorial from the die cap, the reverse has the sharp regular strike memorial. Faded mint color throughout

From the Jules Reiver Collection.

3704 1890 5¢. 5% curved clip. VG-10 (NGC). The clip is located at the 3:00 o'clock position in the obverse. Natural steel-gray surfaces with a few minor streaks.

From the Jules Reiver Collection.

3705 1907 5¢. Die adjustment strike. Mint State (NGC). The strike is quite weak at the centers, but the fields show lustre and this one never circulated. A scarce Liberty nickel error.

From the Jules Reiver Collection.

3706 1966 5¢. Struck 40% off-center. MS-65 (NGC). Struck off-center toward the 11:30 position on the obverse with the date just on the struck portion. Light nickel-gray and lustrous on this gem error.

From the Jules Reiver Collection.

3707 1945-P 5¢. Broadstruck. MS-64. With a broad rim on the left side of the obverse and reverse and distended lettering while Jefferson and the memorial are sharp. The surfaces are very clean and toned with attractive light golden russet with glittering lustre beneath. Popular War-nickel error struck in the usual silver, copper and manganese wartime amalgamation.

From the Jules Reiver Collection.

3708 Denver mint Barber 10¢. Struck 15% off-center. AU-58 (ANACS). Struck about 15% off-center towards the 5:00 o'clock position with the date just off the planchet, but appears to be a 191X, and being a Denver Mint coin it could be a 1910-D, 1911-D, 1912-D or 1914-D issue. The surfaces are toned a pleasing lilac-gray with golden accents. Minor scuffs are seen on the blank planchet area on the obverse and reverse, common to these dramatic off-center coins. Barber errors of this magnitude are rare and desirable in all grades, this one obviously plucked from circulation by the first person who noticed the apparent blunder. It is further enhanced by the Denver Mintmark, and highly collectible as such.

3709 1952 10¢. Partial collar, ragged clip. MS-65 (NGC). The ragged clip is on the lower left obverse and extends in a more or less straight line. The coin was also struck partially out of the collar, with resulting uneven rims. Clean surfaces expected for a gem and light silver with ample lustre to please the eye.
From the Jules Reiver Collection.

3710 1954 10¢. Struck on foreign planchet. AU-55 (PCGS). Struck on a thicker than usual planchet that is noted to weigh 40 grs. on the PCGS insert, perhaps a foreign planchet or a rolled thick planchet. Toned with patches of charcoal on the obverse, the reverse with a colorful mix of green, blue, and crimson. Apparently close to the correct size and weight of our normal dime planchet, but spotted by a sharp eyed collector and preserved.
#005106

3711 1958 10¢. Curved clip. MS-65 (NGC). The clip is located at 3:00 o'clock on the obverse. Toned with pastel gold and gunmetal hues but lustre shines through. Excellent gem surfaces and appealing for this style of error.
From the Jules Reiver Collection.

3712 1963 10¢. Cracked planchet. MS-62 FT (NGC). The planchet crack extends to Roosevelt's head and forms a jagged irregular fissure that is seen on both sides. Lustrous with a dusting of gold toning and sharply struck.
From the Jules Reiver Collection.

3713 Pair of 1934 Doubled Die Obverse quarters: ☆ VG-8. Natural gray surfaces, a bit more worn on the reverse, but the important Motto is crisp ☆ Good-4. Medium gray with the doubling evident on the Motto, more worn on the reverse as usual. (Total: 2 pieces)

3714 1943-S 25¢. FS-25-1943-S-101. Doubled Die Obverse. VG-8. A doubled die variety that has been known for quite some time and is *Redbook* listed. The doubling is seen on the date and the obverse legends. Seldom seen and very seldom offered for auction.

3715 Pair of half dollar errors, both in AU-58 (NGC): ☆ 1974. Triple curved clips, one lops off the 19 of the date, but leaves the 74, another at 9:00, the third at 4:00. ☆ 1977-D. Double curved clips, one at the peak of Kennedy's hair, the other below the 97, lustrous and pleasing as a pair. (Total: 2 pieces)
From the Jules Reiver Collection.

3716 1976-D 50¢. 5% curved clip. MS-64 (NGC). The clip is located at the I of LIBERTY, satiny lustre and pleasing for this bicentennial issue.
From the Jules Reiver Collection.

3717 1922 \$1. Clipped planchet. EF-40. A rare error and precious few silver dollars errors escaped into circulation, this one has about a 3% clip at 11:00 on the obverse and corresponding section of the reverse. Natural silver-gray toning and a few trivial scratches on the reverse. A desirable example of this scarce error type and denomination.

3718 Lot of off-center cents, 1962-1995. Dated include 1962 ☆ 1962-D ☆ 1982 ☆ 1989 ☆ 1995 (2) ☆ and 14 examples with no date, some with clips from multiple strikings. Most are BU. A couple of the no date coins are 90% or more off-center, a dramatic and enjoyable group of errors. (Total: 20 pieces)

3720 Over two dozen mint errors: ☆ 1¢ clips (6). 1917, 1928, 1944 (2), 1955, 1959 ☆ 5¢ clips (7). 1956, 1960, 1961 (3), 1962, 1963 ☆ 5¢ incomplete planchets (2). 1960 and 1963 ☆ Jefferson 5¢ off-center strikes (2). Both dramatic off-strikes ☆ 1942 10¢ straight clip ☆ Roosevelt 10¢ off-center strike ☆ 1966 10¢ off-center strike (2) ☆ 25¢ off-center strikes. 1977 and 1983. A bonanza of minor to major errors for the collector to study. The supply of these dried up dramatically after the mint improved their inspection and riddling techniques to catch most of these errors several years ago. VF-20 to MS-60 overall. The 1942 Mercury dime is AU-58 and shows a scarce straight edge clip above the date and represents one of the scarcer coins in this collection. (Total: 23 pieces)
From the Jules Reiver Collection.

3721 Ten lamination errors: ☆ Lincoln Memorial 1¢. Complete reverse split, shadowy memorial on one side, sharp on the other ☆ 1957 1¢ obverse long laminations ☆ 1959 1¢ streaks of laminations and possible a die set up weak strike ☆ 1920 5¢ curved clip lower obverse ☆ 1920 5¢ lamination in the form of a broad band encompassing the Chief's nose clear to the left edge ☆ 1930 split in two, with no reverse definition and scarce ☆ 1959 10¢ major lamination on the lower left obverse, some missing, some attached ☆ 1965 (2). One with three-quarters of the reverse clad layer missing and the other with about half the obverse layer missing ☆ 1965 25¢ No top layer of nickel only copper showing. VF-20 to MS-60 overall. Some intriguing errors for the specialist. (Total: 10 pieces)
From the Jules Reiver Collection.

3722 Coin and token error lot: ☆ **Pair of Shield nickel reverses from planchets that split after striking.** Both are EF-40 or thereabouts, one of them displays old scrapes ☆ **Octet of 1961 Doubled Die Reverse half dollars. Proof-63 to Proof-65.** Bright and reflective, some are lightly toned. *This is not the strong variety listed in the Red Book.* Minor die doubling is best seen at motto E PLURIBUS UNUM ☆ **No date 50¢. 40% silver. Blank planchet. Type II.** AU-50. 174.5 grains. Weight is 0.5 grain from the statutory weight for this type of planchet, and the edge shows the unmistakable smoky gray tone of the clad layer on these reduced silver planchets on which Kennedy half dollars were struck from 1965 to 1970. A scarce blank planchet type that displays minor handling marks and a small surface deposit on one side. **Pair of U.S. trade token errors, circa 1900-1920:** ☆ Tony Fuast Restaurant. "5." Octagonal. Double struck. EF, cleaned ☆ Alphonse Boone. Round. Brockage. VF. (Total: 11 pieces)

An Achaean colony of great antiquity, Metapontion was destroyed and re-founded early in the 6th century by colonists from Sybaris under the leadership of Leukippos. The city occupied an exceptionally fertile plain on the Gulf of Tarentum, which explains the use of the barley ear as its civic badge. Metapontion, along with Sybaris and Kroton produced the earliest coinage in Magna Graecia. The coins of these cities share three features: weight standard, broad and thin flans, and incuse reverses. These features were then adopted by neighboring mints at Kaulonia and elsewhere in southern Italy. While the reasoning behind the choice of these shared features is not clear, the common weight and style facilitated circulation between the cities of south Italy. The mixed contents of the earliest hoards from the region support this idea of free circulation of currency. It is interesting that these common features, indigenous to south Italy, also tended to keep the coins in south Italy. They are rarely found elsewhere in Italy, not even in Sicily. After approximately 510 B.C., the date of the destruction of Sybaris by Kroton, the fabric of the coins throughout south Italy became smaller and thicker, though still with incuse reverses. In the years between 480 and 430 B.C., sooner in Tarentum and later in Metapontion, the incuse issues were replaced by a two sided coinage.

4013 METAPONTION. Lucania. Ca. 430-400 B.C. AR Nomos. Head of Demeter right, hair bound in cross fillet. Rv. Barley-grain with six grains. 7.55 grams. Noe 380 (same dies). HN Italy 1507. Graffiti (IIAATA) in left field of reverse. Darkly toned. Good Fine. (200-300)

4015 METAPONTION. Lucania. Late 3rd century B.C. Æ 16 mm. Head of Leukippos left, wearing Corinthian helmet. Rv. Demeter standing facing, holding torch and placing hand on hip; in left field, wheat-ear. 4.95 grams. A. Johnston, "The Bronze Coinage of Metapontum," *KME* 67. HN Italy 1703. A hint of porosity. Black patina with traces of underlying orichalcum. Very Fine. (100-150)

An Exceptional Poseidonia Archaic Stater

4016 POSEIDONIA. Lucania. Ca.530-500 B.C. Archaic Stater. Poseidon striding r., wielding trident, ΠOM behind, dolphin to r. Rv. Same incuse. 7.40 grams. SNG ANS 616/617. Well centered on a broad flan, minor edge split. Exceptional reverse detail. Very Fine. (6,000-8,000)

Poseidonia was colonized from Sybaris in the 7th century B.C. While it adopted the fabric and incuse relief of the coinage of the Achaean colonies of Metapontion, Sybaris and Kroton, it followed the Campanian weight and denomination standard of its neighboring Phokaian colony of Velia. This presumably would have provided an impediment for trade between Poseidonia and Sybaris, its mother city, and suggests that Poseidonia was in a different commercial orbit. The destruction of Sybaris in 510 B.C. and rise of Kroton appears to have disrupted the economic structure of the area. Various cities, including Poseidonia, ceased production of large denomination incuse coins. When Poseidonia resumed coining Staters, they were double sided and of the Achaean weight standard, placing them in the commercial network of the principal cities of south Italy.

4017 THOURIOI. Lucania. Ca. 350-300 B.C. AR Nomos. Head of Athena right, wearing crested Attic helmet decorated with Skylla hurling a rock; on neck-guard, ΣI. Rv. A Magnificent Tetradrachm of Rhegion

4024 RHEGION. Bruttium. Ca.415/410-387 B.C. Tetradrachm. Facing lion's head. Rv. Laureate head of Apollo r., olive sprig behind, PHTINON before. 17.12 grams. Herzfelder 76, HN Italy 2496. A magnificent coin in high relief with pleasing, medium gray surfaces. Extremely Fine. (8,000-12,000)

Rhegion, a Greek colony in the "toe" of Italy opposite Messina, was founded by Chalkis in approximately 720 B.C. Under the tyrant Anaxilas (494-476 B.C.) Rhegion extended its authority to include Messina. With the expulsion of the sons of Anaxilas in 461 B.C., Rhegion ceased to be ruled by a tyrant and, in fact, in 433 B.C. was in alliance with Athens. It is curious that Rhegion did not support the Athenian expedition of 415 B.C. against Syracuse, particularly since Dionysios I, tyrant of Syracuse was actively supporting Lokroi Epizephyrioi, Rhegion's principal rival in southern Italy. Perhaps Rhegion hoped Athens would solve its problems with Dionysios while it focused on its rival Lokroi. However, with the destruction of the Athenian expedition in 413 B.C., Dionysios sought hegemony over the Greek and Sicel towns of Sicily and then turned his attention toward Italy. In alliance with Lokroi and the Lucanii he established his authority in southern Italy, destroying Rhegion in 387 B.C.

After the fall of the tyranny in 461 B.C. Rhegion abandoned the mule car/

hare types introduced by Anaxilas and returned to the Samian-inspired facing lion's scalp, recalling the early Samian exiles whom Anaxilas had prevailed upon to seize the town of Zankle, later renamed Messina. In approximately 415 B.C. it replaced the seated figure of the mythical founder Iokastos with the laureate head of Apollo. The result was an exceptionally powerful coin, finely detailed and of extraordinary beauty.

Leontinoi remained an independent city from approximately 466 B.C. to 422 B.C. when the city once again became a dependency of Syracuse. During this period of independence, however, Leontinoi remained wary of its former master and sought the support of Athens on more than one occasion. It was primarily the eloquence of Gorgias of Leontinoi, the famous sophist and rhetorician, which led to the abortive Athenian expedition of 427 B.C. Leontinoi's relatively abundant coinage during this period of independence attests to its prosperity, derived mainly from its abundant grain production. The coin types remained fixed: the laureate head of Apollo, the chief deity of the city, on the obverse and the lion's head surrounded by barley corns on the reverse.

4043 LEONTINOI. Sicily. 450-430 B.C. Tetradrachm. Laureate Apollo head l. Rv. Lion's head l., mouth open, tongue extended, three barley-corns and leaf around; LEON-TI-N-ON. 17.62 grams SNG ANS 240v. Well Styled Selinos Tetradrachm

4048 SELINOS. Sicily. 417-409 B.C. Tetradrachm. Galloping quadriga driven r. by Nike, wreath above, [Σ]EAINONTIO[N] below, ear of grain in ex. Rv. River-god Selinos standing l. pouring libation over altar before which stands a sacrificial cock, bull on base and parsley leaf to r. 16.94 grams. SNG Cop.604, AMB 411, Rizzo Pl.33.11. Slightly granular surfaces toned a pleasing medium gray. Extremely Fine. (6,000-8,000)

The obverse, clearly celebrating a victory, may well refer to either the triumph of Selinos over its longtime rival Segesta in 417 B.C. or the even greater victory of Syracuse, in alliance with Selinos, over Athens in 413 B.C. Here is another outstanding example of the outpouring of creative artistry evident in certain Sicilian cities in the last quarter of the 5th century. This coin series ended in 409 B.C. when the city was destroyed by the Carthaginians.

The Electrum coinage of Syracuse is an interesting anomaly. Dated by Jenkins to the reign of Agathokles from about 310 B.C. onwards, the Syracusan Electrum was undoubtedly intended to circulate in Sicily where hoards reveal a considerable mixing of Syracusan and Carthaginian Electrum and the local population was clearly comfortable with both issues. Why, however, Syracuse added Electrum to their usual production of Gold and Silver coins remains unclear. Jenkins suggests that it might have been an experiment prompted by the fact that under Agathokles Syracuse controlled much of Sicily and the Electrum would have served as an acceptable currency over the entire island.

While the history of early Arkadia is not clear, Williams in his "Confederate Coinage of the Arcadians in the Fifth Century B.C." (ANS NNM 155, pp.3ff) has argued that some form of confederacy existed, possibly at the instigation of the Spartan Kleomenes, and that this confederation was essentially political in nature. He maintains that there were three distinctive mints (probably Kleitor, Tegea and Mantinea). The coins struck were primarily silver Hemidrachms bearing on the obverse the seated figure of Zeus, associated with the sanctuary of Zeus on Mount Lykaeos, and a head of the nymph Kallisto on the reverse. The dominance of a single, small denomination suggests that the coins were not struck for the purposes of retail trade but for a large number of payments at a fixed rate, i.e. military pay. It should be noted in this connection that Arkadia's chief resource was man-power.

Like other poli in western Asia Minor, Ilion, built on the site of ancient Troy, rejoiced in its liberation from Seleukid rule in 189 B.C. by producing a series of broad, artistic Tetradrachm. These coins were financed by august citizens, those wealthy and influential enough, or wealthy enough to seek to be influential and august; and their names were proudly displayed within the exergue, thereby shrewdly connecting them within the collective public memory with the goddess Athena Ilias.

