**A MONUMENTAL YEAR –
A MONUMENTAL AUCTION!**

An Event Auctioneer Partner of the ANA World's Fair of Money®

LEGENDARY COLLECTIONS | LEGENDARY RESULTS | A LEGENDARY AUCTION FIRM

Dear Fellow Collector,

Once again, we are honored to serve as an official event auctioneer partner of the American Numismatic Association World's Fair of Money®. The ANA remains one of the most prestigious organizations dedicated to coin and paper money collecting, and the World's Fair of Money continues to attract the largest attendance of any major numismatic convention in the United States. Leading dealers, advanced collectors, and enthusiasts from around the world will gather to view and participate in our auctions of ancient coins, world coins and paper money, and United States coins, currency, and numismatic Americana.

The numismatic market continues to demonstrate remarkable strength, with worldwide demand expanding across all collecting specialties. As precious metals prices regularly reach record highs, buyers remain highly active in acquiring both numismatic rarities and bullion-related material. In response to this dynamic market environment, we are pleased to announce the opening of a new Stack's Bowers Galleries location in San Francisco, scheduled for summer 2026 and we look forward to sharing additional details in the months ahead.

Stack's Bowers Galleries continues to achieve landmark results that attract attention throughout both the numismatic community and the mainstream press. Among the highlights of the record setting prices realized of over \$325 million in the past year are six individual coins with prices realized exceeding \$1 million, led by the James A. Stack, Sr. specimen of the famed 1804 silver dollar at \$6 million, followed by a Choice Mint State 1794 Flowing Hair silver dollar from the Property of a Texas Gentleman which realized \$4.5 million. (All prices realized include the buyer's premium.)

Beyond the James A. Stack, Sr. Collection and the Property of a Texas Gentleman, we are consistently honored when notable consignors choose our expertise to present their holdings. In no particular order, just in the last year alone we have hosted auction events featuring the collections of Sydney F. Martin, L. E. Bruun, Rick Springfield, Richard Margolis, Robin C. S. Cheung, the Royal Mint and the United States Mint when we sold the final United States "Omega" cents struck for circulation, the coins crossed the block at an astounding \$16 million. (All prices realized include the buyer's premium.) In fact, several of the above mentioned collections were featured in our Summer 2025 Global Showcase Auction, contributing to our spectacular total prices realized of over \$60 million! This auction event sets record prices year after year, and we invite you to be a part of it.

There has never been a better time to take advantage of strong market conditions and realize exceptional results for your collection. Whether you are considering consigning an entire cabinet, select rarities or duplicate material, our experienced team is prepared to assist you throughout the process of including your treasures in one of the most anticipated auction events of the year.

Stack's Bowers Galleries offers unmatched expertise across all numismatic specialties, industry-leading technology and service and a global base of active, proven buyers. We understand that honoring a collector's legacy and presenting a collection with care and respect can be just as important as achieving top realizations—we do both. Our commitment to excellence includes world-class cataloging, extensive worldwide marketing, exceptional photography, and our patented Coins in Motion animations, all designed to maximize visibility and bidder participation for your consignment.

For decades, outstanding client service and record-setting prices realized have defined the Stack's Bowers Galleries tradition. We remain committed to showcasing your holdings to the broadest possible audience and delivering the strongest results in today's marketplace.

In the pages that follow, you will find additional information about the services Stack's Bowers Galleries provides, along with highlights of important collections and significant rarities already consigned to upcoming sales. Contacting one of our consignment specialists is easier than ever as we continue to expand our operations worldwide. From our California Headquarters to New York City to Hong Kong and dozens of locations in between, our expert team members are just a phone call away! We look forward to putting our expertise to work for you.

Sincerely,

Brian Kendrella, President

Stack's Bowers Galleries has earned the trust of advanced collectors because we add value to both rare and obscure with unparalleled research, and offer groups of like items that approach a collection like a collector, not like a liquidator. There is no substitute for that kind of understanding—both for producing a catalog that showcases a collections breadth and depth, and for respecting the material enough to let each object's best characteristics shine through.