Knidos was an important commercial center famous for its wine. It was also a cultural center, boasting a renowned medical school, the famous statue of Aphrodite by Praxiteles, and the observatory of its chief citizen, the astronomer Eudoxos. In the Fifth Century B.C. Knidos was a member of the Delian Confederacy. In the Fourth Century, however, its political affiliations are not clearly known, though it does not appear to have been anti-Athenian.

This coin is part of a large and interesting imitative series produced by the kings of Cappadocia. They are linked by control marks to the royal drachms of these rulers and were probably struck to pay foreign (Syrian?) mercenaries serving in the various civil wars that troubled the kingdom in the late second and first centuries B.C. This particular example is control linked to coins of Ariarathes VIII.

This coin is a provincial issue paralleling the famous Judaea Capta series struck in Rome by Vespasian and Titus to celebrate their victory in the bloody Jewish War of 66-70 C.E. The reverse type draws on the standard Roman imperial motif of a trophy composed of the arms of the defeated Jewish rebels and the dejected personification of the defeated people seated at its base. Similar types occur on precious metal issues struck at Rome.

The Pharos lighthouse was built in the third century B.C. to protect ships from foundering as they entered the harbor of Alexandria. Listed among the Seven Wonders of the World, the massive building was designed by architect Sostratos of Knidos under the sponsorship of the Hellenistic king, Ptolemy II. It survived as a monument to the ingenuity of the ancient world until severe earthquakes toppled the structure in the 14th century A.D. The foundation of the lighthouse now lies beneath an Ottoman fort, built with some of the original blocks used to construct the Pharos.

Rare Denarius of Augustus and Deified Julius Caesar

4259 Divus Julius Caesar and Augustus. Denarius, ca. 17 B.C. *Rome*. Moneyer *M. Sanquinius*. Laureate head r. (which can represent a young Julius Caesar or the Genius of the new Saeculum) with a comet above his forehead; M. SANQVINIVS III VIR. Rv. Bare head of Augustus r.; AVGVSTVS DIVI F. RIC 338. Dig right reverse field. Once lightly polished, now retoning. Outstanding portraits. Otherwise Extremely Fine and Choice. (3,000-3,500)

4260 Augustus, 27 B.C.-14 A.D. Denarius, *19 B.C. Rome*. *P. Petronius Turpilianus*, moneyer. Ivy-wreathed head of Liber r.; P PETRON TVR-PILIAN III VIR. Rv. The emperor driving a slow biga of elephants l., holding a palm branch and scepter; AVGVSTVS, CAESAR in ex. RIC 282. **Rare**. A filled die gives the appearance of Augustus holding a fish as opposed to a palm branch, by the tail. Toned over faint reverse pinscratches. Good Very Fine. (2,500-3,000)

The reverse type here, used by all three *tresviri monetales* in this year, commemorates the honors accorded Augustus following his triumphant return from the East and his recovery of the standards lost by Crassus to the Parthians at Carrhae.

4261 Augustus, 27 B.C.-A.D. 14. AR Denarius. *Lugdunum, 12 B.C.* Bare head of Augustus right. Rv. Capricorn right, holding globe. 3.70 grams. RIC 174. Giard 29. RSC 147. Banker's mark on neck. Toned. Very Fine. (150-200)

4262 Augustus, 27 B.C.-A.D. 14. AR Denarius. *Lugdunum, ca. 8 B.C.* Laureate head of Augustus right. Rv. Caius Caesar on horse galloping right, holding sword, shield, and reins; behind, legionary eagle between two standards. 3.74 grams. RIC 199. BMC 500. RSC 40. Very Fine. (200-300)

Ex CNG 75, May 23, 2007, Lot 969.

4263 Augustus, 27 B.C.-A.D. 14. AR Denarius. *Lugdunum, 2 B.C.-A.D. 4.* Laureate head of Augustus right; at back of head, wreath-tie in the form of an AVG monogram. Rv. Caius and Lucius Caesars standing facing, holding shields and spears between them; above, lituus and simpulum turned inward. 3.66 grams. Cf. RIC 210 (without pin). Cf. BMC 540 (without pin). Cf. Giard 82/7a = BN 1651 var. (positions of the lituus and simpulum). Cf. RSC 43c (without pin). **Extremely rare** and perhaps one of only two known examples with this unusual wreath-tie. Good Very Fine. (800-1,000)

The obverse portrait of this coin is remarkable for what appears to be the monogram AVG hidden in the wreath. This highly unusual feature is sometimes described as a "pin" holding the laurel wreath ends together, but this is unlikely. More probable is that the monogram is not intended as a real object belonging to the portrait, but rather as a discrete descriptive or control element added in the same manner as engravers' signatures on Greek coinage. There was some fashion for inserting symbols in and around the wreath tie ends on provincial coins in the first century A.D. as evidenced by certain Syrian tetradrachms of Nero (e.g., McAlee 269-70).

- 4264 Tiberius, A.D. 14-37.** AR Denarius. *Lugdunum, ca. A.D. 16-37.* Laureate head of Tiberius right. Rv. Livia, as Pax, seated right, holding olive branch and scepter; plain chair legs. 3.54 grams. RIC 26. BMC 34. RSC 16. Numerous scratches. Medium grey tone. Very Fine. (100-150)

This Denarius is believed by many to be the same type as the coin given to Jesus by the Pharisees in an attempt to elicit an expected anti-Roman response and create a basis for his arrest. According to Matthew 22: 20-21, Jesus took the proffered coin and remarked only that one should "Render unto Caesar what is Caesar's, and unto God, what is God's." This type featuring a portrait of Tiberius and a "superscription" naming him certainly circulated in the east during the time of Jesus' ministry, making it very possible that it is indeed the Denarius type referred to in the Gospel account.

- 4265 Tiberius, A.D. 14-37.** AR Denarius. *Lugdunum, ca. A.D. 16-37.* Laureate head of Tiberius right. Rv. Livia, as Pax, seated right, holding olive branch and scepter; ornate chair legs. 3.47 grams. RIC 30. BMC 48. RSC 16a. Obverse corrosion. Darkly toned. Very Fine. (100-150)

The reverse depicts the Emperor Caligula officiating as Pontifex Maximus at the dedication of the Temple of Divus Augustus. This hexastyle temple had been vowed by the Senate at the death of Augustus in A.D. 17 and was constructed throughout the reign of Tiberius. It was at last completed in the first year of Caligula (A.D. 37). The celebrations surrounding the dedication were extravagant, including two days of games and religious ceremonies. All of this was designed to present Caligula as the legitimate heir to the throne of Augustus.

Crisp Agrippina, Sr. Sestertius

- 4272 Agrippina, Sr., wife of Germanicus, mother of Caligula.** Sestertius, *posthumous, struck under Caligula.* Draped bust r., hair in fancy braids; AGRIPPINA.M.F.MAT C. CAESARIS.AVGVSTI. Rv. Ornamented carpentum drawn l. by two mules; SPQR MEMORIAE AGRIPPINAE. RIC (*Gaius*) 55. A gem of Julio-Claudian coin portraiture. Mottled apple-green and sea-green over trivial roughness. Crisp details. Extremely Fine. (9,000-10,000)

The devoted wife of Germanicus, Vipsania Agrippina saw her life flung into a tragic downward spiral following the murder of her husband in 19 A.D. by the Governor of Syria. Agrippina believed with good cause that he was poisoned on the orders of the emperor, who was none too pleased with Germanicus' vast popularity. Agrippina became an outspoken critic of Tiberius and his loathsome prefect Sejanus. In retaliation, the imperial duo carried on defamatory campaign against her to such an extent that Agrippina, along with her eldest son, Nero Caesar, was arrested. After losing an eye to the flogging of a centurion, the abject woman was banished by senatorial decree to the Island of Pandateria, where she starved to death four years later. Tacitus tells us this was on the 18th day of October, 33 A.D. To honor his truly trodden-down mother, Caligula in his first act as Emperor—and perhaps one of the few honorable acts of his depraved reign—brought Agrippina's ashes—along with those of his two brothers, back to Rome.

4274 **Claudius, A.D. 41-54.** Æ Sesterterius. Rome, A.D. 50-54. Laureate head of Claudius right; c/m: NCAPR within rectangular incuse. Rv. Arch of Nero Claudius Drusus: triumphal arch surmounted by equestrian statue of warrior right, flanked by trophies. 25.74 grams. RIC 114. BMC 188. Pangerl 1. Cohen 48. Rough tan patina. Fine. (150-200)

The arch depicted on this coin was erected along the Appian to commemorate the German victories of Nero Claudius Drusus, the popular father of the Emperor Claudius. He was a well-loved military commander, who successfully campaigned in Germany between 15 and 10 B.C. The arch depicts the general on horseback flanked by German captives and an inscription alluding to the grant of the honorific title "Germanicus" that he received from the Senate.

The countermark on this coin, NCAPR, is one of the most commonly encountered early Imperial countermarks, yet its significance was uncertain until just this year when examples found in the Neronian stratigraphic layers from the excavations of the Meta Sudans and the northeastern slope of the Palatine Hill in Rome indicate that it belongs to the *congiarium* of A.D. 57. For further information, see G. Pardini, "Due monete contromarcate NCAPR dallo scavo delle pendici nord-orientali del Palatino," *RIN* 110 (2009): 233-60.

The reverse legend refers to Nerva's rescinding of the abuses associated with the poll tax known as the *Fiscus Judaicus*, which had been levied on adult male Jews following Rome's subjugation of the rebels at the end of the Jewish War (A.D. 71). Domitian vigorously enforced collection of the tax, which had been extended to all Jews within the domain of the Empire, regardless of age, whereupon many attempted to hide their identity to avoid paying it. Nerva relaxed these collection abuses and applied the tax to only those Jews who continued to openly avow their faith.

1642 Shrewsbury Pound
Ex Van Roekel Collection Sale**

4648 GREAT BRITAIN. Charles I, 1625-1649. Pound, 1642. *Shrewsbury Mint*. Five pellets at beginning of both legends. Shrewsbury horseman, plume behind. *CAROLVS D G MAG BRIT FRA ET HIB REX*. Rv. Declaration *RELIG PROT LEG/ANGL LIBER PAR* between two lines, three plumes, two flank "XX" with one above, and date below. Legend *DEVS DISSIPENTVR INIMICI* around perimeter. 119.36 grams. S.2917, N.2361, Morrieson A-4. Similar to Brooker 796. Similar to Lingford: Lot 138 (the Brooker Plate). A magnificent Shrewsbury Pound with fine style. Larger style horseman similar to Tower Mint group 3 coins. This is well struck with some doubling noted among the obverse top pellets and the plume. A few light surface digs, but for such a large coin, essentially free from any large marks. Pleasing deep gray toning. The edge with only the most trivial edge depressions here and there. This certainly appears to be **superior to the Brooker Plate Coin** (ex Lingford Sale). Marvelous for the type and an excellent representative of the Shrewsbury Pound issue. Very Fine. (15,000-17,500)

Ex the Tallent Collection (Stack's, April 2008, Lot 88); private purchase, November 2003; ex Edward D.J. Van Roekel Collection (Spink, November 15, 2001, lot 43); Dr. Rees-Jones Collection (Spink Auction 117, November 19, 1996, lot 25).

4650 **GREAT BRITAIN. Charles I, 1625-1649.** Crown, rose over plume/rose over plume (1631-1632). Tower mint under Charles I. Type 2b1. Second Obverse. More compactly placed King on caparisoned horse facing left, sword over shoulder. Rv. First reverse. Oval garnished shield, plume above, with "CR" above. 29.77 grams. S.2756, N.2192. Similar to Tallent Sale: Lot 56. Similar to Lingford: Lot 92. An unusual, transitional style variant. A well made flan with two very slight rim bumps. The typical centers as seen on this issue. Very Fine. (1,500-2,000)

Stately William and Mary 1694 5 Guineas

4654 **GREAT BRITAIN. William and Mary, 1688-1694.** 5 Guineas, 1694. *SEXTO*. Conjoined busts r. Rv. Crowned and garnished arms, House of Orange shield in center. S.3422, KM 479.1, Fr.299. An impressive, large gold type and very appealing. Perhaps very lightly mounted at one time. Honest wear for a coin of this size and some surface haymarking. However, the overall package is quite attractive. About Very Fine. (3,000-3,500)

4651 **GREAT BRITAIN. Charles I, 1625-1649.** Crown, mm rose/rose (1642-1643). *Truro*. King on upright, thick horse with vertically raised sword. Rv. Oval garnished shield. 29.20 grams. S.3045, N.2531. Similar to Tallent Sale: Lot 115. Similar to Brooker 1009. Similar to Lingford: Lot 183. A scarce provincial Civil War issue and interesting type. A little cruder than the Tower Mint crowns of the period. The flan is a bit oval, but quite well detailed for this issue. The toning is old and quite attractive steel gray with some wisps of blue in the reverse shield. About Very Fine. (1,250-1,750)

4655 **GREAT BRITAIN. William and Mary, 1688-1694.** Shilling, 1693. Conjoined laureate busts right. Rv. Crowned cruciform arms, interlocking "WM" monograms in angles. Garter star at center. A popular doggerel taunted, "The Bank, to make its Spanish Dollars pass stamped the head of a Fool on the neck of an Ass!" In fact the coins were countermarked to meet the silver crisis of the war of the French Revolution. A royal warrant of March 1797 directed the Royal Mint "to prepare the necessary means of stamping the Mark of the King's Head used at the Goldsmiths Hall for distinguishing the Plate of this Kingdom on such Silver Spanish Dollars as shall be sent to your office from the Bank of England."

For years, it was a practice at the British Royal Mint to produce a minute quantity of Proof strikes (normally 5 to 10) of each foreign coin it minted for its own internal purposes. A pair of examples of each type was then often sent to the branch mints in Australia, South Africa and Canada. In the 1990's, the Melbourne Mint sold in public auction one example of each type in their collection, while Pretoria sold all of their collection privately, thus putting up to 3 examples of each different Royal Mint produced foreign coin Proof Strikes into the market. The Melbourne Mint did not possess the Polish Proof Złoty of 1925.

Struck on an ideal round flan that shows some of the beaded border above legends. A beautiful if misstruck specimen. EF-45 (NGC). (400-450)

David Bruce, or David II, was crowned as a child but spent comparatively little of his reign in Scotland. When Edward Baliol claimed the crown of Scotland in his father's name, with the help of Edward III of England, young David fled to France for several years. An attempt to take back land from England ended disastrously with his capture at Durham in 1346. He spent a decade as prisoner in England; his reign was unremarkable after his return, aside from an offer to yield the crown to Edward III upon his death in exchange for the forgiveness of his random debt. This effort failed, and his nephew Robert II acceded after his death in 1371. This transfer of power marked the end of the House of Bruce on the Scottish throne.

- 4998 **SCOTLAND. David II, 1329-1371.** Groat. *Edinburgh*. Third (Light) Coinage, 1367-71. King's bust in profile to left, facing scepter. Rv. Long cross with legend in two layers, four stars at center. S.5125. Handsome light silver gray with subtle overtones dominated by gold. Bold and well struck portrait, nearly round but for shortness of flan near 6:00 on obverse. Legends nearly fully legible, DAVID very bold. A pleasing example of this final issue of the Bruce line. Very Fine. (275-325)

Sharp James I Demy

- 4999 **SCOTLAND. James I, 1406-1437.** Demy. *Edinburgh*. Type II. Lion rampant within diamond-shaped panel. Rv. Cross of St. Andrew flanked by fleurs de lis within six-arc'd tressure. S.5190. Rich yellow gold with some lustre. A handsome coin, well struck, well centered on the obverse though shifted to right on reverse. Choice Very Fine. (3,750-4,250)

James I, captured as a youth and taken to London, returned to his homeland and his throne at age 30. His practical reign lasted less than 13 years, during which he showed a severe authoritarian streak. Opponents to his reign—questioning his right to assume the throne nearly 30 years after his legal accession—assassinated James in 1437.

In 1424, under James, Scotland banned the playing of football. It has since resumed.

Scarce Demy of James II

5000 SCOTLAND. James II, 1437-1460. Demy. First Coinage, 1437-51. Type IVa. Types as above. S.5217. Rich yellow gold with significant remaining frost and choice visual appeal. Small area of peripheral weakness at southwest quadrant of obverse and opposite on reverse, else bold and fully legible. The central reverse is particularly sharp. A handsome example of this scarce issue. Nearly Extremely Fine. (4,250-4,500)

James II took over for his father at the age of 7. He was killed by a misfiring cannon at 29. In between, he and those who represented him during his minority oversaw a chaotic kingdom rife with disputes and jealousies, many centering on the so-called "Black Douglases."

Very Rare James V 2/3 Ducat

Ex Dundee

5003 SCOTLAND. James V, 1513-1542. 2/3 Ducat or Bonnet piece, 1540. Third Coinage, 1539-42. Types as above, 1 and 5 to sides of reverse shield. S.5374. Light yellow gold with some toning in intricacies. Well centered and well struck, with no doubling and complete legends. The portrait is bold. Slight vertical dent at base of reverse, old X scratch in front of portrait. This piece was called "Very Fine, a bit weak, mainly in center of reverse. Very rare." when catalogued in the 1976 Dundee sale. A highly desirable example of this rarity. Fine. (6,500-7,500)

Ex Dundee Collection (Bowers and Ruddy/Spink and Son, February 1976, Lot 104).

Sharp Demy of James II

5001 SCOTLAND. James II, 1437-1460. Demy. First Coinage, 1437-51. Type IVa. Types as above. S.5217. Lustrous medium yellow gold with excellent frost. Remarkably sharp detail, just the most minor doubling at central obverse. Lightly wavy but very little evidence of circulation. Nearly Extremely Fine. (3,750-4,250)

Magnificent James IV Half Unicorn

5002 SCOTLAND. James IV, 1488-1513. Half Unicorn. *Edinburgh*. Type I. Unicorn to left with shield. Rv. Stylized star with wavy arms over cross fleury. S.5322. A particularly nice example. Light yellow gold, a choice shade, over a full round planchet. Peripheral denticles frame the legends nearly completely on both sides. Very lightly double struck on obverse, central type well defined and legends intact. A magnificent coin. Choice Very Fine. (3,750-4,250)

**Mary, Queen of Scots
Classic Three Pounds Rarity**

(2x photo)

5004 SCOTLAND. Mary, 1542-1567. Three Pound piece, 1555. First Period, 1542-58. Before marriage. Plain bust to left. Rv. Crowned shield with lion rampant. S.5397. Light yellow gold with some deeper toning at peripheries. Somewhat hairlined from an old cleaning, but even in appearance and showing no significant marks. The strike is sound and well-centered. A classic rarity, the earliest numismatic portrait of the famous Queen of Scots and the first year of issue of the type. A star of this important collection. Fine or nearly so. (10,000-12,000)

Mary, Queen of Scots, is perhaps the most famed personage in Scottish history. In 1555, she was just 12 years old—but had owned the crown of Scotland for just as long. The young queen was living in France at the time of this issue; upon the death of her father-in-law, her husband became King Francis II of France. Over the next three decades, her several marriages and troubled relationship with her cousin Elizabeth I of England would lead to tribulations, war, and imprisonment. She was executed in 1587.

5005 SCOTLAND. Mary, 1542-1567. Testoon, 1560. Second Period, 1558-60. *Francis and Mary*. Type II. Crowned royal monogram between fleur and thistle. Rv. Crowned shield. S.5417. Pleasing faint blue and champagne tones over antique medium gray surfaces. Excellent eye appeal and surface quality, trivial old horizontal scratches at base of monogram. Full strike and clear date. A scarce piece from Mary's brief marriage in France. Very Fine. (1,300-1,500)

5006 SCOTLAND. James VI, 1567-1625. *Before accession to the English throne*. Half Merk, 1573. Second Coinage. Crowned shield with denomination in fields. Rv. Fancy cross with crowns and thistles at angles. S.5478. Light dusky gray with some natural surface roughness due to the low-grade alloy. The strike is uneven but is sharp more often than not. A tiny planchet split from the rim is noted near 7:00 from the obverse, legends essentially complete. Pleasing. Good Fine. (250-300)

5007 SCOTLAND. James VI, 1567-1625. *Before accession to the English throne. Revaluation of 1578*. 36 Shillings, 9 Pence (1578). 29.95 grams. Crowned Scots shield, titles of Mary and Henry Darnley. Rv. Crowned Thistle countermark on left side of scroll inscribed *DAT GLORIA VIRE*, *Glory Gives Strength* on the reverse of 1566 Ryal of Mary and Henry Darnley. Rv. Tortoise climbing crowned palm tree, Latin *Let God Arise and Their Enemies be Scattered*. Host coin is S.5425, see Spink p.70; Duffield 869. Cleaned at one time. Very Fine. (900-1,250)

Ex Howard D. Gibbs Collection (Hans M.F. Schulman, November 1960, Lot 289).

5008 SCOTLAND. James VI, 1567-1625. *Before accession to the English throne. Revaluation of 1578*. Ryal or Sword Dollar, 1570 (1578). 30.44 grams. Crowned Thistle countermark in left reverse field below 15. Crowned Scots shield divides crowned *I - R*. Rv. Naked sword

divides pointing hand and *XXX, PRO ME SI MEREOR IN ME, For Me but Against Me if I Deserve*. Host coin is S.5472, see Spink p.71; Duffield 871. Cleaned. Very Fine. (850-950)

Ex Howard D. Gibbs Collection (Hans M.F. Schulman, Nov. 19, 1960, Lot 291A).

5009 SCOTLAND. James VI, 1567-1625. *Before accession to the English throne*. 30 Shillings, 1582. Fourth Coinage. Half length bust of armored James to left, holding sword. Rv. Crowned shield with denomination and *I R* at sides. S.5487. Beautiful dark gray with faint golden toning highlights. Smooth and glossy on the obverse, some minor granularity underlying the reverse. Some reverse doubling in legends, central designs well formed. Natural planchet split from rim above *I* of *DEI*. A very attractive example. Very Fine. (2,250-2,750)

Frosty 1602 Sword and Scepter Piece

5010 SCOTLAND. James VI, 1567-1625. *Before accession to the English throne*. Sword and Scepter Piece, 1602. Eighth Coinage. Crowned shield. Rv. crossed sword on scepter over date. S.5460. Frosty light yellow gold with traces of lustre and a bit of toning around some obverse design elements. Some bluntness of strike noted here and there, legends complete. Some minor hairlines, good visual appeal overall. Very Fine, close to Choice. (2,250-2,750)

5011 SCOTLAND. James VI, 1567-1625. *Before accession to the English throne*. Sword and Scepter Piece, 1602. Eighth Coinage. Types as above. S.5460. Medium yellow gold with well struck devices, just some softness in the crown above the Scottish arms. Struck aligned to the right, affecting the tops of some legends. Good surface quality, some hairlines from a light old cleaning are trivial overall. A very nice example. Good Very Fine. (2,000-2,250)

- 5012 SCOTLAND. James VI, 1567-1625. *Before accession to the English throne.* Sword and Scepter Piece, 1602. Eighth Coinage. Types as above. S.5460. Light yellow gold with good details. Some minor central softness, legends intact on the round planchet. Once cleaned and showing some light hairlines, but quite pleasing. Very Fine. (1,800-2,200)

Handsome James VI Unit

- 5013 SCOTLAND. James VI, 1567-1625. *After accession to the English throne.* Unit. Tenth Coinage, 1609-25. Type II. Half length bust of James to right, holding orb and scepter. Rv. Crowned shield, I R to sides. S.5464. Rich medium yellow gold with excellent in-hand appeal. Nicely struck on a round planchet, obverse legends lightly doubled. Some hairlines remain from a cleaning long ago. Quite handsome, a fine example of this major Scottish gold denomination from after James' accession to the English throne. Very Fine or better. (2,250-2,750)

Choice James VI Unit

- 5014 SCOTLAND. James VI, 1567-1625. *After accession to the English throne.* Unit. Tenth Coinage, 1609-25. Type II. Half length bust holding sword and orb. Rv. crowned quartered arms. S.5464. Deep yellow gold toning highlights frame lighter yellow gold centers. Struck on an ideal round, broad planchet that allows for full legends and much of the peripheral border. Some weakness of strike is noted on the left side of the shield, but the portrait opposite is well realized. Some minor hairlines are seen. Choice Very Fine. (2,200-2,600)
- 5015 SCOTLAND. James VI, 1567-1625. *After accession to the English throne.* 2 Shillings. Type I. Crowned rose. Rv. Crowned thistle. S.5509. Deep gray with hints of gold. Some minor granularity. A diminutive denomination equal in size and value to an English two-pence. Good Fine. (80-90)

Scarce Unit of Charles I

- 5016 SCOTLAND. Charles I, 1625-1649. Unit. First Coinage, 1625-34. Armored half-length bust to right, holding sword and orb. Rv. Crowned shield. S.5527. Frosty light yellow gold with good detail. Edge at right side of obverse slightly irregular, but the centering is good and the legends are complete. Some trivial double striking is seen in the lower obverse. Light hairlines do not detract. Quite scarce. Very Fine. (3,500-4,000)

Charles I was, despite being primarily remembered as an English king, born a Scot. He was the second eldest son of James VI of Scotland, born at Fife in 1600. Upon the death of his brother Henry, he became the heir to the throne.
Ex Sotheby's, February 1986, Lot 272.

Choice Charles I Scottish Gold "Briot" Unit

- 5017 SCOTLAND. Charles I, 1625-1649. Unit, mm thistle-B. *Third Coinage by Nicholas Briot (1637-1642).* Half-length King in armor facing right holding orb and scepter. Rv. Royal shield, Arms of England in the first and fourth quadrants, flanked by monogram letters. S.5531. A beautifully designed Scottish issue in choice condition. Very evenly struck and perfectly centered. Extremely Fine. (4,750-5,250)

Particularly Pleasing Charles I Half Unit

- 5018 SCOTLAND. Charles I, 1625-1649. Half Unit. Third Coinage, 1637-42. Type I. Crowned bust to left. Rv. Crowned shield. S.5534. Nice deep yellow gold with hints of coppery toning. Well struck and bold, some trivial striations at centers, natural depression in lower right quadrant of shield, ideally round. Some minor hairlines remain from an ancient cleaning, graffito in lower left corner of obverse. Excellent overall visual appeal, a particularly nice example of this rare denomination by Briot. Choice Very Fine. (5,000-5,500)

5019 SCOTLAND. Charles I, 1625-1649. 30 Shillings. Third Coinage, 1637-42. Falconer's Second Issue. King on charger holds sword. Rv. Large crowned arms. S.5555. Nice medium gray with subtle surface toning. Trivial scattered natural pits seen at central obverse and around reverse peripheries. Ovoid planchet affects legends at base of reverse. Very pleasing overall. Nearly Very Fine. (500-550)

5020 SCOTLAND. Charles II, 1649-1685. Quarter Dollar, 1676. Second Coinage. Types as above. S.5620. Rich gold and fainter blue toning highlights glossy light silver gray surfaces. A very pretty piece, free of flaws. Trace of adjustment mark in French quarter of arms. Very Fine or nearly so. (275-325)
Ex James Davidson (Dix, Noonan, and Webb, 2003).

5021 SCOTLAND. Charles II, 1649-1685. Sixteenth Dollar, 1677. Second Coinage. Draped bust to left. Rv. St. Andrew's cross with emblems at angles. S.5624. Light silver gray with lovely golden tone around devices and legends amidst hints of lustre. Tiny rim nick atop reverse, another at G of GRA, trivial scratches under rose. Choice Very Fine. (550-600)

5022 SCOTLAND. William and Mary, 1689-1694. 40 Shillings, 1691. Types as above. Edge: SECVNDO. S.5648. Medium gray with darker toning around devices. Pleasing and sharp, scattered old marks on portraits, including some natural planchet flaws, all toned and subtle. Nice overall quality. Very Fine. (800-900)

5023 SCOTLAND. William and Mary, 1689-1694. 40 Shillings, 1691. Types as above. Edge: TERTIO. S.5649. Lively pastel blue tones around obverse legends blend with subtle gold over medium gray surfaces. Criss-cross traces of adjustment marks on portraits. A particularly attractive piece for the grade. About Very Fine. (550-600)

5024 SCOTLAND. William II, 1694-1702. 40 Shillings, 1695. Bust of William to left. Rv. Crowned arms. Edge: SEPTIMO. S.5679. Beautiful gold and deep blue tones meld over deep gray surfaces. Ideal color and quality, an excellent specimen. Natural and tiny planchet flaw at rim over date does not affect numerals. Choice Very Fine. (900-1,000)

5025 SCOTLAND. Anne, 1702-1714. Pre-Union. 5 Shillings, 1705. Bust to left, denomination below. Rv. Crowned thistle. S.5702. Light silver gray with some obverse hairlines. Struck in medal turn. Very Fine. (250-300)

With Queen Anne, both the long line of Scottish coins and the House of Stuart came to an end. Minor silver denominations struck in 1705 and 1706 were the last with peculiar Scottish motifs. English-style types struck at the Edinburgh mint continued until 1709. Anne's lasting legacy for the Scots was the 1707 Act of Union, from which sprung the Kingdom of Great Britain.

5026 SCOTLAND. Anne, 1702-1714. Pre-Union. 5 Shillings, 1705. Types as above. S.5704. Lustrous light silver gray with pleasing golden toning accents. Sharp and appealing, some very light obverse hairlines. Exceptional detail. Extremely Fine. (500-600)

5027 SCOTLAND. Anne, 1702-1714. Pre-Union. 5 Shillings, 1706. Types as above. S.5706. Dusky gray-brown with obverse scratches. Flaw at central reverse suggests former use as a button. Interesting. Fine. (150-175)

JETONS DE PRESENCE

Jetons began to be produced in France in the 13th century for use as counters in the reckoning sums in the complex coinages of the era. By the 1700's, deluxe Jetons struck in gold and silver were in use as gifts or as presentation pieces among the highest nobility. In France and later in independent Belgium, *Jetons de Presence* were distributed among counselors of municipal corporations, commissions and other governing bodies on several levels.

Presenting and accepting such Jetons, generally struck on octagonal planchets to distinguish them from coins, added to the prestige of the bodies and their members, whose presence and services were thus highlighted. In American numismatic history the famed Castorland Tokens were very likely *Jetons de Presence* presented to members of the governing or planning council of the French colony being planned for the wilds up northern New York State.

As a newly unified kingdom, Belgium sought to revive or invoke far older traditions. The cities of Brussels, Tournai and Ypres began issuing *Jetons de Presence* to members of the municipal corporation and councils that bore the city name and Arms, lists of officers serving in the years of issue or long lists of achievements voted or enacted by the city issuing councils.

Jacques Wiener's fantastic skill was highlighted in the 10 to 25-line inscriptions gracing the reverses that contained hundreds of near-microscopic letters. The numbers struck were necessarily small and building a collection the size of the present offering has seldom been achieved.

Fabulous Napoleonic Medal Collection in Folio Book-Case

(Part of Lot 6246)

- 6246 FRANCE. Napoleon Medals by Andrieu.** Folio size, 14 x 10 $\frac{3}{4}$ x 2 $\frac{1}{4}$ inches. Leather-covered wood with red velvet interior, spine bears title *NAPOLEON MEDALS... BY ANDRIEU*, cover is heavily worked leather with intricate patterns of edging and framing around the Imperial Arms of France on mantle. The red velvet-lined interior holds two shelves with fitted openings holding 11 uniface Copper lead-backed shells of medals commemorating events of French history from the storming of the Bastille on July 14, 1789 through the second Wedding of Napoleon with Austrian Emperor Franz' daughter Marie Louise on April 1, 1810.

The first "page" holds two 85.5mm medals depicting the storming of the Bastille, *SIEGE DE LA BASTILLE* and the arrival of the doomed Royal Family in Paris, *ARRIVÉE DU ROI A PARIS*. With these are six 70mm medals, five with domed or flat glass fronts. Included are pieces commemorating Bonaparte's 1800 Crossing of the St. Bernard; 1800 Battle of Marengo; Empress Josephine; Napoleon in Coronation robes; Laureate head of the Emperor; diadem head of his second Spouse Marie Louise.

The second "page" presents two 140mm medallions, one presenting a high-relief laureate Napoleon, the second his bust conjoined with that of Empress Marie Louise.

Bertrand Andrieu (1761-1822) was a pre-eminent medalist of the Napoleonic era, creating scores of medals that chronicle the Revolution and its immediate aftermath, the rise of Bonaparte, his initial victories, ascent to the new imperial throne and subsequent meteoric career. The artist survived Napoleon's fall and was embraced by restored Bourbon King Louis XVIII.

The Folio case is sturdy and well-preserved but shows some weathering and the underlying wood work would benefit from restoration by a qualified craftsman. Medals range from Extremely Fine to **Uncirculated**, average About Uncirculated. (Total: case plus 11 pieces) (2,000-2,500)

Extraordinary 1833 Bronze Portrait Medallion by David d'Angers

(photo reduced)

- 6252 FRANCE. Charles-Philibert, Comte de Lasteyrie du Saillant Medallion, 1833.** Bronze cast uniface, 145mm, in 227mm hand-made circular wooden frame. By David d'Angers. Reinis 268. Choice Extremely Fine. High-relief aged head l. with severe expression and abundant, unruly hair. Incuse script *David/ 1833* appears below truncation, *C. de Lasteyrie* in r. Field. The Comte de Lasteyrie (1759-1849) was an agronomist, advertising pioneer, and economist who established the first lithograph business in France. He studied the rural economy and published *Typographie économique* in 1827.
This is one of the estimated 500 portrait "sketches" created by David, that comprise a veritable "Who's Who" of 19th-century France. David's corpus was catalogued in 1999 by J.G. Reinis in *The Portrait Medallions of David d'Angers*, published by Polymath Press, New York.
The frame is made of three pieces. The left-most now separated from the other two, crudely repaired long ago. The medallion is surrounded by a Brass inner frame, and the entire assembly could

be refitted by a careful craftsman today with good effect. The wood frame back bears a paper label with a red-white-blue shield inscribed *U.S. CUSTOMS/ PANAMA-PACIFIC INTERNATIONAL EXPOSITION/ EXHIBIT/ SERIAL No.---/ CASE No.----/ LOT No.----*. Here is a majestic example of this great portraitist's work. (750-950)

Exceptional Specimen of the Great Waterloo Medallion

(photo reduced)

6295 GREAT BRITAIN. Great Waterloo Medallion, 1819 (1849). Copper electrotype shells in broad copper bezel, 138.5mm, 10mm thick. By Benedetto Pistrucci. BHM 870. **Uncirculated.** Obv. Laureate, togate busts l. of Allied sovereigns Prince Regent George, Franz I of Austria, Alexander I of Russia, Friedrich Wilhelm IV in a broad border of mythological figures including gods, muses, heroes symbolizing the hoped-for return of peace and justice after the final defeat of Napoleon. Rev. Duke of Wellington and Prussian Marshal Blücher as ancient warriors charging l. guided by winged Victory. Jupiter in quadriga at top smites battling mermen whose struggling figures form the outer border. Light brown patina, surfaces show the faintly pebbled surfaces typical of electrotype manufacture.

This medallion was projected as a work of art whose greatness would be equal to the military victory, and examples in gold were to be presented to the victorious sovereigns. The temperamental Pistrucci spent the next 30 years fighting with the British Royal Mint leadership over his salary and his demands for the title of Chief Engraver, delaying finishing the medal until all those portrayed were dead. Obsessed with fear that the gigantic two-part dies would break, the Royal Mint made only Electrotypes and Gutta Percha impressions and these turn up from time to time in various configurations. The present example has been fitted with a heavy-duty bezel of the highest quality, giving it the boldest visual appeal. Here is a medallion of the greatest historical significance. (1,500-2,000)

Law & Son - DUBLIN -*. Choice Extremely Fine. (9,000-11,000)

The statutes of this Order required that the insignia be returned to the Monarch on the death of the holder. Therefore the few examples that exist for collectors are generally additional copies made by the same Court Jewelers that made the presentation insignia. William Law made only the Order of Saint Patrick and was active in the first half of the 19th century. The Order dwindled rapidly as Irish independence began to evolve in 1922 and no Knights were created after the Irish Free State was instituted. The last living recipient was H.R.H. the Duke of Windsor, and the Order although technically still viable, effectively died with him in 1972.

6346 ITALY. Napoleonic Kingdom, 1804-1813. Chevalier's Badge of the Order of the Iron Crown, Instituted June 5, 1805. Silver, 31.4 x 23.8mm, green-edged yellow moiré ribbon. A small, finely proportioned Napoleonic eagle rises from an ornate open crown with 10 ball-tipped conical points, blue enamel base is inscribed *D.M.L.D.D: G.C.L.T. (Dio la Me Diede Guala chi la Tocca, God Gave it to Me, Let Him Beware Who Touches It)*. Blue enamel is heavily chipped. At center is an 8.3 x 6.8mm gold oval bearing a minute head of Napoleon. Napoleon revived the name "Italy" first for a Republic, then for a Kingdom over which he presided. The Iron Crown of Lombardy was crafted for King Agild (592-615) as a gold and jeweled mounting for a nail of the True Cross. Habsburg Emperor Franz I made this an Austrian decoration in 1815 and King Vittorio Emanuele II instituted the Order of the Crown of Italy to commemorate the annexation of Venezia to United Italy in 1868. A detailed exposition on this Order was given by Harrold E. Gillingham, *French Orders and Decorations*, American Numismatic Society Notes and Monographs, No. 11, 1922. Here is a significant Italo-French rarity. Very Fine or better. (2,500-3,000)

6376 1856 Franklin Boston Schools medal. Julian SC-11. Silver. Extremely Fine. 286.1 grains. 34.0 mm. Plain edge. Awarded to Charles H. Abbot, 1856. Once mounted with original suspension loop, now broken though it remains with the medal. Dark gray patina covers most of both sides, save for the lighter toned central reverse. Some minor hairlines, minor hidden obverse dirt deposits. There were three men named Charles H. Abbot who served as volunteers from New Hampshire during the Civil War; the awardee is likely one of them. A popular early Mint medal, collected for its fine portrait of Franklin by F.N. Mitchell.

Large 1893 University of California Medal in Gold

6377 1893 University of California medal. Gold. Uncirculated. 146 grams or 4.69 troy ounces. 57.4 mm. Plain edge. Unmarked, likely coin gold (21.6 karat). Well-preserved and highly appealing, with only some faint hairlines and a very tiny nick at the base of the reverse beneath Croudace's engraved name and the date. The "University Medal," was established by the Governor of California in 1868 and awarded annually since 1871 to "the most distinguished graduating senior on the Berkeley campus." In 1905, Croudace was living alone in San Francisco and was listed in directories as a journalist. California medals of this era are rare, particularly gold medals of such size. The mintage of this medal was infinitesimal, as expected, and undoubtedly few have survived. A rare and important academic medal with an appealing design and impressive heft.

Rev. 13-line history of the New York Free Academy, founded 1847, renamed College of the City of New York in 1866. Subscribers were bound by mutual oath not to sell their medals for less than \$7.50! One of 237 struck, showing some casual handling, edge bruise, light red-brown surfaces bear scattered ties.

6380 1976 National Bicentennial medal. Gem Proof, as issued. 22mm format. 198.2 grains. Dies by Frank Gasparro. A superb example with blazing, brilliant surfaces and excellent detail definition. In all, the National Bicentennial medal was offered for sale in seven different versions and four different sizes. A beautiful memento of a landmark celebration in our nation's history. Accompanied by an original cherry-wood case of issue bearing the official emblem of the

American Revolution Bicentennial Commission, blue cardboard box of issue, and descriptive brochure of issue.

6381 1976 National Bicentennial medal. Gem Uncirculated, as issued. Antique, matte finish. 76mm format. 8.73 oz. (troy). Dies by Frank Gasparro. A heavy and impressive reminder of America's Declaration of Independence.

KU KLUX KLAN MEDALS

The first Ku Klux Klan was organized after the Civil War by former Confederate General Nathan Bedford Forrest to intimidate Blacks and Northern "Carpenters." The Second Klan dated from 1915 and became a 1920s phenomenon exploiting hatred of Catholics and Jews as well as the traditional Klan anti-Black prejudice. Disorganized splinters, all claiming the Klan mantle, flourished briefly after 1960 as the Civil Rights movement advanced, with school integration, voter registration and Freedom Riders made the headlines.

Former car tire salesman Robert M. Shelton (1930-2003) headed United Klans of America (UKA) after 1961 which had a peak membership of about 30,000. He became a media celebrity and even did an interview with *Playboy*. UKA was implicated in the 1963 bombing of the 16th Street Baptist Church in Birmingham, Alabama. In 1984 UKA member James Knowles was convicted in the lynching of 19 year-old Michael Donald, whose mother ultimately won a \$7 million judgment against UKA, putting the group out of business. Sheldon faded from the national scene, pronouncing an obituary on his long-lived hate movement in 1994, "The Klan is my belief, my religion. But it won't work anymore. The Klan is gone. Forever."

U.S. TOKENS

HARD TIMES TOKENS

- 6475 Glorious Whig Victory. 1834. HT-15, Low-7, DeW. CE 1834-2. Copper. Rarity-6. Extremely Fine.** Diagonally reeded edge. Struck medal turn. 27.0 mm. 88.9 gns. Liberty cap in glory/the good ship *Constitution* sailing right. Nice medium brown. Surfaces appear mostly hard. Some light marks, rim crimped at 7:00 on the reverse. Obverse slightly off-center as often seen on these Low-7s. As we noted in our Ford sale, this number is an underrated rarity in the series.
- 6476 Eight Hard Times tokens, plus two merchant's tokens:** ☆ Daniel Webster. HT-16, Low-58. Very Fine, holed ☆ Daniel Webster. HT-22, Low-64. Fine or better. Deposits and a few small rim bumps ☆ Not One Cent. HT-56, Low-45. Very Fine. Obverse damage ☆ I Take the Responsibility. HT-70, Low-51 (2). The first is Extremely Fine with hits, and the second Very Fine and holed ☆ Walsh's General Store. HT-216, Low-99. Fine or better. Golden brown ☆ Merchants Exchange. HT-293, Low-97 (2). Both Very Fine, but the second one is moderately damaged, heavily so at the rims ☆ Illinois. Pearson & Dana. Rulau III-26. Extremely Fine. Deposits, mostly on the reverse ☆ Michigan. Foster & Parry. Rulau Mich-11. Extremely Fine. Graffiti "W" scratched into the upper obverse field. (Total: 10 pieces)

6477 **Not One Cent. 1837. HT-57, Low-46. Copper. Rarity-1. MS-62 RB (NGC).** Plain edge. Struck coin turn. 28.1 mm. 144.2 gns. Phoenix rising from the flames, Substitute for Shin Plasters Novr. 1837 around/wreath, Millions for Defence, NOT ONE CENT for tribute around. Mostly mint red on the front, brown with some red on the back. Unfortunate verdigris spot on the obverse.

From Bowers and Merena's Sebring sale, March 1996, Lot 3418.

6478 **Benton Experiment Mint Drop. 1838. HT-63, Low-55. Copper. Rarity-1. AU-58 BN (NGC).** Plain edge. Struck medal turn. 28.9 mm. 133.2 gns. Liberty head facing left, Loco Foco on coronet, 1838, below/wreath, Benton Experiment, MINT DROP around. Mostly brown with traces of mint red in some of the protected areas. Typically soft on the obverse date and with expected reverse rim irregularity. A representative specimen of the number.

From Bowers and Merena's Sebring sale, March 1996, Lot 3424.

6479 **I Take the Responsibility. (1833). HT-70, Low-51. Copper. Rarity-1. Uncirculated.** An excellent golden brown example, accented by attractive reddish highlights. Just a touch of friction on the very highest points. Minuscule nick in the right obverse field.

Nice Gilt Low-190 Van Buren Token

6480 **Martin Van Buren. (1836). HT-78, Low-190, DeW. MVB 1836-4. Brass, gilt. Rarity-4. AU-50 (NGC).** Plain edge. Struck medal turn. 25.7 mm. 99.8 gns. Van Buren's bust right, M. Van Buren at the top of the temple of Liberty, Democracy And Our Country around. Pale yellow brass and quite nice looking. Holed as usual.

6481 **Henry Clay. (1840). HT-79A, Low-193, DeW. HC 1840-1. Brass. Rarity-3. MS-63 (NGC).** Plain edge. Struck medal turn. 27.6 mm. 106.8 gns. Clay's bust right, inscription around/wreath, United We Stand inside. Nice, bright yellow brass. Center of reverse softly struck as usual. Obverse slightly off-center and from a rusted die.

6482 **Henry Clay. (1840). HT-79, Low-192, DeW. HC 1840-1. Copper. Rarity-2. AU-58 BN (NGC).** Plain edge. Struck medal turn. 27.1 mm. 98.1 gns. Clay's bust right, inscription around wreath, United We Stand inside. Olive-brown. Center of reverse softly struck.

6483 **Henry Clay. (1840). HT-79, Low-192. Copper. Rarity-2. About Uncirculated.** A few very minor obverse scratches and one or two patches of verdigris. Light reverse toning streak. There are also a couple of barely detectable rim bumps. Pleasing look overall.

6484 **Maryland. Baltimore. Houck's Panacea. (1836). HT-141, Low-400. Silver. Rarity-7. Counterstamped on an 1811 Capped Bust half dollar. Choice Very Fine.** Counterstamp of Dr. Jacob Houck advertising his bottled "Botanic Panacea," which he confidently stated was "prepared solely from vegetative matter... it may be taken with perfect safety by all ages and in all diseases..." Russell Rulau noted that least 91 examples were known countermarked on U.S. dollars.

6485 **New York. New York. Dr. Lewis Feuchtwanger. One Cent. 1837. HT-268, Low-120, Breen 1-A. Rarity-4. Feuchtwanger's metal. VF-20 (ANACS).** Pearl gray and slate gray with hints of gold and lilac.

6486 **New York. New York. Dr. Lewis Feuchtwanger. One Cent. 1837. HT-268, Low-120, Breen 3-B. Rarity-3. Feuchtwanger's metal. Net Fine-12 (ANACS). VF Details.** "Scratched-Cleaned." Attractive blended gold and slate gray. The scratches mentioned on the ANACS insert can be seen on the reverse above the denomination.

6487 **New York. New York. Dr. Lewis Feuchtwanger. One Cent. 1837. HT-268, Low-120, Breen 3-E. Rarity-3. Feuchtwanger's metal. EF-40 (ANACS).** Mostly blended pearl gray and champagne iridescence with wisps of charcoal gray around the design elements and on the high points. Magnification reveals some faint abrasions by the eagle's tail.

6488 **New York. New York. Dr. Lewis Feuchtwanger. One Cent. 1837. HT-268, Low-120, Breen 3-G. Rarity-5. Feuchtwanger's metal. Net VG-8 (ANACS). Fine Details.** "Damaged." Dented on both sides. Blended lilac, slate-gray, and gold iridescence. One of the scarcer die combinations of this popular design type.

6489 **New York. New York. Dr. Lewis Feuchtwanger. One Cent. 1837. HT-268, Low-120, Breen 6-I. Feuchtwanger's metal. Rarity-2. Choice Uncirculated.** Reflective, russet toning. There are a few small planchet flaws at the upper right obverse and some light toning that accompanies them. Obverse rim at right a bit troubling.

From our sale of the Dice-Hicks Collection of Hard Times Tokens (July 28, 2008, Lot 3148); earlier ex Presidential Coin & Antique Company's Sale 41 (December 6, 1986, Lot 8).

6490 New York. New York. Dr. Lewis Feuchtwanger. One Cent. 1837. HT-268, Low-120, Breen 6-I. Feuchtwanger's metal. AU-50 (ANACS). Pearl gray to slate gray toning on both surfaces with blushes of gold, blue, and violet in the fields. Much frosty lustre can be seen in the protected areas.

6491 New York. New York. Dr. J. G. Hewett. (1837-1838). HT-279, Low 256. Copper. Rarity-3. Choice Uncirculated. Thin planchet, 1.5mm. 8-line reverse lists bone-related specialties from "Dislocations to White Swellings and Weakness." Much lustre.

6492 New York. New York. Merchants Exchange. (1837). HT-292, Low-96. Copper. Rarity-7. EF-45. Shallow, thin surface scratches in the fields on both sides of this rare variety token. Small planchet flaw along the obverse rim around 5:00. Chestnut brown surfaces with deeper toning in the more protected areas. Easily identified as the Rarity-7 variety by the configuration of berries on the reverse, 5 inside the wreath, and 3 outside. Touches of original lustre can be glimpsed on the reverse.

The Dalton and Hamer connotations of rarity include "Uncommon;" "Scarce;" "R;" "RR;" and "RRR." In the present writer's (FVV) experience, based on many years of collecting certain areas in the Conder series, the "R" designation measures up to our U.S. Rarity-5 to 6; the "RR" equates to Rarity-6 to High Rarity-6; the "RRR," the highest rarity rating accorded by Dalton and Hamer, is equal to Rarity-7 and higher, including *unique* (Rarity-8) pieces as well. Again, these are just personal guidelines; we're sure the findings of other Conder token specialists may differ slightly based on their own experiences. There currently are *no pricing guides or rarity ratings* in print for the Conder token series—these areas of the discipline are open to individual interpretations of facts and experiences as a result.

6542 Hoard of Conder tokens, grades Good to Very Fine, arranged by county, country, and Dalton & Hamer number. - 6557 **CANADA. LOWER CANADA. Britannia-Eagle Halfpenny Token, 1815. Copper. Charlton LC-54D2. MS-62 BN (NGC).** Britannia seated in clockwise oak wreath. Rv. Incongruous American eagle. Deeply golden surfaces. (150-200)
- 6558 **CANADA. LOWER CANADA. Token Coinage. Bank of Montreal Token, n.d. (1835).** Bouquet in center. *TRADE & AGRICULTURE* around above and *LOWER CANADA* below. Rv. *UN SOUS* in wreath. *BANK TOKEN* above, *MONTREAL* below. KM Tn1. Numerous tiny planchet flaws. Pleasing red-brown surfaces with some darker toning on the obverse. **MS-62 BN (NGC).** (175-250)

The first Bank Tokens appeared around 1835-37 as banks began to refuse the low quality copper pieces that were in circulation at the time. These Bank of Montreal tokens were struck in Birmingham, and they bear the incorrectly spelled denomination, a phenomenon that went uncorrected as more and more people began to regard this spelling as a mark of authenticity. In 1835, the bank received permission from the government to officially strike its own coppers, and subsequent tokens bear the bank name in the reverse inscription.

6559 CANADA. Wellington Series. Halfpenny Token, 1816. Charlton WE-10A3. *Broadstruck off-center.* Military bust of Wellington r. Rv. Crowned Irish harp, WATERLOO HALF PENNY / 1816. 6613 GREAT BRITAIN. William III. 1694-1702. Halfpenny, no visible date. Engraved **Jno. Morley BRICK LAYER** Pierced. This style of elaborate engraving preceded countermarking in the British Isles. Host is probably S.3554. This type of advertising piece is discussed in the Brunk’s World Countermarks reference, p. 15. Host About Good, Engraving Very Fine. (100-150)
Ex Dr. Gregory G. Brunk Collection (Rich Hartzog, June 1999, Lot 709), previously ex World Exonumia February 1979 Sale, Lot 1976.

6614 GREAT BRITAIN. George III, 1760-1820. Cartwheel Penny, 1797. Obverse has been intricately re-engraved into an incuse, scowling caricature bust, possibly of anti-royal journalist and agitator John Wilkes or possibly Tom Paine of *Common Sense* fame in the American Revolution. Host S.3777. Host coin About Good, engraving Extremely Fine. (200-300)

6615 A love token made from an 1868 Shield nickel. A well presented engraved scene, on the reverse, of a gentleman presenting a young maiden with a bouquet of flowers. The letters **LAH?** are engraved above them. The entire scene is framed by a nicely done notched edge. The obverse has an “H” cut into it, perhaps as someone’s initial. This kind of love token is rarely seen on this host coin and should be taken into account when formulating a bid.

6616 1882 10¢ love token. EF-40. Engraved on a Seated dime that remains in high grade and pierced at the top for suspension. The obverse is engraved “FLA” in fine script, but the reverse is quite special with a large fancy script “ES” at the center surrounded by 11 small faceted amethyst stones that are carefully set into the coin, with hand engraved scallops around each stone. While the addition of stones is not entirely unheard of on love tokens, these pieces are quite rare and desirable as an advanced style of the medium that raised the popular art of engraving coins for sweethearts to a new level. A prize for the advanced specialist.
From the Jules Reiver Collection.

6617 1835 Capped Bust half dollar Masonic token. Good-6. The entire reverse has been planned off and reingraved with consummate skill showing a large shield shaped frame, with central circle with a finely engraved small house, chimney with smoke, mailbox and tree with the all seeing eye above and “R W” below the eye. At the top of the engraved from is “Wm J. Irwin” presumably awarded said coin and surrounding the rim outside the shield is “READING” (PA), “MAY 13, 1872” and “H(irams?) R(oyal) A(rch) C(hapter) No 152”. Surrounding the center vignette in a circular frame are bold letters “H T W S S T K S” which stand for Hiram’s The Widows Son Sent To King Solomon. The engraving is of exceptional quality and remains fresh and well preserved with no holes for suspension and this must have been a treasured pocket piece of the recipient. The host coin appears to be obverse-2, thus likely made from an O-102, 103 or 104 Capped Bust half dollar.

From the Jules Reiver Collection.

6618 1879 Morgan Dollar love token “JJ” reverse. The host coin is fine with traces of an obverse mount removed at the 3:00 and 9:00 o’clock position. Finely engraved on the reverse with a bold interlocking “JJ” at a 90 degree angle and crossing at the center, with a circle and serrated border surrounding. A rare denomination and style for a love token.

From the Jules Reiver Collection.

6619 (1859-1907) gold love token. AU. Monogram CKB skillfully engraved on the blank obverse of a Liberty Head quarter eagle having the reverse design type of 1859 through 1907. Loop for suspension. Once mounted on edge at 12:00 relative to the reverse.

COLONIAL CURRENCY

- 6633 State of New Hampshire. April 29, 1780 Guaranteed by the United States Issue. Eight Dollars. Extremely Fine.** No.1591-. Signed by Pearson, McClure and Robinson; countersigned on the back by Jn. Taylor Gilman. Printed on thin paper, watermarked 'CONFEDERATION'. Standard size, designs and imprint as used on other State issued "Guaranteed" notes. There were 2,900 notes printed. An uncanceled note from the Ford collection sale and a choice example. Light vertical fold. Ink spot at right border cut and lighter on the back. Cut closely at the top right edge.

From our sale of the John J. Ford, Jr. Collection, Part XV, October 4, 2006, lot 8919; F.C.C. Boyd Estate.

- 6634 Colony of New Jersey. March 25, 1776. Thirty Shillings. No.6000. Choice Crisp Uncirculated.** Signed by Deare, Rob't Smith, Joseph Smith. Printed on thick stock. Standard size and designs, Arms in red at lower left. Nature printed leaf back. Burlington printed by Isaac

Collins. Superior and complete face margins. Bumped upper corners seen from the back. However, immaculate paper surfaces and bright colors. Light pencil notation on bottom back edge.

Only one plate (no letter used) position on this denomination with 12,500 printed. The fourth edition Newman catalogue value is \$200.00. That also was considered high in 1997. Jumbo margin notes have always brought a justifiable premium. This supply infusion should fuel demand and create collectors of these notes and for the long, under appreciated historic currency notes.

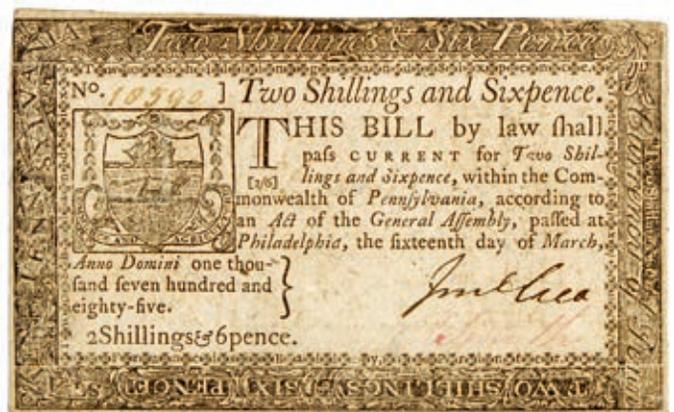

- 6635 North Carolina Currency. April 2, 1776 Halifax Issue. Five Dollars. Triton Vignette. Fine to Very Fine.** No.2230. Signed by Summer, Haywood, Williams, and Webb. Printed on thick laid paper. Wider format note. Elaborate border cuts on three sides, mostly white outlined on black. Pattern border on the bottom. Engravers initials 'GL' intertwined in cursive at lower left. A very handsome type with the Triton vignette in a vertical oval. There is a plate engraving error by the date where it is 'd2' rather than '2d'. Not rare, but a handsome type. Quarter folds with the horizontal fold closer to the bottom edge. Two other vertical folds forming a vertical tent down the center and petty corner folds. However, very crisp and problem-free. Minor face surface soiling. A handsome note from the Ford-Boyd collection.

From our John J. Ford Jr. Part XVIII Sale, March 21, 2007, lot 4218.

- 6636 Commonwealth of Pennsylvania. April 10, 1777 in Black. Nine Pence. Choice Crisp Uncirculated.** No.136021. Plate A. Signed by Thorne. Printed on rigid stock, watermarked 'PENNSYLVANIA'. Small format note. Typeset face with different border cuts from earlier series and Commonwealth seal. Ornamental frame back, denomination and counterfeit warning. Imprint 'Printed by/John Dunlap/1777'. Well margined and bold.

From our John J. Ford Jr. Part XVIII Sale, March 21, 2007, lot 4272; Ex New Netherlands Coin Company.

- 6637 Commonwealth of Pennsylvania. March 16, 1785. Two Shillings and Six Pence. Extremely Fine.** No.10590. Signed by Ja.[mes] McCrea and R.[ichard] Smith. Printed on rigid stock, watermarked 'PENNSYLVANIA'. Horizontal format, similar to April 10, 1777 wide format notes. Elaborate border cuts on all sides, typeset text and

conversions in the center. Commonwealth Seal slightly varying sizes depending on denomination. Seal at upper left, wider format with motto *COMMERCE AND AGRICULTURE* above. New, long vertical format nature and cloth print backs. Imprint 'PHILADELPHIA:/ Printed by Francis Bailey'. Seal at the upper left, narrower version than other denominations. This was the second of two Ford-Boyd collection notes. The other was Ford XV: Lot 8649. Notes from this Act are quite tough and the Ford XV complete performed set quite well. There is light center fold and the margins are very close. The top center is trimmed in slightly. Represents this scarce Act quite well.

This is a scarce Confederation issue of notes that created new circulation and helped redeem old issues (at discounted rates) There were 150,000 Pounds worth of notes using the size and width format of the 1777 notes. The backs were also vertical, but returned to new nature print designs by the new printer Francis Bailey.

6638 South Carolina. October 19, 1776 Ordinance. Six Dollars (Nine Pounds Fifteen Shillings). Wind and Waves Vignette. Very Fine. No.1443[?], faded]. Signed by Ma.[urice] Simons, Wm. Scott Jr. and ?[William Parker?, faint in red, vertically to the right of others]. Printed on coarse, thick brownish paper. Standard size, approximately 95mm by 75mm. Face style similar to March 6, 1776 with border cuts enclosing text, vignette and motto at lower right. Ornamental printed back with thistles surrounding an 'VI'. The back is 'coin turn' orientation to the face. There were 2,500 notes printed of this type. This is strong and attractive grade for this series. There are no Uncirculated hoards like the remainder notes seen on the December 23, 1776 Act. Graded higher in Ford XV, but the note is a bit "flat". Light soiling on clean surfaces. The lower left corner is soft with an old tissue paper patch on the back.

6639 South Carolina. 1777 (December 23, 1776 Act). One Dollar (£1:12:6). Tree Vignette. Uncirculated. Unnumbered. One signature. Signed by Wakefield. Printed on thick, coarse stock. Standard size, approximately 110mm by 75mm. Standard face style using border cuts with denominations, vignette seal and motto, *PER ARDUA SURGO*. at the lower left. Ornamental printed back, denomination and imprint *Printed by Peter Timothy, 1777*. A second single signature One Dollar note. Slightly different paper texture than the previous. Close to Choice. Complete margins and a well centered back.

Peter Timothy, succeeded his father Lewis, as the official printer of the Colony and later the state. He was a man of ardent beliefs and a deep patriot. He remained in Charleston during the British siege and was taken prisoner in 1780. He was sent to Saint Augustine and eventually exchanged via Philadelphia. With relatives in the Indies, he set forth for Antigua, but shortly after departing the capes off Delaware, the ship he was on foundered and all aboard perished.

6640 Treasury of Virginia, July 14, 1780 Act, Pair of Spelling Anomaly Variety Thin Paper Notes. Both signed by J.M. Simmons, John Lyne, and J. Hopkins. Printed on very thin paper. Denomination in Dollars and Pounds printed on back, standard size approximately 105mm by 80mm. Typeset, ornamental border cuts. Two plate control letters on face ☆ Fifty Five Dollars or Sixteen Pounds Ten Shillings. No. 1750. l.q. "DOLLANS" at top right. Fine. Trimmed closely, but solid paper ☆ Sixty Dollars or Eighteen Pounds. No. 1315. e.i. "DILL" on first text line. About Fine. Linear fissure voids with two backing strips on the back. Wide left margin. Bright from the face. An interesting pairing. (Total: 2 pieces).

6641 Treasury of Virginia. October 16, 1780 Act. One Hundred Dollars or 30 Pounds. Very Fine to Extremely Fine. No. 1507. Signed by J.M. Simmons, Lyne, and Hopkins. Printed on very thin paper. Denomination printed on back, standard size approximately 100mm by 80mm. Typeset, ornamental border cuts. Face plate mark 'e.o'. There were

only six denominations printed on this Act date and plate type. These notes are differentiated from the "... Clothing the Army" notes by their differing face text and printed back text denominations. A lovely example of this frail paper issue. The look of new, but there are folds and a heavy, wide corner fold. Broad margined and handsome.

6650 Private Scrip, Unidentified Issuer, "We Promise To Pay", Cumberland, Maryland. Twelve and a Half Cents. Jan. 1, 1838. Fine. Fully issued note. Moderate size format scrip note. Local imprint of Robinson, Printer, Balt. Left center, letter press cut of Spanish Colonial One Real reverse. Top center, eagle with olive branch between counters. Right end panel. Haxby-Not listed. Kelly/Shank/Gordon 30. Unlisted issuer. Hatie-Not listed. Rarity 7 (1 to 5 known). An issued note with a hard to read signature. The issuer and style is not listed on Cumberland and this is the only example we have seen. Solid with only some minor soiling.

Ex Schingoethe Part 10 (R. M. Smythe & Co., April 12, 2007, lot 6130); Herb and Martha Schingoethe Collection.

6651 J. S. Dallen, "When Presented at our Store", Darlington, Maryland. Twelve and a Half Cents. September 10, 1840. Very Good. Fully issued note. Moderate size format scrip note. Local printer, without imprint. Upper right, Spanish Colonial Real reverse, a more open style cut than the Murphy notes. Top center, beehive. Counters in each end panel. Haxby-Not listed. Kelly/Shank/Gordon 32. Unlisted issuer. Hatie-Not listed. Rarity 7 (1 to 5 known). An issued note with a visible signature that differs from the Silver, Jr. notes. The only example we have seen.

Ex Memphis Auction #272 (R. M. Smythe & Co., July 5-7, 2007, lot 1768).

6652 Mayor, Alderman and Common Council of Frederick per Fredericktown Branch Bank, Frederick, Maryland. Twelve and a Half Cents. April 1840. Unissued Remainder. Fine to Very Fine. Plate C. Moderate size format scrip note. Without imprint, vignette style of Manly & Orr. Top right, Spanish Colonial Real reverse with ME mintmark. Top center, girl and boy (adapted from FDU). Upper right, *Hope*. Haxby-Not listed. Kelly/Shank/Gordon 51.1. Unlisted plate type, similar to 1.16. Hatie MD-68. Rarity 6 (6 to 10 known). This might be a Rarity 7 from a sheet that used three different designs for each denomination. There are some minor foxing spots, but certainly a rarity. The signature is false.

Ex Schingoethe Part 10 (R. M. Smythe & Co., April 12, 2007, part of lot 3142); Herb and Martha Schingoethe Collection; Memphis International Sale Mail Bid (R.M. Smythe & Co., July 15, 1993, lot 8238); D.C. Wismer Collection.

6653 Washington County Savings Institution per the Hagerstown Bank, Hagerstown, Maryland. Twenty Five Cents. June 26, 1840. Good to Very Good. Fully issued note. Moderate size format scrip note. Imprint of Robinson, Printer, Baltimore. Lower left, Spanish Colonial Two Reales reverse with ME mintmark. Obligation to the right. Ornate panels at each end. Haxby-Not listed. Kelly/Shank/Gordon 60.11.7. **The Maryland Plate Note.** Hatie MD-76. Another great rarity missing from most Maryland collections. Heavily soiled with some small splits and pieces missing at left, but few upgrades exist for this note.

Ex Schingoethe Part 9 (R. M. Smythe & Co., December 13, 2006, part of lot 2235); Herb and Martha Schingoethe Collection.

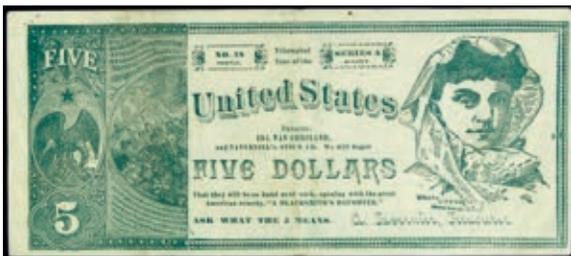

6654 Ray and Colburn, The National Brass Band, Boston, Massachusetts. No Denomination. 1850's. Choice Very Fine. Banknote size advertising note. Uniface on white paper. Lithographed, without imprint. Flanking central vignette, pair overlapped 1854 with arrows Half Dimes (obverse and reverse). Center, *Liberty* seated with eagle. Left end, standing *Agriculture*. Right end, Indian princess. Bottom, small harp. Engraved signatures. Vlack 1615. **The Vlack Plate Note.** Rarity 6 (6 to 10 known). A rare ad note with a distinctive style that is shared with the next note (related issuers). A crisp and bright example, plated in Robert Vlack's advertising note reference, with a tiny foxing patch at the upper right.

Ex Schingoethe Part 8 (R. M. Smythe & Co., October 13, 2006, lot 2216); Herb and Martha Schingoethe Collection.

6655 Silloway and Colburn, Boston Cornet Band, Boston, Massachusetts. No Denomination. Choice Fine. Banknote size advertising note. Uniface on white paper. Lithographed, without imprint. Style as the previous. Flanking central vignette, pair of overlapped 1854 with arrows Half Dimes (obverse and reverse). Center, *Liberty* seated with eagle. Left end, standing *Agriculture*. Right end, Indian princess. Bottom, small harp. Engraved signatures. Vlack 1620. **The Vlack Plate Note.** Rarity 6 (6 to 10 known). Another very distinctive note with an unusual layout and coin vignette pairing not seen on scrip notes of the period. Better than the grade suggests. Great title and pedigree.

Ex Schingoethe Part 8 (R. M. Smythe & Co., October 13, 2006, lot 2217); Herb and Martha Schingoethe Collection.

6656 The Metacomet Bank, Fall River, Massachusetts. One Dollar. August 12, 1856. Altered Note. Good to Very Good, repair. Issued note. Red protector "ONE". Altered from the Thames Bank, Laurel, Indiana (IN-325 G4a). Imprint of Wellstood, Hay & Whiting, New York. Bottom center base vignette of Type I gold dollar obverse. Top center, cows. Lower left corner, milkmaid seated. Right end, young girl over counter. Haxby MA-580 A20 SENC. Hatie MA-21. This is less often seen than other altered bills on the Thames Bank series and High Rarity-5 or close to Rarity-6 is possible. A wonderful Indian title with rarely seen genuine notes. There are some tears backed with hinge tape. Still, pleasing to the eye.

6657 Ida Van Cortland and Tavernier's Stock Co., Attributed to Michigan, "Five Dollars". 1870's. Extremely Fine. Banknote size advertising note. Lithographed, both sides, in all green. Imprint of Valley City Engraving Co. Grand Rapids, Michigan. The textual reverse cartouche on green lathe background. Framed on both sides are Shield Nickel reverses. The note face uses a Federal Note mimic style. At left, a copy of Heath's pocket detector cutout plate. Right side, portrait of Miss Ida. Unlisted. **The only usage of Shield Nickels seen on an advertising or scrip note.** A most unusual note printed on thin paper. The survival rate would be low and this is clearly a

Rarity 7 note. Miss Ida and Tavernier were a couple that toured the north and into Canada with this production and other shows. There are a few very petty fold splits, otherwise with the look of new.

Ex New York City Autumn Sale #274 (R. M. Smythe & Co., October 31, 2007, lot 2668).

6658 The Omaha and Chicago Bank, Omaha City, Nebraska Territory. Two Dollars. 1850's. Proof. Uncirculated. Plate A. Printed on India paper. Imprint of Bald, Cousland & Co. New-York & Phila. Red protector "TWO". Upper left, rafting scene. Girl salutes in top right center. Lower right, Washington. Haxby NE-65 G6a. Until the 1990 ABN Sale, virtually unheard of. The few lots of these back in 1990 saw some fierce competition. Important with the "Nebraska Territory" designation. We have not catalogued one for quite some time and the Ford Collection Part XX did not have an example, even though Ford was a serious buyer at the 1990 Sale. For this type, quite choice as several from the archive sale lots were damaged. A bit of heavy handling at the upper right and tack hole just outside the border corner lines. Very lightly stamped by the ABN on the verso. A premium example of this important territorial proof.

6659 The Manufacturers' Bank at Belleville, Belleville, New Jersey. Nine Dollars Post Note. 1830's. Unissued Remainder. About Fine. Plate A. Imprint of Rawdon, Wright & Hatch, New York. Archimedes uses lever to lift world. Farmer sows seeds, left. Farmer plows, right. Haxby NJ-5 G33. SENC. This is a rare series, High Rarity 6 in fact. Falsely filled in, these were not issued in our opinion.

From The Eastern Collection (Stack's, March 2009, Lot 8020).

6660 The Freehold Banking Co., Freehold, New Jersey. Five Dollars. 1850s. Proof. About Uncirculated. Printed on India paper by Baldwin, Bald, Cousland, New York/Bald, Cousland & Co., Phil. Full red tint with "V" outlined in white. Ornate full across vignette with agricultural motifs. Bold colors and style. NJ-155 G8b SENC. Some minor bottom edge handling and the top center is bowed in ever so slightly.

6661 NJ, New Brunswick. State Bank at New Brunswick. \$500. Date: 18. A (plate info). Imprint: Rawdon, Wright, Hatch & Edson, New-York. Cashier: M. Coddington. President: Jno B. Hill. Central vignette with two women seated astride a shield with the emblems of New Jersey (horse head and several plows), the lady on the left holding a Liberty cap on a pole and seated on a strongbox, and the one on the right resting against a sheaf of grain and holding a cornucopia. Elements of commerce are seen in the distance. Portrait of Washington within ornate frame at left, portrait of winsome young girl at lower right. Orange designs on back. Especially desirable high denomination. Haxby-NJ-350-G-84a; Wait-1831. Uncirculated.

From the reference collection of Q. David Bowers.

6662 NJ, Paterson. Peoples Bank of Paterson. \$7. Date: 18. A (plate info). Imprint: Casilear, Durand, Burton & Edmonds, N. York. Left: VII / Portrait of Washington in rectangle / 7. Top center: 7 / Several cows / 7. Right: VII / Male portrait in rectangle / 7. Not rare by any means, but in fantastic demand as an odd denomination. Relatively few state-chartered banks offered this value or other such odd values between \$5 and \$10. Accordingly, it is a distinctive "type" that is widely desired. Haxby-NH-438-G-42. Uncirculated.

From the reference collection of Q. David Bowers.

6663 R. J. Davies, Treasurer of the Merchants Change Association, Brooklyn, New York. Ten Cents. July, 1862. Unissued Remainder. Choice Uncirculated. Moderate size format scrip note. Lithographed, imprint, face and back, of Henry Seibert & Bros. 93 Fulton St. N.Y Across center, red undertint depicting reverse of Seated Liberty Dime at left, "10" at center and obverse of 1853 with arrows Seated Liberty Dime at right. Titles and obligation in black, counter at upper left. Printed back with list of participating merchants. Haxby-Not listed. Harris H42. Hatie-Not listed. Rarity 5 (11 to 25 known). A scarce and popular issuer. The colors are exceptional when balanced against the black text inking. A choice example without any cancel holes.

6664 R. J. Davies, Treasurer of the Merchants Change Association, Brooklyn, New York. Twenty Five Cents. July, 1862. Uncirculated. Moderate size format scrip. Lithographed, imprint of Henry Seibert & Bros. 93 Fulton St. N.Y Across center, green undertint depicting reverses of Seated Liberty Quarter Dollars at left and right, "25" at center. Titles and obligation in black, counter at upper left. Printed back with list of participating merchants. Haxby-Not listed. Harris H43. Hatie-Not listed. Rarity 5 (11 to 25 known). Another attractive example from this three note set from the Ford collection. There is a petty back corner paper remnant and a faint pinch.

6665 R. J. Davies, Treasurer of the Merchants Change Association, Brooklyn, New York. Fifty Cents. July, 1862. Uncirculated. Moderate size format scrip. Lithographed, imprint of Henry Seibert & Bros. 93 Fulton St. N.Y Across center, blue undertint depicting reverses of Seated Liberty Half Dollars at left and right, "50" at center. Titles and obligation in black, counter at upper left. Printed back with list of participating merchants. Haxby-Not listed. Harris H44. Hatie NY-9. Rarity 5 (11 to 25 known). A third note from this ex-Ford collection set. Bold blue undertint and very handsome. A fascinating type from the Civil War small change emergency.

6666 McCune & Peters, [New York, New York]. Good for Ten Cents. 1850's-60's. Fine. Small format advertising/token chit. Square, 37mm by 37mm. Printed on thin pink coated cardboard, without imprint. The face, vignette of Seated Liberty Dime reverse. Text and flourishes around the borders. Issuer name engraved on bottom. Verso with engraved "Redeemable in bank bills" and signature with written serial number. Unlisted. Rarity 7 (1 to 5 known). Written No.36. Another very rare and unusual coin vignetted cardboard scrip, attributed to New York City. The only example we have seen or handled. Small quarter of staining and a bald patch on the face.

Ex Schingoethe Part 9 (R. M. Smythe & Co., December 13, 2006, lot 2593); Herb and Martha Schingoethe Collection.

6667 Losee & Hinds Dealer in Dry Goods etc., Richfield Springs, New York. Ten Cents. October 22, 1862. Very Fine. Fully issued note. Lithographed, no imprint. Upper right corner, Seated Liberty Dime reverse. Left end, Indian warrior. Center, Washington flanked by protector "1" and "0". Titles at the right end. Haxby-Not listed. Har-

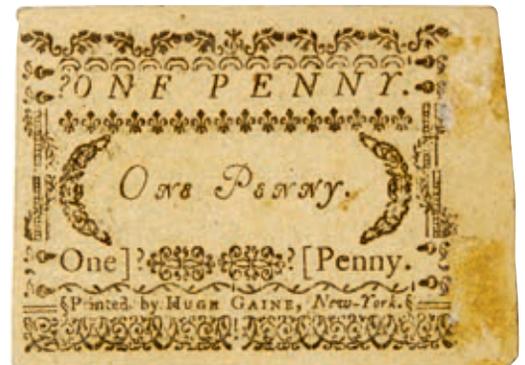

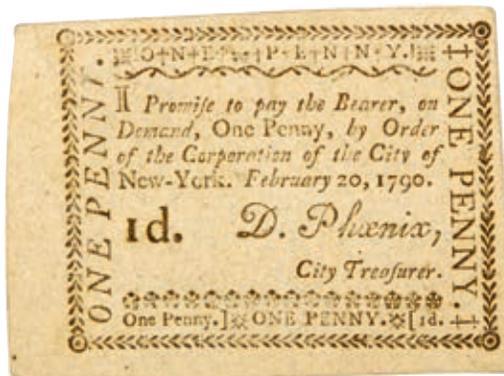

ris H11. Hatie NY-63. Rarity 6 (6 to 10 known). The overall style is quite unusual and the Dime vignette has proper text (not pseudo-coin style). Fully signed and a bright example.

6668 The Bank of Steubenville, Steubenville, Ohio. Ten Dollars. 1839. Fine. Plate A. Imprint of Durand & Co., New-York. Angel with eagle and shield upper right. Left end, woman in circle. Haxby OH-410 G42. Wolka 2474-18. Fully issued and a clean example of a very scarce type. There are few scattered pin holes.

6669 PA, Smethport. McKean County Bank. \$5. Date: 185. C (plate info). Imprint: Bald, Cousland & Co., Philada & New York. Left: Orange overprint 5 / Wagon on pier with load of lumber, several men, two horses; tiny copyright notice at bottom. Top center: Orange overprint 5. Lower right center: Orange overprint FIVE. Right: Orange overprint 5 / Head and shoulders portrait of woman holding dove or similar bird. Proof impression from ABNCo Archives. Haxby-PA-625-G-6a. Uncirculated.

6670 John Lawrence per Lawrence & Co., Washington, Ohio. Ten Cents. January 1, 1863. Unissued Remainder. Choice Uncirculated, punch cancel. Small size format scrip note. Lithographed, without imprint. Printed in all green. Upper right corner, pseudo-Seated Liberty Dime reverse with "TEN CENTS". Eagle and shield. Left end, "10" counter in panel. Haxby-Not listed. Wolka 2751-03. Hatie OH-10. Rarity 6 (6 to 10 known). A choice example and similar to Pennsylvania style notes. One small POC over the signature.

6671 Corporation of the City of New York. February 20, 1790. One Penny. Choice Extremely Fine. Engraved signature, 'D.[aniel] Phoenix, City Treasurer'. Printed on thicker card stock. 67mm by 45mm. Typeset face, within ornamental border, four lines of text in italics, signature lower right. Printed back with denomination 'One Penny' centered between wreaths. Imprint 'Printed by Hugh Gaines, New-York' below. Newman page 301. Harris H15; Rarity 6 (6 to 10 known). An important issue with 367,333 authorized. The majority seen of this issue are printed on this thicker card and are split and abused. Overall rarity by Mr. Harris is aggressive. But, **very few examples exist in this lofty state.** Average grade for the series is Very Good, split. A second example and another superior note. The vertical fold is light and seen from the back. Crisp, bright, and vivid. Wide left margin that sadly shows glue mounting remnants on the corresponding wide back edge.

6672 **Cashier Check for The Lumbermen's Bank at Warren. Twelve and a Half Cents. August 4, 1837. Uncirculated.** Plate B. Fully issued note. Moderate size format scrip note. Local printer, without imprint. Top left and right, Spanish Colonial Real reverses flank city and date spaces. Bank title across center. Shaded end panels with counters in the corner. Haxby-Not listed. Hooper 425-Unlisted denomination. Hatie PA-18. Rarity 4 (51 to 100 known), however, much scarcer in fully issued form. Written No. 25. A choice example of this note. Fully accomplished and with a low serial number.

6673 **Cashier's Check for The Lumbermen's Bank at Warren. Twenty Five Cents. August 4, 1837. Uncirculated.** Plate A. Fully issued note. Moderate size format scrip note. Local printer, without imprint. Top left and right, Capped Bust Quarter Dollar reverses flank city and date spaces. Bank title across center. Shaded end panels with counters in the corner. Haxby-Not listed. Hooper 425-Unlisted denomination. Hatie PA-19. Rarity 4 (51 to 100 known), however, much scarcer in fully issued form. Written No. 42. A second denomination on this three note series. The margins are fairly close.

6674 **Wayne Furnace Store, Wayne County, Tennessee. 1870's. Trio of Store Scrip with Pseudo-Coin Reverse. All Very Fine.** Partially issued notes, one signature at the left. Small to moderate size format scrip notes. Lithographed, in two colors, face and back, without imprint. Each face with dual reverses using Indian Head Cent reverse style wreaths surrounding a counter. Identical green backs on each with title in center: ☆ Ten Cents. Black face. Upper left, "10" pseudo-style reverse ☆ Twenty Five Cents. Red face. Slightly longer format than last. Upper left, single pseudo reverse with "25" ☆ Fifty Cents. Red face. Slightly larger than last. Upper right, pseudo-reverse with "50" in center. *Justice* at left end. All Haxby-Not listed. All garland-Unlisted. All Hatie-Not listed. Likely, all Rarity 7 (1 to 5 known). Likely **the only examples seen and likely from the Sedman Collection** via the Schingoethes. (Total: 3 pieces)

6675 **The Bank of Watertown, Watertown, Wisconsin. Five Dollars. Sept. 1, 1863. Unissued Remainder. Uncirculated.** Imprint of Toppan, Carpenter, Casilear & Co., with "ABC" monogram. Red last "5" protector. Upper left, cattle sellers. Upper right female portrait. WI-825 G8b. A classic remainder and very attractive.

Bold and Colorful Gold Double Eagle Vignettes

6676 **Robertsons and Perkins, Unknown Location. "5 Dollars". 1870's. Advertising Note. Very Fine.** Uniface, banknote size advertising note. Lithographed, without imprint. Multi-color face in black, green protector and gold coins. At the left and right, duo of Liberty Head Double Eagles, one dated 1874, the other a reverse with motto. At the right, a trio with two dated obverses. Each group overlapping Canadian style portrait and flanking Britannia and lion wrapped on ornate "V". Engraved issuer signatures and serial number. Vlack-Unlisted. Rarity 7 (1 to 5 known). We are quite certain that this is Canadian and **is the only example we have seen.** Herb and Martha Schingoethe bought this from a Smythe sale in 2004 at a hefty price. This is the only use of Double Eagles on a note in this collection and is certainly one of the most colorful notes in the collection. There are two splits patched on the back with tape and not seen to the face.

U.S. FEDERAL CURRENCY

6677 **\$1.00. Fr.224. Silver Certificate. 1896. No.28943. Plate C. Very Good to Fine.** Folded into eighths, only two folds are strongly visible from the front. Good color and excellent centering define this note. No rounded corners or pinholes seen. A useful note for a collector who can't afford thousands for the very high grades.

6678 **Pair of Federal Reserve Bank Notes:** ☆ \$1. Fr.717. 1918. No.C47130845A. Plate A. Very Good, perhaps a bit better. The note has been quarter folded and has some dirt on the folds visible on the back ☆ \$1. Fr.730. 1918. No.H5724547A. Plate G. A strong Very Good with nice centering and no major problems to affect its appeal. (Total: 2 pieces)

6679 **\$20. Fr.997A. Federal Reserve Note. 1914. D34094016A. Fine.** A nice original example.

6680 **A pair of 1934 series Silver Certificate Star Notes:** ☆ \$1. Fr.1606 Star Replacement Note. Very Good. A totally wholesome note ☆ \$10. Fr.1701 Star Replacement Note. Fine, perhaps a bit better, with some light dirt stains on the front from normal usage. A scarce note, even in this middle grade. (Total: 2 pieces)

6681 **Pair of 1902 Plain Back Northeastern National Bank Notes:** ☆ Connecticut. First NB of New Haven. Ch.2. \$5. Fr.609. No.79729. Plate E. Very Good. A solid note for the grade with attractive stamped signatures. Centered toward the bottom. A popular "first hundred" charter number. These are highly collected ☆ New Jersey. The First NB of Jersey City. Ch.374. \$5. Fr.598. No.118773. Plate N. Very Good, but foxed at the top near the serial number and near the lower left serial number. Centered into the design at the top left. Two bank stamped numbers on the back. The signatures are still plain and readable. (Total: 2 pieces)

- 6682 **Indiana. The National City Bank of Evansville. Ch.12132. \$5. 1929. Fr.1800. Type 2. No.A018410. Gem Uncirculated-65 PPQ (PCGS).** A nicely centered note with excellent color. A lovely type 2 note from this Midwestern bank that is available, but not always this nice.

- 6683 **\$1. Fr.1911B. Federal Reserve Note. 1981. Obstruction error.** Fine. An obstruction of the design on the front at the lower left obliterates most of Washington's portrait. Due to the feathered edge of the obstruction, we believe that it was printed through one of the die polishing rags. A small rust spot at the top and a partial blue bank stamp on the front. A very rare error.
- 6684 **\$5. Fr.1975J. Federal Reserve Note. 1977A. Multiple Gutter Folds.** Choice About Uncirculated. A prominent fold seen through Lincoln's portrait and a well hidden one between the LL of DOLLARS. A very minor gutter fold through his nose. Excellent paper crispness and color gives this note wonderful eye appeal.
- 6685 **\$20. Fr.2076K. (4). Federal Reserve Note. 1988A. Insufficient inking. Choice Crisp Uncirculated.** Four consecutive notes that have about one-third of the back on the left not completely inked. This happens when the ink fountain fails to fully fill the printing plate. This foursome is well centered and has nice paper crispness. (Total: 4 pieces)
- 6686 **A small group of error notes:** ☆ \$20. Fr.2079F. Federal Reserve Note. 1993. **Faulty Alignment.** Fine with the number 55 in pen written at the left obverse. The second and third printings are shifted downward due to the improper alignment of the front in relation to the back. Part of the bottom note is visible ☆ \$10. Fr.2023B. Federal Reserve Note. 1977. **Offset Printing.** Very Fine. A small offset area, from the back, is seen on the front in the lower left below the serial number ☆ \$1. Fr.1916I. Federal Reserve Note. 1988A Forth Worth. **Gutter Fold.** Fine to Very Fine. A single gutter fold at the right side of Washington's portrait which is moderate in size. (Total: 3 pieces)

A Desirable 1934A \$500 Federal Reserve Note

- 6687 **\$500.00. Fr.2202G. Federal Reserve Note. 1934A. No.G00359228A. Strong Very Fine** with good centering and nice paper crispness and color. A tiny edge tear does not enter into the design, otherwise this note is quite wholesome and very pleasing for the grade.
- 6688 **United States Fractional Currency:** ☆ Fifty Cents. Fr.1312. Straight edge, with monogram. Cut close on the right side with part of the design cut away as well as part of the next note in the sheet visible at the left side. Very Fine-20 ☆ Five Cents. Fr.1238. Green reverse. A couple of toning spots and the upper right corner is missing affecting the margin only. Very Fine-20 ☆ Ten Cents. Fr.1258. Decent centering and color give this note good appeal. MS-63 (RCGS) ☆ Twenty Five Cents. Fr.1309. Short, thick key variety. The paper is toned a bit but this note remains attractive. Extremely Fine-40. (Total: 4 pieces)

The \$1 is cut cancelled and has the company stamp on the back while the \$10 only has a stamped cancellation. The \$1 shows some light staining ☆ Ten Dollar. November 1, 1934. NJ175-10b. Issued for Ventnor City. Red outlined 1932 on front. Cut and stamped cancellation and signed on the back by the taxpayer ☆ One Dollar. November 1, 1934. Series D. NJ Unlisted. Issued for Ventnor City. Red outlined 1933 on front. Cut and stamped cancelled with taxpayers signature on the back. Each note has color pencil counting marks on the front. All Crisp Uncirculated. (Total: 6 pieces)
- 6693 **County of Atlantic. Belleville. One Dollar. No Date. NJ205-1b.** 1932 Tax revenue bond certificate. Without the red 1933 stamped on the front. Red ones in the corners. Issued but not cancelled. Some light foxing and the number 140 in pencil on the front. Fine, perhaps a bit better. Scarce in this form.
- 6694 **Camden. One Dollar. No Date. NJ260-1f.** Security Bank Note Co. A specimen with that word overprinted in red at both the left and right front as well as a non-negotiable stamp in red diagonally across the front. Well centered with good paper quality. **Choice Crisp Uncirculated.**

TERMS OF SALE

These terms of sale are designed to conform to the Amended Rules for Public Auction Sales in New York City by the Department of Consumer Affairs and the Bylaws of the Professional Numismatists Guild, Inc.

1. This public auction sale is conducted pursuant to these Terms of Sale by licensed and bonded auctioneers. Stack's LLC #1302908. Licensed auctioneers: Chris Karstedt, #1008798; Frank Van Valen, #1187683.
2. **Each bidder, by bidding in the sale, agrees that a 15% BUYER'S CHARGE will be added to the "hammer price" or winning bid of each lot as determined by the auctioneer.** This 15% BUYER'S FEE will be added to the invoice of each successful bidder over and above the actual sum bid or offered. The Buyer's Fee applies regardless of a bidder's affiliation with any group or organization, and is imposed on all bidders. No lots will be delivered or shown at the auction. Auction sales are strictly for cash and must be paid for promptly in U.S. funds. COIN GALLERIES reminds you that all bidders personally guarantee prompt payment in full. Checks are permitted with identification acceptable to COIN GALLERIES. On any accounts past due, COIN GALLERIES reserves the right to extend credit and impose periodic charges as stated in these Terms of Sale or on the invoice or statement. Buyer agrees to pay the reasonable attorney fees and costs required to collect on such past due accounts. All lots delivered in New York State are subject to applicable Sales Tax. Buyer agrees to pay any sales tax, use tax, and any other applicable taxes that now, or hereafter, are found to be due by virtue of the sale, and to indemnify and hold COIN GALLERIES harmless for any sales or other taxes due thereunder, including reasonable attorneys fees, costs and any interest or penalties assessed. Buyer shall also pay all shipping and handling charges where applicable.
3. Purchasers claiming exemption from such taxes must submit resale or exemption certificates or other proof of exemption. Out-of-state Purchasers taking delivery in New York must provide an OSR certificate or pay applicable taxes due. All purchasers represent that they are not seeking to acquire goods for personal, family, or household purposes, but are bidding for resale purposes; and those submitting OSR's additionally represent that they are professionals, knowledgeable and fully aware of what they are purchasing, a representation upon which COIN GALLERIES relies in agreeing to sell to Purchaser. Buyers picking up lots may be required to confirm this agreement in a separate writing.
4. COIN GALLERIES is not responsible for your errors in bidding. PLEASE BID ON THE CORRECT LOT.
5. All persons seeking to bid, whether in person, by an agent or employee, or by mail, must have a catalogue and register to bid. By submitting a bid, whether in person, by mail, or through an employee or agent, the bidder acknowledges receipt of the catalogue, and agrees to adhere to these terms of sale. The auctioneer may decline to recognize any bidder who does not have a catalogue and has not registered and been given a paddle number. Any prospective bidder may be required to establish credit references or submit a deposit of 25% of their bids. All new bidders should be prepared to establish credit with the auctioneer prior to registering to bid.
6. By bidding, purchasing or offering to purchase in this sale, even if as an agent, or on behalf of a corporation or for another individual, each bidder personally guarantees prompt payment and agrees to be personally liable for the consequences of bidding; all bidders also personally guarantee prompt payment in full, including without limitation, BUYER'S FEE, taxes, surcharges, postage, handling charges, storage costs and insurance charges.
7. COIN GALLERIES reserves the right to require payment in full before delivering lots to a successful bidder, and reserves the right to require the principals, and directors of any corporate bidder to execute a guarantee of payment (which, in any event they do by having an agent or employee bid in the sale) prior to allowing a bid to be placed or recognized.
8. COIN GALLERIES reserves the right to impose a late charge, based solely upon Purchaser's failure to remit full and timely payment, and which late charge is not related to any necessary storage of the material purchased. Said late charge is calculated at a rate of 1 1/2% per month (18% per annum), based on the purchase price if payment has not been made in accordance with these Terms and Conditions of Sale. Purchases not collected within thirty (30) days of the date of sale may, at the sole option of COIN GALLERIES, be resold for Purchaser's account by COIN GALLERIES, with Purchaser liable for any deficit after COIN GALLERIES receives a commission for the same in accordance with its agreement, and thereafter deducts all expenses associated with the sale, including reasonable attorneys fees.
9. Bids are NOT accepted from minors. By bidding in this sale, the bidder represents and certifies that they are of legal age, are authorized to make the bid that they make, and that the purchase is not a consumer sale or consumer credit transaction.
10. **Title remains with COIN GALLERIES until paid for in full.** Should Purchaser take any action under Title 11 of the U.S. Code, or any state insolvency law, Buyer agrees to promptly return to COIN GALLERIES, any lots not paid for. The Buyer agrees to keep the lots fully insured until paid for. Risk of loss is on the Buyer.
11. The highest bidder as determined in the sole discretion of the auctioneer shall be the Buyer. If the auctioneer determines that a dispute has arisen between two or more bidders, the lot may be immediately put up and sold again. Bidders with whom the dispute previously arose shall be without further recourse for any damages whatsoever.
12. If you bid by mail, **mail your bid sheet early.** Mail bidders agree to and are subject to these terms of sale just as if they were floor bidders.
13. The auctioneer reserves the right to refuse ridiculously low bids, which in the auctioneer's sole discretion, are felt not to have been made in good faith. The auctioneer reserves the right to open the lot at a reasonable price determined solely by the auctioneer. The auctioneer shall also have sole discretion to set initial, and subsequent bidding increments, and to accept, or to decline to accept, challenges to those bidding increments. All bids not in whole dollar amounts may be rounded downward by the auctioneer. The auctioneer may open bidding on any lot by placing a bid on behalf of the Seller, a mail bidder, COIN GALLERIES, or another participant in the sale. The auctioneer may bid further on behalf of the Seller up to the amount of the reserve by placing successive or consecutive bids for a lot, or by placing bids in response to other bidders. The auctioneer may bid for his, or its, own account at any auction and may have access to information concerning the lots, and items contained in them, that are not otherwise available to the public. Estimates given are for the general guidance of the bidder and represent the opinion of the auctioneer as to the fair market value of the numismatic item at the time of cataloguing, based on experience and comparable sale, if applicable. The actual price realized may be higher, or lower than the estimate. If a lot is reserved, the reserve may not exceed the maximum estimated price.
14. Auction sales are not approval sales. In the event of non-payment by the Buyer, COIN GALLERIES reserves any and all rights that it would be entitled to under the Uniform Commercial Code, including Buyer's consent to file a financing statement without need of Buyer's signature, and to offset any sums due on any future consignment or purchase or monies or goods in possession of COIN GALLERIES or its assigns.
15. All bidders are encouraged to carefully examine all lots prior to the sale. No lots will be shown at the sale. COIN GALLERIES assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein. All floor buyers should acquaint themselves with the property sold since COIN GALLERIES will assume that they have done so and requires that the Purchaser represent that they have. Bidders are deemed to have satisfied themselves as to all of the matters set forth in the terms of sale.
16. COIN GALLERIES, as agent, offers a LIMITED WARRANTY that any numismatic item sold is authentic (i.e., not counterfeit, that its date or mintmark has not been altered, and that the coin has not been repaired as those terms are used in the trade). Except as set forth in this limited warranty and as may be required by the arts and cultural affairs law, and any other law or regulation, all other warranties of authenticity of authorship, whether express or implied, are hereby disclaimed.
17. Except as otherwise stated herein, all items offered in this catalogue are GUARANTEED TO BE GENUINE and correctly attributed as defined below.
18. (a) NO LOT may be returned for any reason whatsoever without the prior written consent by COIN GALLERIES, or, in any event, if it has been removed from its original container. **No lots purchased by those who have viewed the lots may be returned,** unless the limited warranty provided in these terms of sale permits it.

- (b) Grading is a subjective description in the opinion of the cataloguer as to the state of preservation, method of strike, and overall appearance of a particular coin or lot. The term “proof” or “specimen” is used to describe a method of manufacture, and is not a grade or condition or an attribution.
- (c) COIN GALLERIES does not represent that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin catalogued will meet the standards, or the grade, of any third party or third party grading service; that a numismatic item has a particular provenance or pedigree; that a numismatic item is struck or not struck, or produced or not produced in a particular manner or style.
- (d) Adjectival descriptions and terminology (which can and does vary among experts and knowledgeable purchasers), when utilized in the catalogue, are strictly the opinion of the cataloguer and shall not be deemed to be part of the description; i.e. it is an opinion only and not a warranty of any kind.
- (e) Grading descriptions in this catalogue are provided strictly for the convenience of those who bid by mail and who are unable to personally view the coins, and represents the cataloguer’s opinion of its state of preservation. Those attending the sale, and those bidders who actually view the lots should draw their own conclusions as to the state of preservation or grade of the numismatic item.
- (f) COIN GALLERIES may utilize numerical or adjectival descriptions, and may include lots that have been graded by others. Opinions offered with respect to numismatic properties offered for sale by COIN GALLERIES are made at the time that the numismatic item is catalogued, and do not refer to any prior or subsequent time.
- (g) Where COIN GALLERIES sells a numismatic item graded and encapsulated by a grading service, Buyer acknowledges and agrees that other grading services, COIN GALLERIES or knowledgeable purchasers might reach a different conclusion as to the state of preservation of a particular item, and that COIN GALLERIES has presented the service’s description of the encapsulated item for accommodation only. Any such information provided by COIN GALLERIES is the opinion of the third party, without recourse against COIN GALLERIES in any way whatsoever.
- (h) **Except as otherwise expressly stated in the Terms of Sale, COIN GALLERIES and its agents and employees make no warranties or guaranties or representations, and expressly disclaim all warranties and guaranties and representations, including, without limitation, a warranty of merchantability, in connection with any numismatic properties sold by COIN GALLERIES.**
- (i) All oral and written statements made by COIN GALLERIES, are statements of opinion only and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of COIN GALLERIES has authority to vary or alter these Terms of Sale. Any alteration shall be effective only if in writing and signed by a member of the firm.
- (j) If not so stated expressly, the grade, artisanship, provenance, or attribution is the firm’s opinion only on which no third party, including the bidder, is entitled to rely.
- (k) COIN GALLERIES assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein.
19. Unless otherwise stated, COIN GALLERIES acts only as agent for a Consignor and makes no independent warranty of title. COIN GALLERIES offers the following LIMITED WARRANTY to Buyers with respect to all numismatic items offered for sale. COIN GALLERIES warrants to all Buyers that the Consignor or the Seller has warranted good title to property offered for sale. Any such warranty is predicated on the Owner or prior owner making the same warranty to COIN GALLERIES, upon which the firm relies. In the event that it is finally determined that the Purchaser has not acquired transferable title, COIN GALLERIES shall reimburse the Purchaser (if full payment has already been made) in accordance with these Terms of Sale, and Buyer agrees that this is full compensation for any loss whatsoever, whether actual or otherwise. Tender of the check by COIN GALLERIES to Buyer at the address specified on the bid sheet or registration form shall end the obligation of COIN GALLERIES to the Buyer, even if the check is not endorsed or cashed. COIN GALLERIES and the Consignor make no representations or warranty that the Purchaser acquires any reproduction rights or copyright in property purchased at the sale.
20. COIN GALLERIES further expressly disclaims all warranties relating to the grade, condition, identification of the periods or date of coining or manufacture or methods of manufacture of property which is inaccurate, or may be proved inaccurate, by means of scientific process or research which is not generally accepted for use until after the sale.
21. COIN GALLERIES reminds the Buyer that the grading or condition of rare coins may have a material effect on the value of the items purchased; that others may differ with the grading opinions or interpretations of COIN GALLERIES; that such difference of opinion (including whether the coin has been cleaned, or is or is not of a particular grade or quality) is not grounds to return an item purchased; and that all sales of items viewed by a Purchaser in advance of a sale, even if the sale is by mail, are final.
22. By purchasing in this sale, Buyer agrees that they shall have no recourse against the Consignor for any reason whatsoever. In the event that a warranty is offered with respect to grade or state of preservation or condition, it shall be a specific warranty, in writing, signed by a member of COIN GALLERIES, and shall specify its terms and conditions and duration. If any numismatic item is damaged in its removal from encapsulation, or during its encapsulation, it is at the sole risk of the Purchaser. Because of the fungibility of numismatic items, any item removed from its holder may not be returned for any reason whatsoever.
23. (a) On any claim made by a bidder, COIN GALLERIES must be advised in writing sent within seven days after receipt of the material, or the date of the sale, whichever is the later; these dates apply whether or not the Buyer has received the material. The disputed property must be returned to COIN GALLERIES in the same condition as sold by COIN GALLERIES, in the same holder.
- (b) These conditions are binding and absolute unless varied in writing by a principal of COIN GALLERIES or if the bylaws, rules or regulations of the Professional Numismatists Guild, Inc., provide for a longer period, or give the Buyer a greater right, in which case such bylaws, rules or regulations shall prevail. Any and all claims of the Buyer made in violation of the Terms of Sale shall be deemed waived, and the Buyer shall be without further recourse.
24. If COIN GALLERIES, in its sole discretion, determines that any numismatic property is substantially and materially different from that represented in the catalogue of sale, or in any written advertisement or material, the sale shall be cancelled and COIN GALLERIES shall refund the purchase price to the Buyer. Unless provided otherwise in these terms or the PNG bylaws, that shall be COIN GALLERIES sole obligation to Buyer.
25. The auctioneer and cataloguer, COIN GALLERIES, reserves the right to include its own material in any auction sale. The auctioneer may have direct or indirect interests in these, and other items (other than its commission), and may collect a minimum price in addition to the selling commission. This paragraph shall be deemed a part of the description of all lots contained in the catalogue. The catalogue shall also be deemed a part of any invoice issued by the auctioneer. The auctioneer may make loans or advances to consignors and/or prospective purchasers. The Consignor may be permitted to bid on his, her or their own articles and to buy them back at the sale. Any Buyer who bids on or purchases their own goods is required to pay for them, in full, as the terms of sale provide for together with the full buyer’s commission, and any other applicable surcharges, postage, handling, insurance fees and taxes, without rebate of any kind whatsoever, unless provided for otherwise by contract with the auctioneer. The auctioneer reserves the right to make accounting adjustments in lieu of payment. Settlement will follow the auction. The prices realized reflect the final price called by the auctioneer and may include a bid of a consignor reacquiring their lot.
26. COIN GALLERIES, the auctioneer, and employees are “insiders” and may have access to confidential information not otherwise available to the public with respect to value, provenance, availability, and other factors. Purchasers should make themselves acquainted with the numismatic items that they are purchasing and avail themselves of the services of outside consultants prior to engaging in any purchase. Bids are so much per LOT. No lots will be broken up unless otherwise stated.
27. No bidder shall have any claim against the auctioneer, or COIN GALLERIES, for improper sequence of offering a lot.
28. On bullion items, bullion-like items, and encapsulated items graded by a grading service, Buyer agrees that there shall be no right of return for any reason whatsoever. Buyer further agrees that due to market volatility, in event of non-payment, COIN GALLERIES shall be entitled to damages that are the greater of selling price or market, together with any supplementary or additional costs.
29. COIN GALLERIES at any time may rescind the sale in the event of non-payment or breach of the warranty of title.

30. The sole remedy that any participant in the auction shall have, whether bidding in person, by mail, or through an employee or agent, for any claim or controversy arising out of the auction shall be a refund of the original purchase price and premium paid, if any. Interest shall be paid by COIN GALLERIES at a rate of no greater than nine per cent (9%) per annum, up to a maximum of six (6) years, unless the rules of the Professional Numismatists Guild, Inc. provide for a higher rate of interest or a longer period of time, in which case such rules shall prevail. A lower rate, or shorter period, may be decided by the arbitrators. Upon payment as determined by the arbitrators, or in full at the maximum rates set forth above, or at an agreed rate, COIN GALLERIES shall be deemed released from any and all claims of the bidder arising out of or in connection with the sale of such property. Purchaser agrees to execute prior to delivery of any refund any documents reasonably requested to effect the intent of this paragraph. By bidding in this sale, all bidders consent to these terms and all other terms of these conditions of sale.
 31. **COIN GALLERIES hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of or in connection with the sale of any property by COIN GALLERIES to Purchaser.** All bidders, even if unsuccessful purchasers, agree to abide by this condition, and all other conditions of sale.
 32. All rights granted to the Purchaser under the within terms of sale are personal to the Purchaser. Purchaser may not assign or transfer any of these rights to any other person or entity, whether by operation of law or otherwise. Any attempt so to assign or transfer any such rights shall be absolutely VOID and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Sale and terms of warranty on any bidder or Purchaser.
 33. "Purchaser" shall mean the original purchaser of the property from COIN GALLERIES and not any subsequent owner or other person who may have or acquire an interest therein. If Purchaser is an agent, the agent must be disclosed at the time of sale, otherwise the benefits of the warranty shall be limited to the agent and not transferable to the undisclosed principal.
 34. Should any third party attempt to utilize any warranties contained herein, they shall first give COIN GALLERIES thirty (30) days written notice by Registered Mail or Certified Mail Return Receipt Requested during which time COIN GALLERIES may, should it choose to contest the third party's claim, ask the Professional Numismatists Guild, Inc., or the American Arbitration Association to appoint a panel of three arbitrators skilled in the field to make such a determination at New York, N.Y. By seeking to use such remedy, the third party unequivocally and without reservation consents to binding arbitration, and its conclusive and binding determination of any alleged damages as a sole remedy. With respect to any other pertinent notice requirements, venue and personal and subject matter jurisdiction, said third party is bound to the provisions pertaining to bidders, buyers and purchasers, as otherwise provided for in these Terms of Sale.
 35. In the event COIN GALLERIES shall, for any reason, be unable to deliver the property sought to be purchased, its liability therefore shall be limited to the rescission of the sale and refund of the purchase price and buyer's premium. **COIN GALLERIES hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of its failure to deliver any property purchased, and all bidders agree to this disclaimer.**
 36. If it is determined that a bailment relationship exists while the material purchased is being held by COIN GALLERIES, for Purchaser, said relationship constitutes a gratuitous bailment only, solely for the benefit of the purchaser/bailor, as defined by the laws of the State of New York.
 37. As a condition of bidding, bidder acknowledges that numismatic auction sales are unique in terms of their tradition and industry practices. Each bidder agrees that **any claim or controversy whatsoever arising out of this sale shall be settled as follows:** if demanded by either buyer, or COIN GALLERIES by binding arbitration at New York, New York, under the rules then obtaining of the Professional Numismatists Guild,
- Inc., or as PNG rules may provide, the American Arbitration Association. In the event that a dispute arises between COIN GALLERIES and a non-member of the PNG, this means that the American Arbitration Association, at New York, N.Y., shall have exclusive jurisdiction over the controversy. In any controversy concerning non-payment, COIN GALLERIES shall have the right to proceed by arbitration or by a proceeding in any court of competent jurisdiction in the City, County, and State of New York, whichever is first commenced by COIN GALLERIES. The arbitrator shall not have the power to alter the terms of condition of sale. Judgment on any award may be entered in any court of competent jurisdiction. The arbitrators, and any court, shall award the prevailing party costs and reasonable attorney fees. By bidding in this sale you agree to be bound by the arbitration provisions of the PNG as described above. Commencement of an arbitral proceeding, or confirmation of an award, as well as any notice requirements connected with such proceeding, and any other required service of process, may be made by COIN GALLERIES upon all bidders by registered or certified mail directed to the address of the bidder or purchaser as listed on the bid sheet or application or form required at the time that a bidder number is issued, or by facsimile transmission with proof of receipt. Bidder agrees that such service shall constitute full in personam jurisdiction. The venue for such proceedings shall be the City of New York, State of New York and each bidder agrees to in personam (personal) jurisdiction of the City of New York, State of New York. In all cases, the maximum liability of COIN GALLERIES for any item sold shall be limited to the official price of record of the item at this sale, without provision for consequential damages, or any other damages of any kind whatsoever, unless the PNG rules provide otherwise.
38. If the Purchaser fails to comply with one or more of these Terms and Conditions of Sale then, in addition to all other remedies which it may have at law or in equity, COIN GALLERIES may, at its sole option, either (a) cancel the sale, retaining as liquidated damages all payments made by the Purchaser, it being recognized that actual damages may be speculative or difficult to compute, or (b) sell some or all of the numismatic property and some or all other property of the Purchaser held by COIN GALLERIES, in a quantity sufficient in the opinion of COIN GALLERIES to satisfy the indebtedness, plus all accrued charges. More than one such sale may take place at the option of COIN GALLERIES. Such sale may take place without notice to Purchaser; if COIN GALLERIES gives notice, it shall be by regular mail to the address utilized on the bid sheet, consignment agreement or other address known to the firm. Such sale will be at COIN GALLERIES standard commission rates at public or private sale, within or without the City of New York, at which time (if the sale be at auction) the defaulting party shall not bid. The proceeds shall be applied first to the satisfaction of any damages occasioned by Purchaser's breach, and then to the payment of any other indebtedness owing to COIN GALLERIES, including without limitation, commissions, handling charges, the expenses of both sales, reasonable legal fees and collection agency fees and any other costs or expenses incurred hereunder. If a lot or numismatic item is not paid for, and is sold by COIN GALLERIES for Purchaser's account, in accordance with the Uniform Commercial Code, COIN GALLERIES shall not be required to account to the Purchaser for any excess proceeds. Purchaser is also liable to COIN GALLERIES if the proceeds of such sale or sales is insufficient in the opinion of COIN GALLERIES to cover the indebtedness. If other property of Purchaser is also sold, any excess of proceeds will be remitted to the Purchaser after first deducting the expenses set forth above. If Purchaser fails to remit sums due to COIN GALLERIES, Purchaser grants to COIN GALLERIES a lien with respect to such sum, with interest to accrue thereon at the judgment rate, until actually paid, which lien shall apply against any property of Purchaser, including any future goods of Purchaser coming into possession of COIN GALLERIES. **Purchaser hereby waives all the requirements of notice, advertisement and disposition of proceeds required by law, including those set forth in New York lien law, article 9, sections 200-204 inclusive, or any successor statute, with respect to any sale.** Purchaser waives a right to redeem.
 39. The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No bidder or prospective bidder or purchaser or prospective purchaser shall have recourse as a result of any postponement. In any event, no person may bid without registering, and ALL REGISTERED BIDDERS including mail bidders and agents by registering or bidding **agree to all of the above Terms and Conditions of Sale.**
 40. By bidding or offering to bid, bidders acknowledge that they have read all of the Terms and Conditions of Sale and warranty contained herein and that they accept these terms and conditions without reservation. COIN GALLERIES reserves the right to vary the Terms and Conditions of Sale by rider or other means communicated to bidders. By purchasing from COIN GALLERIES, whether present in person, or by agent, by written bid, telephone or any other means, the bidder agrees to be bound by these Terms and Conditions of Sale.
 41. **ALL ITEMS ILLUSTRATED ARE OF THE ACTUAL ITEMS BEING SOLD.**
